Dear Clerk Of:

Dear Supervisor:

I support restoring Sharp Park, and I hope you will as well. Sharp Park is beset by numerous problems: it loses money, it harms endangered species, and it is threatened by sea level rise and climate change. Everyone recognizes that at some point the golf course will need to go: but some still think it's worth it to throw good money after bad to keep an unsustainable golf course in play for a few more years.

But I know you know better, and that's why I'm asking you to support the new legislation to restore Sharp Park. The legislation gives us the opportunity to partner with Sharp Park's adjacent land owner, the National Park Service, to build a new public park that everyone can enjoy, while allowing San Francisco to redirect it's scarce recreation dollars back home, where the money really belongs. It also increases access to affordable golf by giving Pacifica residents access to San Francisco's other municipal courses at San Francisco resident rates. It's a sensible idea that is better for the environment, better for City coffers, and better for the game of golf. I hope you will support this important legislation.

Sincerely,  
Gail Coswell

San Francisco Board of Supervisors

Dear Supervisors,

As a San Francisco voter and supporter of In Defense of Animals (IDA), I strongly encourage you to support San Francisco Animal Control and Welfare's Humane Pet Acquisition Proposal.

There is an oversupply of adoptable pets in the city, requiring ACC to unnecessarily euthanize many adoptable animals at taxpayers' expense. Meanwhile, "new" pets are bred in often horrible conditions and then sold in this city at pet stores and from small breeders, all for profit. This is grossly inconsistent with how the city of St. Francis of Assisi feels towards animals, yet most San Franciscans aren't aware of this when they decide to purchase a pet.

San Francisco Animal Control and Welfare's proposal focuses on having San Franciscans adopt our pets rather than purchasing them. This will result in:

- More adoptions and less euthanasia
- A decrease in cost for Animal Control and Welfare
- Pet stores as partners in reducing euthanasia
- Healthier pets with fewer behavioral problems

Sec. 48 of the San Francisco Health Code already prohibits the sale of rabbits and certain birds as pets. Other cities like Albuquerque, Austin, Los Angeles, and South Lake Tahoe have already prohibited the sale of dogs and cats. So San Francisco has several precedents that support strong and decisive action for all species.

Please support the San Francisco Humane Pet Acquisition Proposal and make San Francisco a leader in animal welfare.

Sincerely,

Ms. Regina DeFalco Lippert

Show Details

Dear Friends,

I delivered to the Supervisors the letter, below and attached, outlining the Library Commission's reaction to their president being recommended for removal by the Ethics Commission. Their attitude is, if people complain we will just break the law deliberately. "We don't have to show you no stinkin' democracy."

What you have to realize is that the Library Commission has been the most flagrant violator of open government laws in the City for decades.

James Chaffee

---

Member, Board of Supervisors, City Hall  
San Francisco, CA 94102

Re: **Library Commission Flouts Law and Flaunts Incurrigability**  
Ethics Complaint No. 01-100115

Dear Supervisor:

On July 11, 2011, the Ethics Commission considered Complaint No. 01-100115, Sue Cauthen v. Library Commission for denial of the right to make public comment. The minutes of the Ethics Commission show a unanimous vote finding the Library Commission in violation, as follows:

Motion 11-07-11-01 (Ward/Liu): Moved, seconded, and passed (5-0) that the Commission send a letter to the Mayor stating that Jewelle Gomez, Chair of the Library Commission, willfully violated section 67.15 of the Sunshine Ordinance, include a copy of the video, and recommend that the Mayor consider removing Ms. Gomez as his appointee to the Library Commission.

The letter which was transmitted to the Mayor on July 18, over the signature of the Ethics Commission Chair, Benedict Y. Hur, Esq., stated, in pertinent part:

The Ethics Commission also determined that Ms. Gomez's actions fell below the standards appropriate for a public official.

....

The Commission voted to recommend that you consider taking steps to remove Ms. Gomez from her appointed office in light of her actions. We recommend referring to Charter Section 8.102, as well as the Sunshine Ordinance and the Ethics Commission's Enforcement Regulations, in order to reach a decision as to the most appropriate action in this case.

The Library Commission had its next regular meeting on July 21, 2011 and the Library Commission offered no acknowledgment that it had been found in willful violation of the Sunshine Ordinance and that its president had been recommended for removal from office.

Since that time the president of the Library Commission has not offered her resignation and the Mayor has not requested it. Actually, a resignation for the good of the institution as a whole would be the decent and honorable thing to do, so no one anticipates it.

What was the message that the Library Commission chose to send, you might reasonably ask? The Library Commission, finally, posts the audio of its meetings on its website and during a discussion of a new copier contract (under which the public is overcharged to subsidize the administration's use of copiers) at 2:14:35 on the tape, <http://sfpl.org/index.php?pg=2000366001> Commissioner Nguyen stated:

You know, last Monday when we had met, the Commissioners had met, we talked about how the changes to the printing system would potentially, would impact the staff as well. I was just wondering if it would be worth it to speak to the public about how it impacts the staff as well.

It goes almost without saying that there was no notice of a Library Commission meeting on the previous Monday, and no one offered an explanation or qualification that would make this anything other than a blatant confession of an illegal meeting.

Is the Library Commission saying anything other than "we do what we want, and you can take your Sunshine Ordinance and any purported accountability and stick it where the sun don't shine"? Of course not. In fact this statement by itself does not differentiate between taunting the public by having illegal meetings, or taunting the public by alluding to them. We don't know for a fact that an illegal meeting took place, and just taunting the public is not illegal.

Nevertheless, you would think with their history that the Library Commission would make some effort to contradict their critics with claims of respect for democracy and a resolve to do better, rather than brazenly flaunting their incorrigibility. This is why it is so difficult to bring accountability to the San Francisco Public Library. They are so blatantly dishonest that no one ever believes it. In fact, their corruption is incredible in the original sense.

Very truly yours,

James Chaffee

San Francisco, CA 94102

RECEIVED  
BOARD OF SUPERVISORS  
SAN FRANCISCO  
2011 SEP 19 PM 2:47  
SY  
RL

Dear Members of the Board of Supervisors:

According to the Transition Age Youth housing report, approximately 150 San Francisco youth emancipate from foster care every year. However, youth who emancipate from the child welfare system are unlikely to find safe, affordable housing. The John Burton Foundation reports that nearly 40 percent of transitioning youth will be homeless within 18 months of discharge. The outlook for former foster youth is not great when they leave the system; however, the supportive housing that is planned for the Edward II building will directly address the needs of former foster youth and former homeless youth.

The Edward II program for Transitional Age Youth will foster the development of individual life skills, give the youth a stable home, and ultimately prepare these individuals for independent living. This program will prepare foster youth exiting the system and former homeless youth with the skills, resources, connections, permanency, and safety nets to be successful and thrive.

Knowing the great effort it takes to address the causes leading to homelessness, it is critically important to support youth as they become young adults in the community. By providing 24 young adults with affordable housing, as well as educational and vocational resources, the city will be providing the necessary resources for these youth to create successful future for themselves. Without this housing community, San Francisco faces the risk of a vulnerable population spiraling into homelessness and struggle.

The young adults need our help. I urge you to support Community Housing Partnership and Larkin Street Youth Services in their endeavor to provide supportive housing and services to vulnerable youth at the Edward II Hotel. These youth deserve the opportunity to obtain permanent housing, earn a living wage, and maintain their independence and stability. Thank you for your consideration.

Sincerely,

MARK LENO  
3<sup>rd</sup> Senate District

MAYOR'S OFFICE  
11 SEP -7 PM 2:28

Dear Mayor Edwin M. Lee,

Board of Supervisors, City Attorney Denis Herrera, Chief of police Greg Suhr, Fire Chief Joanne White, San Francisco Media affiliates

RECEIVED  
BOARD OF SUPERVISORS  
SAN FRANCISCO  
2011 SEP -7 PM 2:34

My name is Abdalla Megahed, I am very proud to invite Mayor Lee as well as the Board of Supervisors to join us next Wednesday September 14<sup>th</sup>, 2011, to celebrate the 30<sup>th</sup> Anniversary Festival the "Heart of the City" farmers market. As a community activist from the city of San Francisco for the last 28 years I would like to emphasize the great service this program provides the residents of San Francisco by selling fresh fruits and vegetable, etc.

In the mean time I would like to give you a message from the founder of the Market, CHRISTINE ADAMS and the Markets operations manager KATE CREPS. They, in addition the vendors of the Market would greatly enjoy the Mayor and the Board of Supervisors to join in the festivities from 11 am to 4 pm. There will be food and entertainment, attached is a copy of the festival's program which lists a schedule of events.

On behalf of Christine Adams- Founder and Kate Creps of The Heart of the City Farmers Market- (415) 558-9455

Sincerely,

Abdalla Megahed

Superior Court of California, County of San Francisco  
Department 206  
400 McAllister Street  
San Francisco, CA 94102-4514

Dear Judge Feinstein:

On behalf of the Board of Education and the San Francisco Unified School District, I enclose the San Francisco Unified School District's response to the 2010-2011 Civil Grand Jury Report entitled "*Log Cabin Ranch Moving Towards Positive Horizons*" which was released on July 5, 2011. The attached document responds to the findings and recommendations in the civil grand jury report as required by California Penal Code Sections 933 and 933.05.

Sincerely,

Carlos A. Garcia  
Superintendent of Schools

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT RESPONSE TO 2010-  
2011 CIVIL GRAND JURY REPORT  
(LOG CABIN RANCH: MOVING TOWARDS POSITIVE HORIZONS)**

For each Finding of the Civil Grand Jury, the response must either: (1) agree with the finding, or (2) disagree with it, wholly or partially, and explain why. For each Recommendation made by the Civil Grand Jury, the responding party must provide one of the four responses:

Response One: the recommendation has been implemented, with a summary explanation of how it was implemented;

Response Two: the recommendation has not been implemented, but will be implemented in the future, with a time frame for the implementation;

Response Three: the recommendation requires further analysis, with an explanation of the scope of that analysis and a time frame for the officer or agency head to be prepared to discuss it (less than six months from the release of the report); or

Response Four: the recommendation will not be implemented because it is not warranted or reasonable, with an explanation of why that is.

**FINDINGS**

*Finding #7: Current vocational programs offered at the Ranch set up the residents for disappointment because permanent jobs are not available in those areas of training. Additionally, training is not adequate for entry level positions.*

Response: The District disagrees that jobs are not available in the areas of training provided at Log Cabin Ranch. The Conservation Corps provides carpentry, construction, and landscape training to all students and forklift training for students who are 18 and over, and there are jobs available in these areas of training. However, the District agrees that the training provided at Log Cabin Ranch is not adequate for entry level positions in the construction industry. There are transition opportunities for students after they leave Log Cabin through the Conservation Corps to attend job readiness programs at GoodWill Industries and Asian Neighborhood Design.

Last year, there were 12 pupils enrolled at Log Cabin Ranch. Currently, there are 24 students enrolled. Due to the limited enrollment at the site, as well as limited resources overall, Log Cabin Ranch does not possess a vocational program that provides entry-level training. However, the District does provide transition support, through a dedicated employee along with weekly case meetings with Juvenile Probation and SFUSD staff, to students who are leaving Log Cabin to assist them to either return to SFUSD schools, or to participate in other educational or vocational training programs if they graduate from Log Cabin.

Notably, SFUSD comprehensive schools do not currently have any vocational programs that provide training adequate for entry level employment positions. However, this year the District began development of a Career Technical Education (CTE) pathway with the

Public Utilities Commission (PUC), to establish a vocational training program that is intended to provide a pipeline to employment at the PUC. SFUSD students, including those who matriculate from Log Cabin Ranch, will be eligible to participate in this pathway. This is a planning year with the goal being program implementation for the school year 2012-13.

*Finding #9: The basic high school program in its current form offers a limited education curriculum.*

Response: The District disagrees to the extent that this statement suggests that students do not have access to the full range of classes necessary to obtain a high school diploma or GED. The teachers assigned to Log Cabin Ranch provide instruction in the humanities, math, science, and world languages, and are also credentialed to provide special education services. Students also have access to a wide range of University of California A-G approved online courses, including the opportunity to take SF City College courses to earn concurrent high school and college credits. However, the District agrees to the extent that the statement suggests that the education program could be more engaging and could better utilize the unique resources that are available at the Log Cabin site. The addition of a new instructor with a strong project based background is leading to more integration of Community Day projects with the core curriculum as well as utilizing the natural resources at the Ranch.

## RECOMMENDATIONS

*Recommendation # 7: Vocational and apprenticeship programs should be developed in fields such as auto mechanics, metal working and welding, pipe fitting, solar panel installation or other union-affiliated positions.*

Response: Response Four: The District cannot reasonably develop the listed vocational and apprenticeship programs at Log Cabin Ranch due to the limited enrollment numbers at the site, as well as limited resources overall.

As noted above, the enrollment at Log Cabin was 12 students last year and 24 students this year. Due to the low enrollment numbers, staff have worked one-on-one with students to help them transition back to SFUSD or to other vocational or educational programs when they leave Log Cabin. These low enrollment numbers would not support a full time vocational teacher at the site.

However, Log Cabin does provide vocational training through collaboration with other organizations, including the SF Conservation Corps and Urban Sprouts. The City of San Francisco pays Conservation Corps to provide students with carpentry and construction training. Through this collaboration, students have completed projects such as building benches, a woodshed, fences, planters for their garden, raised platforms for their movie theater, paved walkways as well as a BBQ and community area. The SF Conservation Corps training provides more hands-on construction than any other vocational construction program in SFUSD comprehensive schools. Through Urban Sprouts, the

students participate in urban gardening and some of the produce is sold at the farmers market in Laguna Honda and used in organic cooking at the site.

The District is working to integrate SFUSD academic instruction at Log Cabin with the hands-on activities initiated by these organizations. Additionally, the District has hired a dedicated teacher in the CTE office who is developing the first apprenticeship program in SFUSD in collaboration with the Public Utilities Commission, to establish a pipeline to employment at the PUC. SFUSD students, including those who matriculate from Log Cabin Ranch, will be eligible to participate in this pathway.

SFUSD is also in its first year of implementing a College Career Curriculum called Plan Ahead. The Plan Ahead curriculum exposes students to the graduation requirements, the entrance requirements for the University of California system, as well as activities where students research and plan the post secondary options for careers of interest. Teachers at Log Cabin are included in this training and curriculum.

*Recommendation #9: SFUSD should explore additional educational options that would challenge all Log Cabin Residents. These options could include programs such as the "Big Picture" model currently used at San Francisco court-appointed schools or a charter school scenario.*

Response: Response One: The District has implemented this recommendation by assigning a new teacher to Log Cabin Ranch who is fully trained in the Big Picture model. This teacher is charged with integrating relevant aspects of the Big Picture model into the curriculum at Log Cabin Ranch.

The former principal of the Principals Center Collaborative (PCC) was fully trained in the Big Picture model when it was adopted at that school site last year. The former principal transferred to Log Cabin Ranch as a lead teacher starting in August 2011, and will be working to bring some of the project-based elements of the Big Picture model into the existing Missouri model at Log Cabin. This integration includes the development of hands-on projects and curriculum that link academic instruction to the vocational learning that occurs through Urban Sprouts and the Conservation Corps.

RECEIVED  
BOARD OF SUPERVISORS  
SAN FRANCISCO  
2011 JUN 29 PM 12:37

Dear Supervisor Chiu:

The 2010-2011 San Francisco Civil Grand Jury will release its report to the public entitled "Log Cabin Ranch Moving Towards Positive Horizons" on Tuesday, July 5, 2011. Enclosed is an advance copy of this report. Please note that by order of the Presiding Judge of the Superior Court, Hon. Katherine Feinstein, this report is to be kept confidential until the date of release.

California Penal Code section 933.05 requires the responding party or entity identified in the report to respond to the Presiding Judge of the Superior Court, within a specified number of days. You may find the specific day the response is due in the last paragraph of this letter.

For each Finding of the Civil Grand Jury, the response must either:

- (1) agree with the finding; or
- (2) disagree with it, wholly or partially, and explain why.

Further as to each recommendation made by the Civil Grand Jury, the responding party must report either:

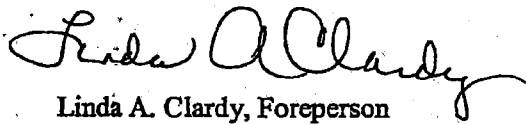

- (1) that the recommendation has been implemented, with a summary explanation of how it was implemented;
- (2) the recommendation has not been implemented, but will be implemented in the future, with a time frame for the implementation;
- (3) the recommendation requires further analysis, with an explanation of the scope of that analysis and a time frame for the officer or agency head to be prepared to discuss it (less than six months from the release of the report); or

(H) 110815  
(R) 110816

(4) that the recommendation will not be implemented because it is not warranted or reasonable, with an explanation of why that is. (California Penal Code sections 933, 933.05)

Please provide your responses to the Findings and Recommendations in this report to the Presiding Judge of the Superior Court, Hon. Katherine Feinstein, not later than Tuesday, September 27, 2011, with an information copy sent to the Grand Jury Office at the above address.

Very truly yours,

Linda A. Clardy, Foreperson

RE: Adopted Budget for FY 2011-12

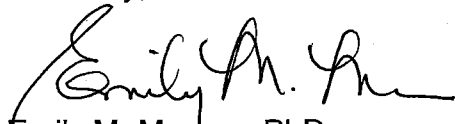

Ladies and Gentlemen:

I hereby certify, in conformance with San Francisco Charter Section 9.115 and San Francisco Administrative Code Section 3.14, that the funding provided in the budget for FY 2011-12 as adopted by the Board of Supervisors is adequate for my department to meet service levels as proposed to the Board.

Notwithstanding, I am obligated to report that, as the only Department that was subject to a 15% staff cut, our Department is forced to set aside important policy work to address domestic and family violence in order to seek additional resources from non-General Fund sources, including foundations and state and federal grants. I am hopeful that our efforts to restore funding will be successful, and that the critical policy work can resume in the next fiscal year.

I anticipate that I shall make no requests for supplemental appropriations barring unforeseen circumstances.

Sincerely,

  
Emily M. Murase, PhD  
Executive Director

**RE: CENTRAL SUBWAY TRAVEL TIMES**

**ATTACHED: SAVEMUNI.COM TRAVEL TIME COMPARISON CHARTS**

There's a common sense way to evaluate the Central Subway.

The Central Subway's reports have used ON-BOARD travel times to justify the project---not the total travel times that a Muni patron experiences from Point A to Point B (walking, escalators, waiting, riding).

**Do your own travel time estimates for the most common routes, such as:**

FROM STOCKTON/ PACIFIC TO POWELL STATION	
SURFACE BUS	CENTRAL SUBWAY
Walk half a block to bus stop. Wait for bus. Board bus. Ride bus to Market/ 4 <sup>th</sup> Street. Walk half block to Muni Metro entrance. Go down 1 story to Powell Station Mezzanine & walk to turnstiles. Go down to Muni Metro platform & walk to train boarding area.	Walk two blocks to Washington Street Station. Go down 6 stories on escalators. Walk to train boarding area. Wait for train. Board train and ride half a mile to Union Square Station. Go up 7 stories on escalators. Walk 1,000 feet on promenade level to turnstiles at Powell Station. Go down to Muni Metro platform & walk to train boarding area.

Now, factor in future surface bus improvements, like all-door-boarding, low floor buses, bigger articulated buses, traffic signal synchronization, better scheduling, better parking/ traffic/ delivery management etc. Small investments in transit-priority streets would revolutionize the entire Northeast Quadrant's transit services---within the next year or two.

As representatives of the citizenry, your duties include objective evaluation of the Central Subway and safeguarding the public treasury.

Also, even if one supports the Central Subway (for whatever reason), we can significantly improve existing surface buses now.

Regards,

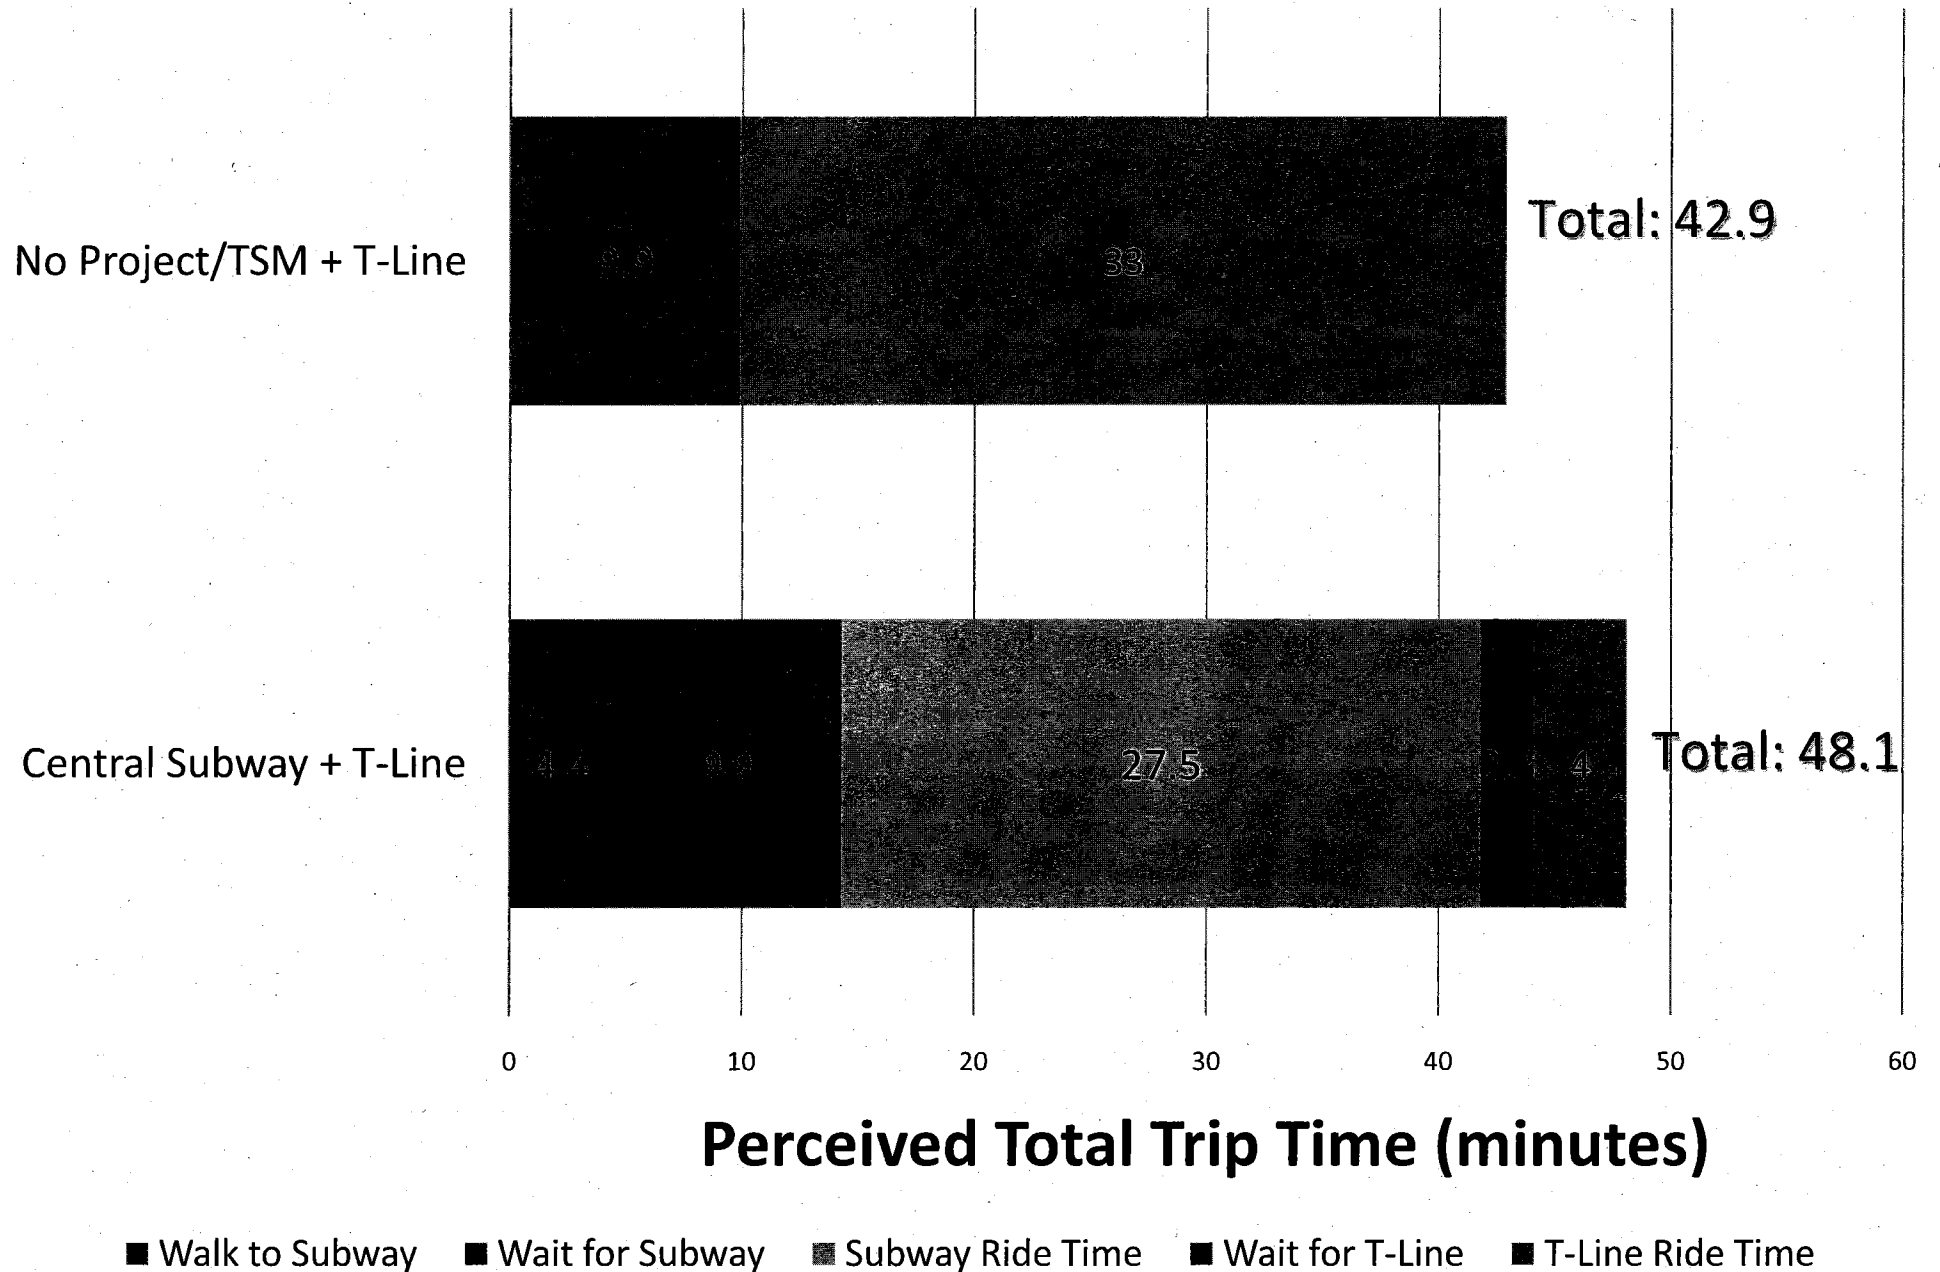

Howard Wong, AIA

Opposition to Appeal.pdf

11

**Opposition to Appeal of Tentative Map for 8 Napier Lane/222-222A Filbert Street**  
File No. 110840

This Board may hear an appeal from a final decision of the Director of Public Works approving a Tentative Map. This appeal, however, does not question a decision made by the Department of Public Works. Rather, this appeal is about the practices of the Department of Building Inspection. Therefore, this Board need not address the substance of appellants' argument.

The City Charter, in Appendix D, created a Department of Building Inspection and a Building Inspection Commission. The Building Inspection Commission consists of seven members, four of whom are appointed by the Mayor, and three of whom are appointed by the President of the Board of Supervisors. The commissioners are a structural engineer, a licensed architect, a residential builder, a representative of a community-based non-profit housing development corporation, a residential tenant, a residential landlord, and a member of the general public. The Director of the Department of Building Inspection must be qualified by either technical training or administrative experience in the enforcement of building and other construction codes. It is these professionals who are charged with interpreting and implementing building codes. It is under the wisdom and direction of these professionals that the Department of Building Inspection issued a Certificate of Final Completion and Occupancy allowing 8 Napier Lane and 222-222A Filbert Street to convert into condominiums.

The appellants, who have been represented by an attorney since at least June, deliberately chose not to appeal the building permit issued to correct the violations contained in the inspection report, and chose not to appeal the issuance of the Certificate of Final Completion and Occupancy. If they had done so, they could have made their policy argument that the Department's practices with respect to condominium conversion inspections were insufficient. The Commission, consisting of the building trade experts mentioned above, then could have reviewed the Department's practices and exercised its authority under Administrative Code Section 77.5(f) to interpret the administrative provisions of the building Codes. With all due respect to the jurisdiction and wisdom of this Board of Supervisors, the issue presented by this appeal is not an issue that you must address. Rather, this is an issue that should have been addressed to the Building Inspection Commission. The time for that appeal has passed, however, and the property owners should not be faced with further delays.

Notwithstanding the above, it is important that this Board know and understand who is involved in this appeal. The owners of the property are outstanding citizens and proud caretakers of their home and the gardens of the Filbert Street steps. They are a taxi driving still working beyond retirement age, and a family with children. This home is their only asset, which they hope will help them with their retirement and their childrens' educations. They are not real estate speculators, and they have done absolutely everything asked of them by the Department of Building Inspection and the Department of Public Works. Indeed, they not only performed all of the corrective work required to obtain their Certificate of Final Completion and Occupancy, they also recorded against their home a Declaration of Restrictions, insuring that they would abate any housing code violations cited against their property prior to the completion of their condominium conversion.

This appeal is about real people who have done everything asked of them by the City. I urge you to deny this appeal.

Very truly yours,

R. Boyd McSparran

Subject: Muni back-door boarding.

---

From: "Michael J. Benardo" <MMikeJBenN@MSN.com>  
To: <Board.of.Supervisors@sfgov.org>  
Date: 09/07/2011 08:07 PM  
Subject: Muni back-door boarding.

---

Please, please, don't allow this. Too many people won't pay when they come in through the back, and, you just told the Examiner that there is already a budget shortfall. This will only make it worse, which, of course, will be blamed on us operators and our union. You need to hire more fare inspectors and put a stop to back-door boarding, and it the people in the Mission don't like it, to bad. They don't vote anyway. As for the huge crowds at the stops, if you restore service to 2004 levels, the crowds will be smaller, as they won't be waiting so long, (people come in a non-stop stream to the stops. The longer it take for a car or bus to come, the more people there will be.) Another thing that is slowing boarding is that stupid Clipper Card. A real Fast Pass is so much quicker, as we only have to see it. That Clipper Card has to be swiped, often over and over and over, etc. That slows boarding.

I wish you people would use Muni to go to work and home at least once a week. NO, NOT AT 10:30 IN THE MORNING FOR A PHOTO OP, BUT TO WORK AND HOME, so you could actually see how things really are. NO, NOT WHAT SOME "EXPERT" WHO NEVER RIDES MUNI BUT THINKS HE KNOWS EVERYTHING SAYS, but what you actually find out for your selves.

PS: Muni was never intended to make money for the city, to fund the PD, to fund the Health Department, or to pay for the PD's overtime.. It was intended to provide a service to the public. If any money is made, it is supposed to go back into the system.

Subject: Flawed Proposal for Oak Street Bike Lane

---

Mr. Reiskin,

Please find the attached letter from the Haight Ashbury Improvement Association, expressing our reservations about removing a lane of traffic for a bike lane. The proposal is premature and deserves to be vetted through a normal process which includes neighborhood input, environmental review, detailed traffic analysis and alternative ideas to deliver the desired goal.

Please feel free to contact me with any questions about HAIA's concerns over this project.

Sincerely,

Ted Loewenberg  
President, HAIA

"It's got to come from the heart, if you want it to work."

BikeLane\_Oak\_Final.pdf

Dear Mr. Reiskin,

The Haight Ashbury Improvement Association (HAIA), a neighborhood group representing residents and merchants of the Upper Haight, has serious concerns regarding the potential loss of a travel lane on Oak street, in order to provide a bike lane between the Panhandle and the "wobble" bike lane. No community outreach has been conducted by the MTA on this project, which could have serious impacts on our neighborhood as well as the west side of San Francisco. According to the limited news coverage on this topic, MTA is relying on the San Francisco Bicycle Coalition for feedback on community acceptance of a proposed bike lane on Oak Street. HAIA believes a more neutral entity should be used by MTA to determine both the need and potential impacts of such a bike lane.

As you are aware, Oak Street is a major west to east transportation corridor that handles a large volume of commuter traffic to both downtown and the 101 and I-80 freeways. HAIA has seen no estimates or surveys of the numbers of bicyclists that are unable to use adjacent streets such as Page, Hayes or Fulton Street to access the "wobble." Nor has any data been presented on the effects on Levels of Service along intersections on Oak Street with such proposed changes. Impacting the commutes of thousands of San Franciscans to make more convenient the rides of an unknown number of bicycle commuters would be premature. A serious, objective analysis is needed.

HAIA is especially concerned that MTA Planner Mr. Sallasberry has been quoted as supporting fast tracking this project. Without any environmental review for the potential bike lane, or outreach to the community, it is wrong fast track such plans. Sallasberry's conclusion that "It sounds like people are open to it," is insufficient justification for launching an experiment that could prove to be a disaster.

HAIA requests that MTA prepare a detailed study of the need, design, impact and estimated use of an Oak Street bike lane. Alternative plans to cross Oak Street to get to the "wobble" also need to be presented and evaluated. HAIA also insists that MTA meet with Haight-Ashbury and Inner Sunset community groups to receive feedback on the proposal. MTA planners should not be simply promoting the wishes of a city group with an agenda, such as the SFBC.

HAIA supports improved transportation options for all San Franciscans, including cyclists. The objective should be to achieve a reasonable balance of ease of use, costs, time efficiency and safety for all. This cannot be accomplished without detailed study and community buy-in. HAIA looks forward to participating in this process to get the best results for all residents of the City.

Sincerely,

Ted Loewenberg  
President, Haight Ashbury Improvement Association

Regarding:  
 Board of Supervisor's meeting September 12, 2011: Land Use Committee agenda item #3. 110785  
 [Planning Code - Zoning - Establishing Standards for Bird-Safe Buildings] - Support

Dear Ms. Calvillo,

On behalf of the US Fish and Wildlife Service Pacific Southwest Region's Migratory Birds Program, I am writing to express our appreciation for what the City has done and continues to do for migratory birds in the region. As you may know, San Francisco was selected this spring as one of the ten new cities throughout the United States to receive funding as part of the U.S. Fish and Wildlife Service's Urban Conservation Treaty for Migratory Birds (Urban Bird Treaty) grant program. The Bird-Safe Buildings project will support a public education effort that will pro-actively increase awareness of the issues of bird safety and buildings for homeowners and businesses alike.

The Urban Bird Treaty program was created in 1999 to help municipal governments conserve birds that reside, nest in or overwinter or migrate through their cities. The treaties are a partnership agreement between a U.S. city and the Fish and Wildlife Service to conserve migratory birds through education, habitat improvement, and bird conservation actions. This project, in collaboration with Golden Gate Audubon, will help to implement the City of San Francisco's "Standards for Bird-Safe Buildings" policy, which we support. Few American cities have taken active measures to protect birds and decrease building collision and San Francisco is positioning itself at the forefront of urban efforts to mitigate the hazards posed to birds in an urban environment.

It has been, and continues to be, a pleasure working with the San Francisco Planning Department staff on this project.

If you have any questions, please contact me. My contact information is included below.

Sincerely,

Ruth Ostroff

Show Details

Dear members of the board of supervisors,

I strongly reject supervisor Avalos's suggestion to shutter Sharp Park golf course. Myself and thousands of golfers consider Sharp Park invaluable because of it's affordability and proximity to the city. You've already made Harding Park too expensive to play on a daily basis as well as the Presidio course. Sharp Park is the only place that provides a reasonable venue for the majority.

Please reject any notions to close Sharp Park Golf Course. It must remain for the ages!

Sincerely,

Robert Otaguro

Attached is a letter expressing my firm OPPOSITION to Supervisor Avalos's unwise proposal to give Sharp Park to the GGNRA -- a move that is designed to destroy a historically significant local resource -- an 80-year old public golf course that is beloved by thousands of local residents of modest means. Please reject this proposal and SAVE SHARP PARK, a treasured asset that is so important to our community.

### **Re: SAVE SHARP PARK GOLF COURSE**

Dear Mayors Lee and Nihart, and San Francisco and San Mateo County Supervisors,

I am a lifelong San Francisco resident and an ardent golfer. I have been playing the City's wonderful golf courses for almost 50 years. I have volunteered for many years as San Francisco's golf historian and I am a co-founder, along with Richard Harris, of the San Francisco Public Golf Alliance. I am writing to urge you to stand up in opposition to Supervisor Avalos's pending legislative proposal to give Sharp Park to the Golden Gate National Recreation Area (GGNRA), a demonstrably unwise proposal that will have the effect of destroying the golf course and forcing the land to revert to its natural state as a desolate salt marsh.

Of all San Francisco's public courses, the one at Sharp Park may well hold the most historical significance. I do not say that to place it above the other fine golf assets owned and operated by the City, but the fact is, Sharp Park is an incredibly beautiful course created by a man known worldwide as one of – if not the single greatest – golf course architect of all time. I speak of Dr. Alister MacKenzie, the man who created the revered course at Cypress Point, and the man who was hand-selected by none other than Bobby Jones to create Augusta National, the home of the Masters. He was hired by John McLaren to turn the sand dunes and a salty marsh area into one of the greatest municipal golf courses ever created. In short, Sharp Park is a treasured work of a master architect. It is the equivalent of the Mona Lisa hanging in the Louvre.

Mayors Ed Lee & Mary Ann Nihart  
Boards of Supervisors of San Francisco & San Mateo  
Re: SAVE SHARP PARK GOLF COURSE  
September 9, 2011  
Page 2

But it is so much more than that, for the course has come to be known for generations as “the poor man’s Pebble Beach.” It has always been an affordable, accessible recreational resource for everyone – and it is revered and beloved by all who have played it. Indeed, Sharp Park has been a hub of life in Pacifica for almost 80 years, much in the tradition of classic Scottish courses that are central to the towns where they exist.

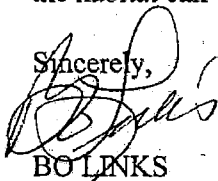

Supervisor Avalos’s pending legislative proposal to give the course away to the GGNRA is not only short-sighted; it is just plain wrong on the facts. To begin with, Sharp Park makes money. Every year, the Recreation and Parks Department reaps between \$250,000 and \$350,000 in “administrative overhead” from the course. There are upwards (and in some years, in excess of) 50,000 rounds per year played at Sharp Park. The course is a place where juniors, seniors, men, women, and an ethnically diverse clientele of golfers come together to enjoy a profoundly uplifting recreational experience, just as they have since 1932 when the course first opened.

Sharp Park is a treasured resource that deserves to be preserved, not destroyed under the banner of so-called “environmentalism.” The science is not on the side of Supervisor Avalos’s proposal, for if the area were allowed to revert to its natural state, the area would become once again a salty marsh – an area that is distinctly inhospitable to the California red-legged frog and the San Francisco Garter Snake, which are both fresh water species. Moreover, there are proposals in the works – as outlined in the City’s recent draft EIR on the Recreation and Park Department’s Natural Resources Management Plan – that will allow the excising use to endure, while at the same time improving the habitat for the frog and the snake. Furthermore, the draft EIR properly concludes that Sharp Park is a key historic resource worthy of preservation.

Every responsible body that has considered these issues has concluded that the golf course should be preserved, and the habitat enhanced – goals that are not at all incompatible. Yet Supervisor Avalos’s proposal radically alters that delicate balance by destroying this historically significant local resource.

I urge you to reject this rash and unwise legislative proposal. We have better things to do. The Natural Resources Management Plan should move forward so Sharp Park can be preserved and the habitat can be enhanced – a “win win” solution, if ever there was one.

Sincerely,

BO LINKS

September 2, 2011

Dear Members of the Board,

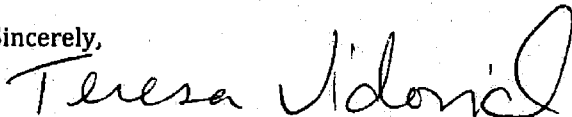

I am writing this letter on behalf of Meier-Vidovich Joint Venture, the Landlord of the building at One Bluxome Street, San Francisco. I personally have been working on this project for about a year and have carefully weighed the pros and cons and have determined that there is a net benefit to the project receiving approval.

I have been in communication with Jason Sanders to find out what his concerns are and to try to find a solution. As the Landlord, it is my intention to appease my tenants as much as I can. Jason expressed to me that the antenna needed to be at least 58' from his roof-top deck for health reasons. I was concerned because as the Landlord I want to make sure that I am in compliance with any laws regarding the safety and health of my tenants and their children. I did my research and I found that the antennas do in fact need to be 58' away from the direction they are pointing, but that they are not pointing directly at Jason's roof-top deck and thus they are acceptable. Regarding the antenna at Proposed Sector C, Bill Hammett of Hammett & Edison Consulting Engineers informed me that, "The maximum reach of the public limit on the roof toward his (Jason Sanders) deck is 13 feet."

I respect Jason's right to appeal; however, I do not agree with the content of his appeal. I am satisfied that the antennas are being placed in a way that is safe for our tenants and home owners.

For all these reasons, I fully support the application for the AT&T facility. AT&T has been flexible with us, working many months to make the project a win-win for everyone. This facility is desperately needed in the neighborhood to create better cell phone reception for AT&T users. For any questions regarding my support of the project, please do not hesitate to contact me at (408) 738-4444.

Sincerely,

Teresa Vidovich  
Landlord of One Bluxome

---

All members of the Board of Supervisors:

As we approach September 22, 2011, which is proclaimed .Oliver W. Sipple Day. in San Francisco, by this board, I would like to let you all know that I appreciate Supervisor David Campos for sponsoring this

posthumous honor with co-sponsor Supervisor Scott Weiner.

I learned of the 1975 event where Oliver Sipple was credited with saving the life of President Gerald R. Ford while doing research only last year. As a long time resident of the city, I had no idea and was pleasantly shocked to discover his heroics.

I then felt strongly, that the wrong done to this man must be corrected. Therefore, I sent my concerns to the full board on December 15 or 17, 2010 and this current board responded appropriately.

Elements of Sipple's tragic story were similar to things I once feared. And after reading of what he endured, I am a lot less ashamed and fearful of my own homosexuality; feeling that I admit span some forty year.

Sipple is now on the short list of my personal heroes. In addition, on the driver's side visor of my truck I wrote: If we never forget our heroes, we will always have someone to look up to.

Thank you.
