6

7 Section 2. The Business and Tax Regulations Code is hereby amended by adding  
8 Article 8, to read as follows:  
9

10 **ARTICLE 8:**

11 **THE SUGAR-SWEETENED BEVERAGE TAX ORDINANCE**

12  
13 **SEC. 550. SHORT TITLE.**

14 *This Article shall be known as the "Sugar-Sweetened Beverage Tax Ordinance."*  
15

16 **SEC. 551. FINDINGS AND PURPOSE.**

17 *Human consumption of Sugar-Sweetened Beverages (SSBs) is linked to a myriad of serious*  
18 *health problems including, but not limited to: weight gain, obesity, coronary heart disease, diabetes,*  
19 *cavities, tooth decay, and other health problems. Scientific evidence shows that underlying these*  
20 *chronic health problems is metabolic syndrome (MetS). MetS is characterized by changes in a body's*  
21 *normal biochemistry that can lead to obesity, insulin resistance, hypertension, dyslipidemia (high*  
22 *cholesterol), and visceral fat. SSBs are linked to excess weight and obesity, which are putting more*  
23 *Americans on the path to MetS. Heavy added sugar consumption may itself be a direct cause of MetS*  
24 *by increasing the risk for hypertension, dyslipidemia and visceral fat. While most people with MetS are*  
25 *obese, normal-weight individuals can acquire the syndrome as well, given poor dietary habits. Heavy*

1 consumption of sugary drinks has been linked to MetS through a variety of biological pathways, and is  
2 therefore a risk factor in chronic disease.

3 The 2010 U.S. Dietary Guidelines for Americans report that sugary drinks are the single  
4 greatest source of added sugar in the American diet, constituting 36.6 percent of added sugars typically  
5 consumed, making them an ideal target for public health protections. Sugar-sweetened soda, and fruit  
6 drinks containing less than 100 percent juice by volume, are major sources of added sugars in  
7 American diets, contributing an average of 10.58 teaspoons of added sugars each day. The American  
8 Heart Association recommends that adult women consume no more than six teaspoons of added sugars  
9 daily, that adult men consume no more than nine teaspoons, and that children consume no more than  
10 three teaspoons of added sugars (not including naturally occurring sugars in whole foods such as fruit  
11 and plain milk) per day, which is about 50 calories. However, most Americans consume more than  
12 19.6 teaspoons of added sugars per day. Even regular, moderate consumption of sugary drinks (one  
13 12-ounce can a day) increases the risk of cardiovascular disease mortality by nearly one third.

14 Obese children suffer more often from sleep apnea, asthma, joint problems, fatty liver disease,  
15 gallstones, and acid reflux (heartburn). Obese children are more likely to become obese adults, further  
16 increasing their risks for higher rates of type 2 diabetes, heart disease, and some cancers later in life.  
17 Profound mental health and quality of life impacts are seen in children with severe obesity. As of 2010,  
18 nearly one-third (31.7 percent) of children and adolescents in San Francisco were either obese or  
19 overweight. Among adults, consumption of SSBs is associated with a risk of weight gain and obesity,  
20 cardiovascular disease, a significantly higher risk of stroke, high blood pressure, type 2 diabetes,  
21 dental erosion, and the risk of pancreatic cancer. In 2011-2012, 41.8 percent of adults in  
22 San Francisco were either obese or overweight.

23 Low-income families are more likely to be affected by obesity and diabetes. For example, the  
24 Bayview-Hunters Point neighborhood had more per capita emergency room visits due to diabetes  
25 between 2009 and 2011 than any other neighborhood in San Francisco. Eighteen percent of three- to

1 four-year-olds enrolled in San Francisco Head Start were obese, with an additional 13 percent being  
2 overweight. Head Start serves children of low-income families.

3 According to the American Dental Association, a steady diet of sugary foods and drinks,  
4 including juice and sports drinks, can damage teeth. Cavity-causing bacteria in the mouth feed on  
5 sugar and produce acids that attack tooth enamel for up to 20 minutes after eating or drinking. Sipping  
6 sugary beverages or eating sugary foods all day results in repeated acid attacks that weaken tooth  
7 enamel and lead to cavities. In extreme cases, softer enamel combined with improper brushing,  
8 grinding of the teeth, or other conditions can lead to tooth loss.

9 The annual cost of being overweight and obese to California families, employers, the health  
10 care industry, and the government is estimated to be \$21 billion. The San Francisco Budget and  
11 Legislative Analyst estimates that up to \$61.8 million in costs incurred by San Franciscans with obesity  
12 and diabetes are attributable to sugary beverage consumption. The total national cost of diabetes in  
13 2007 was \$174 billion.

14 Research shows that lifestyle interventions are more cost-effective than medications in  
15 preventing or delaying type 2 diabetes. SSBs have been targeted as part of a tax policy to reduce  
16 caloric intake, improve diet and health, and generate revenue that governments can use to address  
17 obesity-related health and economic burdens. The Institute of Medicine and other beverage tax  
18 advocates suggest that tax revenues could be used to promote healthier eating and reduce or prevent  
19 obesity. In 2009, the Institute of Medicine recommended that local governments implement a tax  
20 strategy for calorie-dense, nutrient-poor food and beverages to discourage consumption. Likewise, in  
21 2010, the White House Task Force on Childhood Obesity recommended that federal, state, and local  
22 governments analyze the effects of taxes on less healthy, energy-dense foods, such as SSBs.

23 The purpose of taxing SSBs is to make San Franciscans healthier by discouraging consumption  
24 of the main source of added dietary sugars, and by raising funds to support health promotion and  
25 obesity prevention, particularly targeting children in San Francisco's low-income communities. Plain

1 water and—unless advised otherwise by a pediatrician—low-fat (one percent) or nonfat milk are the  
2 most appropriate beverages for healthy children older than the age of two. Yet, 17.2 percent of  
3 San Francisco children and adolescents consume two or more glasses of soda or sugary drink per day.  
4 Within this, there are significant variations by ethnicity, with 24.2 percent of Asian and 33.9 percent of  
5 Latino, and only 4.4 percent of white children, consuming two or more glasses of soda or sugary drink  
6 per day. On average, children consumed 11.96 teaspoons of added sugars from sodas and fruit drinks  
7 per day – 47 percent of their total intake of added sugars. A single 12-ounce can of soda contains eight  
8 to ten teaspoons of sugar, and typical container sizes of popular sugary drinks marketed to children far  
9 exceed recommended amounts.

10 Assessing a tax on SSBs is intended to help address the high levels of obesity, type 2 diabetes,  
11 and other diseases by reducing consumption and providing a revenue stream for City-directed and  
12 grant-funded physical activity and nutrition programs in schools, parks, community centers, and  
13 through community-based organizations.

14

4 produced from Concentrate upon the initial Distribution of Concentrate in the City. For purposes of  
5 calculating the Tax for Concentrate, the Tax shall be calculated using the largest volume of Sugar-  
6 Sweetened Beverage that could result from the use of the Concentrate according to any manufacturer's  
7 instructions. If the Tax is paid with respect to the Distribution of Concentrate in the City, then no Tax

23 initial Distribution in the City of a Sugar-Sweetened Beverage or Concentrate that is shipped to a point  
24 outside the City for Distribution outside the City, or on which the Tax has already been paid by another  
25

1 person, or which has been returned to the person who sold it and the entire purchase price has been  
2 refunded in cash or credit.

3

14 et seq.) or any successor legislation. Subject to the budgetary and fiscal provisions of the City Charter,  
15 monies in the Fund shall be appropriated on an annual basis to the following departments and used  
16 solely for the following purposes:

18 proportion, to the Tax Collector and other City Departments for administration of the Tax, and to the  
19 City Administrator for administration of the Committee, and for the Committee's evaluation of  
20 programs funded by the Tax, and development of strategic and expenditure plans.

21 (2) Refunds of any overpayments of the Tax imposed under this Article 8.

22 (3) Funding of Eligible Programs that are "New Programs," as defined in this  
23 Section 557, that are consistent with the findings, purpose, and goals stated in this Article 8, in the  
24 following proportions:

1                    (A) 40 percent to the San Francisco Unified School District for (i) student  
2 nutrition services; school-based gardens, nutrition classes, and cooking classes for students and  
3 parents; teacher training and curricular support in nutrition education; and after-school programs,  
4 including but not limited to nutrition education, healthy snacks, school-based gardening, and cooking  
5 classes; and (ii) expansion and improvement of physical education, which may include teachers,  
6 education specialists, athletic equipment, training, and programming, provided that programs under  
7 both subsections (i) and (ii) are each appropriated no less than one-quarter of this 40 percent; and

8                    (B) 25 percent, in any proportion, to the Department of Public Health and  
9 the Public Utilities Commission for (i) healthy food access initiatives; (ii) drinking fountains and water  
10 bottle filling stations; (iii) oral health services; (iv) chronic disease prevention; and (v) public  
11 education campaigns, provided that programs under each subsection (i) through (v) are each  
12 appropriated no less than one-tenth of this 25 percent; and

13                    (C) 25 percent to the Recreation and Park Department for recreation centers,  
14 organized sports, and athletic programming, provided that up to two-fifths of this 25 percent may be  
15 allocated by the Recreation and Park Department to community-based organizations for Active  
16 Recreation Programs, with a priority on programs serving low-income and underserved communities;  
17 and

18                    (D) 10 percent to be allocated through the Department of Public Health to  
19 fund grants to community-based organizations for programs that support (i) healthy food access;  
20 (ii) active recreation; (iii) oral health; (iv) chronic disease prevention; and for public education  
21 campaigns.

22                    Should any of the above governmental entities cease to exist, or if Eligible Programs are  
23 transferred from any of these entities to another department or agency, then the Mayor and the Board  
24 of Supervisors are authorized to expend the proceeds of this Tax to any department or agency that is a  
25 successor to that entity and that operates Eligible Programs, or to a department or agency to which

1 those Eligible Programs are transferred, for expenditures that would otherwise be authorized under  
2 this Article 8.

3 (b) Any balance remaining in the Fund at the close of any fiscal year shall be deemed to  
4 have been provided for a specified purpose within the meaning of Section 9.113(a) of the Charter and  
5 shall be carried forward and accumulated in the Fund for the purposes and goals recited in this  
6 Article 8.

7 (c) Goals. The goals of expenditures from the Fund shall be to:

8 (1) Promote active recreation, health, nutrition, and food access programs among  
9 all San Francisco residents;

10 (2) Improve physical activity, health, and nutrition programs in the San Francisco  
11 Unified School District; and

12 (3) Give special consideration to communities that are disproportionately affected  
13 by diseases related to Sugar-Sweetened Beverage consumption, including obesity, diabetes, and  
14 coronary disease, as measured by the most recent data available to the Department of Public Health.

15 (d) New Programs. The intent of this Section 557 is to provide dedicated revenues to  
16 increase Eligible Programs. Therefore, except as otherwise specified in this Article 8, revenues in the  
17 Fund may only be appropriated to the extent that the Controller certifies that appropriations contained  
18 in the adopted budget from other funding sources exceed those in a given year, as measured and  
19 adjusted by the Controller pursuant to this Section 557, subsection (e).

20 Notwithstanding the preceding paragraph, Eligible Programs shall not include:

21 (1) Any program for which a fixed or minimum level of expenditure is mandated by  
22 state or federal law, to the extent of the fixed or minimum level of expenditure;

23 (2) Acquisition of any capital item not for primary and direct use of participants in  
24 an Eligible Program;

1                   (3) Acquisition (other than by lease for a term of ten years or less) of any real  
2 property; or

3                   (4) Maintenance, utilities, or any similar operating costs of any facility not used  
4 primarily and directly by participants in Eligible Programs, or a library, hospital, or any recreation or  
5 park facility that is a zoo.

6                   (e) Expenditure After Baseline Year. No Funds shall be expended pursuant to  
7 subsection (a)(3) in any fiscal year following a fiscal year in which the amounts appropriated for  
8 Eligible Programs (not including appropriations from the Fund and exclusive of expenditures  
9 mandated by state or federal law) is below the amount expended for City-operated Eligible Programs  
10 and City-funded grants for Eligible Programs in the Baseline Year, as adjusted in the manner provided  
11 in the following sentences (the "Base Amount"). All funds unexpended in accordance with the  
12 preceding sentence shall be held in the Fund and may be expended in any future fiscal year in which  
13 other expenditures from the Fund may be made. The Controller shall adjust the Base Amount for each  
14 fiscal year after the Baseline Year based on calculations consistent from fiscal year to fiscal year by the  
15 percentage increase or decrease in aggregate City discretionary revenues. In determining aggregate  
16 City discretionary revenues, the Controller shall only include revenues received by the City that are  
17 unrestricted and may be used at the option of the Mayor and the Board of Supervisors for any lawful  
18 City purpose. The method used by the Controller to determine discretionary revenues shall be  
19 consistent with the method used by the Controller to determine the Library and Children's Fund  
20 Baseline calculations, as provided in Charter Section 16.108(g). The change in aggregate  
21 discretionary revenues will be adjusted at year end when final revenues are known.

22                   (f) Commencing January 1, 2017, the Controller shall file annually with the Board of  
23 Supervisors, by January 1 of each year, a report containing the following:

24                   (1) The amount of funds collected and expended, and the allocation of expenditures  
25 from the Fund, during the prior fiscal year.

1                   (2) The status of any Eligible Program required or authorized to be funded under  
2 this Article 8.

3                   (3) Such other information as the Controller, in the Controller's sole discretion,  
4 shall deem relevant to the operation of this Article 8.

5  
6 **SEC. 558. OVERSIGHT COMMITTEE.**

7                   (a) There is hereby established a Healthy Nutrition and Physical Activity Access Fund  
8 Committee that shall consist of fifteen members. Members shall have two-year terms but shall serve at  
9 the pleasure of their respective appointing authorities. No member shall serve more than three  
10 consecutive two-year terms. The initial two-year term for each of the initial members shall commence  
11 as of the date that nine members have been appointed, which is when the Committee may begin its  
12 work. Notwithstanding the previous sentence, a quorum of the Committee shall be eight members.  
13 Absence from three consecutive regular meetings, or four regular meetings during a fiscal year,  
14 constitutes resignation from the Committee.

15                   (b) Members of the Committee shall be appointed as follows:

16                   (1) Seats One through Five by the Board of Supervisors. Seats One and Two shall  
17 be residents of neighborhoods disproportionately impacted by diseases related to the consumption of  
18 Sugar-Sweetened Beverages, as measured by the most recent data available to the Department of  
19 Public Health. Seats Three and Four shall be representatives of different local medical institutions that  
20 engage in whole or in part in the diagnosis, treatment, or research of, or education about, chronic  
21 diseases linked to the consumption of Sugar-Sweetened Beverages. Seat Five shall be a small business  
22 owner.
