The project site currently contains a 19,739-square-foot, two-story over basement parking garage constructed in 1920, containing 58 off-street parking spaces providing both long-term and short term parking. Requests Granted

From: Supervisor Avalos

To: City Attorney

Requesting/Inquiring: Requesting City Attorney to draft legislation expanding the City's current requirements for bike parking/access in commercial buildings to existing commercial buildings.

Bicycle Access to Office Buildings Ordinance-

Requiring existing commercial buildings to either provide bike parking or allow cyclists to bring bikes into the buildings.

Background:

- *Concern about bike theft is one of the major factors that discourages people from biking in the City*
- *Planning Code currently requires new and majorly-renovated commercial buildings to provide secured bike parking.*
- *However, pre-existing commercial buildings are exempted from this requirement.*

Proposal:

Beginning January 1st, owners of commercial buildings that are not covered by section 155.4 would be required to do one of the following:

- *Use NYC's successful "Bicycle Access to Office Buildings Law" (implemented in 2009) as a model*
- *Provide secure bike parking in their buildings, or*
- *Allow their tenants to bring their bikes into the building*
