MOTION NO. **M01-127**

1 [Adopting findings related to the appeal of the Planning Commission's certification of the Final  
2 Environmental Impact Report for the proposed New M. H. de Young Museum Project in  
Golden Gate Park.]

3 **Motion adopting findings related to the appeal of the Planning Commission's**  
4 **certification of the Final Environmental Impact Report, Case File No. 199.455E**  
5 **(Commission Motion No. 16039, approved December 7, 2000), for the proposed New**  
6 **M. H. de Young Museum Project in Golden Gate Park, located at 75 Tea Garden Drive**  
7 **(Lot 1 in Assessor's Block 1700).**

8  
9 The New M. H. de Young Museum Project (the "Project") is proposed to be constructed  
10 at the museum's existing site at 75 Tea Garden Drive in the Music Concourse of Golden Gate  
11 Park, Lot 1 in Assessor's Block 1700, after demolition of the eight existing buildings  
12 comprising the M.H. de Young Museum and the Asian Art Museum, and after the relocation of  
13 the Asian Art Museum to its new facility in the City's Civic Center. The Corporation of the Fine  
14 Arts Museums of San Francisco submitted its application for environmental review of the  
15 proposed New de Young Museum Project on July 12, 1999 (City Planning File No.  
16 1999.455E).

17 The Planning Department for the City and County of San Francisco (the "Department")  
18 determined that an Environmental Impact Report ("EIR") was required, and provided public  
19 notice of that determination by publication in a newspaper of general circulation on May 6,  
20 2000. On July 22, 2000, the Department published the Draft Environmental Impact Report  
21 ("DEIR") for the Project. On August 24, 2000, the City Planning Commission ("Commission")  
22 held a duly noticed public hearing on the DEIR, at which time public comment was received  
23 on the DEIR, and written comments were received through August 24, 2000. The Department  
24 prepared responses to comments received at the public hearing on the DEIR and submitted in  
25 writing to the Department, prepared revisions to the text of the DEIR, and published a Draft

1 Summary of Comments and Responses on November 22, 2000.

2 A Final Environmental Impact Report ("FEIR") for the Project was prepared by the  
3 Department, consisting of the DEIR, any consultations and comments received during the  
4 review process, any additional information that became available, and the Draft Summary of  
5 Comments and Responses, all as required by law.

6 On December 7, 2000, the Commission reviewed and considered the FEIR and, by  
7 Motion No. 16039, found that: the contents of said report and the procedures through which  
8 the FEIR was prepared, publicized and reviewed complied with the provisions of the California  
9 Environmental Quality Act (CEQA), the State CEQA Guidelines and Chapter 31 of the San  
10 Francisco Administrative Code; the FEIR was adequate, accurate and objective, and reflected  
11 the independent judgment and analysis of the Department and the Commission; and the  
12 Summary of Comments and Responses contained no significant revisions to the DEIR. The  
13 Commission also adopted findings relating to significant impacts associated with the Project,  
14 and certified the completion of the FEIR in compliance with CEQA and the State CEQA  
15 Guidelines.

16 A challenge to the FEIR and the process by which the FEIR was certified was initiated.  
17 The San Francisco Superior Court issued a Writ of Mandamus on August 2, 2001, requiring  
18 the Board of Supervisors to hear an appeal of the FEIR, in compliance with CEQA.

19 The Board of Supervisors conducted a public hearing on August 20, 2001, to consider  
20 the appeal of the Planning Commission's certification of the FEIR. Prior to the August 20  
21 hearing the FEIR files, and other Project-related Department files, were available for review by  
22 the Board of Supervisors and the public, and those files were part of the record before the  
23 Board of Supervisors on August 20, 2001.

24 In reviewing the appeal of the certification of the Final Environmental Impact Report,  
25 the Board reviewed and considered the written record before the Board, including the Final

1 Environmental Impact Report, and all of the public comments made in support of and opposed  
2 to the appeal. At the August 20 hearing, and by letter to the Board dated August 17, the  
3 Corporation of the Fine Arts Museum (the Project sponsor) stated that it had discovered a  
4 discrepancy in the height of the tower analyzed in the FEIR and the height actually proposed  
5 for the tower, which affected the visual and shadow impact analyses of the FEIR. The height  
6 of the tower analyzed for shadow and visual purposes in the FEIR was based upon an  
7 inaccurate computer file which scaled the tower to 144 feet rather than its actual 160 feet.

8 On August 20, 2001, the Board, after carefully balancing the competing ~~public and~~  
9 ~~private~~ interests, disapproved the certification of the Final Environmental Impact Report for the  
10 New M. H. de Young Museum Development Project, and remanded the final Environmental  
11 Impact Report to the Planning Commission for further action consistent with the Board's  
12 findings.

13 NOW, THEREFORE, BE IT MOVED, That the Board of Supervisors finds that the Final  
14 Environmental Impact Report for the proposed New M. H. de Young Museum Project is not  
15 adequate, accurate and objective in all portions, that its conclusions are not correct in all  
16 portions, and that the findings contained in the Planning Commission's certification are not  
17 correct in all portions. The Board of Supervisors hereby directs the Planning Commission and  
18 Planning Department, in specific, and consistent with the findings of the Board of Supervisors,  
19 to revise the FEIR to include corrections and related environmental analysis, as may be  
20 appropriate under CEQA, on the following issues: (1) errors and discrepancies in the shadow  
21 impacts analysis relative to the height of the Tower; (2) errors and discrepancies in the visual  
22 impacts analysis relative to the height of the Tower; (3) updating and correcting the Project  
23 description relative to the height of the Tower and to other information now available regarding  
24 the proposed Project design; and (4) broadening and correcting the description and related  
25 impacts analysis of the Project environmental setting relative to existing and potentially

1 qualified historic resources, currently addressed on FEIR pages C&R 80 – C&R 82.

## Tails Motion

**File Number:** 011551

**Date Passed:** August 27, 2001

Motion adopting findings related to the appeal of the Planning Commission's certification of the Final Environmental Impact Report, Case File No. 199.455E (Commission Motion No. 16039, approved December 7, 2000), for the proposed New M. H. de Young Museum Project in Golden Gate Park, located at 75 Tea Garden Drive (Lot 1 in Assessor's Block 1700).

August 21, 2001 Board of Supervisors — REFERRED: Board of Supervisors

August 27, 2001 Board of Supervisors — AMENDED

August 27, 2001 Board of Supervisors — APPROVED AS AMENDED

Ayes: 9 - Ammiano, Daly, Gonzalez, Hall, Leno, Maxwell, McGoldrick, Peskin,  
Yee

Absent: 1 - Newsom

Excused: 1 - Sandoval

File No. 011551

I hereby certify that the foregoing Motion  
was APPROVED AS AMENDED on August  
27, 2001 by the Board of Supervisors of the  
City and County of San Francisco.

Gloria L. Young  
Clerk of the Board
