SUPERVISOR KAUFMAN
BOARD OF SUPERVISORS

1 By enacting this Section the Board of Supervisors declares its intent to more specifically
2 delineate the long-range planning and budgetary uses of the San Francisco Community
3 Mental Health Services Plan. This Section shall be construed as an expression of the policy of
4 the Board of Supervisors with regard to the Community Mental Health Services Plan, but shall
5 not be construed as an enactment of specific legal provisions. Nothing in this Section shall
6 supplant existing law. Upon passage of this Section, the Department of Public Health and the
7 Health Commission shall take whatever steps are necessary to implement the policies
8 contained in this Section.

9 (b) **Standards.** Prior to the submission to the Board of Supervisors of the City and
10 County budget, the Department of Public Health shall establish a mental health service priority
11 schedule to be included in its San Francisco Community Mental Health Services Plan.

12 The Plan shall intend as a goal, the reduction of reliance on acute hospital care through
13 the development of a comprehensive range of noninstitutional community services which
14 meet the California Mental Health Services Act mandate of provision of services in the least
15 restrictive settings.

16 The County Mental Health Plan shall include:

17 (1) A stratagem for addressing any current overuse of State hospitals, detailing
18 specific steps necessary to assess the capacity of the City to operate within allocated State
19 hospital patient days. This in no way is to preclude the City from arranging for increased State
20 hospital allocations if required.

21 (2) A proposed maximum number of acute inpatient beds, exclusive of those at
22 State hospitals, per 100,000 city population. This proposed use level shall be consistent with
23 accepted state-wide standards for inpatient use, and shall reflect current use levels as well as
24 any factors which uniquely affect inpatient utilization levels for San Francisco mental health
25 clients.

1 (3) A proposed maximum number of skilled nursing care beds per 100,000 City
2 population. The proposed use level shall be consistent with the policy to serve clients, to the
3 maximum extent possible, within the City as well as the policy to serve mental health clients in
4 least restrictive, community settings.

5 (4) A description of the range and type of community programs and services
6 necessary to achieve the goal of reducing reliance on acute hospital services and other
7 institutional levels of care. Emphasis shall be made on the use of mental health services to
8 achieve the highest degree of independent functioning by clients in the community. The
9 description shall reflect a commitment to the development of services, at all levels, which are
10 responsive to the needs of cultural and linguistic minorities including implementation of
11 planning specifically for minority services. The range of service elements shall include, but not
12 be limited to:

13 (A) Emergency services, crisis intervention, screening and evaluation;

14 (B) Levels of residential treatment services including acute alternatives, long-term
15 residential services, transitional residential services, and cooperative housing programs;

16 (C) Day treatment services;

17 (D) Levels of vocational programs including pre-vocational services, transitional
18 employment programs, and job placement;

19 (E) Outpatient services;

20 (F) Case management services which address the requirement for continuity of care
21 and ongoing community support for a broad range of mental health clients;

22 (G) Socialization services;

23 (H) Housing programs, including support for clients who are living independently;

24 (I) Advocacy, including ongoing assurance of clients' rights protection; and

25 (J) Community outreach services, including consultation and education, community

1 organization efforts.

2 (5) For each type of service described, there shall be stated an estimated minimum
3 level of service necessary to achieve the goals of this Section. This may be expressed in
4 terms of beds per 100,000 population or full-time equivalent staff (F.T.E.) per 100,000. In
5 addition, current levels of service in each category shall be compared to projected minimum
6 level goals to establish areas of programmatic need.

7 (6) The development of the full range of required levels of care, including the
8 implementation of maximum bed levels described in (1) and (2) above, should be
9 accomplished by July 1, 1990. This shall include an estimate of the cost of maintaining current
10 levels of necessary services as well as required funding to provide the full range of required
11 services described in the County Plan. This estimate shall include the identification of funding
12 shifts from existing inpatient and skilled nursing categories to achieve the service goals for
13 services described in Subsection (4) above.

14 (7) At all levels of the County Plan, specific attention shall be paid to addressing the
15 current capacity, and the projected need, to assure cultural, ethnic and linguistic relevance
16 and responsiveness of City and County mental health services. Specifically:

17 (i) All existing and new programs shall have bilingual and bicultural staffing in
18 adequate proportions in relationship to their community population and need. At minimum,
19 there shall be parity in terms of staffing on all levels including administrative, clerical and
20 clinical. In addition, all non-minority staff who are involved in the provision of services to
21 minority groups shall be qualified to do so.

22 (ii) All programs shall indicate the cultural relevance of the treatment procedures
23 including the availability of services or programming in culturally relevant languages,
24 sensitivity toward particular elements within the cultures served, in-service training of staffing
25 for administrative, clerical and clinical staff, and minority consultation and supervision. All

1 changes in programming shall address the specific effects of such modifications on minorities
2 both linguistically and culturally.

3 (8) The range and type of services required to meet the special mental health needs
4 of mentally disabled clients with substance abuse problems. Specific attention shall also be
5 paid to the development of services to address the mental health issues related to AIDS and
6 associated problems including mental health clients with AIDS or ARC and mental health
7 clients with AIDS or ARC and substance abuse.

8 (9) Programs serving children and adolescents shall follow the guidelines and
9 principles set forth in this Section and, in addition, shall meet the following criteria unique to
10 this population:

11 (i) The programs shall, to the maximum extent feasible, be designed so as to
12 reduce the disruption and promote the reintegration of the family unit of which the child is a
13 part;

14 (ii) The programs shall have an education focus and shall demonstrate specific
15 linkage with community education resources; and

16 (iii) The programs shall contain a specific followup component.

17 (10) The range and type of services required to meet the special mental health needs
18 of geriatric clients and of children and youth.

19 (11) A plan for addressing, at all levels of service, the mental health needs of
20 individuals in the criminal justice system.

21 (12) A plan for incorporating self-help concepts and significant involvement of
22 consumer participation at all levels of service in the mental health system.

23 (13) A management plan to develop and implement a method of coordination of the
24 entire range of services so that all levels of care are reviewed and monitored to assure
25 continual accountability of all program elements in the effort to achieve system goals. This

1 shall include the coordination of inpatient services at San Francisco General and Laguna
2 Honda Hospitals with the full range of community resources.

3 (((14) In recognition of the need to achieve coordinated patient care, interdepartmental
4 cooperation and efficiency between Community Mental Health Services, Forensic Services,
5 Community Substance Abuse Services, and all other units of the Department of Public Health,
6 Department of Social Services, Adult Probation, Juvenile Probation, Youth Guidance Center,
7 Sheriff, Housing Authority and the San Francisco Unified School District, the Department of
8 Health shall prepare a detailed plan to include:

9 (A) Definition of the service areas wherein mental health personnel will interact with
10 the cooperating departments named above;

11 (B) A description of the services, their goals and objectives to be provided by
12 Community Mental Health Services to each department and their clients;

13 (C) A description of the space and support services to be provided by the
14 cooperating departments.))

15
16 Section 10. Chapter 15 of the San Francisco Administrative Code is hereby amended
17 by repealing Section 15.8.

20 approval of the Department of Mental Hygiene of the State of California has been obtained in

BOARD OF SUPERVISORS

1 ((SEC. 15.11. FORENSIC ADVISORY COUNCIL. (a) **Purpose.** The Division of
2 Forensic Services of the San Francisco Department of Health finds that it is appropriate and

5 citizen participation in the system in an advisory capacity.

6 (b) **Establishment.** The Director of Health shall establish a Forensic Advisory
7 Council. The Advisory Council so established shall be the only recognized advisory body to
8 the Division of Forensic Services of the San Francisco Department of Health. The Director
9 shall issue guidelines to elucidate the tasks and functions of the Advisory Council as are
10 consistent with this ordinance.

11 (c) **Membership.**

12 1. A member shall be a resident of the City and County of San Francisco.

13 2. The Advisory Council shall have not more than 15 members with the number to be

15 which shall establish its own rules of procedure not inconsistent with this ordinance.

16 3. The membership of this Advisory Council shall be broadly representative of the
17 ethnic, racial, age, sexual, occupational and special diversity of the people of San Francisco.

18 4. At the time of appointment, the Director of Health shall divide the Council members

20 members in the first group shall be approximately one year; the first term of the members in
21 the second group shall be approximately two years, and thereafter the terms of all members

13
14 Section 15. Chapter 15 of the San Francisco Administrative Code is hereby amended
15 by repealing Section 15.12.

16 ((**SEC. 15.12. FINDINGS.** Each year the City adopts legislation, supports programs,
17 and appropriates substantial public funds to prevent or cure the adverse effects of many
18 seemingly intractable social problems, including crime, violence, alcoholism, drug abuse, child
19 abuse, teenage pregnancy, chronic welfare dependency, the inability of children to learn, and
20 many other problems.

21 The City is by itself unable, nor is it the sole responsibility of the City, to solve all social
22 problems. An important function of government is to provide information and education that
23 enables its citizens to become self- sufficient.

24 Low self-esteem may well have a wide-ranging, negative influence on individual human
25 conduct, the costs of which both in human and societal terms are manifested in a number of

1 ways, many of which convert into significant expenditure of City funds. If so, these human
2 costs and the costs to the City could be reduced by raising the self-esteem level of the
3 residents of San Francisco.

4 It is necessary from time to time to enlist the vision, expertise, and voluntary
5 commitment of private citizens in order to bring to public awareness the most valuable
6 information on addressing social problems. This is best and most credibly accomplished by a
7 broadly constituted, representative body of lay citizens where the single common denominator
8 is their individual commitment to solving problems and, in this instance, to fostering high self-
9 esteem and discovering the cures of lowered self-esteem.))
