Ordinance amending the Public Works Code to require the installation of City-owned communications infrastructure in excavation projects where the City has determined that it is both financially feasible and consistent with the City's long-term goals to develop the City's communications infrastructure.

NOTE: Unchanged Code text and uncodified text are in plain Arial font. Additions to Codes are in single-underline italics Times New Roman font. Deletions to Codes are in strikethrough italics Times New Roman font. Board amendment additions are in double-underlined Arial font. Board amendment deletions are in strikethrough Arial font. Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. The Public Works Code is hereby amended by revising Section 2.4.4, to read as follows:

SEC. 2.4.4. DEFINITIONS.

For purposes of this Article, the following terms shall have the following meanings:

(a) "Agent" shall mean a person or persons authorized to assist an owner in the permitting process or in the performance of an excavation.

(b) "Applicant" shall mean an owner or duly authorized agent of such owner, who has submitted an application for a permit to excavate.

(c) "Article" shall mean this Article 2.4 of the Public Works Code.

(d) "Block" shall mean that part of the public right-of-way that includes the street area from the property line to the parallel property line in width and extending from the property line of an intersecting street to the nearest property line of the next intersecting street in length. For purposes of this definition, an intersection also shall be considered a "block."
(e) "City" shall mean the City and County of San Francisco.

"City communications infrastructure" shall mean conduits, pull boxes, and other facilities that are used by the City to provide communications services.

(ff) "Department" shall mean the Department of Public Works.

"Department of Technology" shall mean the Department of Technology or any successor City agency that is responsible for managing City communications infrastructure.

"Department of Technology Requirements" shall mean the Department of Technology's regulations implementing the Department of Technology's participation in excavation projects by installing City communications infrastructure.

(g) "Deposit" shall mean any bond, cash deposit, or other security provided by the applicant in accordance with Section 2.4.40 of this Article.

(h) "Director" shall mean the Director of the Department of Public Works or his or her designee.

(i) "Excavation" shall mean any work in the surface or subsurface of the public right-of-way, including, but not limited to opening the public right-of-way; installing, servicing, repairing or modifying any facility(ies) in or under the surface or subsurface of the public right-of-way, and restoring the surface and subsurface of the public right-of-way.

(j) "Facility" or "facilities" shall include, but not be limited to, any and all cables, cabinets, ducts, conduits, converters, equipment, drains, handholds, manholes, pipes, pipelines, splice boxes, surface location markers, tracks, tunnels, utilities, vaults, and other appurtenances or tangible things owned, leased, operated, or licensed by an owner or person, that are located or are proposed to be located in the public right-of-way.

"Incremental cost" shall mean the cost associated with adding City communications infrastructure to an excavation project, including the cost of the materials needed by the City and any additional labor costs.
(k) — "Large excavation project" shall mean any excavation of more than 1000 square feet.

(l) — "Major work" shall mean any reasonably foreseeable excavation that will affect the public right-of-way for more than 15 consecutive calendar days.

(m) — "Medium excavation project" shall mean any excavation of more than 100 but no greater than 1,000 square feet.

(n) — "Moratorium street" shall mean any block that has been reconstructed, repaved, or resurfaced by the Department or any other owner or person in the preceding five-year period.

(o) — "Municipal excavator" shall mean any agency, board, commission, department, or subdivision of the City that owns, installs, or maintains a facility or facilities in the public right-of-way.

(p) — "Owner" shall mean any person, including the City, who owns any facility or facilities that are or are proposed to be installed or maintained in the public right-of-way.

(q) — "Permit" or "permit to excavate" shall mean a permit to perform an excavation as it has been approved, amended, or renewed by the Department.

(r) — "Permittee" shall mean the applicant to whom a permit to excavate has been granted by the Department in accordance with this Article.

(s) — "Person" shall mean any natural person, corporation, partnership, any municipal excavator, or any governmental agency, including the State of California or United States of America.

(t) — "Public right-of-way" shall mean the area across, along, beneath, in, on, over, under, upon, and within the dedicated public alleys, boulevards, courts, lanes, roads, sidewalks, spaces, streets, and ways within the City, as they now exist or hereafter will exist and which are or will be under the permitting jurisdiction of the Department of Public Works.
"Responsible party" shall mean the owner for each excavation involving the owner's facility or facilities. In addition, it shall mean any person who performs an excavation or has a duty or right to manage or participate in the management of an excavation and whom the Director designates as responsible, in whole or in part, for such excavation.

"Sidewalk" shall mean the area between the fronting property line and the back of the nearest curb.

"Small excavation project" shall mean any excavation of 100 square feet or less.

"Standard City communications infrastructure specifications" shall mean the type, size, and quantity of conduits, the size and frequency of pull boxes, and any other facilities that the Department of Technology determines are necessary to serve the City's communications needs.

"Utility excavator" shall mean any owner whose facility or facilities in the public right-of-way are used to provide electricity, gas, information services, sewer service, steam, telecommunications, traffic controls, transit service, video, water, or other services to customers regardless of whether such owner is deemed a public utility by the California Public Utilities Commission.

Section 2. The Public Works Code is hereby amended by revising Section 2.4.13, to read as follows:

SEC. 2.4.13. TRANSIT, PEDESTRIAN, BICYCLE, AND STORMWATER, AND COMMUNICATIONS INFRASTRUCTURE IMPROVEMENTS AS PART OF PLANNING, CONSTRUCTION, RECONSTRUCTION, AND REPAVING PROJECTS.

(a) Whenever the Department or other Municipal Excavator undertakes a project involving the planning, construction, reconstruction, or repaving of a public right-of-way, such project shall include, to the maximum extent practicable and feasible, the following transit, pedestrian, bicycle, and stormwater, and communications infrastructure improvements:
(1) Street and pedestrian-scale sidewalk lighting;

(2) Pedestrian and bicycle safety improvement measures, as established in any official City adopted bicycle or pedestrian safety plan or other City adopted planning documents;

(3) Appropriate access in accordance with the Americans with Disabilities Act;

(4) Public transit facilities accommodation, including, but not limited to designation of the right-of-way as a transit preferential street designation or bus rapid transit corridor;

(5) Traffic calming devices;

(6) Landscaping;

(7) Low-impact design stormwater facilities consistent with the Stormwater Design Guidelines;

(8) Other pedestrian and streetscape elements listed as appropriate to the relevant street type as identified and defined in the Better Streets Plan; and

(9) Other street and sidewalk improvements consistent with the City's "Transit First" Policy (Section 16.102 8A.1.15 of the City Charter) and "Better Streets Policy" (Chapter Section 98.1 of the San Francisco Administrative Code); and

(10) Communications infrastructure.

(b) The Director, in consultation with the Directors of the San Francisco Municipal Transportation Agency, Department of Public Health, Planning Department, Department on the Environment, San Francisco Public Utilities Commission, Department of Technology, and Mayor's Office on Disability shall develop orders, regulations, or amendments to the Department's Standard Plans and Specifications that address the improvements set forth in Subsection (a).
(c) To the maximum extent practicable and feasible, the Director shall condition all excavation and street improvement permits on the inclusion of the improvements set forth in Subsection (a). If such conditions would exceed the Director's regulatory authority, the Director shall coordinate with other City departments to provide, to the maximum extent practicable and feasible, said improvements on behalf of the City. As part of the decision on any permit or authorization pursuant to the Public Works Code, the Director shall take into account the permit activity's positive and negative impacts on the integration, enhancement, or preservation of the improvements set forth in Subsection (a).

Section 3. The Public Works Code is hereby amended by adding Section 2.4.14, to read as follows:

**SEC. 2.4.14. COORDINATION WITH DEPARTMENT OF TECHNOLOGY.**

(a) "Dig Once." To facilitate the Department of Technology's efforts to develop City communications infrastructure, and limit excavation in the public right-of-way, an applicant for a permit under Section 2.4.10 for the installation of underground conduits shall comply with the requirements of this Section 2.4.14.

(b) Notice Required.

(1) An applicant for a permit to install underground conduits shall notify the Department of Technology of its application in the manner set forth in the Department of Technology Requirements at least 14 days before submitting the application to the Department.

(2) Notice is only required when the minimum length of the proposed excavation will be at least 900 linear feet, or such longer distance as the Department of Technology may establish in the Department of Technology Requirements.

(c) Approval of Application.
(1) Where the Department of Technology Will Participate. The Department may approve an application and issue a permit if the Department finds that all of the following have occurred:

(A) The applicant has complied with the Department of Technology Requirements for notice of its application;

(B) The Department of Technology has not notified the applicant and the Department that the Department of Technology will not participate in the proposed excavation project; and

(C) The applicant has submitted plans consistent with the standard City communications infrastructure specifications.

(2) Where the Department of Technology Will Not Participate. The Department may approve an application and issue a permit if the Department finds that both of the following have occurred:

(A) The applicant has complied with the Department of Technology Requirements for notice of its application; and

(B) The Department of Technology has notified the applicant and the Department that the Department of Technology will not participate in the proposed excavation project.

(d) Denial of Application. The Department shall deny an application or a permit if the Department determines that the applicant has failed to comply with the Department of Technology Requirements.

(e) Applicant’s Incremental Costs. The Department of Technology shall be responsible for the applicant’s incremental costs when the Department of Technology participates in an excavation project by installing City communications infrastructure.

(f) Exception. The requirements of this Section 2.4.14 shall not apply to an application for an emergency permit under Section 2.4.22.
Section 4. The Public Works Code is hereby amended by adding Subarticle IX, Sections 2.4.95, 2.4.96, and 2.4.97, to read as follows:

**SUBARTICLE IX**

**OBLIGATIONS OF THE DEPARTMENT OF TECHNOLOGY**

**SEC. 2.4.95. INSTALLATION OF CITY COMMUNICATIONS INFRASTRUCTURE.**

(a) Need for City Communications Infrastructure. The Department of Technology shall consider adding City communications infrastructure to any permit issued for an excavation project under this Article 2.4 to create more efficient delivery of communications services to the public and for the City’s needs.

(b) Response to Notice. Upon receipt of a notice issued pursuant to Section 2.4.14 that a utility or municipal excavator intends to apply for an excavation permit to install underground conduit, the Department of Technology shall review the application to determine whether it is both financially feasible and consistent with the City’s long-term goals to add City communications infrastructure to the proposed excavation project.

(1) If the determination is affirmative, the Department of Technology does not need to notify the applicant and the Department that the Department of Technology intends to participate in the excavation project. The presumption will be that the Department of Technology will participate in the excavation project by requiring the excavator to install City communications infrastructure.

(2) If the determination is negative, the Department of Technology shall notify the applicant and the Department in the time required by within 7 days of issuance of the notice that the Department of Technology does not intend to participate in the excavation project.

**SEC. 2.4.96. DEPARTMENT OF TECHNOLOGY REQUIREMENTS.**

(a) Adoption of Requirements. The Department of Technology, in consultation with the Department, shall by order develop and implement the Department of Technology Requirements. The
Department of Technology shall use a process to adopt the Department of Technology Requirements that ensures that municipal excavators, utility excavators, and the general public have a meaningful opportunity to comment on the provisions to be contained therein before they are formally adopted by the Department of Technology.

(b) Purpose of Requirements. The Department of Technology Requirements shall specify the manner in which the Department of Technology will participate in excavation projects by installing City communications infrastructure that meets the City’s needs at a reasonable cost.

(c) Minimum Requirements. At a minimum, the Department of Technology Requirements shall contain the following procedural and substantive requirements for the installation of City communications infrastructure in excavation projects:

1. The process for the Department of Technology to review planned excavation projects in a timely manner to determine if City participation is feasible and to verify its participation by informing the applicant and the Department within 7 days of receiving notice:

2. The criteria to be used by the Department of Technology to decide whether to decline to participate in excavation projects:

3. The standard technical specifications for City communications infrastructure:

4. The standard methodology for determining the incremental costs associated with installing City communications infrastructure in excavation projects:

5. The requirements and process for excavators to seek exemptions from using the City’s standard methodology for determining incremental costs when installing standard City communications infrastructure in excavation projects: and

6. Alternative methodologies for determining the City’s incremental costs when exemptions are granted.

SEC. 2.4.97. REPORTING REQUIREMENTS.
The Department of Technology shall file quarterly reports with the Board of Supervisors and Mayor containing the following information: (a) the number of excavation permits issued by the Department for projects meeting the criteria for Department of Technology participation set forth in Section 2.4.14(b)(2); (b) the locations of the excavations identified in the excavation projects; (c) the identities of the applicants for the excavation permits; (d) whether the Department of Technology received any objections to its participation in the excavation projects from the municipal or utility excavators submitting the applications; (e) whether the Department of Technology opted to participate in the excavation projects by installing City communications infrastructure; (f) the City's costs to participate in the excavation projects by installing City communications infrastructure; and (g) the status of the installation of City communications infrastructure in the excavation projects.

Section 5. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

Section 6. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the “Note” that appears under the official title of the ordinance.
Section 7. Department of Technology Implementation. The Department of Technology shall adopt the order required by Section 2.4.96 of the Public Works Code within 90 days of the effective date of this ordinance.

APPROVED AS TO FORM:
DENNIS J. HERRERA, City Attorney

By: WILLIAM K. SANDERS
Deputy City Attorney
Ordinance amending the Public Works Code to require the installation of City-owned communications infrastructure in excavation projects where the City has determined that it is both financially feasible and consistent with the City's long-term goals to develop the City's communications infrastructure.

October 28, 2014 Board of Supervisors - FINALLY PASSED
Ayes: 11 - Avalos, Breed, Campos, Chiu, Cohen, Farrell, Kim, Mar, Tang, Wiener and Yee

I hereby certify that the foregoing Ordinance was FINALLY PASSED on 10/28/2014 by the Board of Supervisors of the City and County of San Francisco.

Angela Calvillo
Clerk of the Board
