June 24, 2022 COMBINED NOTICE
Notice of Reevaluation of Final Environmental Impact Statement of Potrero Hope SF Master Plan
Notice of Availability of Environmental

Reevaluation Notice of Intent to Request Release of Funds

These notices shall satisfy separate but related procedural requirements for activities to be undertaken by the Mayor's Office of Housing and Community Development
Notice of Reevaluation and Notice of Availability of

Environmental Reevaluation of Final Environmental Impact Statement

Impact Statement
SUMMARY: The Mayor's
Office of Housing and
Community Development
(MOHCD) of the City and
County of San Francisco County of San Francisco has assumed responsibility for environmental review decision-making, and action that would otherwise apply to the United States Department of Housing and Urban Development (HUD) under the National Environmental Policy Act (NEPA), and other further the purposes of NEPA, as specified in 24 CFR Part 58.

The San Francisco Planning Department and MOHCD prepared an Environmental Impact Statement (EIS)

pursuant to the National Environmental Act (NEPA) and the U.S. Department of Housing and Urban Development (HUD) Implementing Regulations for Responsible Entities (24 Code of Federal Regulations [CFR] Part 58) for the Potrero HOPE SF Master Plan in 2015 NEPA clearance was completed in January 2016, and the Board of Supervisors approved a or supervisors approved a Development Agreement with non-profit housing developer Bridge Housing in 2017. To date, Bridge has completed construction of the project's Phase I on Block X (1101 Connecticut Street, 72-unit, four, and five-story affordable connecticut Street, 72-unit, four- and five-story affordable housing building) and has completed demolition of existing buildings and begun new construction of Phase II, on the parcel west of Connecticut Street and south of 25th Street Because a portion of the project's funding will come from HUD's Rental Assistance Demonstration

Assistance Demonstration (RAD) program, re-evaluation of the project's potential effects under NEPA is required. MOHCD has conducted and made available an Environmental Reevaluation of the EIS, updating certain relevant, escripns of the relevant sections relevant sections of the environmental analysis and incorporating environmental standards articulated in 24 CFR Part 58, Environmental Review Procedures for Entities Assuming HUD Environmental Responsibilities.

Hesponsibilities. HUD's Regulations at 24 CFR §58.47 require a re-evaluation of environmental findings to determine if the original findings are still valid when: (1) The recipient proposes substantial changes in the

nature, magnitude or extent of the project, including adding new activities not anticipated in the original scope of the project;
(2) There are circumstances

environmental conditions environmental conditions which may affect the project or have a bearing on its impact, such as concealed or unexpected conditions discovered during the implementation of the project or activity which is proposed to be continued; or

(3) The recipient proposes the selection of an alternative not selection of an anemain the original finding.

If the original findings are still valid then the re-evaluation can be added to the Environmental Review Record. If the re-evaluation indicates potentially significant impacts, then the responsible entity must prepare an Environmental Assessment

In this instance there are neither substantial changes in nature, magnitude or extent of the project, nor has a new alternative been selected Accordingly, the original EIS findings were reviewed and assessed for their applicability in light of the passage of time since the completion of the Final EIS, to determine, for example whether changes in laws or regulations or changed conditions would result in new significant impact. Attachment A summarizes this review and includes the original EIS findings as well as an additional column which summarizes whether the proposed project would result in new, potentially significant impacts. The conclusion of this review is that the proposed project would not result in new,

potentially significant impacts. Therefore, the original EIS

findings are still valid.

Environmental Reevaluation is available on the MOHCD Web site (http:// sfmohcd.org/environmental reviews), and at MOHCD offices at One South Van Ness Avenue, 5th Floor, San Francisco, CA
