Petitions and Communications received from June 30, 2009, through July 6, 2009, for reference by the President to Committee considering related matters or to be ordered filed by the Clerk on July 14, 2009.

From concerned citizen, submitting opposition to closing any fire stations in San Francisco. (1)

From concerned citizens, submitting support to restore funding to the Public Defender's Office. 5 postcards (2)

From Office of the Clerk of the Board, submitting list of sole source contracts received from various city departments entered into during fiscal year 2008-2009. (3)
Airport Commission
Board of Supervisors/Clerk of the Board's Office
Employees' Retirement System
Department on the Status of Women

From Office of the Mayor, submitting notice that Mayor Newsom will be out of state from July 3, 2009 until July 6, 2009. Supervisor Elsbernd will serve as Acting Mayor. Copy: Each Supervisor (4)

From Planning Department, submitting notice of preparation of an Environmental Impact Report for the Glen Park Community Plan. (5)

From Office of the Sheriff, submitting request for waiver of Administrative Code Chapter 12B for Rapid Notify, Inc. (6)

From concerned citizens, submitting opposition to removing bus stops in the Tenderloin area of San Francisco. Copy: Each Supervisor, 2 letters (7)

From Office of the Public Defender, submitting request for waiver of Administrative Code Chapter 12B for Chevron USA, Inc. (8)

From Office of the Clerk of the Board, regarding the Diversity Tracking System. (9)

From Office of the Clerk of the Board, submitting report showing that the Clerk of the Board of Supervisors' Office did not receive any gifts in FY 2008-2009. (10)

From Department of Public Health, submitting status report on the San Francisco Health Care Security Ordinance. (11)

From Office of the Controller, submitting report concerning the concession audit of the Airport Management Services, LLC. (12)

From SF County Civil Grand Jury, submitting report entitled "Being Propositioned by the SF Unified School District." Copy: Each Supervisor (13)

From Department of the Environment, submitting annual attendance reports for the Urban Forestry Council, Urban Forestry Council Planning and Funding Committee, Urban Forestry Council Landmark Tree Committee, Biodiesel Access Task Force and the Biodiesel Access Task Force Marine Committee. Copy: Each Supervisor (14)

From Department of the Environment, submitting the annual report for the Resource Conservation Ordinance. Copy: Each Supervisor (15)

From concerned citizens, submitting support for restoring Sharp Park to a natural area. Copy: Each Supervisor, 9 letters (16)

From concerned citizens, submitting support for preserving the historic 18-hole Sharp Park Golf Course. Copy: Each Supervisor, 7 letters (17)

From Bay Area Air Quality Management District, submitting public notice of the proposed new or modified source of air pollution at the Phillip Burton Federal Building at 450 Golden Gate Avenue. (18)

From Department of Public Works, regarding status of removing graffiti from utility poles at various locations in District 5. (Reference No. 20090512-009) (19)

From Department of Public Works, regarding status of removing graffiti from public property at various locations in District 5. (Reference No. 20090428-007) (20)

From Department of Public Works, regarding status of removing graffiti from various locations in District 5. (Reference No. 20090609-011) (21)

From Department of Public Works, regarding status of removing graffiti from utility poles at various locations in District 5. (Reference No. 2009028-006) (22)

From Marilyn Amini, requesting the Board of Supervisors reconsider legislation that was finally passed on June 16, 2009 regarding Amended Certificates of Final Completion and Occupancy of existing buildings. File No. 090026 (23)

From Art Ritchie, submitting copy of letter sent to the Rent Board regarding rent control laws in San Francisco. (24)

From Judith Robinson, submitting opposition to the so-called tenants' rights bill passed out of the Board of Supervisors, sponsored by Supervisor Chris Daly. Copy: Each Supervisor (25)

From Francisco Da Costa, submitting letter entitled "Holocaust in the Bayview Hunters Point" dated July 5, 2009. (26)

From Francisco Da Costa, regarding the Bay Area Air Quality Management District and the Bayview Hunters Point community. (27)

From Karen Lipney, submitting support for proposed ordinance that extends the "Scene in San Francisco" Rebate Program. File No. 090627 (28)

From David, regarding the housing and homeless problems in San Francisco. Copy: Each Supervisor (29)

From Kim Rohrbach, regarding budget cuts to San Francisco's health and human services budget. File No. 090779 (30)

From Office of the City Administrator, regarding revenue generated by the Office of Labor Standards and staffing changes in the past year. (31)

From State Fish and Commission, submitting notice of proposed emergency regulatory action relating to Pacific herring open ocean commercial fishing regulations. (32)

From Vallangca-Walsh, regarding the hardship the passage of the "mandatory recycling and composting ordinance" has on her as an 87 year old woman. File No. 081404 (33)

From T-Mobile, submitting notification letter regarding intent to construct a cellular facility at 1453 Mission Street. (34)

From Verizon Wireless, submitting notification letter regarding intent to construct a cellular facility at 45 West Portal Avenue. (35)

From Emil Lawrence, regarding city employees and union contracts. Copy: Each Supervisor (36)

From concerned citizens, submitting various comments regarding the proposed budget for San Francisco. File No. 090779 Copy: Each Supervisor, 6 letters (37)

From Coalition on Homelessness, submitting opposition to any homeless programs cuts. Copy: Each Supervisor (38)

From James Corrigan, submitting letter entitled "Chief Hayes-White threatens to brown-out a busy Chinatown Engine Company." Copy: Each Supervisor, File No. 090779 (39)

From Patrick Monette-Shaw, submitting letter entitled: "Restore Mayor Newsom's raid of $1 million from the Community Living Fund." Copy: Each Supervisor (40)

From Patrick Monette-Shaw, submitting letter entitled: "Laguna Honda Hospital's public relations campaign usurps direct patient care." File No. 090779, Copy: Each Supervisor, 2 letters (41)

From Matthew Shelton, submitting request for a Type 42 on-sale beer and wine liquor license for Shelton Theater Limited Liability Company at 533 Sutter Street. Copy: City Operations and Neighborhood Services Committee, File No. 090851 (42)

From Budget Analyst, submitting the Budget Analyst Activity Status Report for the quarter ending June 30, 2009. (43)

From State Board of Equalization, submitting their annual report for FY 2007-2008. (44)

Supervisors,

I just learned of your intention to move $80 million dollars from the public safety budget into other services. While I know that difficult budget decisions need to be made in these hard economic times, I am urging you not to compromise public safety services. Please do not compromise our safety in a city with increased fire danger from wood frame buildings and earthquakes.

The fire department is only 3% of the proposed budget The fire department does not take away from health/human services; it provides these services with medical response and transport.

I do not support closure of fire stations or decreasing police protection. It is irresponsible.

Dear Supervisor _____,
As a voter and taxpayer who is concerned about justice and public safety in San Francisco, I ask that you:

• Restore funding to the Public Defender's Office so that the office can adequately represent its clients;

• Maintain programs that save taxpayer dollars and help people remain arrest-free, such as the Public Defender's Office expungement and prisoner reentry programs.

Public defenders provide lifesaving assistance to San Francisco's poorest and most vulnerable communities. Even in these difficult economic times, San Francisco cannot afford to place equal access to justice on the financial chopping block. Please show your commitment to ensuring justice for all San Franciscans by restoring positions to the Public Defender's Office.

Thank you for your attention to this important matter.

San Francisco, CA 94102-4689

Dear Ms. Calvillo:

Pursuant to San Francisco Administrative Code Section 67.24(e), attached is the Airport's annual report on sole source contracts for Fiscal Year 2008-2009. This list is composed of contracts and agreements that needed sole source waivers from the City's Human Rights Commission (HRC) and/or the Office of Contracts Administration (OCA). The list includes expenditures for Fiscal Year 2008-2009, as of June 19, 2009.

If you have any questions, please contact Cynthia Avakian of the Airport's Contracts Administration Unit at (650) 821-2014.

Very truly yours,

John L. Martin
Airport Director

MEMORANDUM

Date: July 1, 2009

To: Board of Supervisors

From: Angela Calvillo, Clerk of the Board

Subject: Sole Source Contracts for Fiscal Year 2008-2009

Pursuant to Administrative Code Section 67.24(e)(3)(iii) [Sunshine Ordinance] City departments are required to provide the Board of Supervisors with a list of all sole source contracts entered into during the past fiscal year.

The Board of Supervisors/Clerk of the Board's Office did not enter into any sole source contract during Fiscal Year 2008-09.

C: N. Kelly, Office of Contract Administration

Clerk

RE: NOTICE OF PREPARATION OF ENVIRONMENTAL IMPACT REPORT AND NOTICE OF PUBLIC SCOPING MEETING FOR GLEN PARK COMMUNITY PLAN

To: Responsible Agencies, Trustee Agencies, and Interested Parties

This Notice of Preparation (NOP) of an Environmental Impact Report (EIR) and Notice of Public Scoping Meeting for the above-referenced project, described below, has been issued by the San Francisco Planning Department (Planning Department). The NOP/Notice of Public Scoping Meeting is either attached or is available at the Planning Information Counter at 1660 Mission Street, 1st Floor, or on-line at www.sfplanning.org/mea.

Project Description. The *Draft Glen Park Community Plan* (*Community Plan*) describes proposed transportation improvements and zoning amendments that emerged from a community planning process led by the San Francisco Planning Department in 2003 in the Glen Park neighborhood. The plan area is bounded generally by Chenery Street to the north; Roanoke Street to the east; San Jose Avenue, Calvert Drive, and Bosworth Street to the south; and Elk Street to the west. Existing development in this area is a mix of small-scale commercial/retail and residential uses (predominantly single family residences). The plan area also includes the Glen Park BART Station.

The *Community Plan* would be adopted as an area plan under the *San Francisco General Plan*. In addition, implementation of the *Community Plan* would involve modification of zoning districts and height and bulk controls in the *San Francisco Planning Code* (*Planning Code*). A new Glen Park Neighborhood Commercial Transit District (NCT) would be created and applied in the plan area to reflect the area's proximity to abundant transit service. This district would incorporate parcels currently zoned as Neighborhood Commercial (small-scale NC-2), as well as the BART parking lot (currently zoned as Public [P]), and a lot on Kern Avenue (currently zoned for Residential - One Family [RH-1]).

Transportation improvements identified during the planning process are currently being analyzed for technical feasibility. Such improvements could include any or all of the following:

- Roundabouts at key intersections along Bosworth Street east of Diamond Street;
- Improved access between Glen Park BART Station and J-Church Muni stop;
- Improved Muni access to the Glen Park BART Station via a bus loop and new concourse entry on the south side of the station;
- Better access to the Glen Park BART Plaza near Bosworth Street and Diamond Street;
- Improved pedestrian linkages to infill development (at the Glen Park BART Station parking lot); and
- Other traffic calming, streetscape, and pedestrian improvements throughout the plan area.

The transportation improvements are currently being reviewed through a series of feasibility studies to determine their viability and conceptual performance from an engineering perspective. Some of these improvements may not be practically possible, due to spatial or other considerations. The feasibility study will identify which of the proposed improvements are feasible, thereby narrowing this list. Only improvements that are determined to be feasible will be studied in the EIR and other transportation improvements may be proposed in lieu of those that are found to be infeasible. In addition, other proposed infrastructure improvements are identified in the *Community Plan*, including daylighting portions of Islais Creek.

For the purposes of the EIR, the proposed project consists of the *Community Plan* and the feasible transportation improvements, as well as potential infill development at two sites: 1) the Glen Park BART Station parking lot on the north side of Bosworth and Arlington Streets, east of Diamond Street and extending northward to Wilder Street; and 2) five parcels on the northwest corner of Diamond Street and Bosworth Street, bounded by Brompton Avenue. Infill development at these sites would consist of mixed-use development, including residential and commercial uses. New housing at these two sites would be up to 120 units, about half of the total residential development that could occur with implementation of the *Community Plan*. Recommendations in the *Community Plan* would require amendments to *Planning Code* zoning and height regulations at the two infill sites. Proposed development of the infill sites will be analyzed at the project level in the EIR.

The City has determined that an EIR must be prepared for the proposed project prior to any final decision regarding whether to approve the proposed project. The purpose of the EIR is to provide information about potential significant physical environmental effects of the proposed project, to identify possible ways to minimize the significant effects, and to describe and analyze possible alternatives to the proposed project. Preparation of an NOP or EIR does not indicate a decision by the City to approve or to disapprove the proposed project. Prior to making any such decision, the decision makers must review and consider the information contained in the EIR.

The Planning Department will hold one (1) **PUBLIC SCOPING MEETING**, in the Glen Park Recreation Center at 70 Elk Street at 6:30 p.m. on July 16, 2009. The purpose of this meeting is to receive oral comments to assist the Planning Department in reviewing the scope and content of the environmental impact analysis and information to be contained in the EIR for the project. Written comments will also be accepted at this meeting and until 5 p.m. on **July 31, 2009.** Written comments should be sent to Bill Wycko, Environmental Review Officer, San Francisco Planning Department, Major Environmental Analysis, 1650 Mission Street, Suite 400, San Francisco, CA 94103. The Planning Department maintains a list of persons who have expressed an interest in the proposed project. In an effort to reduce paperwork, future mailings will be conducted via email to those persons for whom an email address has been provided.

If you work for an agency that is a Responsible or a Trustee Agency, we need to know the views of your agency as to the scope and content of the environmental information that is relevant to your agency's statutory responsibilities in connection with the proposed project. Your agency may need to use the EIR when considering a permit or other approval for this project. We will also need the name of the contact person for your agency.

If you have questions concerning attached materials and the environmental review process, please contact **Lisa Gibson** of the Planning Department at **(415) 575-9032.** Documents relating to the proposed project can be viewed at 1650 Mission Street, Suite 400, San Francisco, CA 94103, by appointment.

PROJECT DESCRIPTION

Project Context

The Glen Park neighborhood, located in the southern portion of San Francisco, was the subject of a community planning process that focused on the City's transit-served neighborhoods. A primary purpose of this effort was to develop a plan for the neighborhood's "downtown," which includes Glen Park's commercial district, the Glen Park BART Station, and nearby streets and public open spaces. After a series of public workshops, the *Draft Glen Park Community Plan Summary*[1] (*Community Plan*) was published in 2003 by the Planning Department. The plan area is bounded generally by Chenery Street to the north; Roanoke Street to the east; San Jose Avenue, Calvert Drive, and Bosworth Street to the south; and Elk Street to the west (see Figure 1, p. 3).

The commercial center of the Glen Park neighborhood is on Diamond Street, near the intersection of Diamond Street and Chenery Street. This area is in close proximity to the Glen Park BART Station, located at the intersection of Bosworth Street and Diamond Street. The downtown Glen Park area is also proximate to I-280 on-ramps, San Jose Avenue, and the Muni J-Church stop on San Jose Avenue. Glen Canyon Park, which contains a section of Islais Creek, is located approximately 0.3 miles west of

[1] City and County of San Francisco, Planning Department, *Draft Glen Park Community Plan*, prepared November 2003. Accessed at: http://www.sfgov.org/site/uploadedfiles/planning/citywide/pdf/gpdplowres.pdf.

downtown Glen Park. Islais Creek enters an underground culvert upon leaving the park, and runs parallel to Bosworth Street.

The *Community Plan* is a policy document that presents an overall concept for enhancing the existing neighborhood, as well as encouraging infill development at the BART parking lot north of the BART station and at the northwest intersection of Diamond Street and Bosworth Street. The *Community Plan* proposes general design features and policies to guide future infrastructure improvements and update zoning, design guidelines, and other city policies for future development. However, the details of the *Community Plan* are still in the process of being developed as part of the community planning process, and are subject to approval by the City Planning Commission and Board of Supervisors.

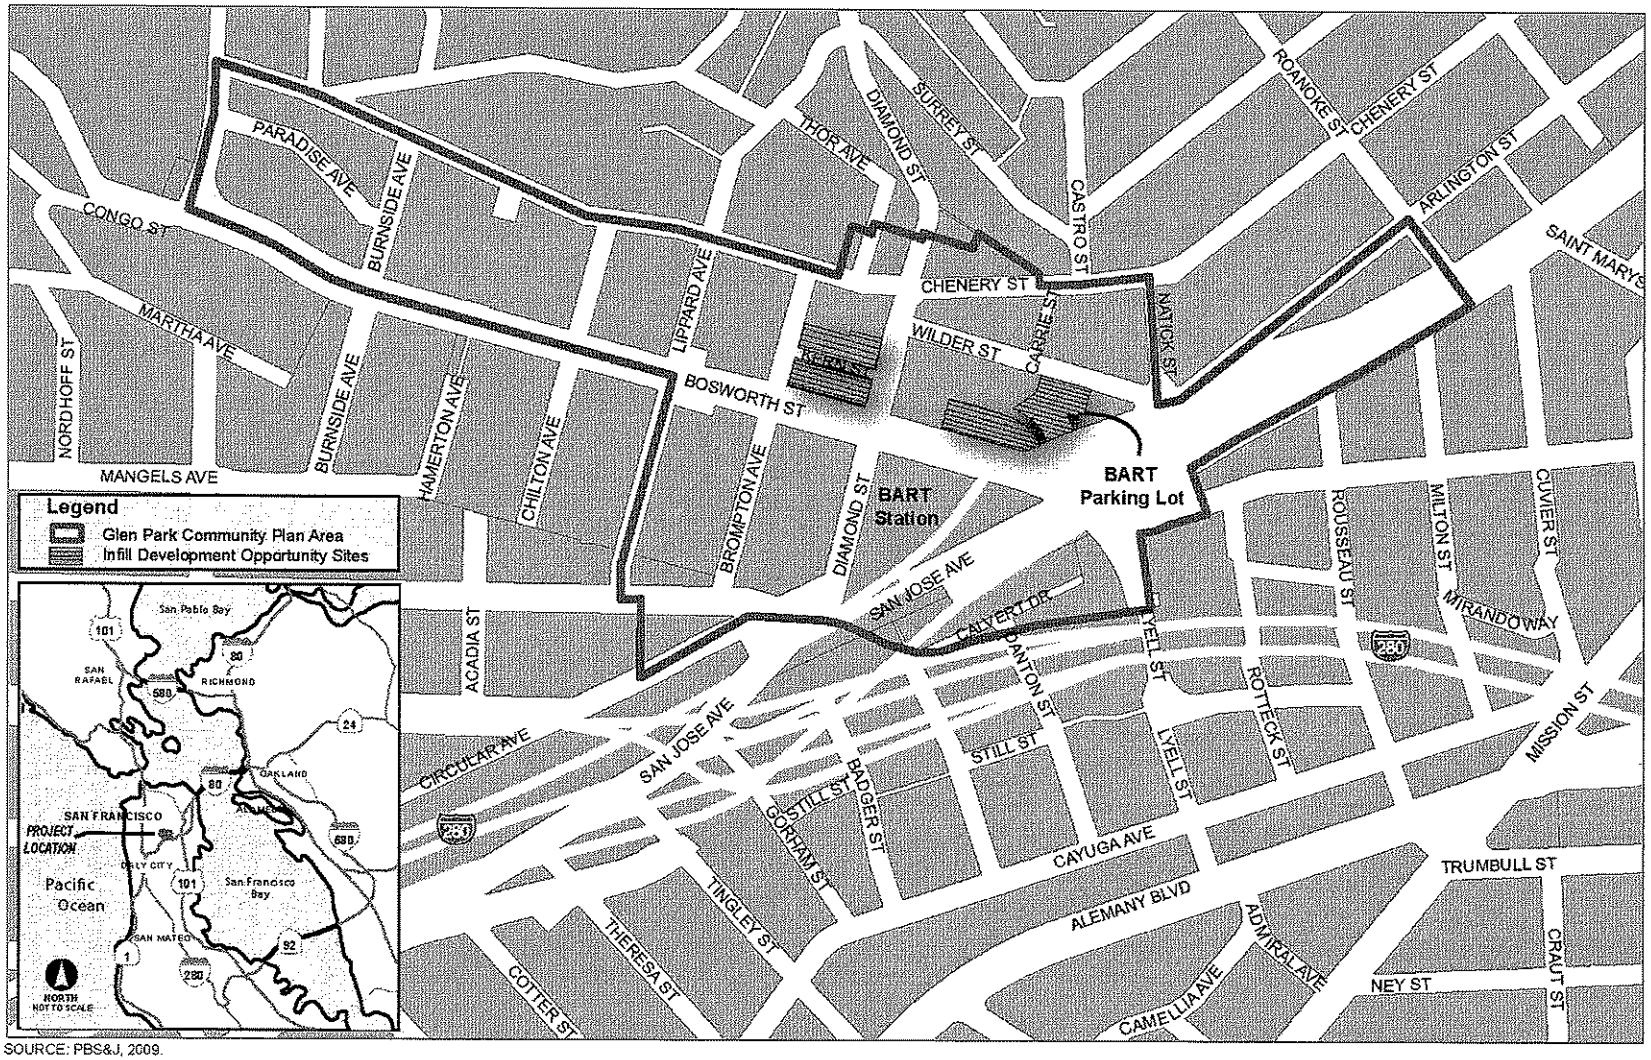
Design features and policies provided in the *Community Plan* address pedestrian safety, traffic flow, access to transit, parking and other transportation improvements described in further detail below. The *Community Plan* also includes improvements to public spaces, such as improvements to the design and character of streets, redesign of the BART station plaza, and connecting public open spaces throughout the plan area.

For the purposes of environmental review, the proposed project consists of recommendations for transportation/infrastructure and public space improvements proposed in the *Community Plan,* and the infill development that would be accommodated by the *Community Plan,* that would be expected to occur within the roughly 20-year time-frame of the environmental analysis (by 2030). Improvements expected to be completed beyond 2030 (e.g., converting San Jose Avenue from a "freeway" to a City street) are considered speculative in nature and are not included as part of the proposed project. These speculative projects would be subject to environmental review when specific plans for these proposals are developed.

Physical Improvements

Transportation and Infrastructure Improvements. The *Community Plan* contains policies that propose transportation and infrastructure improvements, including:

- Roundabouts at key intersections along Bosworth Street east of Diamond Street;
- Improved access between Glen Park BART Station and J-Church Muni stop;
- Improved Muni access to the Glen Park BART Station via a bus loop and new concourse entry on the south side of the station;
- Better access to the Glen Park BART Plaza near Bosworth Street and Diamond Street;
- Improved pedestrian linkages to infill development (at the Glen Park BART Station parking lot); and
- Other traffic calming, streetscape, and pedestrian improvements throughout the plan area.



SOURCE: PBS&J, 2009.

GLEN PARK COMMUNITY PLAN

FIGURE 1: PROJECT LOCATION MAP

The transportation improvements are currently being reviewed through a series of feasibility studies to determine their viability and conceptual performance from an engineering perspective. Some of these improvements may not be practically possible, due to spatial or other considerations. The feasibility study will identify which of the proposed improvements are feasible, thereby narrowing this list. Only improvements that are determined to be feasible will be studied in the EIR and other transportation improvements may be proposed in lieu of those that are found to be infeasible. In addition, other proposed infrastructure improvements are identified in the *Community Plan,* including daylighting portions of Islais Creek.

Infill Development Opportunities. The *Community Plan* identifies infill development opportunities at two sites: the existing Glen Park BART Station parking lot and the parcels at the northwest corner of Diamond Street and Bosworth Street.

- **Glen Park BART Station Parking Lot.**[2] The proposed project includes the redevelopment of the Glen Park BART Station parking lot (Assessor's Block 6745; Lots 042, 048, 053, 057, 066, 067, 068, and 069), located on the north side of Bosworth Street and Arlington Street, south of Wilder Street, east of Diamond Street, and west of Natick Street. This site would be developed into a mix of uses that would include ground-floor commercial uses along the Bosworth Street frontage and between 40 and 65 residential units. New zoning would allow three-story structures along Bosworth Street and Arlington Street. Parking would range from 0 to 65 private, off-street parking spaces. Currently, this site contains 54 5-hour off-street parking spaces designated for use by BART patrons.
- **Northwest Corner of Diamond Street and Bosworth Street.** This infill site includes five parcels on both sides of Kern Street, between Diamond Street, Bosworth Street, and Brompton Avenue (Assessor's Block 6744; Lots 025, 027, 030, 031, and 032). Potential development would include ground-floor commercial uses along the existing NC-2 (Small-Scale Neighborhood Commercial) zoned street frontages. The existing RH-2 (Residential, House District, Two-Family) use district is expected to be maintained for the site at Kern Street and Brompton Avenue. Approximately 30 to 55 units of housing and 0 to 55 parking spaces are estimated to be allowable on this site. New zoning would allow structures up to four stories tall on the corner of Diamond Street and Bosworth Street. Other structures at this site would be between two and three stories tall. Currently these parcels contain commercial/retail development fronting on Diamond Street, an off-street parking lot, and single-family residential development along Kern Street.

Planning Code Amendments

Zoning. Implementation of the *Community Plan* would require revisions to the existing *San Francisco Planning Code (Planning Code)* zoning districts and height districts in the plan area. Anticipated changes to the *Planning Code* include replacement of the existing NC-2 district with a new Glen Park Neighborhood Commercial Transit District (NCT). The Glen Park NCT zoning district, which is proposed to front on Diamond Street and extend from just north of Chenery Street to Monterey Boulevard, would modify

[2] This site is owned by the San Francisco Bay Area Rapid Transit (BART) District. In December 2008, BART issued a request for qualifications for developers interested in working with the City, BART, and the Glen Park community to determine the feasibility of a new transit-oriented development at the Glen Park BART Station.

parking regulations and residential densities to reflect the plan area's close proximity to abundant transit service. The BART parking lot at Bosworth Street and Arlington Street would be rezoned from its current Public (P) zoning designation. Residential zoning (RH-2 or RTO, Residential, Transit-Oriented) would likely be applied to the portion of the BART parking lot property fronting Wilder Street, and Glen Park NCT zoning would be applied to the portion of the property fronting Bosworth Street.

Heights. Residential-zoned areas would retain an existing height limit of 40 feet. However, height increases of up to 45 feet in the Glen Park NCT district may be considered to allow for active ground-floor uses. Some consideration would be given to increasing height limits on portions of the BART property to 65 feet to account for proximity to transit and grade changes on site.

General Plan Amendments

The *Community Plan* would be adopted as an area plan under the *San Francisco General Plan (General Plan).* No other changes to the *General Plan* would be required other than minor referential amendments in other *General Plan* elements for consistency.

Project Approvals

It is anticipated that the proposed project would require the following project approvals:

- Amendment of *Planning Code* Article 2 for rezoning the BART parking lot property fronting Wilder Street from P to RH-2 or RTO.
- Amendment of *Planning Code* Article 7 for rezoning the existing NC-2 district to a new Glen Park NCT district for parcels on Diamond Street and Bosworth Street.
- Amendment of *Planning Code* Article 7 for rezoning Assessor's Block 6745, Lots 042, 048, 053, 057, 066, 067, 068, and 069 from P to Glen Park NCT.
- Amendment of *Planning Code* Article 7 for rezoning Assessor's Block 6744, Lot 030 from RH-1 to Glen Park NCT.
- Amendment of *Planning Code* Zoning Map ZNII to reflect the zoning changes indicated above.
- Amendment of *Planning Code* Zoning Map HTII to reflect revised height and bulk limits for the infill sites.

ENVIRONMENTAL REVIEW TOPICS

The Environmental Impact Report (EIR) for the proposed project will examine the potential for the improvements and development proposed under the *Community Plan* to cause or contribute to significant physical or environmental impacts. The EIR will also identify mitigation measures and analyze whether proposed mitigation measures would reduce the environmental effects to a less-than-significant level as defined by the *California Environmental Quality Act* (CEQA). Two levels of analysis will be provided in the EIR:

- Transportation and infrastructure improvements and infill development at the Glen Park BART Station parking lot and at the Diamond Street and Bosworth Street parcels will be assessed at a project-level of analysis.
- The general policies of the *Community Plan*, along with the connected greenways and the Islais Creek daylighting, will be discussed at a program-level of analysis.

The Planning Department anticipates that the Initial Study will address all environmental review topics in advance of the EIR. The Initial Study will identify any mitigation measures necessary to reduce any potential impacts of the proposed project in these topic areas to a less-than-significant level. Topics that are likely to be eligible for adequate coverage in the Initial Study include: Wind and Shadow, Recreation, Utilities and Service Systems, Public Services, Biological Resources, Geology and Soils, Hydrology and Water Quality, Hazards/Hazardous Materials, Mineral/Energy Resources, Agricultural Resources; these topics would not be addressed in the EIR.

It is anticipated that the following environmental topics will be addressed in the EIR.

Plans and Policies

This section of the EIR will discuss any potential conflicts with applicable land use plans and policies, including the *General Plan* and Priority Policies, and other City policies that are designed to avoid or mitigate environmental effects. The EIR will discuss proposed amendments to the *General Plan* and *Planning Code*. The EIR will discuss the proposed project's potential inconsistencies with *General Plan* policies, as well as the City's *Sustainability Plan*. Any project inconsistency with City and regional plans, including the *Bay Area Air Quality Plan*, the *San Francisco Regional Water Quality Control Board Basin Plan*, the *San Francisco Congestion Management Plan*, the *San Francisco Municipal Transportation Plan*, areawide waste treatment plans, and regional housing plans, will also be identified.

Land Use

This section of the EIR will discuss the zoning and land use controls proposed in the *Community Plan* and the effect that alteration of existing controls could have on the existing land use character. Potential land use inconsistencies between existing and proposed uses will be discussed. The effects of increased densities at the two infill sites and changes in land use character will be described and evaluated. Other issues that will be discussed in this section include land use changes linked to improved transit access, daylighting of Islais Creek, reconfiguration of streets, and traffic-calming improvements.

Aesthetics

This section of the EIR will describe the existing visual character of the plan area and discuss potential impacts of the proposed land use and transportation changes on neighborhood and streetscape character and/or scenic views. The urban design features proposed in the *Community Plan* will be identified and assessed in the EIR in consideration of potential environmental impacts. The height, bulk, and massing of the proposed development at the infill opportunity sites will be compared with adjacent buildings to determine whether proposed development would be compatible with the existing built environment.

Cultural and Paleontological Resources

This section of the EIR will assess historic, archaeological, and paleontological resources in the plan area, and will identify the potential for proposed infrastructure improvements, development, or *Community Plan* policies to adversely affect these resources. Impacts will be assessed based on the City's *CEQA Review Procedures for Historic Resources.*

Transportation and Circulation

This section of the EIR will address the potential impacts associated with proposed infill development and transportation improvements on the City's transportation network, including area roadways, public transportation, and pedestrian accessibility. Proposed transportation improvements, and their effect on the overall circulation pattern, will be assessed according to the City's *Transportation Impact Analysis Guidelines for Environmental Review.*

Noise

This section of the EIR will analyze the potential for existing noise and vibration sources, including the I-280 freeway and local streets, BART operations, and Muni operations, to adversely affect proposed infill development. Impacts of construction-related noise generated by infill development and proposed infrastructure improvements on the local community will also be discussed, including any identified noise-sensitive receptors in the project vicinity.

Air Quality and Climate Change

This section of the EIR will analyze consistency of the *Community Plan* with applicable air quality plans. Project-specific air quality effects, including long-term operational and short-term construction related impacts; greenhouse gas (GHG) emissions; and air quality issues related to new development built in close proximity to high volume traffic corridors will be assessed.

Alternatives

This section of the EIR will discuss alternatives to the proposed project that would reduce or eliminate significant environmental effects. The alternatives will include a No Project Alternative, which is required by CEQA to be discussed in the EIR. This alternative would entail a continuation of existing zoning controls and General Plan policies in the area. Existing uses on the BART parking lot and the Diamond Street and Bosworth Street sites would remain, and no transportation improvements would be made. The EIR will also analyze up to three additional alternatives that will respond to potential significant environmental impacts that would occur with implementation of the proposed project.

FINDING

This project may have a significant effect on the environment and an Environmental Impact Report is required. This determination is based upon the criteria of the State CEQA Guidelines, Sections 15063 (Initial Study), 15064 (Determining Significant Effect), and 15065 (Mandatory Findings of Significance).

PUBLIC SCOPING PROCESS

Pursuant to the State of California Public Resources Code Section 21083.9 and California Environmental Quality Act Guidelines Section 15206, a public scoping meeting will be held to receive oral comments concerning the scope of the EIR. The meeting will be held on **July 16, 2009** at **6:30 p.m.** at **the Glen Park Community Recreation Center, 70 Elk Street.** Written comments will also be accepted at this meeting and until 5 p.m. on July 31, 2009. Written comments should be sent to Bill Wycko, Environmental Review Officer, San Francisco Planning Department, 1650 Mission Street, Suite 400, San Francisco, CA 94103.

If you work for a responsible State agency, we need to know the views of your agency regarding the scope and content of the environmental information that is germane to your agency's statutory responsibilities in connection with the proposed project. Your agency may need to use the EIR when considering a permit or other approval for this project. Please include the name of a contact person in your agency.

Re: Waiver Request – Rapid Notify, Inc.

Pursuant to the San Francisco Administrative code Chapters 12B & 14B attached is a copy the Waiver Request Form (HRC Form 201) sent to the Human Right Commission on 7/1/09.

The Sheriff's Department is requesting a waiver from Administrative Code Chapters 12B and 12C requirement for Rapid Notify, Inc.

This is a one year subscription fee which allows access to Rapid Notify a proprietary emergency telecommunication system for San Mateo County. The System is fully automated and pre-programmed with all residential and business telephone numbers in that county. This will allow the Sheriff to initiate automated emergency telephone calls, to residents and business of San Mateo County, with emergency information (prisoner escapes, etc.) related to the San Francisco County Jails, located in San Bruno.

If you have any questions about this request, please contact me at (415) 554-4316. Thanks you for your consideration of this matter.

James

Thank you for your support in this matter. Mr. Villa-Lobos has schedule a meeting with the MTA, Mayor's Office and CLA at 301 Eddy Street the Police Community Room on Wed 7-15-09 at 2:30 PM. I would appreciate your attendance if possible to insure the city does not commit this wasteful expenditure at the expense of our seniors and disabled residents in the area.

Subject: Do Not Remove Bus Stop

Dear Captain Jimenez,

My name is James Keys and I live on the 200 block of Turk Street in San Francisco. I have lived in the Tenderloin area of San Francisco for 8 years and have never had any problems from the bus stop at Turk Street and Jones.

The bus shelter provides a place for many of the seniors in the immediate area access to the 31 MUNI lines. I too board the bus at that stop and have never had any problems.

I have become well-aware of the "one person" who wishes to have the bus stop removed. To do this for one single person would then condemn the seniors, people with disabilities and children who live in the neighborhood who rely on the bus stop. There are residents who live at the Salvation Army building, the Antonia Manor, 201 Turk Street the Barcelona Apartments who utilize the bus stop at any given time.

Once again, there is no legitimate reason for removal of the bus shelter on Turk and Jones Streets. There are no substantiated crime activities and some seniors and disabled people are against having the bus stop removed. And I know this because I live on the street.

You may count me as a strong opponent to removal of the bus stop.

If you have any questions, please feel free to call me.

Subject Re: Do Not Remove Bus Stop

Dear Mr. Villa-Lobos,

Thank you for your email explaining your position. As many community members have sent emails regarding your statements of trying to dismantle "yet another bus stop in the Tenderloin thereby further disenfranchising the residents here", I am pleased to here your side.

I and other residents of the Tenderloin have as much to say about the area as "just one lone voice."

We both agree that there should be "more police presence" just not only on Market and Powell Streets, yet on Turk Street, on Eddy Street, more visibility on Ellis Street and certainly more of a presence in Boeddeker Park.

Thank you for the invitation to the community meeting regarding the bus shelter yet I am continuing the advocacy around the State budget so that many of our neighbors in the Tenderloin will not see another reduction in their monies.

Once again, thank you for clarifying your position on the bus stop at Turk Streets and Jones.

admin@communityleadershipalliance.net> wrote:
Dear Mr.Keys,

Our organization, more than a one man band, is not proposing that the shelter be removed. We are however asking for a shelter design more accommodating to seniors-folks with disabilities, and less accommodating for those who wish to break the law. We are also requesting more police presence, albeit the Tenderloin police are doing an excellent job trying to stave-off crime in the area.

7

We do have a community dialog meeting regarding this particular shelter, and with members of MTA, Police, Mayor's office scheduled for July 15th Tenderloin Police Station Community Room 2:30 PM. You're more than welcome to attend.

Respectfully
David J.Villa-Lobos, Director

Board of Supervisors

From: Angela Calvillo, Clerk of the Board

Subject: Diversity Tracking System
Administrative Code, Section 12D.A.18(D)

The Board of Supervisors entered into new contracts during Fiscal Year 2008-09 with Daystar Computer Systems, Inc., and Innovasafe, Inc.

Currently, the Board has a contract for Budget Analyst services with Stanton W. Jones and Associates; Debra A. Newman; Rodriguez, Perez, Delgado & Company Certified Public Accountants; Harvey M. Rose Associates LLC; and Louie & Wong LLP Certified Public Accountants—a Joint Venture. The Board amended the contract by extending it for an additional two years (January 1, 2008 through December 31, 2009).

Contractor	Budget Amount	Compliance	Responsible Person
Stanton W. Jones and Associates et al—a Joint Venture	$2,531,684	MBE/WBE	Angela Calvillo, Clerk of the Board of Supervisors
Daystar Computer Systems Inc.	$338,996		Angela Calvillo
Innovasafe Inc.	$7,000		Angela Calvillo

MEMORANDUM

Date: July 1, 2009

To: Board of Supervisors

From: Angela Calvillo, Clerk of the Board

Subject: Gifts

Section 10.100-305(c) of the Administrative Code requires departments to furnish to the Board of Supervisors annually within the first two weeks of July a report showing gifts received, the nature or amount of said gifts, and the disposition thereof.

The Clerk of the Board of Supervisors' Office did not receive any gifts in Fiscal Year 2008-09.

Re: San Francisco Health Care Security Ordinance

Dear Ms. Calvillo:

Enclosed please find a status report on the above-referenced matter as required by Section 14.4(h) of the San Francisco Health Care Security Ordinance. The report provides an update on the development and implementation of the Employer Spending Requirement and the Healthy San Francisco Program.

If you have any questions regarding this report, please do not hesitate to contact either Ms. Joannie Chang at 554.4791 for aspects concerning the Employer Spending Requirement or myself at 554.2779 for aspects concerning the Healthy San Francisco Program.

Sincerely,

Tangerine Brigham
Deputy Director of Health
Director of Healthy San Francisco

STATUS REPORT ON THE IMPLEMENTATION OF THE SAN FRANCISCO HEALTH CARE SECURITY ORDINANCE

A Report of
the Department of Public Health
the Office of Labor Standards Enforcement and
the City Controller's Office

Submitted to the
San Francisco Board of Supervisors

July 2009

TABLE OF CONTENTS

EXECUTIVE SUMMARY

In July 2006, the San Francisco Board of Supervisors adopted the San Francisco Health Care Security Ordinance (Ordinance No. 218-06) and further amended it in April 2007 (Ordinance No. 69-07). The Ordinance created two City and County programs, the Employer Spending Requirement (ESR) and Healthy San Francisco (HSF). Both program components of the Ordinance work in tandem and are designed to address the health needs of San Francisco's uninsured residents and workers. The Office of Labor Standards Enforcement (OLSE) oversees enforcement of the ESR while the Department of Public Health (DPH) oversees HSF.

This report provides an update on the implementation and operation of the Ordinance since submission of the July 2008 status report. Specifically, the following activities have occurred:

- The Office of Labor Standards Enforcement (OLSE):
    - Mailed the 2009 HCSO Notice to Employers (advising them of the new "hours worked" threshold and 2009 expenditures rates).
    - Mailed the 2008 HCSO Annual Reporting Form (ARF) to all employers registered with the City and County Treasurer & Tax Collector who, based on their size, are likely to be covered by the law.
    - Began analysis of ARFs submitted by covered employers.
    - Provided compliance assistance to employers that resulted in contributions of over $2 million in payments to Healthy San Francisco.
    - Assessed penalties of approximately $4,000.

- The Department of Public Health:
    - Reached enrollment of over 43,000 uninsured San Francisco adult residents in Healthy San Francisco.
    - Expanded the program's income eligibility from 300% to 500% of the Federal Poverty Level.
    - Announced expansion of the provider network to include a national, non-profit health maintenance organization (Kaiser Permanente) effective July 1, 2009.
    - Implemented an electronic interface with the San Francisco Human Services Agency to facilitate eligibility determination and enrollment into Medi-Cal.
    - Delivered a preliminary report on health care utilization and costs under the program.
    - Selected a national researcher to conduct the Healthy San Francisco program evaluation.

DPH's and OLSE's work on their respective programs continued while the Golden Gate Restaurant Association's lawsuit challenging the Employer Spending Requirement remained under legal review in the federal courts.

I. INTRODUCTION

An estimated 60,000 adult San Francisco residents are uninsured.[1] These residents have limited access to routine preventative care, delay seeking treatment when ill, suffer from poorer health outcomes and ultimately rely on more costly episodic or emergency care for health conditions that could have been treated in primary care settings.

In July 2006, the San Francisco Board of Supervisors adopted the San Francisco Health Care Security Ordinance (Ordinance No. 218-06) which created two new City and County programs, the Employer Spending Requirement (ESR) and Healthy San Francisco (HSF). The programs work in tandem and are designed to address the health needs of San Francisco's uninsured residents and workers.

The ESR requires medium and large businesses to spend a minimum amount on health care for their employees. Employers have flexibility in how they make their required expenditure, as long as it used for health care for their employees. In order to provide affordable health care options, the Ordinance also created HSF. HSF provides universal, comprehensive, affordable health care to uninsured adults irrespective of the person's income level, employment status, immigration status or pre-existing medical conditions. It integrates public and private providers into a single system to provide universal care without relying on health insurance.

HSF became operational on July 2, 2007. The ESR went into effect on January 9, 2008 for San Francisco employers with 50 or more employees and on April 1, 2008 for for-profit employers with 20-49 employees.

The Ordinance specifies the roles and responsibilities of various City and County agencies in the development and maintenance of this Ordinance. They are:

- Office of Labor Standards Enforcement (OLSE) – Enforces the ESR provisions.
- Department of Public Health (DPH) – Administers the HSF program.
- Controller's Office – Ensures that any required health care expenditures made by an employer to the City are kept separate and apart from general funds and limits use of these funds to HSF.
- Office of Treasurer and Tax Collector – Provides to OLSE all non-financial information necessary for OLSE to fulfill its responsibilities.

The Ordinance requires regular reporting to the Board of Supervisors on the status of both programs. Quarterly reports were required during the period from July 1, 2007 through June 30, 2008. From July 1, 2008 through June 30, 2010 reports are submitted on a bi-annual basis. This report meets the mandated reporting requirement to provide a report on July 1, 2009.

[1] Estimate is based on the 2007 California Health Interview Survey (CHIS) which is the nation's largest state health survey. CHIS provides detailed data on the health and health care needs of California residents. It is conducted by the UCLA Center for Health Policy Research.

II. GOLDEN GATE RESTAURANT ASSOCIATION LAWSUIT

In November 2006, the Golden Gate Restaurant Association filed a lawsuit against the City and County of San Francisco challenging the Employer Spending Requirement ("ESR") of the Health Care Security Ordinance ("Ordinance") on the grounds that it conflicted with the federal Employee Retirement Income Security Act ("ERISA"). The lawsuit did not challenge the legality of the Healthy San Francisco program.

On December 26, 2007, the United States District Court ("Court") issued an order granting the motion for summary judgment filed by the Golden Gate Restaurant Association. The Court ruled that the City and County San Francisco could not implement the ESR provisions of the Ordinance because of federal ERISA preemption. On December 27, 2007, the San Francisco City Attorney filed a petition with the United States Court of Appeals for the Ninth Circuit ("Ninth Circuit") asking for an emergency stay pending appeal of the lower court's decision.

On January 9, 2008, the Ninth Circuit granted the City Attorney's petition which allowed the Health Care Security Ordinance to go into effect on January 9, 2008, pending the City and County's appeal of the Court's decision. As a result of the Ninth Circuit ruling, the ESR became effective on January 9, 2008 for employers with 50 or more employees. The effective date for for-profit employers with 20-49 employees was April 1, 2008.

On February 7, 2008, the Golden Gate Restaurant Association (GGRA) filed an application to the U. S. Supreme Court, seeking to lift the Court of Appeals' ruling. On February 21, 2008, United States Supreme Court denied the GGRA's application.

On April 17, 2008, Ninth Circuit heard oral arguments on the appeal. On September 30, 2008, a three-judge panel of the Ninth Circuit issued a unanimous ruling that the ESR enacted under the Ordinance was not pre-empted by federal law. The decision overturned the December 26, 2007 United States District Court decision and allowed for continued operation of the ESR.

On October 21, 2008, the GGRA filed a petition with the Ninth Circuit for "Rehearing En Banc." The petition asks the full panel of judges in the Ninth Circuit to review the decision of the three-judge panel. On March 9, 2009, the Ninth Circuit denied GGRA's request for a rehearing of the three-judge panel decision that the ESR was not pre-empted by federal law.

On June 8, 2009, GGRA filed a petition with the U.S. Supreme Court requesting that the Supreme Court rule on the legality of the ESR of the Health Care Security Ordinance. While the U.S. Supreme Court considers whether to hear the case, the Ninth Circuit's September 30, 2008 decision upholding the ESR continues to be in effect for all covered businesses.

III. EMPLOYER SPENDING REQUIREMENT

Pursuant to Section 14.4(h) of the Ordinance, this section provides an update on the enforcement and administration of the employer obligations under the Health Care Security Ordinance (HCSO).

In the first and second quarters of 2009, the Office of Labor Standards Enforcement (OLSE) continued to review employer compliance with the Employer Spending Requirement (ESR).

In March 2009, the OLSE mailed the 2009 HCSO Notice to Employers (advising them of the new "hours worked" threshold and 2009 expenditures rates) and a 2008 HCSO Annual Reporting Form to all employers registered with the Treasurer & Tax Collector who, based on their size, are likely to be covered by the law. Although the ESR covers only businesses with 20 or more employees, the OLSE sent the mailing to a broader group of employers in order to reach those whose businesses may have grown.

In response to the March mailing, the OLSE experienced a spike in call and electronic mail communications from employers, as shown in the chart below.

2009	HCSO emails	HCSO calls
January	157	240
February	132	255
March	349	874
April	856	941
May	185	345
As of June 15, 2009	66	89
Total	**1,745**	**2,744**

In order to respond to the call volume in a timely manner, the OLSE temporarily reassigned staff from other regular duties.

While the volume of calls and e-mails has dropped since the April 30, 2009 deadline for returning the 2008 Annual Reporting Forms (ARFs), the OLSE anticipates another increase in call volume in the latter half of June and the month of July as staff makes and returns calls aimed at verifying the accuracy of the data provided on the ARFs, as described in further detail below.

Since the mailing, the OLSE has also seen an increase in voluntary compliance cases, as employers made aware of the Ordinance through the annual mailing requested guidance from the OLSE on how to come into compliance with the ESR.

As of June 12, 2009, the OLSE had opened 230 cases. Seventy-six cases (41% of open cases) were initiated by worker complaints, and 13 cases (7% of open case) were audits initiated by the OLSE, after the agency received evidence that the business was either not in compliance or experiencing difficulties coming into compliance. The

remaining 98 cases (52% of open cases) were initiated by employers who voluntarily contacted the OLSE to seek assistance in coming into ESR compliance. Forty-three HCSO cases (19% of total cases) have been resolved/closed by the OLSE. The backlog of open cases has continued to grow, and there currently are 187 open cases.

	12/19/08	1/22/09	6/12/09
Total Cases	115	138	230
Initiated by Worker	58 cases (62% of open cases)	69 cases (61%)	76 cases (41%)
OLSE Audit	14 cases (15% of open cases)	14 cases (12%)	13 cases (7%)
Voluntary Compliance	22 cases (23% of open cases)	31 cases (27%)	98 cases (52%)
Closed Cases	21 cases (18% of total cases)	24 cases (17%)	43 cases (19%)
Open Cases / Backlog	94	114	187

As of June 12, 2009, employers who received compliance assistance from the OLSE have contributed over $2 million in payments to Healthy San Francisco. In addition, the OLSE has assessed penalties of approximately $4,000 against those who have not made efforts towards compliance.

In the third quarter of 2009, the OLSE will work with the Cashiering Section of the Treasurer and Tax Collector's Office to scan the ARFs to collect data and begin preparing a summary report regarding HCSO compliance, including information regarding the options employers have selected to comply with the law.

Our initial review of the ARFs indicates that a number of employers did not complete the form accurately; thus, the entire OLSE staff is currently working to verify the accuracy of the data reported of these forms. Through the end of July, the OLSE will benefit from the assistance of eleven City Hall Fellows from San Francisco's City Hall Fellows public policy program, who chose the HCSO Annual Reporting Form as the focus of their final group project. The fellows are helping to review the forms and analyze the data to prepare preliminary results from a subset of ARFs that were completed correctly.

With the current focus on the ARFs, the OLSE is not able to devote much time or attention to pending cases. Thus, unless staffing levels increase, the OLSE expects a continuing decrease in the percentage of closed cases.

IV. HEALTHY SAN FRANCISCO

This section provides a summary of Healthy San Francisco and Medical Reimbursement Account components of the Health Care Security Ordinance. The Department of Public Health (DPH) is responsible for implementing and administering these components.

A. Major Activities since Submission of January 2009 Status Report

Since the January 2009 status report to the Board of Supervisors, DPH has:

1. Reached enrollment of over 43,000 uninsured San Francisco adult residents into Healthy San Francisco. Based on an estimated 60,000 uninsured adults, to date, the program has enrolled 72% of the population.
2. Expanded the program's income eligibility from 300% to 500% of the Federal Poverty Level.
3. Announced expansion of the provider network to include a national, non-profit health maintenance organization (Kaiser Permanente) effective July 1, 2009.
4. Implemented an electronic interface with the San Francisco Human Services Agency to facilitate eligibility determination and enrollment into Medi-Cal.
5. Delivered a preliminary report on health care utilization and costs under the program.
6. Selected a national researcher to conduct the Healthy San Francisco program evaluation.

B. Healthy San Francisco Enrollment

As of late June 2009, there were 43,050 participants residents enrolled in HSF. This represents 72% of the estimated HSF enrollment of 60,000 participants.[2] The following chart provides basic demographic information based on the participants:

Age	11% are 18 - 24; 40% are 25 - 44; 24% are 45 - 54; 25% are 55 - 64
Ethnicity	40% Asian/Pacific Islander; 24% Latino; 18% Caucasian; 9% African-American, 3% Other; less than 1% Native American; 6% Not Provided
Gender	52% male; 48% female
Income	70% at/below 100% FPL; 22% between 101 – 200% FPL; 7% between 201 – 300% FPL; less than 1% above 300% FPL
Language	49% English; 27% Cantonese/Mandarin; 19% Spanish; 1% Vietnamese; 1% Filipino (Tagalog and Ilocano); less than 3% Other

Twenty-five percent (26%) of Healthy San Francisco participants reside in the Excelsior or Mission districts. Homeless individuals comprise 14% of all HSF participants.

[2] Estimated number of uninsured is derived from data in the 2007 California Health Interview Survey which estimated 60,000 uninsured adults residing in San Francisco. Because HSF is a voluntary program, it is not anticipated that all uninsured residents will elect to enroll. As a result, the number of estimated participants is less than the number of estimated uninsured adults.

Providing program participants with a primary care medical home is a principal feature of HSF. The program is premised on the notion that primary care settings provide a more efficient mechanism to deliver preventive and primary care services, conduct disease management, and coordinate care across providers and service settings. HSF has four primary care medical home delivery systems. The distribution of participants across these systems is as follows:

- Chinese Community Health Care Association (CCHCA) – 2.2% (903 participants)
- Department of Public Health (DPH) – 51.2% (22,050 participants)
- San Francisco Comm. Clinic Consortium (SFCCC) – 44.34 (19,148 participants)
- Sister Mary Philippa Health Center (Sr. Mary) – 2.2% (949 participants)

HSF collects information on whether participants are existing clients or are new to the health care delivery system. Obtaining this information has been helpful in ascertaining the extent to which HSF serves an uninsured population that previously did not seek or receive services.

The HSF program has expanded access to care. To date, 27% of all those enrolled were not previous users of the health care delivery system (i.e., "new" -- defined as an individual who indicates that they have not received clinical services from the primary care medical home they selected within the last two years). The remaining 73% of program participants are existing safety net patients.

In addition to enrolling uninsured individuals in HSF, the program's web-based eligibility and enrollment system (One-e-App) enables efficient identification and enrollment of uninsured residents into public insurance programs. Data indicates that to date the program has identified approximately 4,600 HSF applicants who were eligible for, but not enrolled in public health insurance programs (e.g., Medi-Cal, Healthy Families, etc.).

The Department analyzes participant disenrollments from HSF. Disenrollments can occur because participants no longer meet program eligibility criteria, no longer choose to remain in the program/voluntarily disenroll, do not pay the required quarterly participation fee, etc. Since the program's inception, there have been approximately 55,000 HSF participants and of those roughly 11,814 are currently disenrolled from the program. As of late June 2009, the current disenrollments were the result of the following reasons:

Disenrollment Reason	**Percentage**
Program Eligibility	26%
Participation Fee Related	15%
Incomplete Annual Program Renewal	58%
Other Reasons	1%

The data indicates that 26% of those who were disenrolled no longer met the HSF program eligibility. Specifically, these individuals obtained health insurance (public or private), were determined eligible for another program during renewal, moved out of San Francisco and no longer met the residency requirement, or aged-out of the

program when they turned aged 65. Another 15% were disenrolled because of insufficient payment of the quarterly participation fee.

An incomplete annual renewal was the most frequent reason for HSF program disenrollments – totaling 58% of all disenrollments. To date, 85% of the individuals disenrolled for not completing the reenrollment process have annual incomes at or below 100% of the Federal Poverty Level and, as a result, pay no participation fees or point-of-service fees (with the exception of fees for emergency care, when appropriate). As a result, there should be no financial barrier to program renewal. However, it is not uncommon for individuals at this income level to have many other factors going impacting their lives. As a result, renewing their HSF participation on a timely basis may not be their highest priority. Some individuals may simply wait until their next clinical appointment to renew their eligibility.

To address disenrollments due to incompletion of the annual renewal application, HSF program staff formed an inter-agency committee composed of representatives from enrollment organizations to monitor retention rates and identify outreach opportunities. Participants currently receive mailed notices 90, 60, and 30 days prior to the end of their annual term reminding them to return for an in-person renewal. In conjunction with the renewal reminder notices, upcoming issues of Heart Beat, the HSF participant newsletter, will have articles on the importance of the renewal process. All application assistors have been to trained stress the importance of the program's one-year eligibility and required renewal to participants. In addition, in March 2009 the program instituted a process whereby HSF participants up for renewal receive an automated telephone call reminding them to renew on time.

Individuals who are disenrolled from the program can re-enroll at any time, if eligible. The Department tracks the enrollment history of participants to determine enrollment patterns. Re-enrollment into the program can be viewed as an indicator of continued interest in and value of the program to participants. As of late June 2009, almost 4,444 individuals who had been disenrolled from the program voluntarily elected to re-enroll and are current participants again. The data notes that the majority of the re-enrollments occur for those individuals who did not complete their annual renewal in a timely manner.

Original Disenrollment	Number	Percent
Program Eligibility	411	9%
Participation Fee Related	867	20%
Incomplete Annual Renewal	3,148	71%
Other	18	< 1%

B. Income Eligibility Expansion

In keeping with the program's intent to make HSF available to uninsured residents over the Federal Poverty Level (FPL), on February 9, 2009 uninsured San Francisco residents with household incomes up to 500% FPL became eligible to enroll in Healthy

San Francisco ($54,150 for a family of one and $110,250 for a family of four). The expansion recognizes the fact that uninsured residents with modest incomes also have difficult accessing comprehensive health care services. Prior to this expansion, the income eligibility threshold was 300% FPL.

There are currently fewer than 350 HSF participants with incomes between 301% and 500% FPL enrolled in the program. Based on the first two months of this program expansion (February to April 2009), the age distribution of new participants with incomes 301-500% was similar to the overall age distribution in the HSF program to date, with 51% between 18-44 years of age vs. 50% for the total HSF population. New participants at this income level are disproportionately more Caucasian than the total HSF population (35% vs. 17%), and represent a roughly similar segment of the Asian/Pacific Islander population (36% vs. 40%).

C. Provider Network Expansion

On June 3, 2009, Mayor Newsom announced that on July 1, 2009, the HSF provider network would expand to include Kaiser Permanente as a provider of care to the uninsured.

As a provider, Kaiser will provide primary, emergency, specialty, diagnostic, pharmacy and inpatient services. It will serve as a medical home for HSF participants. This expansion continues the Department's efforts to ensure that HSF applicants have a choice in their medical home selection. As a result of this expansion, the program will have five medical home systems effective July 2008 (listed in alphabetical order):

- Chinese Community Health Care Association
- Department of Public Health
- Kaiser Permanente
- San Francisco Community Clinic Consortium
- Sister Mary Philippa Health Center

While Kaiser Permanente is a health insurance plan, it is not participating in HSF as a health insurer. HSF is not health insurance and any San Francisco resident who selects Kaiser as their medical home will not be provided health insurance even though their medical home is Kaiser. As with all HSF participants, their health services benefits under the program are confined to the City and County of San Francisco and cannot be used at Kaiser facilities in other counties.

D. Interface Implementation with Human Services Agency

HSF uses a web-based system (One-e-App) to enroll applicants into the program with the assistance of trained staff who determines an applicant's eligibility for public health insurance before HSF enrollment. With the San Francisco Human Services Agency (HSA) as the lead agency, on March 4, 2009, One-e-App was modified to allow application assistors to electronic interface between Medi-Cal's enrollment database and the HSF applicant screening system. This allows application assistors to

electronically submit Medi-Cal applications to HSA. This linkage enables both DPH and HSA to redirect applicants to the most appropriate program. Prior to launch of the interface, assistors used One-e-App to create and manually submit 5 – 12 Medi-Cal applications per week. In the first few six weeks after this enhancement, application assistors electronically submitted 228 Medi-Cal applications (an average of 38 per week) to HSA using One-e-App.

E. HSF Services Utilization

There is a clinical data warehouse used to examine utilization, access, quality and other HSF health data. In March 2009, an initial report on HSF services and cost data was provided to the San Francisco Health Commission. It is important to note the following when examining the data that follows:

- There is no comprehensive pre-HSF utilization database that can be used as a baseline.
- Most of the encounter data (90%) available at the time of this analysis is concentrated in two medical home systems (the Department and North East Medical Services) with 80% of HSF enrollees.
- The hospitalization, emergency and urgent care data is included, but admissions to hospitals other than San Francisco General Hospital are not yet captured.
- When examining the changes in services data from one year to the next, it is important to remember that initial HSF enrollment occurs at the point of service.
- It is not entirely reasonable to expect or witness system-wide affects of participant behavior in the first year of the program.
- Over 70% of HSF participants have incomes at or below 100% FPL reflecting the targeted phase-in approach to initially enroll the most vulnerable into the program.

The data indicate the following utilization of health care services among participants:

HSF Health Care Utilization Data – Actual (July 2007 – December 2008)

Service Utilization	FY 2007-08 Actual	FY 2008-09 Annualized
Average visits per participant per year	3.93	3.05
Outpatient laboratory services per participant per year	1.47	1.10
Outpatient radiology services per participant per year	0.55	0.41
Surgical procedures (inpatient & outpatient) per participant per year	0.19	0.15
Average number of prescriptions per participant per year	8.75	6.45
Hospital admissions per 1,000 participants[3]	28.2	18.4
Number of hospital days per 1,000 participants[4]	103	61
Average length of stay – hospitalization[5]	3.64	3.34
ED visits per 1,000 participants	175	128
Urgent care visits per 1,000 participants	134	131
Average mental health visits per participant (CBHS data only)	1.53	1.33
Average substance abuse visits per participant (CBHS data only)	0.60	0.56

[3] Fiscal year 2008-09 data is for July 2008 – September 2008 only.

[4] Fiscal year 2008-09 data is for July 2008 – September 2008 only.

[5] Fiscal year 2008-09 data is for July 2008 – September 2008 only.

One key goal of HSF is to provide participants with a usual source of care (i.e., primary care medical home) in the hope that this will reduce episodic care, reduce emergency department and urgent care visits and reduce avoidable emergency department visits. The data indicates that 7.3% of the ED visits to date were avoidable which is lower (14.8%) in comparison to San Francisco Health Plan data for adults Medi-Cal recipients.

HSF hospitalization and emergency department data was compared to data from other public health insurance programs within the San Francisco Health Plan (i.e., Medi-Cal [adults only] and Healthy Workers). Data reveals that hospital utilization among HSF participants is lower than that found within the Healthy Workers and Medi-Cal population. The data also indicated that emergency department visits were higher among HSF participants than for Healthy Workers members and similar to or lower than rates experienced in the Medi-Cal population. The emergency department utilization may be a reflection of the fact that 14% of HSF participants are homeless and may continue to seek services in the ER despite a medical home selection.

HSF Utilization Data in Comparison to Public Health Insurance Utilization Data

Service Category	Healthy Workers	Medi-Cal (Adults Only)
Hospital Admissions per 1,000	HSF is Lower Than HW	HSF is Lower Than M-Cal
No. of Hospital Days per 1,000	HSF is Lower Than HW	HSF is Lower Than M-Cal
Avg. Length of Stay-Hospitalization	HSF is Lower Than HW	HSF is Lower Than M-Cal
ED Visits per 1,000	HSF is Higher Than HW	HSF is Similar to or Lower Than M-Cal

HSF data also examines disease prevalence. Data for the time period July 2007 to December 2008 reveals that 24% of the HSF population has at least one of the following chronic diseases: asthma, diabetes, hyperlipidemia or hypertension.[6] HSF expands chronic care services via Family Health Center (back pain, diabetes, mental health within primary care) and General Medicine Clinic (asthma/COPD, heart failure, resident continuity) serving both HSF participants and non-HSF patients. When the data is examined to determine the primary reason for a clinical visit, the encounter data for the top 20 primary reasons indicates that:

- 14% were for preventive care
- 41% were for conditions that, if left untreated, would lead to heart disease
- 45% were for conditions that, if left untreated, would lead to ER overuse

F. HSF Estimated Department of Public Health 2008-09 Expenditures

In March 2009, financial data indicated that for 2008-09, estimated Department expenditures for HSF will be $113.2 million with revenues of $32.7 million and a General Fund subsidy of $80.5 million (the difference between expenditures and revenues). Based on estimated participant months, the monthly estimated per participant cost is $280. This cost represents on average the cost of utilized services by a participant on a monthly basis. This cost recognizes that some participants will not use services in any given month. On an annual basis this would equate to $3,360.

[6] Figure is for HSF participants who were enrolled in the program on or before September 30, 2008.

The estimated City and County cost to provide HSF is less than the estimated cost of providing HSF program participants with health insurance. A cost comparison of HSF with two California health insurance plans found monthly estimated premium costs of $388 and $618 per month. These costs are 39% (at $388/month) to 120% (at $618/month) higher than HSF at estimated $280/month.

It is important to note that the costs reflect the Department's costs of operating HSF. HSF participants may receive services through other providers (e.g., emergency care at a hospital [other than San Francisco General Hospital] under the hospital's charity care program). The cost figures do not include the cost of such care and as a result do not reflect the total costs of providing services to uninsured HSF participants. At present, the Department does not have access to the service utilization or costs of services provided to HSF participants that were rendered: (1) outside the HSF provider network or (2) by non-profit hospitals. The Department anticipates having data from non-profit hospitals for the second annual HSF report scheduled for release in late summer 2009.

G. Evaluation

The Department will evaluate HSF to determine if it is achieving its goals to improve access to health services for uninsured adults in a non-health insurance model. Since the January 2009 update, the Department moved forward on the following evaluation components:

- In March 2009, DPH released the Healthy San Francisco Program Evaluation Request for Proposals. Based on the RFP process, the Department is the process of contracting with Mathematica Policy Research, Inc. to conduct the evaluation. The evaluation is structured to provide formative findings, in addition to a summative analysis, that can be used to guide development of any program improvements or modifications. Specific evaluation activities include examining utilization, administrative and financial data. In addition to City and County funding for the evaluation, the following foundations have provided generous support for the evaluation: Blue Shield of California Foundation, The California Endowment, the Commonwealth Fund and the Metta Fund.

- DPH secured the generous in-kind support of the Kaiser Family Foundation to conduct a HSF Participant Satisfaction Survey. The survey is designed to ascertain the experience of early HSF enrollees (a representative survey of enrolled HSF participants as of October 31, 2008). Questions are in the areas of: enrollment process, knowledge and understanding of HSF, uninsured status, satisfaction with HSF, health status, access to care and health care utilization. The survey was administered during March/April 2009; it is anticipated that results will be available in the Summer of 2009.

H. HSF Customer Service

HSF participants have access to customer service representatives who care assist them in using the program effectively (e.g., explaining how to access medical services, correcting an address, replacing materials, etc.). Key customer service statistics for July 2008 to March 2009:

- 2,650 calls per month (avg.) from participants, applicants, employers, providers,
- 92% of calls responded to in less than 30 seconds and
- 52 calls per 1,000 participants per month.

Customer service works to resolve participant complaints. From July 2008 – March 2009, the program received 269 participant complaints (approximately 2.7 complaints per 1,000 participants). Of those, 97% were resolved within 60 days.

HSF Participant Complaints (July 2008 – March 2009)

Category	Number	Percent
Access Issue	107	40%
Enrollment Issue (Medical Home Selection)	56	21%
Quality of Service	46	17%
Other[7]	21	8%
Quality of Care	20	7%
Pharmacy	9	3%
Point of Service Fees[8]	7	3%
Participation Fee Bill	2	1%
Coverage Interpretation	1	Less than 1%

I. Employer Selection of City Option to Meet Employer Spending Requirement

San Francisco employers are selecting the City Option to meet the Employer Spending Requirement (ESR) of the Health Care Security Ordinance. When an employer chooses the City Option, their employees will receive either Healthy San Francisco or a Medical Reimbursement Account depending upon the employee's eligibility.

If the employee is eligible for HSF, the employee will be notified and must complete the HSF application process to get enrolled in the program. An employer does not enroll an employee into HSF. If the employee is ineligible for HSF, then they will be given a Medical Reimbursement Account (MRA). All funds contributed on the employee's behalf by the employer are deposited into this account and the employee can access these funds to reimburse for out-of-pocket health care expenses.

Since implementation of the ESR (January 2008) to May 2009, roughly 960 employers have elected to use the City Option. These employers have committed $45.541 million on behalf of 42,247 employees (eligible for either HSF or MRA). Of that amount,

[7] Complaints identified as "other" pertain to individual isolated circumstances that cannot be classified universally.
[8] The majority of the complaints regarding Point of Service fees are from one HSF primary care medical home associated with a non-DPH clinic .

roughly half is for employees are potentially eligible for HSF ($22.643 million) and the other half are potentially eligible for MRA ($22.898 million). Of the total funds committed by employers, $44.330 million in health care expenditures (97%) have been collected to date.

Employer payments are submitted to the HSF Third-Party Administrator (the San Francisco Health Plan) for processing. The Third-Party Administrator transfers the Healthy San Francisco component of the employer payments to DPH on a periodic basis. DPH then submits these funds to the City Controller's Office for processing and deposit. In accordance with the Health Care Security Ordinance, those funds are used for the HSF program. To date, $21.152 million in funds have been transferred from the Third-Party Administrator to the City and County of San Francisco. The amount transferred includes any employer contributions and HSF program participation fees paid by enrollees on a quarterly basis.

Employer health care expenditures designated for a Medical Reimbursement Account are not transferred to the City and County of San Francisco. Participant eligibility and contribution information is forwarded to the Medical Reimbursement Account vendor and accounts are created for each employee to use for reimbursable health care expenses. Funds are transferred weekly to the MRA vendor for claims and monthly for administrative fees.

BY RC

June 29, 2009

Ms. Angela Calvillo
Clerk of the Board
#1 Dr. Carleton B. Goodlett Place
City Hall, Room 244
San Francisco, CA 94122

Dear Ms. Calvillo:

The 2008-2009 San Francisco County Civil Grand Jury will release its report to the public entitled "Being Propositioned By The San Francisco Unified School District" on Thursday, July 2, 2009. Enclosed is an advance copy of this report. Please note that by order of the Presiding Judge of the Superior Court, James J. McBride, this report is to be kept confidential until the date of release.

California Penal Coded Section 933.05 requires the responding party or entity identified in the report to respond to the Presiding Judge of the Superior Court, within a specified number of days. You may find the specific day the response is due in the last paragraph of this letter.

For each Finding of the Civil Grand Jury, the response must either:

(1) agree with the finding; or
(2) disagree with it, wholly or partially, and explain why.

Further as to each recommendation made by the Civil Grand Jury, the responding party must report either:

(1) that the recommendation has been implemented, with a summary explanation of how it was implemented;
(2) the recommendation has not been implemented, but will be implemented in the future, with a time frame for the implementation;
(3) the recommendation requires further analysis, with an explanation of the scope of that analysis and a time frame for the officer or4 agency head to be prepared to discuss it (less than six months from the release of the report); or

13

(4) that the recommendation will not be implemented because it is not warranted or reasonable, with an explanation of why that is. (California Penal Code sections 933, 933.05)

Please provide your responses to the Findings and Recommendations in this report to the Presiding Judge of the Superior Court, Hon. James J. McBride, not later than Monday, September 28, 2009, with an information copy sent to the Board of Supervisors. Please also send an information copy to the Grand Jury Office at the above address.

Very Truly Yours,

Leonard A. Kully, Foreperson
2008 -2009 San Francisco Civil Grand Jury

Resource Conservation Ordinance – 2008 Annual Report
City Government Zero Waste Program
San Francisco Department of the Environment
City and County of San Francisco

INTRODUCTION

Pursuant to the requirements of the Resource Conservation Ordinance (Chapter 5, Environment Code, Sec. 510), the Department of the Environment is pleased to present this annual report to the Board of Supervisors that highlights the achievements of the City Government Zero Waste Program. The importance of the City Government Zero Waste Program is not only to contribute to the City achieving a diversion rate far exceeds the requirements of the California Integrated Waste Management Act of 1989 (AB 939), but also to assure that the City and County of San Francisco leads waste reduction efforts exemplify what possible for the entire San Francisco community. With the passing of the Universal Recycling Ordinance in June 2009, it will be particularly important for City departments to model Zero Waste behavior in the future.

In order to help the City meet AB 939 requirements, the Board of Supervisors adopted the Resource Conservation Ordinance (RCO) in 1992, mandating that City departments reduce their waste. The RCO was amended in 2000 to strengthen its objectives of conserving landfill space and natural resources, lowering City disposal costs, and purchasing products with recycled content.

This report highlights the major accomplishments of the Department of the Environment's City Government Zero Waste Program for 2008.

CITY GOVERNMENT WASTE REDUCTION AND RECYCLING

San Francisco General Hospital
SF Environment (SFE) worked with key staff at SF General Hospital and Recology to construct a new loading dock platform, modify the electrical infrastructure, install a new compactor and manage the outreach and logistics to launch the City's largest public hospital cafeteria composting and recycling program. Over 600 tons of compostables are now diverted from the landfill annually.

Laguna Honda Hospital
SFE worked with Laguna Honda Staff to develop a plan to divert over 300 tons of organic waste to composting from the new wing. The new plan call for composting, recycling and garbage compactors at both loading docks at the hospital. The plan also requires food scrap diversion to take place in the food galleys on every patient floor and in the hospital's cafeteria. The new wing at Laguna Honda Hospital is scheduled to open in Spring 2010.

The Hall of Justice
County Jail Kitchen #2 at the Hall of Justice continued its successful recycling program in 2008. This single jail kitchen is responsible for diverting over 250 tons of organic debris. Composting at the County Jail Kitchen #8 at the HOJ remains to be implemented. Space constraints and changes in management at the County Jails are being addressed and it expected that composting in the second jail kitchen would commence in 2009.

Municipal Transportation Agency

MTA maintenance yards comprise five of the top ten municipal waste generators. MTA, working with SFE have instituted a few simple operational changes have already dramatically increased the recycling rates. The majority of the waste discarded is coming from bus sweepings and about 90% of this waste is paper. By separating the material swept off the busses, the material could be sent to the sorting facility for recycling. In 2008 we successfully worked with MTA's Kirkland and Green Divisions to implement recycling programs that are diverting 719 tons of bus sweepings and office recyclables.

Recreation and Parks Department

The Recreation and Parks Department (RPD) continued to divert over 98% of the waste they generate by composting all organic material from the department's landscaping operations. In 2008, RPD diverted 15,000 tons of compostable material from landfill.

Police Department

SFE worked with the Chief, Station Captains and Facilities Coordinators to conduct comprehensive assessments of stations and implement appropriate new diversion programs. Visited each of the stations at least twice, trained over 1,000 officers, increased their diversion rate by 15%.

San Francisco Public Utilities Commission

The SFPUC successfully diverted 87,000 tons of biosolids generated as the result of San Francisco's wastewater treatment processes. This volume represents nearly a third of all material diverted from the City Government operations. SFE has been working with SFPUC staff to explore higher and better use alternatives. In 2008, the SFPUC started working with the company Synagro to develop a compost product that is produced from biosolids. While still a pilot project, the SFPUC-Synagro partnership diverted 900 tons of biosolids into a higher and better use fertilizer.

Construction and Demolition Debris Recycling

Success in City Government Construction & Demolition Recycling was marked by the successful implementation of a new reporting process codified in the standard bid specifications used by the Department of Public Works (DPW). DPW is currently automating this form so the various submittals required by law can be done electronically. This form follows the procedures codified in ordinance (No. 27-06) that creates a mandatory program to maximize the recycling of all construction and demolition debris. The Ordinance requires that mixed construction and demolition debris be transported off-site by a Registered Transporter and taken to a Registered Facility that can process and divert from landfill a minimum of 75% of the material generated from construction, demolition or remodeling projects.

The Virtual Warehouse

The Virtual Warehouse is an online exchange system for surplus items among City departments. In 2008, approximately 6,000 items were diverted from the landfill through use of the Virtual Warehouse. These items weighed over 100 tons and were valued at $730,000.

Through a contract with SIMS Metals, the Virtual Warehouse program recycles various types of scrap metal, such as old metal desks, metal filing cabinets, rails from the MTA system, brass fixtures, and copper pipes. In 2008, the City received revenue from the scrap metal recycling totaling $172,951. This amounts to approximately 2,000 tons of scrap metal being recycled.

Departmental Cost Savings Highlights

Managed billing, reconfigured service levels, and implemented waste reduction programs at Municipal Transportation Agency, Recreation and Parks, Fine Arts Museums, Police, Fire, City Hall, Public Defender, Asian Art Museum, and Public Health Departments to achieve $220,600 in annual savings on disposal costs. In addition, the Police Department has saved $45,000 annually on disposal costs through the successful implementation of recycling and composting programs at their stations.

The Department of the Environment also worked with Recreation and Parks Department staff to adjust service levels at several of their facilities to better reflect service needs. These adjustments will save RPD over $150,000 per year. In addition, RPD, working with SFE staff and the City's service provider, has been able to save an additional $400,000 in debris management costs by diverting over 10,000 tons of debris from disposal.

Employee Trainings

Trained over 3,000 City employees, including 61 recycling coordinators, on recycling procedures, waste reduction, environmental principles, and City policy.

Environmentally Preferable Purchasing

The Department of Environment worked with OCA to to develop bid specifications for the City's computers, office supplies, and office paper that include requirements for recycled content, less packaging and extended producer responsibility. SFE also worked closely with Recreation and Parks Department and the City Fields Foundation, in a multiple stakeholder application of the Precautionary Principle to develop the nation's first recycled content and end-of-life specifications for synthetic turf ball fields. In addition, SFE worked with the Port of San Francisco to include recycled content specification for new asphalt and concrete plant RFPs. These specifications included extra evaluation points for including plans to recycle difficult to recycle materials, such as asphalt shingles.

The Mandatory Recycling & Composting Ordinance

The focus in 2009 will be on implementation of the Mandatory Recycling & Composting Ordinance. In addition to continuing to expand recycling, composting and other waste reduction activities to all City facilities, City Government must model good zero waste behavior to the entire San Francisco community. In the coming year City Government Zero Waste staff will redouble its effort to identify City facilities not yet recycling and composting and implement programs at those locations. Zero Waste staff will also work with DPW to create an optimal solution for public area recycling and special event recycling.

ject Restore Sharp Park

Thank you for taking the first step to transform our publicly owned land at Sharp Park from an exclusive, underused, and budget-breaking golf course into a community-centered model for endangered species recovery, natural flood control, outdoor recreation, and sustainable land use.

I strongly support Supervisor Mirkarimi's proposed ordinance to transfer Sharp Park to the National Park Service as part of the Golden Gate National Recreation Area or to jointly manage the park with the Park Service. The ordinance would also require the city's Recreation and Parks Department to develop a plan, schedule, and budget for restoring Sharp Park habitat for endangered species on the site, a welcome change from the mismanagement of recent years. I urge the city and county of San Francisco to restore Sharp Park as a coastal lagoon and wetland habitat for endangered species. Please follow through by passing this important legislation.

Sharp Park Golf Course has a long history of environmental problems because of its poor design and unfortunate placement on a coastal lagoon. The course has had problems with flooding and drainage ever since opening, and the Department has created new and significant environmental impacts. The current operation of the golf course harms wetland habitat and causes illegal take of two federally listed species, the California red-legged frog and the San Francisco garter snake.

The golf course is a significant money-loser for San Francisco that makes no sense to maintain at a time when the city has cut the Recreation and Parks Department staff and the long-term golf prospects at the site are slim. Combine that with the problems with endangered species, wetland destruction, flooding, and sea-level rise, and it is clear that restoration of Sharp Park to a natural state is the best option for the area.

Ecological restoration is the most fiscally responsible method of managing Sharp Park and dealing with flood management issues at the site. Compared to the costs of implementing capital improvements necessary to maintain the golf course combined with the high potential for massive civil penalties for harming endangered species, restoration alternatives seem to be the most fiscally prudent method for retaining recreational uses of the area.

San Francisco's 2004 recreational study shows that the number-one recreational demand in San Francisco is more hiking and biking trails -- and golf came in 16th. San Francisco already has six public golf courses, and about 50 other golf courses are within a 45-minute drive of Sharp Park. Restoring Sharp Park will help meet recreational demand through hiking and biking trails, picnicking spots, camping facilities, a world-class nature center, a gateway to the San Mateo County Golden Gate National Recreation Area lands, and educational opportunities sorely needed in San Mateo County. Restoration will also ensure the continued existence and abundance of endangered species at Sharp Park.

Please transfer Sharp Park to the National Park Service or jointly manage the property with the Service to restore Sharp Park as a coastal lagoon and wetland habitat for endangered species.

Subject Restore Sharp Park

Thank you for taking the first step to transform our publicly owned land at Sharp Park from an exclusive, underused, and budget-breaking golf course into a community-centered model for endangered species recovery, natural flood control, outdoor recreation, and sustainable land use.

I strongly support Supervisor Mirkarimi's proposed ordinance to transfer Sharp Park to the National Park Service as part of the Golden Gate National Recreation Area or to jointly manage the park with the Park Service. The ordinance would also require the city's Recreation and Parks Department to develop a plan, schedule, and budget for restoring Sharp Park habitat for endangered species on the site, a welcome change from the mismanagement of recent years. I urge the city and county of San Francisco to restore Sharp Park as a coastal lagoon and wetland habitat for endangered species. Please follow through by passing this important legislation.

Sharp Park Golf Course has a long history of environmental problems because of its poor design and unfortunate placement on a coastal lagoon. The course has had problems with flooding and drainage ever since opening, and the Department has created new and significant environmental impacts. The current operation of the golf course harms wetland habitat and causes illegal take of two federally listed species, the California red-legged frog and the San Francisco garter snake.

The golf course is a significant money-loser for San Francisco that makes no sense to maintain at a time when the city has cut the Recreation and Parks Department staff and the long-term golf prospects at the site are slim. Subject Save Sharp Park Golf Course

Dear Mayor Newsom, Honorable Supervisors and Commissioners,

I am a San Francisco resident, writing to urge you to preserve the historic 18-hole Sharp Park Golf Course. Sharp Park is an invaluable resource for the City as a beautiful and affordable recreational facility. I play there often and enjoy it much more than even many of the more expensive bay area courses. Speaking as a golfer, I feel that it would be a terrible shame to lose a treasure created by a master golf course designer.

I appreciate california's native habitat and agree that we should preserve as much as possible. but the idea of trying to turn the clock back on developed areas in an attempt to return them back to how they were 100 years ago is a ridiculous concept and would not be even considered if it was anything but a golf course. I do not share the guilt of the naturalists who hope to feel they can repair hundreds of years of devastation of the environment by rebuilding a golf course. would we consider doing the same thing to golden gate park? ehy don't we do this to harding park golf course, too? of course not.

Please stand up to these special interest groups and listen to the tens of thousands of people who use the course every year. I know that the state's natural preserves don't get anywhere near the amount of use as this course does. So, do you want to help our bay area residents or environmental special interest groups?

The golf course is a world treasure, designed by the greatest designer in history, and is heavily played by men and women of all ages and ethnic groups. And it is affordable. Even in tough economic times--maybe especially in such times--it is important that we have our great recreational and public spaces to enjoy nature and each other.

Yours Truly,

tom walker

Even in tough economic times--maybe especially in such times--it is important that we have our great recreational and public spaces to enjoy nature and each other.

Sharp Park Golf Course is a beautiful coast side golf course that provides affordable golf for thousands of working class golfer each and every week. it would be a shame for San Franciscans and area residents to loose this popular venue.

I for one do not believe that Sharp Park Golf Course poses a threat to the red legged frog and the San Francisco garter snake. Their existence is not threatened because of golf; the fact is that the red legged frog and the San Francisco garter snake have survived all the years that the golf course has been in existence, since 1932. I do believe that there are modifications that can be made that will safe-guard these two species and still allow Sharp Park to be a viable golf course.

Yours Truly,

Pacifico Paculba

Subject Save Sharp Park Golf Course

Dear Mayor Newsom, Honorable Supervisors and Commissioners,

I am a San Francisco-area resident, business owner and golfer, writing to urge you to preserve the historic 18-hole Sharp Park Golf Course.

Sharp Park was designed Alister MacKenzie, who also designed such famous courses as Augusta National, Cypress Point, Pasatiempo and Meadow Club. It is truly a treasure to golfers worldwide, as well as affordable to local golfers. I visited recently and saw mothers and fathers playing with their children. Golf is truly a family sport, and Sharp Park makes it affordable to all families. Nearly 50,000 people play Sharp Park every year.

I and golfers throughout the area urge you to maintain Sharp Park in its current, magnificent layout.

Thank you for your consideration.

Yours Truly,

Mitch Levine

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

PUBLIC NOTICE

July 1, 2009

TO: Parents or guardians of children enrolled at the following school(s):

Tenderloin Community School
Civic Center Secondary School
Sacred Heart Cathedral Preparatory School

All residential and business neighbors located within 1,000 feet of the proposed new or modified source of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #19504 for the following source of air pollution:

Natural Gas Fired Microturbine, Ingersoll-Rand, 250 kw
Phillip Burton Federal Building (General Services Administration)
450 Goden Gate Avenue
San Francisco, CA 94102

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

On behalf of Phillip Burton Federal Building, Enovity, Inc. has applied for an Authority to Construct and a Permit to Operate a Microturbine that will be used to generate electricity.

The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed source are within acceptable levels, and that the project will comply with all other applicable air pollution control requirements. Accordingly, the District plans to issue an Authority to Construct and subsequently Permit to Operate for the proposed project.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:

http://www.baaqmd.gov/Divisions/Engineering/Public-Notices-on-Permits.aspx

PUBLIC COMMENT PERIOD

There is a 30-day period for public response to this proposal. If you wish to comment on the proposed project, you may do so in writing or by e-mail. Alternatively, you may call and leave a telephone message up to one minute in length. Please leave your name and telephone number so that a District staff member may respond to your message.

Please use the following contact information if you would like to comment on the proposed project:

Mailing address: Phillip Burton Federal Building – GSA (A# 19504)
Public Notice Response
BAAQMD
Engineering Division
939 Ellis Street
San Francisco, CA 94109
Attn: Dharam Singh

The public comment period for this project ends on **July 30, 2009.**

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

ANUNCIO PÚBLICO

1 de julio de 2009

PARA: Los padres de familia o guardianes de los niños inscritos en las siguientes escuelas:

Escuela comunitaria del Tenderloin
Escuela secundaria Civic Center
Escuela preparatoria de la Catedral Sagrado Corazón

Todos los vecinos residenciales y comerciales localizados dentro de una distancia de 1000 pies (305 m) de la fuente de contaminación del aire (según la propuesta nueva o modificada) que se indica más abajo.

DE: Distrito para el Control de la Calidad del Aire del Área de la Bahía (BAAQMD)

ASUNTO: Solicitud de permiso n.° 19504 para la siguiente fuente de contaminación del aire:

Microturbina de gas de 250 kw, marca Ingersoll-Rand
Phillip Burton Federal Building (General Services Administration)
450 Goden Gate Avenue
San Francisco, CA 94102

El Distrito para el Control de la Calidad del Aire del Área de la Bahía (el Distrito) es la agencia local que regula las fuentes estacionarias de contaminación del aire, p. ej. fábricas, instalaciones industriales y gasolineras.

Cuando recibimos una solicitud de permiso para operar o modificar una fuente de contaminantes tóxicos del aire localizada dentro de una distancia de 1000 pies (305 m) de una escuela, la legislación estatal nos obliga comunicarlo al público. Para cumplir con este requisito, distribuimos o enviamos por correo un aviso público a los padres o guardianes de los alumnos inscritos en las escuelas ubicadas en un radio de ¼ de milla (402 m) de la fuente propuesta, y a todos los residentes y negocios en un radio de 1000 pies (305 m) de ésta.

Usted recibe este aviso público porque se ha presentado ante el Distrito una solicitud de permiso para la fuente contaminación del aire antedicha. A continuación ofrecemos una descripción del proyecto propuesto:

Enovity, Inc., en nombre del Phillip Burton Federal Building, ha solicitado una Autorización para construcción y un Permiso para operar una microturbina que será empleada para generar electricidad.

El Distrito ha determinado que el aumento de los riesgos para la salud que surgirá a raíz de las emisiones tóxicas contaminantes del aire, provenientes de la fuente propuesta, se mantendrá dentro de límites aceptables y el proyecto cumplirá con todos los demás requisitos pertinentes al control de contaminación del aire. Por lo tanto, el Distrito tiene previsto otorgar el permiso de operación al proyecto propuesto.

Si desea obtener más información sobre la evaluación que el Distrito ha hecho de esta propuesta de proyecto, podrá solicitar copias del informe pertinente preparado por nuestro personal. Llame al Distrito al teléfono que se indica al final de este aviso. Esta información está también disponible para su consulta o descarga en el sitio web del Distrito:

http://www.baaqmd.gov/Divisions/Engineering/Public-Notices-on-Permits.aspx

PERÍODO PARA RECIBIR COMENTARIOS DEL PÚBLICO

Se ha establecido un período de 30 días para que el público pueda responder a esta propuesta. Si desea hacer un comentario sobre el proyecto propuesto, puede hacerlo por escrito o por correo electrónico. También puede llamarnos y dejar un mensaje telefónico de hasta un minuto de duración. Deje por favor su nombre y número telefónico para que un miembro del personal del Distrito pueda responder a su mensaje.

Si desea hacer un comentario sobre el proyecto propuesto, estos son nuestros datos de contacto:

Dirección postal: Phillip Burton Federal Building – GSA (A# 19504) Public Notice Response
BAAQMD
Engineering Division
939 Ellis Street
San Francisco, CA 94109
Attn: Dharam Singh

Correo electrónico: dsingh@baaqmd.gov

Teléfono: (415) 749-5040

El período para recibir comentarios del público sobre este proyecto termina el **30 de julio de 2009**.

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

THÔNG BÁO

Ngày 1 tháng 7, 2009

KÍNH GỬI: Phụ huynh hoặc người giám hộ của trẻ em đang học tại trường sau đây:

Trường Cộng đồng Tenderloin (Tenderloin Community School)
Trường Tiểu học Civic Center (Civic Center Secondary School)
Trường Tư thục Sacred Heart Cathedral (Sacred Heart Cathedral Preparatory School)

Tất cả các cư gia và cơ sở thương mại nằm trong phạm vi 1.000 bộ (feet) cách (các) nguồn gây ra ô nhiễm không khí mới hoặc được sửa đổi sau đây.

TỪ: Cơ Quan Quản Trị Phẩm Chất Không Khí Vùng Bay Area
(Bay Area Air Quality Management District, hay BAAQMD)

VỀ VIỆC: Xin Cấp Giấy Phép Số 19504 cho nguồn điểm gây ô nhiễm không khí sau đây:

Máy tua bin cỡ nhỏ chạy bằng khí đốt, Ingersoll-Rand, 250 kw
Toà nhà Liên bang Phillip Burton, hay Phillip Burton Federal Building
(Toà Hành chính Dịch vụ Tổng quát)
450 Goden Gate Avenue
San Francisco, CA 94102

Cơ Quan Quản Trị Phẩm Chất Không Khí Vùng Bay Area (BAAQMD) là cơ quan địa phương quản lý các nguồn gây ô nhiễm không khí cố định, thí dụ như các nhà máy, cơ sở công nghiệp và các trạm xăng.

Căn cứ luật tiểu bang California, mỗi khi BAAQMD nhận được đơn xin phép thiết lập một cơ sở mới hay sửa đổi một cơ sở hiện hữu là nguồn thải chất độc vào không khí trong vòng 1.000 bộ (feet) chung quanh một trường học công cộng thì BAAQMD phải thông báo quần chúng. Tuân thủ quy luật này, chúng tôi phân phối hoặc gửi bưu điện bản bố cáo công cộng này đến phụ huynh hoặc người giám hộ của những học sinh theo học tại các trường nằm trong phạm vi ¼ dặm, và tất cả các cư gia và cơ sở thương mại nằm trong phạm vi 1.000 bộ từ nguồn gây ra ô nhiễm.

Quý vị nhận được bản thông báo này vì BAAQMD nhận được một đơn xin cấp giấy phép cho nguồn gây ô nhiễm không khí nói trên. Sau đây là mô tả của dự án được đề nghị:

Thay mặt Phillip Burton Federal Building, công ty Enovity, Inc. đã nộp đơn xin được cấp Giấy phép xây dựng và Giấy phép thao tác một Máy tua bin cỡ nhỏ dùng để phát điện trong tương lai.

BAAQMD đã ước định nguy cơ tăng tác hại lên sức khoẻ của các chất độc ô nhiễm không khí phát xuất từ nguồn nói trên là nằm trong mức độ cho phép, và dự án này sẽ tuân thủ mọi điều luật về kiểm soát ô nhiễm không khí khác. Vì vậy, BAAQMD sẽ cấp phát giấy phép thao tác máy này cho dự án nói trên.

Nếu quý vị muốn biết thêm chi tiếc về sự đánh giá của BAAQMD về dự án này, quý vị có thể xin hồ sơ báo cáo thích hợp của nhân viên bằng cách gọi cho BAAQMD tại số điện thoại ghi ở cuối thông báo này. Quý vị cũng có thể xem và in ra bản báo cáo này trên trang mạng của BAAQMD ở:

http://www.baaqmd.gov/Divisions/Engineering/Public-Notices-on-Permits.aspx

THỜI GIAN THÔNG BÁO

Quý vị có thể đóng góp ý kiến về đề nghị cấp phát giấy phép này trong vòng 30 ngày. Nếu quý vị muốn đóng góp ý kiến, quý vị có thể viết thư hoặc gửi thư điện tử. Quý vị cũng có thể gọi điện thoại và để lại lời nhắn với thời gian tối đa là một phút. Xin vui lòng để lại tên họ và số điện thoại của quý vị để nhân viên của BAAQMD có thể liên lạc quý vị.

Xin dùng địa chỉ liên lạc sau đây nếu quý vị muốn gởi ý kiến đóng góp về dự án này:

Địa chỉ gửi thư: Phillip Burton Federal Building – GSA (A# 19504) Public Notice Response
BAAQMD
Engineering Division
939 Ellis Street
San Francisco, CA 94109
Attn: Dharam Singh

Địa chỉ thư điện tử: dsingh@baaqmd.gov

Số điện thoại: (415) 749-5040

Giai đoạn tiếp nhận ý kiến đóng góp của công chúng về dự án này sẽ kết thúc vào **ngày 30 tháng 7, 2009.**

June 27, 2009

TO: Honorable Mayor Gavin Newsom,
City & County of San Francisco

FR: Marilyn Amini, S. F. resident

RE: **Final Pass 6/16/09, Board of Supervisors File 090026 [Ordinance Requiring Amended Certificates of Final Completion & Occupancy for Changes of Occupancy of Existing Buildings]**

SUBJECT: Egregious violation of codified and established procedure in handling of matter.

REQUEST: Return matter to Board for reconsideration -- pursuant to Board Rules of Order, Section 4. Parliamentory Procedure. Rule 4.19. Charter Provided Reconsideration. upon Mayor's request -- to provide due process to San Francisco residents.

RECEIVED
BOARD OF SUPERVISORS
SAN FRANCISCO
2009 JUN 30 PM 3:11
BY

Dear Mayor Newsom,

Please return subject legislation to the Board of Supervisors for reconsideration pursuant to law cited above.

Such substantial breach of law and established and standard procedure in the handling of this matter includes, but is not limited to, the following:

1. Subject File 090026 -- initially introduced by Supervisor Mirkarimi on January 13, 2009 -- was substituted on May 5, 2009 to add new language to amend the San Francisco Planning Code by adding new Section 359 regarding payment of a "development impact fee". Said newly proposed Planning Code amendment **has not** been subject of public hearing before the Planning Commission, which public hearing is **mandated** by Planning Code Section 302(b), with provision of such notice, for same, as is required by Planning Code Section 306.3(a)(3).[1]

2. File 090026 itself has **at no time** been subject of hearing before the Planning Commission **even though** said legislation would effect modification of such density limits and parking minimum requirements as are currently set forth in the city Planning Code.[2] Such proposed modification falls directly under Planning Commission jurisdiction, which Commission is vested, by the San Francisco Charter, with full review authority and jurisdiction in all City and County land use matters.

---

1. See **Exhibits 1.1** through **1.4**, hereto, re said File 090026 changes:
   Exhibit 1.1 - File 090026 legislation introduced on January 23, 2009, p. 1 thereof;
   Exhibit 1.2 - Legislative Digest for said 1/13/09 initial version;
   Exhibit 1.3 - page 1 of subject substituted legislation, introduced on May 5, 2009, where, at line 10 thereof, note language re **new** proposed amendment to the Planning Code "by adding Section 359";
   Exhibit 1.4 - Legislative Digest, for said 5/5/09 version, which points to said new Planning Code amendment in paragraphs one, three, & five thereof.
2. See again **Exhibit 1.4** whereon find the words, "rezonings...that increase density and/or reduce parking requirements", under the heading "Background Information", thereon.

23

3. It is clear that subject legislation would, by intent, facilitate implementation of such **change** as is **enjoined** by Court order. The California Superior Court April 6, 2009 - issued Peremptory Writ of Mandate, No. CPF04 504 780, enjoins the City & County of San Francisco to "refrain from" "approving" changes which would increase housing density and/or modify minimum parking requirements "in transit-rich areas" "through a Better Neighborhoods type planning process" = in such areas as are proposed for RTO and NCT zoning — until such time as the City certifies an adequate environmental impact report for the proposed 2004 Housing Element.

4. **Notice** pertaining to subject legislation, such as has been published in newspaper and/or in meeting agendas, has **at no time** informed the public of the fact that said legislation will allow **legalization** of such in-law units, secondary units, and ancillary dwelling units as are currently deemed **illegal. However**, such **comment** as has been made by subject legislation's sponsor, Supervisor Mirkarimi, during official hearing of the matter -- at the brief May 11, 2009 hearing of File 090026 at the Board Land Use and Economic Development Committee ("Committee") for purposes of continuing the matter; at the June 1, 2009 Committee hearing on the matter; and at the June 9, 2009 full Board hearing for first reading of same -- **has highlighted, and/or flagged,** the intent of subject legislation to, thereby and therewith, enable legalization of **illegal** in-law, secondary, and ancillary dwelling units.[3]

   Such **deficient notice**, as has been provided, **violates both** the requirement of **Board Rule 4.33 Reading Titles.** that "abbreviated titles...clearly express... the nature of the measure" **and** the requirement of San Francisco Sunshine Ordinance Section 67.7. AGENDA REQUIREMENTS. Subsections (a) & (b) that such notice be provided as contains "a meaningful description" "sufficiently clear and specific to alert a person of average intelligence and education whose interests are affected by the item that he or she may have reason to attend the meeting or seek more information on the item."[4] Supervisors and Planners know that **all** prior proposals to legalize illegal units -- when properly flagged as such -- have engendered **much** opposition in the past several years.

5. Again, see No. 2 above. As stated thereat, File 090026 itself has **at no time** been subject of hearing before the Planning Commission **However**, about a month after File 090026 's January 13, 2009 introduction, Supervisor Mirkarimi introduced **another** file, File 090227, which File 090227 proposed legislation, essentially the same as that set forth in File 090026, requiring issuance of amended Certificates of Final Completion and Occupancy ("CFC & O"). File 090227 legislation differed from that of File 090026, however, by restricting the application of said CFC & O requirement to only "the RTO and NCT zoned portions of the Market & Octavia Area Plan within the boundaries of District Five." At introduction, said File 090227 legislation was subject to the Board's "30 Day Rule",

---

3. N.B.: In effect, current Planning Code controls re such non-conforming uses will, thereby, be summarily muted. It is clear that subject legislation would, by intent, facilitate implementation of such change as is enjoined by Court.
4. Re such **notice** as has been provided see, hereto, **Exhibit 2.1**, File 090026 Master Report ("MR") showing subject legislations "abbreviated title" at headings "File Name" and "Title", thereon; and see, at **Exhibit 2.2, Board** Meeting Agenda notice re subject legislation.

which Rule deferred Board hearing on the matter until March 26, 2009.[5]

Said **File 090227 legislation** was scheduled for public hearing before the Planning Commission on Thursday, March 26, 2009. See the attached Planning Department Memo, dated March 5, 2009, **acknowledging** that subject File 090227 legislation "would allow legalization of in-law and secondary units."[6] Planning Commission hearing **notice** did not signal same.[7] Due to deficient notice, only three members of the public appeared to comment on the matter, two of whom testified that they had only become aware of the nature of the matter on the morning of said hearing.

Commissioners **sought additional time** for public and Commission consideration of the matter, whereupon the Commission was **strictly advised** by **both** Planning Department staff **and** by Commission President Miguel that **immediate action was necessary** thereat, if Commissioners wanted a voice in the matter, because the time granted for Commission hearing and action had **'lapsed'**. See again footnote **6** hereon, with documentation establishing April 5, 2009 as the deadline for Commission "public hearing and action". Even **more significant**, however, is the fact that **two days before** subject March 26 Planning Commission hearing on the matter -- on March 24, 2009 -- Supervisor Mirkarimi **introduced a substitute File 090227 ordinance** which substitution triggered a new "30 Day Rule" deferring consideration of the matter until **April 23, 2009.**

Note, entered on File 090227 's updated Master Report[8] under "History" **at** " 3/24/2009 ", the words: "The **due date** for 30 day rule was **reset** as the substituted legislation is **significantly different from** the original legislation as advised by the City Attorney's Office.", **and at** " 4/2/2009 " : **"Referred amended version** to Department of Building Inspection **for public hearing." Given** Planning Commission jurisdiction in land use matters, **and in light of** such "significantly different legislation" as was substituted on **March 24**, Planning Commission review period should, likewise, have been extended beyond the March 26, **stated "deadline".**

But, **pushed** to act, the Commission approved modified legislation.[9] The Planning Department transmitted "Planning Commission Recommendation - **Board File 09-0227".**

---

5. Said 30 Day Rule is set forth in Board Rule 5.40. Committee Hearings on Major Policy Issues Deferred for 30 Days. See attached hereto as **Exhibit 3.1**, a **File 090227** Master Report showing, in the "Title" thereof, said restricted area for legislation application; and note, thereon, the 30 Day Rule "Due Date" of 3/26/2009. Also see, **Exhibit 3.2** hereto, the Legislative Digest for said File 090227.
6. Find said Memo attached hereto as **Exhibit 4.1**, and note said acknowledgement at lines 2 and 3 of paragraph 1. Note also the last two lines of paragraph 1, whereat is the statement, "our Department has a limited time (30 days instead of the typical 90) from transmittal by your office to **consider** bringing to hearing at the Commission." Note, on **Exhibit 3.1**, File 090227 's MR, under "History", said Transmittal date — "3/5/2009"-"Referred to Planning Commission for public hearing and recommendation."— **whereby April 5, 2009 would constitute the deadline for Commission hearing.**
7. See copy of Commission Notice of Meeting and Calendar for March 26, 2009, at Item 7 thereon re subject matter - attached hereto as **Exhibit 4.2.**
8. See said updated File 090227 MR - attached hereto as **Exhibit 4.3.**
9. At **Exhibit 4.4** hereto, find adopted Commission March 26, 2009 **Meeting Minutes** re subject hearing on **File 090227**, setting forth those **modifications to File 090227 legislation** as were **approved by Commission action.**

The above issues were raised by me in testimony at the June 1, 2009 Board Committee hearing on subject File 090026.

In light of such egregious violation of Code and established and standard procedure, I request that you return subject matter to the Board of Supervisors for reconsideration. In addition, I request that you obtain a written **Determination** from City Attorney Dennis Herrera -- pursuant to San Francisco Administrative Code, Article XI, Section 2.95. POTENTIAL CONFLICT. -- regarding the propriety of Board Committee action on June 1,2009 to pass subject matter out of Committee 'with recommendation' to the full Board **and** of the Board of Supervisors action on June 9, 2009 and on June 16, 2009 to pass subject Ordinance.

Respectfully submitted,

Marilyn Amini

[Building Code – Certificate of Occupancy Issued for Changes to an Existing Building.]

Ordinance amending the San Francisco Building Code by amending Section 109A to provide that any certificate of occupancy for a building or structure that is issued subsequent to the first certificate of occupancy shall be an amended certificate of occupancy that includes a reference to the date of the first certificate of occupancy and any subsequent certificates of occupancy that have been issued.

Note: Additions are *single-underline italics Times New Roman*; deletions are ~~*strikethrough italics Times New Roman*~~. Board amendment additions are double underlined. Board amendment deletions are ~~strikethrough normal~~.

Be it ordained by the People of the City and County of San Francisco:

Section 1. The Planning Department has determined that the actions contemplated in this Ordinance are in compliance with the California Environmental Quality Act (California Public Resources Code sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. _____ and is incorporated herein by reference.

Section 2. The San Francisco Building Code is hereby amended by amending Section 109A.1, to read as follows:

SECTION 109A – CERTIFICATE OF OCCUPANCY

109A.1 Use and Occupancy. No building or structure shall be used or occupied, and no change in the existing occupancy classification of a building or structure or portion thereof shall be made, until the building official has issued a certificate of final completion and occupancy *or an amended certificate of final completion and occupancy* therefor as provided herein, or otherwise has been approved for use by the Department of Building Inspection.

Superseded 5-5-09

FILE NO. 090026

[Building Code – Certificate of Occupancy Issued for Changes to an Existing Building]

LEGISLATIVE DIGEST

Ordinance amending the San Francisco Building Code by amending Section 109A to provide that any certificate of occupancy for a building or structure that is issued subsequent to the first certificate of occupancy shall be an amended certificate of occupancy that includes a reference to the date of the first certificate of occupancy and any subsequent certificates of occupancy that have been issued.

Existing Law

Under Section 109A of the San Francisco Building Code, the Department of Building Inspection issues a new Certificate of Final Completion and Occupancy each time an existing building or structure is enlarged, seismically upgraded, or there is a change in use or occupancy of the entire building or a portion of the building.

Amendments to Current Law

Section 109A is proposed to be amended to require certificates of occupancy issued subsequent to the first certificate of occupancy for the building or structure to be an amended certificate of occupancy, which shall indicate the date the first certificate of occupancy and any subsequent certificates of occupancy were issued.

Background Information

Issuing an amended certificate of occupancy, rather than a new certificate of occupancy, when an existing building's structure or use is modified makes the building's historical occupancy record more clear to the general public.

[Requiring Amended Certificates of Final Completion and Occupancy for Changes of Occupancy of Existing Buildings.]

Ordinance amending the San Francisco Building Code by amending Section 109A to provide that an Amended Certificate of Final Completion and Occupancy shall be issued for an existing building where there is an increase in the number of legal dwelling units resulting in a change of occupancy, and to require the Amended Certificate of Final Completion and Occupancy to include a reference to the date of the first certificate of occupancy and any subsequent certificates of occupancy that have been issued for the building; amending the Planning Code by adding Section 359 to provide that a requirement to pay a development impact fee prior to issuance of a certificate of occupancy shall include payment of the fee prior to issuance of an amended certificate of occupancy.

Note: Additions are *single-underline italics Times New Roman*; deletions are ~~*strikethrough italics Times New Roman*~~. Board amendment additions are double underlined. Board amendment deletions are ~~strikethrough normal~~.

Be it ordained by the People of the City and County of San Francisco:

Section 1. The Planning Department has determined that the actions contemplated in this Ordinance are in compliance with the California Environmental Quality Act (California Public Resources Code sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 090026 and is incorporated herein by reference.

Section 2. The San Francisco Building Code is hereby amended by amending Section 109A.1, to read as follows:

FILE NO. 090026

[Building Code – Requiring Amended Certificates of Final Completion and Occupancy for Changes of Occupancy of Existing Buildings.]

LEGISLATIVE DIGEST

Ordinance amending the San Francisco Building Code by amending Section 109A to provide that an Amended Certificate of Final Completion and Occupancy shall be issued for an existing building where there is an increase in the number of legal dwelling units resulting in a change of occupancy, and to require the Amended Certificate of Final Completion and Occupancy to include a reference to the date of the first certificate of occupancy and any subsequent certificates of occupancy that have been issued for the building; amending the Planning Code by adding Section 359 to provide that a requirement to pay a development impact fee prior to issuance of a certificate of occupancy shall include payment of the fee prior to issuance of an amended certificate of occupancy.

Existing Law

Under Section 109A of the San Francisco Building Code, the Department of Building Inspection issues a new Certificate of Final Completion and Occupancy each time an existing building or structure is enlarged, seismically upgraded, or there is a change in use or occupancy of the entire building or a portion of the building.

Under Article 3 of the Planning Code, certain development impact fees are required to be paid prior to issuance of a certificate of occupancy.

Amendments to Current Law

Section 109A is proposed to be amended to require that an Amended Certificate of Final Completion and Occupancy shall be issued for an existing building where there is an increase in the number of legal dwelling units resulting in a change of occupancy. The Amended Certificate of Final Completion and Occupancy shall indicate the date the first certificate of occupancy and any subsequent certificates of occupancy were issued.

Article 3 of the Planning Code is proposed to be amended by requiring that when a development impact fee is required to be paid prior to issuance of a certificate of occupancy, it shall also include an amended certificate of occupancy.

Background Information

Due to recent and proposed rezonings of residential areas in the City that increase density and/or reduce parking requirements, it is anticipated that some owners of existing residential buildings may add new dwelling units to their buildings. Issuing an amended certificate of occupancy, rather than a new certificate of occupancy, when an existing building's legal use is modified would allow the City to track the building's historical occupancy record and make it more clear to the general public.

Ordinance authorizing settlement of lawsuits filed by Transdyn/Cresci Joint Venture ("Joint Venture") against the City and County of San Francisco (the "City") seeking an unspecified amount of damages; the first lawsuit was filed by JMB Construction, Inc. against the Joint Venture on May 28, 2003, as JMB Construction, Inc. v. Transdyn/Cresci Joint Venture et al. Various cross-actions were filed, including an action filed by the Joint Venture against the City. The actions were coordinated as the SCADA cases in Alameda County Superior Court, JCCP 004364. The action between the Joint Venture and the City went to trial. The jury awarded a net judgment to the Joint Venture, and the trial court entered judgment (including costs) against the City in the amount of $4,874,200.16. Cross-appeals were filed by both the Joint Venture and the City. The material terms of this settlement are: 1) The City will pay a total of $4,973,143.27 to the Joint Venture for the judgment and interest on the judgment; and 2) The City will pay $950,000 to settle all remaining issues, including the Joint Venture's claim for attorney's fees.

FILE NO. 090227

[Building Code – Pilot Project Requiring Amended Certificates of Final Completion and Occupancy for Changes to Existing Buildings in the RTO and NCT zoned portions of the Market & Octavia Area Plan Within the Boundaries of District Five.]

LEGISLATIVE DIGEST

Ordinance amending the San Francisco Building Code by amending Section 109A to provide that in the RTO and NCT zoned portions of the Market & Octavia Area Plan within the boundaries of District Five, an Amended Certificate of Final Completion and Occupancy shall be issued for an existing building where a Certificate of Occupancy would be issued under the Code, and to require the Amended Certificate of Final Completion and Occupancy to include a reference to the date of the first certificate of occupancy and any subsequent certificates of occupancy that have been issued for the building.

Existing Law

Under Section 109A of the San Francisco Building Code, the Department of Building Inspection issues a new Certificate of Final Completion and Occupancy each time an existing building or structure is enlarged, seismically upgraded, or there is a change in use or occupancy of the entire building or a portion of the building.

Amendments to Current Law

Section 109A is proposed to be amended to require that in the RTO and NCT zoned portions of the Market & Octavia Area Plan within the boundaries of District Five, an Amended Certificate of Final Completion and Occupancy shall be issued for changes to an existing building that would require issuance of a Certificate of Final Completion and Occupancy under the existing Code. The Amended Certificate of Final Completion and Occupancy shall indicate the date the first certificate of occupancy and any subsequent certificates of occupancy were issued.

Background Information

Because the RTO (Residential Transit-Oriented Neighborhood District) and NCT (Neighborhood Commercial Transit District) zoning in the recently-enacted Market & Octavia Area Plan increases the permitted density and decreases the parking requirements in the Area, it is anticipated that some owners of existing residential buildings may add new dwelling units to their buildings. Issuing an amended certificate of occupancy, rather than a new certificate of occupancy, when an existing building's structure or use is modified would allow the City to track the building's historical occupancy record and make it more clear to the general public. Because the proposed legislation will change the current practices and procedures of the Department of Building Inspection, this change will apply as a pilot project only to buildings zoned RTO or NCT within the recently adopted Market & Octavia Area Plan that are within the boundaries of District Five. Other areas within the City may be added in the future.

Subject Request Transmittal of Legislation

Dear Linda,

I'm requesting that the following legislation be transmitted to the Planning Department for review. Although this is not a Planning Code amendment, it is my understanding that the legislation would allow the legalization of in-law and secondary units. As such it has land use implications that may warrant a hearing before the Planning Commission. For this sort of review our Department has a limited time (30 days instead of the typical 90) from transmittal by your office to consider bringing to hearing at the Commission.

Please let me know if you have questions.

312 notification process right now. If neighbors have concerns about that phase of the project that includes the change in use and the third floor residential, then it might come before you under Discretionary Review. The Board continued this item to early June to allow time for the 312 notification process to complete and see if any DR requests are filed and to allow time for the project sponsor to change their plans and permits.

HISTORIC PRESERVATION COMMISSION

There HPC did not meet this week

D. GENERAL PUBLIC COMMENT – 15 MINUTES

At this time, members of the public may address the Commission on items of interest to the public that are within the subject matter jurisdiction of the Commission except agenda items. With respect to agenda items, your opportunity to address the Commission will be afforded when the item is reached in the meeting. Each member of the public may address the Commission for up to three minutes.

SPEAKERS:

Cynthia Servetnick – San Francisco Preservation Consortium: she read a letter to Director Rahaim regarding the series of meetings and public hearings on amendments to Articles 10 & 11 and requested that one of their members participate in this process.

Charlie Marsteller – regarding 1268 Lombard demolition

Sue Hestor – She requested that the commission put advance notice of policy hearings on the weekly calendars. She told the commission to not do hearings that are not broadcast.

E. REGULAR CALENDAR

7. 2009.0198U (A. RODGERS: (415) 558-6395)
AMENDMENTS TO THE BUILDING CODE - **Pilot Project Requiring Amended Certificates of Final Completion and Occupancy for Existing Buildings in the RTO and NCT zoned portions of the Market & Octavia Area Plan Within the Boundaries of District Five.** Ordinance introduced by Supervisor Mirkarimi [BF 090227] amending the San Francisco Building Code by amending Section 109A to provide that in the RTO and NCT zoned portions of the Market & Octavia Area Plan within the boundaries of District Five, an Amended Certificate of Final Completion and Occupancy shall be issued for an existing building where a Certificate of Occupancy would be issued under the Code, and to require the Amended Certificate of Final Completion and Occupancy to include a reference to the date of the first certificate of occupancy and any subsequent certificates of occupancy that have been issued for the building; and adopting findings, including environmental findings and findings of consistency with the General Plan and the Priority Policies of Planning Code Section 101.1.
Preliminary Recommendation: Approval with Modifications

SPEAKERS:

Tim Colen – San Francisco Housing Action Coalition, Peter Cohen – Deboce Triangle, and Calvin Welch – Council of Community Housing Organizations

ACTION: Approved as modified to extend the proposal throughout the city; and the Supervisors were urged to continue to explore affordability.

San Francisco Rent Board
25 Van Ness Ave., Suite 320
San Francisco, CA 94102-6033

To the Board,

My wife and I have owned and managed a two-unit apartment on Whitney Street for the past 33 years. After a six month illness, my beloved wife of many years passed on last August at age 73. In recent years my wife and I had often discussed getting out of the landlord business.

Since our home is small, we had intentions of keeping the rental property and allowing our children and their families to stay there when they visit us from time to time. Kind of like a guest house. The property is currently in a trust that I am the Trustee of and we have willed the property to our children when we both have passed on.

One of the apartments is due to be vacated the end of this month. With the continued passage of numerous and onerous anti-landlord legislation, I am at a point where I don't want to deal with the hassles of all these laws any more. I am currently planning on leaving the soon to be vacated apartment vacant and doing the same for the remaining apartment when it is vacated.

I'm getting old and want to enjoy the few years I have left without having to worry about all the rent control rules and laws that I have been hand cuffed by.

Should I notify you when this happens and will I continue to be charged the annual Rent Control Board fee?

Regards, Art Ritchie

Subject Daly tenants'-rights bill-oppose

Judith Robinson

1 July, 2009

RE: Oppose Daly tenants'-rights bill.

The Honorable Gavin Newsom
Mayor
City Hall
1 Dr. C. Goodlett Blvd.
San Francisco, CA. 94102

Dear Mayor Newsom:

I wish to express strong opposition to the so-called tenants'-rights bill passed out of the Board of Supervisors, sponsored by Supervisor Chris Daly.

It would be a travesty, as well as un-constitutional and illegal, to impose such constraints on landlords like those of us who are retired, and own and occupy buildings with one or two flats, as I do.

The rental income is essential to those of us on fixed incomes.

As many of us age, it may be necessary to occupy a different part of our property, such as lower floors. Such prohibitions as those imposed by the Daly legislation would work terrible hardships on retirees with rental flats in owner-occupied residential buildings.

Thank you for taking these views into consideration.

Sincerely,
Judith Robinson

Re: Amendment to Administrative Code Sec. 57.8 Film Rebate Program

Board of Supervisors:

As a resident of the City and County of San Francisco, I am asking for you to support Ordinance file No. 090627 amending the "Scene in San Francisco" Rebate Program, Administrative Code Sec. 57.8, by extending the Film Rebate Program through June 30, 2012 and modifying the definition of "qualified production cost" in order to limit rebates available to film productions for the use of certain police services.

Thanks to your support earlier this year, the program was changed, making it more effective and user-friendly to ensure that more jobs and production dollars are attracted to San Francisco during these challenging times for our economy. In the past, the program was under utilized due to its administrative challenges. Please give the newly improved program the chance to prove its value in creating jobs for city residents.

This ordinance will not benefit productions that are not based in the City and it will help us to maintain the integrity and authenticity of the stories that center on our culture and are important to the community - productions such as *Pursuit of Happyness, Rent, Milk* and *La Mission*. From *Bicentennial Man* to *Trauma*, productions promote tourism and bring good jobs to San Francisco, which means revenue for the City and for business.

Film and television production in San Francisco has severely declined over the last decade. We are in competition with other jurisdictions aggressively luring production to their locales with financial incentives. Our entertainment industry labor force, comprised mostly of union jobs that pay competitive wages and include benefits, is threatened. It is also worth noting that the motion picture business is a clean industry that has the residual effect of promoting the City as a tourist destination.

This ordinance extending the "Scene in San Francisco" Rebate Program will help San Francisco compete for this lucrative industry. Your support is essential. Thank you for your consideration.

Sincerely,

Karen H Lipney

Subject San Francisco COULD solve its Own Homeless and Housing Problems...Fw: [SFHomeless Yahoo Group Blog -SF, CA USA]

To: sfhomeless@yahoo.com

Date: Thursday, July 2, 2009, 1:45 PM

Listen up everbody in San Francisco...

With Back Bone and Compassion, THIS CITY'S WORKERS ALONE, could go a long way towards curing the ills of Bad and Harmful City Hall Policies on Housing, Homeless and Medical Services...

Check these numbers out.

If about 1,000 City Workers and others making over $100,000 per year -- were to be GENEROUS ENOUGH to donate 2 or 3 Percent of their annual income (less than what some pay for lattes, dining out, boose and other luxuries) we would NOT have a HEALTH CRISIS about to explode on our City.....

City Workers	Combined Salaries @ $100K/Year Each
100	$ 10,000,000
200	$ 20,000,000
300	$ 30,000,000
400	$ 40,000,000
500	$ 50,000,000
600	$ 60,000,000

29

700	$ 70,000,000
800	$ 80,000,000

If 800 City Workers GAVE a mere 2.5% of their $100k Plus Annual Salary, we'd have $2 Million Dollars To Spend On People In Need TODAY !!

BIG QUESTION:
Will San Francisco's $100K Middle/Upper Class City Workers (and residents!) Going To Help Those Who Have Nothing, Or Not ?

Are WE ALL going to STEP UP to cure OUR OWN PROBLEMS or are we going to let OTHERS TELL US and make us BORROW MONEY to fix problems that WE COULD FIX OUTSELVES, LOCALLY, IF WE HAD THE WILLPOWER AND THE HEART...

Think About It San Francisco...

David.

Subject Budget cuts i.e. humanitarian crisis

#090779

Supervisors:

Today, after participating in a protest against cuts to San Francisco's health and human services budget, I met a remarkable couple. As my fellow protesters and I were disbanding, the couple -- I'll call them Rosa and Richard -- urged us to join them at a meeting of the [Homeless] Shelter Monitoring Committee, which was about to take place inside of City Hall. My partner and I took them up on the offer.

During the public comment portion of the Shelter Monitoring Committee meeting, Richard stood up at the podium. He spoke briefly of his efforts at turning his life around as an able-bodied and employable man who, granted, had made some bad decisions at a certain point in his life. He then read aloud to the Committee the text of the mission statement that hangs on the wall at the shelter where he and his wife sleep. The mission statement was replete with such aspirational words and phrases as "compassion," "integrity," and "self-determination" - which rang hollow, in Richard's view, given the punitive and abrasive treatment that he and Rosa routinely receive at the hands of shelter staff.

When the meeting concluded, my partner and I got into a conversation with Rosa and Richard and walked with them for several blocks after leaving City Hall. Our progress was slow because Rosa was limping. Rosa told me, in a manner devoid of self-pity, of the particulars of her situation. For the past four years, she has suffered from a systemic disease impacting her lymph nodes. Pus accumulates in one of her legs, which she keeps wrapped in diapers to absorb the pus and prevent infections from developing due to her chronically open pores. Her foot below the affected leg is discolored from impaired circulation.

Rosa has been told that, in her present condition, should be elevating her leg for fifteen hours a day. As a homeless person, however, this is impractical. She cannot simply sit at the library or in a café for hours on end without arousing suspicion. Nor does she have regular day-time access to any shelter. Rosa has been hospitalized for thirty days or more on twenty-two occasions since her diagnosis --- yet, Medicaid refuses to pay for the materials she needs to wrap her leg.

Rosa also spoke of the inadequate and gruel-like food provided to her at the shelter, and the lack of access to a healthy diet she and Richard experience due to limited means and mobility. All of these things she conveyed to me with gripping clarity and without relinquishing her dignity.

The extremity of Rosa's circumstances would easily crush another person's spirit and will. It is bad enough to chronically want for the basic needs in life that many of us take for granted. Worse, is to be fated; fated by virtue of belonging to a certain demographic. "The most evil and insidious thing," Richard commented at one point this morning, "is that all of this is by human design."

Kim Rohrbach

OFFICE OF THE
CITY ADMINISTRATOR

Gavin Newsom, Mayor
Edwin M. Lee, City Administrator

June 29, 2009

Supervisor John Avalos
Chair, Board of Supervisor Budget & Finance Committee
City Hall Room 244
San Francisco, CA 94102

Dear Supervisor Avalos:

Thank you for the opportunity to present the General Service Agency's proposed FY 2009-2010 budget. I write in response to your request for information regarding the Office of Labor Standards Enforcement (OLSE), specifically on revenue generated by OLSE enforcement actions to the Department of Public Health and on OLSE's staffing changes in the past year.

OLSE Enforcement Generates Revenues to Department of Public Health
As you may know, OLSE enforces two health care laws that generate revenue to the Department of Public Health: the Health Care Security Ordinance (HCSO) and the Health Care Accountability Ordinance (HCAO). The HCSO is a "law of general application," meaning that it applies to all employers over a threshold size with employees in San Francisco; the HCAO applies to certain city contractors and leaseholders.

Under the HCSO, employers with 20 or more employees (and non-profit employers with 50 or more employees) must spend a minimum amount (set by law) on health care for covered employees. Employers may choose how to make those health care expenditures, with the City Option (Healthy San Francisco) as one choice. OLSE enforcement actions have resulted in some employers providing health insurance, some employers establishing health reimbursement accounts for employees, and some employers making payment to Healthy San Francisco. As of June 19, 2009, in FY 2008-2009 OLSE enforcement actions under the HCSO have resulted in $2,037,767 in payments to Healthy San Francisco from 43 employers. These payments are verified by documents submitted by the employer to OLSE and confirmation from Healthy San Francisco.

The HCAO requires City contractors and certain tenants to offer health plan benefits to their covered employees or to make payment to the Department of Public Health (DPH). OLSE enforcement actions have resulted in some employers providing health insurance and some employers making payment to DPH. As of May 30, 2009, in FY 2008-2009 OLSE enforcement actions under the HCAO have resulted in $221,931 in employer payments to the DPH. In the past three fiscal years, that figure is $978,809. These payments are verified by documents submitted by the employer to OLSE and confirmation from DPH.

OLSE Staffing Changes in FY 2008-2009
To enforce San Francisco's seven labor laws, OLSE began FY 2008-2009 with 19 budgeted positions, including a temporary, one-year HCSO City Hall Fellow (shown in DHR's budget). The City's mid-year adjustments eliminated a vacant Deputy Director position. The proposed FY 2009-2010 budget would eliminate a vacant Minimum Wage/Paid Sick Leave investigator position (designated Spanish bilingual) and a vacant Prevailing Wage investigator position. In addition, the proposed budget does not include funding for the HCSO City Hall Fellow. As proposed, the budget would reduce OLSE staffing to 15 positions.

Board of Supervisors
Room 250, City Hall
San Francisco, CA
94103

Re: City Employee Costs Too High: Restructure All Union Contracts.

Supervisors:

I am not against unions, but I have enclosed a newspaper story of San Mateo County's Civil Grand Jury Report, because the report applies to the City and County of San Francisco. You just cannot these unions pussy whip this City & County as we approach a fiscal crisis not seen in its history. Read the report carefully. Enclosed is a copy from the Daily Journal, a San Mateo County newspaper.

San Mateo Country Grand Jury Report Recommendations:

1) Create a two tier health care benefits system for new hires
2) Renegotiate contracts with City unions to modify current benefits
3) Begin competitive hiring practices, cross training and outreach programs
4) Reduce the need for staff by streamlining services, partnering with other cities and contracting out functions
5) Increase public involvement by holding public hearings before closed door sessions, during union negotiations to counter union wage and benefit pressure
6) Ask voters through ballot measures whether they want two tier systems
7) Start mandatory wage freezes
8) Total days off and sick pay conversion has to be reduced

It is my opinion that the Board of Supervisors has to start acting like a corporate Board of Directors. And this is so, because the City and County of San Francisco has a deficit of 600 million dollars or more, and none of you are really equipped with the financial aptitude to deal with it. And, although I am, I have completed 190 or more applications for Administrative Analysts posts since 2006, "Classes 1820-1826 with scores of 1000-1060, Mayor Newsom and your offices, after all of my complaints, have yet to hire me.

Sincerely,

Emil Lawrence

Grand jury: City employee costs too high

DAILY JOURNAL STAFF REPORT

The cities and towns of San Mateo County must rein in employee costs through tiered benefit systems, renegotiated union contracts and cuts to the number of workers when possible, according to a civil grand jury report released yesterday.

Although cities try to balance budgets and accommodate costs through actions like new fees, taxes, bonds and reserves, jurisdictions instead need to "halt and reverse the escalation of employee costs," the grand jury found.

Those costs count for approximately 70 percent of the cities' operating budgets and continue to rise as cities battle with decreased property tax and sales tax revenue, dropped state contributions and the expectations the California Public Employees' Retirement System will require cities to contribute even more.

Stop-gap measures like temporary wage freezes and furloughs are a start but longer-term solutions are needed, the grand jury concluded.

The report's recommendations include:

- Create a two-tier retirement and health care benefits system for new hires;
- Renegotiated contracts with unions to modify current benefits for existing employees;
- Begin competitive hiring practices like cross-training and outreach programs;
- Reduce the need for staff by streamlining services, partnering with other cities and contracting out some functions;
- Increase the public's involvement by holding public hearings before closed session negotiations to counter union pressure;
- Ask voters through ballot measures whether they want two-tier systems.

Some cities in the county already employ some of these recommendations — Hillsborough and Brisbane, for example, end health plan obligations at retirement and San Carlos uses a two-tiered system for new hires — but the grand jury suggests every jurisdiction begin implementing them.

The jury particularly encourages the merging and streamlining of services. Two of the county's cities have "unnecessary duplication," the jury found, and should consider sharing with neighboring cities or the county. Similarly, services can be less expensive for cities to contract rather than to deliver in-house, according to the report.

Cities advised to trim benefits

Salaries and benefits paid by city governments in San Mateo County are rising faster than revenues, the county grand jury said in a report yesterday.

To balance budgets, the grand jury recommended wage freezes, furloughs and other steps, such as:

- Benefits for newly hired municipal employees should be reduced including pensions and post-retirement health care.
- For current, as well as newly hired employees, salary increases, total days off, the ability to convert sick leave to cash, and vacation pay, must be reduced.
- The practice of narrowly basing salaries and compensation packages entirely on those of nearby cities should be reconsidered.
- Where cost-efficiencies can be achieved, services should be contracted out to other cities or private sector firms.

Subject Fire Station Brown-outs

#090779

To our elected representatives:

As a resident of San Francisco who has been dutifully paying my property taxes since 1985, I am disgusted that you have made public safety a second priority over the needs of the non-profits who pander to the homeless, drug addicts, alcoholics,HIV inflicted and runaway youths. The

37

common denominator of these people is that most of them caused their own demise throughout their lifetime.

We, the law-abiding, tax-paying constituents who work all our lives to raise our families are never part of your agenda when you cast your vote on the annual budget. Frankly, you take us for granted because we are responsible people.

Now, when the budget cuts

are made by the Mayor, you use the public safety departments as a tool to play chicken with the Mayor's Office. And in the meantime, the decent people who live in the city will take their chances with the Fire Department brown-outs, slower response time for police services and the early release of more criminals in the streets.

Just like the Bologna family who has suffered from the

Board's short-sighted vote for the sanctuary city ordinance, some other family will suffer from your short-sighted vote to cut from the public safety departments.

We were a better city when native San Franciscans were in office.

Dwight Lee

Subject Don't Play With Fire

#090779

Dear Board of Supervisors,

I am writing to you today because of my concern for and opposition to any further cuts to the San Francisco Fire Department's budget, which would be in addition to that which is already promised by the department. Any further cuts could well jeopardize the safety of the citizens of our city.

You have already been told by the people of San Francisco that they are against any "brown outs" of fire stations, yet that is exactly what Chief Hayes-White said will have to happen if you blindly push through your planned budget cut for the department. Please reconsider your plan to gut a department which guards the safety of this wonderful city of ours.

Sincerely,

Pam Wade

Subject Budget cuts and SF Fire Dept

#090779

Dear Mayor Newsom, Members of the Board of Supervisors, and Chief Hayes-White,

Last week I addressed the Board of Supervisors as a member of a Neighborhood Emergency Response Team (NERT) and a supporter of the Fire Department's role in public safety. I am appalled that the city would consider cutting an additional $6 million "without definitions" from the Fire Department's funding. Such cuts will mean the closing of two fire houses, one of which services the Chinatown area of Emergency District Coordinator Center #1, what we know is the most vulnerable part of the city after an earthquake. Furthermore, such a cut inherently increases the likelihood of loss of life and damage to property after an earthquake. Also, it will mean the likelihood of losing the necessary professional instruction by fire fighters for the entire NERT program, the only program that teaches San Franciscans how to protect themselves and their neighbors after an earthquake. We know we need trained volunteers after an earthquake, and this is the program that trains them.

Finally, such a move is just plain short-sighted. Would the Mayor or Members of the Board give up their own homeowners insurance, life insurance, and auto insurance in order to make their personal budgets? I think the answer is a definitive "no, that would be nonsensical." I suggest the same is true of cutting the Fire Department's budget by another $6 million.

Sincerely,

Dee Seligman
Lake Merced Hill NERT co-coordinator

Subject Grove St Fire Station Closure

#090779

Dear Board of Supervisors,

I want to voice my objections to the possible closure of the Grove St. Fire Station. This is the station which serves my neighborhood as well as the city at large.

My opinion is the Board of Supervisors holds the safety of new arrivals for services as more important than the safety of the already here citizens. That is, the Supervisors are willing to close a fire station so they can provide services to the new arrivals.

It is one thing to delay road repair services, it is another thing to delay fire fighting services. The citizens of San Francisco deserve better.

Best regards,

Tom Bernard

Subject SFFD budget cuts

#090779

Honorable Supervisors:

I recognize that budget cuts are necessary given the current economic situation. However, please think of the havoc to the City's budget/finances if the San Francisco Fire Department is so underfunded as to be unable to respond in cases of fire or earthquake.

I simply cannot understand the thought process of any one of you who conclude it expedient to limit essential responses to threats to life, property, and the City itself, in order to deal with the immediate economic emergency. I trust you all know the adage "Penny-wise and pound-foolish"?

Thank you for your attention.

UNACCEPTABLE HOMELESS REDUCTIONS

These are homeless program cuts the City of San Francisco Human Services Agency and Department of Public Health are proposing that we oppose. We have identified those reductions that could be absorbed by our system, however the remaining are items the homeless system cannot absorb without jeopardizing health and well-being of destitute San Franciscans.

Service	*Program*	*# no longer served*	*Cut as proposed by Department*	*Comments*
Human Services Agency Homeless Shelter Beds	**Next Door Shelter**	52 per night	$378,000	Women's shelter beds on second floor of Next Door shelter. This would fund continued sheltering of women.
	SVDP 150 Otis	32 per night	$288,000	Would fund 9 months of continued shelter at 150 Otis, slated for permanent closure
Homeless Shelters Daytime Access	**Next Door Shelter Sanctuary MSC-South SVDP**	790 per day	$455,000	This would limit shelters to 15 hours per day. Residents would not have access to beds during day.
Homeless Drop-In Centers	**Mission Neighborhood Resource Center**	179 per year	$157,000	Proposed elimination of women's services at neighborhood resource center in Mission District. Center provides showers, storage, health care, psychiatric care, harm reduction, housing placement, and more.
Permanent Supportive Housing	**Various**	3,000	$800,000	This would mean more than a doubling of caseloads in programs that serve disabled and fragile formerly homeless adults and families. Evictions could rise by as much as 20%, as severely impaired residents are unable to live independently without support.
Job Training, placement and retention	**Supportive Housing Employment Collaborative**	150 per year	$114,000	This is a small investment by city represents 75% of SHEC budget and grows amazing results. SHEC serves formerly homeless people in supportive housing and has 75% success in graduates landing jobs.
Totals - HSA		Over **4,000** humans negatively impacted	**$1,526,000**	Community members are not asking for a complete restoration of homeless cuts. These represents out of $20 million in proposed HSA cuts or $3,058,029 in homeless cuts. The cuts represented here are those that would cause the greatest harm, and which should be restored.

6/30/09

Department of Public Health				
Psychiatric treatment and wrap around services for homeless people	**Caduceus Outreach Services**	100 Clients	**$350,000**	This program serves some of the most disabled dually diagnosed homeless people in San Francisco. They connect individuals who have been failed by the City's mental health system and provide psychiatric treatment through volunteer psychiatrists and wrap around services.
Neighborhood Resource Center and Drop-in Services	**Central City Hospitality House Tenderloin Self-Help Center**	13,000 per year	$67,621	This proposal would have closed a neighborhood center serving the poorest neighborhood in San Francisco, **but was restored by the Mayor in part**. The Self-Help center provides community building, Mental Health and substance abuse services, employment, job placement, case management, computer access, food, health and hygiene services to both housed and non-housed individuals. Full funding is needed, with the closure of Tenderloin Health which serves 14,000 people a year, and will cause greatly increased patronage at the Self- Help Center
Detoxification services – social model	**St. Vincent de Paul Ozanon Detox**	2,851 per year at With and 2,462 at Howard Street	**$661,196**	The proposal is to close all of Ozanom which has two floors of separate programs. This is the only remaining detox in the city that does not require medical necessity to enter. **$525,009 has been restored by the Mayor, this is remaining funding needed.**
Support Services for Single Room Occupancy Hotels Tenants	**SRO Collaborative and SRO Families United**	1,560 family members 4,460 single adults	**$350,000 DPH $750,000 DBI**	This program serves individuals as well as families in four different neighborhoods who are low income and vulnerable to tenant abuse. The work is peer driven and ensures alienated families and individuals have their tenant rights protected, improves the conditions in the hotels and works to ensure families are able to move into decent affordable housing.
Transportation for Homeless People	**CATS**		**$366,667**	Reduce homeless van transportation to evenings, as medical usage during daytime hours.
DPH Total		19,973 clients per year losing services	**$2,536,790**

Subject Chief Hayes-White threatens to "brown-out" a busy, Chinatown Engine Co.. surrounded by busy Engine Companies.

File #090779

Chief Hayes-White is merely fanning the flames of possible "brown-outs."

A Fire Chief who wasn't playing politics would "brown-out" a slow Engine Co. with maybe 2 runs a day, that is surrounded by other slow Engine Companies.

No, she picks Chinatown to further stir up opposition and uses a criterion that suits her goal and makes sense to the uninformed.
However, when you know the surrounding companies to Station #2 are also relatively busy, the likelihood of further response is evident.
I have **highlighted** the Companies that normally support Station # 2.

Below is an Audit of the SFFD by the S.F. Controller. He was guided by facts, not political theater. Common sense is also a firefighting tool.

Sincerely yours,

Jim Corrigan

"Finding 1: Summary of Recommendations

Combined analysis of demand, workload and travel/response times shows that the Fire
Department should consider closing stations and/or units with low call volume and good
coverage from nearby stations and units.

Taken together, these analyses point to good candidates for reductions:

• Stations 20, 24 and 26 average only two responses per day each and the areas served
are within rapid travel time distance of each other and of other nearby stations.

• The areas surrounding Station 18, Station 23 and Station 40 are relatively low volume
per unit and can be served by units based in one or more of those and/or nearby

39

stations.

• Trucks 10 and 14 average only two and four responses per day and serve proximate
areas.

• Under some reduction scenarios, the City might also want to change nearby units to
have a paramedic on board—i.e. convert Basic Life Support (BLS) engines to Advanced
Life Support (ALS) engines or replace engine units with medics to better meet the need
for emergency medical service (see next section-Finding 2). "

Table 2: Stations and Average Responses Per Day FY 2003-2004

Station Number	Location	Average Daily Responses Per All Units
Station 20	Laguna Honda	2 Engine
Station 24	Upper Market	2 Engine

Re: Testimony Regarding Raid of Community Living Fund to Balance Mayor Newsom's Proposed Budget for FY '09–'10

Dear Chairman Avalos and Members of the Budget and Finance Committee,

The enclosed letter requests that the Budget and Finance Committee restore, by preventing, Mayor's Newsom's raid of $1 million from the Community Living Fund in order to balance his proposed FY '09–'10 City budget.

Sincerely,

Patrick Monette-Shaw

Re: Testimony Regarding Raid of Community Living Fund to Balance Mayor Newsom's Proposed Budget for FY '09–'10

Dear Chairman Avalos and Members of the Budget and Finance Committee,

This letter requests that the Budget and Finance Committee restore, by preventing, Mayor's Newsom's raid of $1 million from the Community Living Fund in order to balance his proposed FY '09–'10 City budget.

It has been widely reported that Mayor Newsom's FY '09–'10 proposed budget raids $2.3 million out of the City's public campaign financing program, a program required under City law.

But sadly, completely unreported by the news media is that Newsom is also raiding $1 million from this community living fund that was established to help elderly and disabled San Franciscans, even though a response to a public records request in December 2008 indicated there were 129 people on a waiting list for those funds. This $1 million raid is in addition to an almost $1 million cut the Department of Public Health proposed to its Health at Home program serving, among others, seniors and disabled people.

On Thursday, June 11 during a meeting of the Mayor's Long-Term Care Coordinating Council, Catherine Dodd, Mayor Newsom's Deputy Chief of Staff for Health and Human Services, announced that Newsom has taken $1 million from the currently unspent $5 million balance in the City's Community Living Fund (CLF) in order to balance his FY '09–'10 budget. Dodd didn't elaborate on whether Newsom has any intention of ever repaying the $1 million he's raiding from the CLF.

This is the same Newsom who prevented the full 1,200-bed rebuild at Laguna Honda Hospital, by cutting the now $593 million replacement facility to only 780 beds — and the same Newsom who ***prematurely*** cut Laguna Honda to only 780 beds ***prior to*** opening the new facility in order to help balance his FY '08–'09 City budget. This is also the same Newsom who permitted a mid-year Department of Public Health budget cut that closed the Adult Day Health Care (ADHC) program at Laguna Honda Hospital serving seniors and people with Alzheimer's in the spring of 2009.

For her part, Dodd also reported to the LTCCC on June 11 that Newsom was only cutting the Department of Public Health's budget by $34 million; she may not have read page 55 in the Mayor's 430-page proposed budget submission that he is reducing the Department of Public Health's budget by $128.4 million (and the Human Services Agency with another $15.9 million cut, on page 54).

More importantly, why is Newsom raiding a fund created by San Francisco's Board of Supervisors in 2006 to assist the elderly, when a response on December 16, 2008 to a public records request reported there were 129 people on the CLF waiting list?

The CLF was created in 2006 to assist elderly and disabled residents of Laguna Honda Hospital, or people "at risk" of admission to Laguna Honda, to live independently in the community. Notably, the ordinance creating the CLF was authored by San Francisco's Supervisors Michela Alioto-Pier, Sophie Maxwell, Tom Ammiano, Bevan Dufty, and Fiona Ma, not by Newsom, despite the fact that Newsom appears to be belatedly taking credit for having created the fund (his web site for governor indicates he has "twice helped secure" CLF funding, when in fact it is a set-aside required by the Board's Ordinance number 0198-06 that does not require any involvement by the mayor to fund). He's again claiming as his own record initiatives other legislators, including Ammiano, have introduced on their own.

The program is administered by San Francisco's Department of Aging and Adult Services (DAAS) through the Institute on Aging and other organizations.

According to the Institute on Aging's web site, "the CLF program funds home and community-based services, or a combination of goods and services, which help individuals who are currently at risk of being institutionalized. The program uses a two-pronged approach: (1) intensive case management; and (2) purchase of services." The CLF program makes money available to vulnerable elderly and disabled San Franciscans for services and resources not funded by any other program.

The CLF's top priority is to assist residents of Laguna Honda Hospital and patients at San Francisco General Hospital who are able and willing to be discharged to community living. The program also assists individuals on the Laguna Honda waiting list — people at SFGH, other hospitals, and at home — and individuals at "imminent risk" for nursing home or institutional placement.

Types of services supported by the CLF includes, but is not limited to, additional in-home support service hours, adult day health care, durable medical equipment and other assistive devices, emergency food, home delivered meals, home repairs and adaptive modifications, "patch" funding for transitional housing, respite care, Medi-Cal "share-of-cost" assistance, short term rent subsidies, and transportation to medical and other appointments.

The CLF was established as a Category 4 special fund, "meaning that funds may be appropriated, interest shall be accumulated, and that any fund balance shall carry forward year to year." The CLF was passed unanimously by the Board of Supervisors on July 18, 2006, requiring that DAAS report every six months to the Board of Supervisors about the level of services provided from, and costs incurred by, the fund. It is not known whether DAAS has appeared before, or reported to, the Board of Supervisors six times (i.e., every six months) since first receiving CLF funding in FY '06–'07.

DAAS reports that the CLF received a budget appropriation of $2,887,998 in FY '06–'07, $3 million in FY '07–'08, and $4 million in the current fiscal year, FY '08–'09. This totals almost $10 million since this fund was created, and the funds are permitted to be carried forward annually. To reach a $5 million account balance, the fund appears not to have spent 50% of the $10 million in funding it has received since 2006, not including interest the account has earned. Looking at it a different way, the $5 million unspent balance in the CLF account represents 85% of the $5.89 million the CLF was allocated in its first two years.

The Board of Supervisors needs to enact legislation that specifically:

1. Restores, by preventing, the Mayor's $1 million raid from the CLF in FY '09–'10.
2. Expedites getting people off of the CLF waiting list.
3. Considers whether the diverted $1 million from the CLF should be appropriated to restore cuts to the Health at Home program, if DAAS is unable to spend down its $5 million CLF balance.
4. Prevents any Mayor (or the Board, itself) to raid Category 4 special fund accounts in order to balance the City budget in any future fiscal year.

5. Permits DAAS and other City departments to roll over Category 4 special funds for ***only*** six months into a succeeding fiscal year, or forfeit any unspent balance. Requiring that funds be encumbered during the fiscal year an appropriation was made, and then fully spent within six months into a subsequent fiscal year, is a common practice with entitlement programs. Category 4 accounts were never intended to be used to amass huge slush-fund account balances using unspent funds, and were never intended to create an on-going endowment for any program.

If San Franciscans truly care about meeting our obligations to care for elderly and disabled people, we can't permit City officials to raid funds set aside for that purpose. And we can't have 129 people (or more, by now) sitting on waiting lists while accounts grow to massive unspent balances. City officials must either spend these funds in the year intended and needed, or they must stop the pretense that they want to meet societal obligations to help the elderly and disabled.

Respectfully submitted,

Re: Testimony Regarding Communications Department Expenditures in Laguna Honda Hospital's FY '09–'10 Budget

Dear Chairman Avalos and Members of the Budget and Finance Committee,

On June 28, 2008, I wrote to Supervisor Mirkarimi (forwarded below) concerning Laguna Honda Hospital's public information staff and its Communications Department. My letter today updates the Budget and Finance Committee with additional new information.

41

I think $630 thousand in public health care funds could be better spent providing direct patient care, or to restoring critical programs facing the budget axe?

Re: Testimony Regarding Management Fat in
Mayor Newsom's Proposed Budget for FY '09–'10

Dear Chairman Avalos and Members of the Budget and Finance Committee,

On May 28, Supervisor Avalos and Supervisor Mar visited Laguna Honda Hospital's SEIU Local 1021 members. During his remarks, Supervisor Mar stated that there was no further fat in the City's budget, and that management fat had been trimmed to the bone, (or words to that effect). I was stunned hearing him say this, knowing better.

I beg to differ with Supervisor Mar. Management "fat" in the City continues to grow each year. When then Supervisor Tom Ammiano questioned the salaries of

City employees earning over $90,000 in 2003, there were 2,918 such employees, costing a total of $314,103,053. By 2007, the number of City employees earning over $100,000 had grown to 8,180 employees, at a cost of $858,005,627 — an increase of $543,902,574. Just one year later, in 2008, the number of employees earning over $100,000 had climbed to 8,933 (an increase of 753 additional employees across a single year), to a new cost of $1,160,119,659 — an increase of $302,114,032 in a single year. Surely there's some management "fat" in there.

As my enclosed testimony illustrates, Supervisor Mar is wrong. There is much more fat in the City's bloated management ranks left to trim. And we're not even close to the bone.

Respectfully submitted,

Patrick Monette-Shaw

Subj ect: Astroturfing: Laguna Honda Hospital's Publ ic Relations Campaign Usurps Direct Patient Care

Patrick Monette-Shaw

Phone: e-mail:

June 28, 2008

The Honorable Ross Mirkarimi, Member, Budget and Finance Committee
San Francisco Board of Supervisors
City Hall
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

Re: Laguna Honda Hospital's Public Relations Campaign Usurps Direct Patient Care

Dear Supervisor Mirkarimi,

I commend your request as a member of the Budget and Finance Committee to solicit information regarding the number of public information, public relations, and governmental affairs employees on the Citywide payroll. However, I believe the report City Controller Ben Rosenfield provided to you on May 21, 2008 is deficient by, at minimum, half-a-million dollars in personnel costs alone.

Nowhere in Mr. Rosenfield's report is any information regarding how much is budgeted in each City Department for public relations *non-personnel* costs — such as print and broadcast media advertising, consultants, or in-house employee newsletters, including Laguna Honda Hospital's costs to produce its *Grapevine* newsletter — that may push the $10 million expenditure for only public relations personnel costs Mr. Rosenfield reported far higher.

In his report, Mr. Rosenfield indicated that the Airport only had five such employees. However, the list of 8,180 City employees earning in excess of $100,000 provided by the previous Controller in November 2007 indicated that the Airport has a job classification 9251 Public Relations Manager, filled by incumbent Virginia Sunday, as shown in the table below.

41

	Job Class. #	Job Class. Title	Working Job Title	Base Salary	Fringe (@ 30%)	Total
DPH-LHH	1375	Special Assistant XVI	Director, Government & Community Relations	$ 128,000	$ 38,400	$ 166,400
DPH-LHH	1233	Equal Employment Opportunity Programs Specialist	Director of Community Affairs	$ 80,808	$ 24,242	$ 105,050
DPH-LHH	2588	Health Worker IV	?	$ 67,002	$ 20,101	$ 87,103
			Subtotal	**$ 275,810**	**$ 82,743**	**$ 358,553**
Airport	9251	Public Relations Manager		$ 104,346	$ 31,304	$ 135,650
			Total	**$ 380,156**	**$ 114,047**	**$ 494,203**

In addition, Laguna Honda Hospital has three such positions. The 1375 and 1233 positions are related to the LHH Replacement Project, may involve employees working out of their respective job classification codes, and may be positions Tx'd from other City Departments to LHH's budget. A third 2588 position is being added to Laguna Honda's budget as a new position for a third Volunteer Coordinator. An incumbent Volunteer Coordinator is suddenly being redeployed to support the Government and Community Relations functions at LHH.

At the same time LHH is budgeting $358,553 annually to "market" the LHH Replacement Facility, it is sadly proposing to eliminate a half-time Spiritual Care Coordinator position that reportedly costs a mere $26,000 annually. While dying patients and their grieving families are left without spiritual guidance in their most distressing time, does Laguna Honda really need to "market" its image to what is essentially a captive audience: Medi-Cal clients? As you must know, well over 95 percent of Laguna Honda's residents rely on Medi-Cal for their healthcare funding, and few other skilled nursing facilities accept Medi-Cal long-term care patients with the acuity of LHH's residents; Laguna Honda is often their only option from which to choose. Why is marketing to a captive, indigent audience other facilities will not admit (e.g., bariatric patients and patients with severe secondary psychiatric disorders) being prioritized ahead of spiritual care?

Similarly, LHH has been ordered to lay off an additional three full-time-equivalent physicians on its Medical Staff, placing the hospital at great risk for legal liability and non-compliance with regulatory mandates. As you must also know, it will take a single malpractice case — such as the recent lawsuit against the City for a medical error at SFGH that resulted in the Board of Supervisors having to approve a $5 million settlement — to completely un-do any potential salary savings from layoffs of LHH physicians.

Again, at the same time LHH is budgeting $358,553 annually in personnel costs alone to "market" the LHH Replacement Facility, will LHH's public relations astroturfing[1] include providing accurate information to its captive audience (patient population) that an inadequate, and possibly unsafe, physician-to-patient staffing ratio is being prioritized ***below*** a ***higher*** perceived need to fatten LHH's public relations department? How many other publicly-financed skilled nursing facilities in California and the rest of the nation have P.R. departments, or is San Francisco unique in utilizing scarce public health resources to usurp direct patient care?

I believe Mr. Rosenfield should dig deeper, by analyzing the City's various accounting "index, and sub-object, codes" to determine the City's true ancillary public relations costs (e.g., print and broadcast media advertising, consultants, in-house employee newsletters, etc.). He might also thoroughly investigate whether City Departments are accurately reporting whether employees are working out of class, changing their working job titles to reflect P.R. duties rather than using their job classification number job titles, as is occurring at LHH.

Given that the City Controller's report analyzing the number of public information, public relations, and governmental affairs employees on the City payroll appears to be deficient, I urge the Budget and Finance Committee to reconvene, if necessary, to reconsider the Spiritual Care Coordinator and physician cuts at LHH, if they have not already been restored to LHH's FY 08–09 budget.

Respectfully submitted,

Patrick Monette-Shaw

1 From Wikipedia: Astroturfing in American English is a neologism for formal public relations campaigns in politics and advertising which seek to create the impression of being spontaneous, grassroots behavior, hence the reference to the artificial grass AstroTurf. The goal of such a campaign is to disguise the efforts of a political or commercial entity as an independent public reaction to some political entity — a politician, political group, product, service, or event. Astroturfers attempt to orchestrate the actions of apparently diverse and geographically distributed individuals, by both overt ("outreach," "awareness," etc.) and covert (disinformation) means.

ART 2 - TO BE COMPLETED BY THE APPLICANT (If box #20b is checked)

1. Based on the information on the reverse, the Department may approve your application if you can show that public convenience or necessity would be served by the issuance of the license. Please describe below the reasons why issuance of another license is justified in this area. You may attach a separate sheet or additional documention, if desired. Do *not* proceed to Part 3.

The Shelton theater provides Quality theater productions of literary based plays to the community and has done so for the last 15 years at its present location. Our patrons would and have enjoyed a glass of beer or wine before attending the show as our license inadvertantly expired and I was instructed to re-apply from the begining. The Shelton Theater is not a drinking establishment but rather a place where locals + tourists gather to witness a professional theater show and concessions need to be professional

ART 3 - TO BE COMPLETED BY LOCAL OFFICIALS (If box #20c is checked)

The applicant named on the reverse is applying for a license to sell alcoholic beverages at a premises where undue concentration exists (i.e., an over-concentration of licenses and/or a higher than average crime rate as defined in Section 23958.4 of the Business and Professions Code). Sections 23958 and 23958.4 of the Business and Professions Code requires the Department to deny the application unless the local governing body of the area in which the applicant premises are located, or its designated subordinate officer or body, determines within 90 days of notification of a completed application that public convenience or necessity would be served by the issuance. Please complete items #24 to #30 below and certify or affix an official seal, or attach a copy of the Council or Board resolution or a signed letter on official letterhead stating whether or not the issuance of the applied for license would serve as a public convenience or necessity.

WILL PUBLIC CONVENIENCE OR NECESSITY BE SERVED BY ISSUANCE OF THIS ALCOHOLIC BEVERAGE LICENSE?

☐ Yes ☐ No ☐ See Attached (i.e., letter, resolution, etc.)

ADDITIONAL COMMENTS, IF DESIRED (may include reasons for approval or denial of public convenience or necessity):

CLERK of BOARD of Supervisors

ANGELA CALVILLO
#1 DR. CARLTON B. GOODLETT PL #244
SF, CA 94102

DEAR BOARD of Supervisors:

I HAVE AN ESTABLISHED theater AT 533 SUTTER ST. CALLED THE Shelton Theater. OUR family HAS been creating theater IN the Community SINCE 1947. OUR patrons, WHOM COME to witness literary based theater productions, WOULD ENJOY A GLASS OF BEER OR WINE BEFORE THE SHOW. WE ARE REQUESTING THE RIGHT to SELL BEER AND WINE AT OUR CONCESSION STAND to offer better CUSTOMER SERVICE IN A professional ENVIRONMENT. THIS ENHANCEMENT to THEIR 'EVENING OUT' AT THE THEATER REFLECTS ON THE professionalism of OUR FINE ARTS ESTABLISHMENT AND THEIR IMPRESSIONS OF SAN FRANCISCO AS A WORLD CLASS TOURIST DESTINATION.

Shelton, OWNER SHELTON THEATER,

cpage
C: A. Calvillo
