4 **users for fiscal year 2002-2003 pursuant to Part II, Chapter X, Articles 4.1 and 4.2 of the**
5 **San Francisco Municipal Code (Public Works Code).**

6 Be it ordained by the People of the City and County of San Francisco:

7 Section 1. In order to qualify for federal and state grant assistance and in accordance
8 with the provisions of Board of Supervisors Resolution No. 656-92, adopted August 4, 1992,
9 as amended, providing for the issuance of sewer revenue bonds, the City and County must
10 establish sewer service charges that will provide sufficient revenue to meet the cost of
11 operation and maintenance, replacement of equipment and structures, and debt service of the
12 sewerage system. The General Manager of Utilities has prepared a report titled " Report on
13 Sewer Rates for Fiscal Year 2002-2003 (on file with the Clerk of the Board of Supervisors in
14 File No. 021259) explaining the method of deriving such charges. The Mayor and
15 the General Manager of Utilities recommend, with the concurrence of the Controller,
16 schedules of the sewer service charges to be paid by users pursuant to Part II, Chapter X,
17 Article 4.2 of the San Francisco Municipal Code (Public Works Code).

18 Section 2. Federal laws that require each sewer system discharger to pay charges
19 proportionately to his or her use of the system provide an exception to this requirement that
20 would allow the City to charge reduced rates for residences designated as low income. The
21 Board of Supervisors desires to provide reduced sewer service charge rates for boarding
22 houses, motels and hotels that are participating in the Modified Payments Program as
23 certified and operated by the Department of Human Services for the benefit of low income
24 general assistance recipients and homeless persons.

(Public Utilities Commission)
BOARD OF SUPERVISORS

7 including, but not limited to, investment income on sewer service charge collections, Water

9 from the issuance of general obligation and revenue bonds, shall be credited on a quarterly
