URGING THE PORT OF SAN FRANCISCO TO SUBMIT, BY NOVEMBER 15, 2000, A PRELIMINARY REPORT TO THE EXECUTIVE OFFICER OF THE CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD (RWQCB) REGARDING STORM WATER MANAGEMENT MEASURES FOR FISH HANDLING AND PROCESSING OPERATIONS ON PORT PROPERTY AND FURTHER URGING THE PORT TO SUBMIT, BY JULY 31, 2000, A FINAL COMPREHENSIVE SURVEY AND PROPOSED STORM WATER MANAGEMENT MEASURES.

WHEREAS, The Port of San Francisco manages seven miles of San Francisco waterfront and leases City property to over 450 tenants; and

WHEREAS, Responding to complaints from fish handling and fish processing businesses located on the Pier, the California Regional Water Quality Control Board (RWQCB) conducted inspections on June 30, 2000 and July 2000; and

WHEREAS, RWQCB inspectors observed fish processing business workers dumping waste products directly through holes bored in to the floors that were directly open into the Bay; and

WHEREAS, RWQCB inspectors also observed drain holes adjacent to fish processing facilities within corresponding parking areas that were directly open to the Bay; and

WHEREAS, RWQCB inspectors also observed that off-loading docks were not covered nor were there any protection from polluted storm water and non-storm water from flowing across the docks and into the Bay; and

WHEREAS, RWQCB inspectors observed that uncovered docks and open drains present a threat to water quality either through direct drainage from fish processing waste or from storm events via run off; and

Supervisors Ammiano, Newsom
WHEREAS, In 1990 a storm water survey was performed and a Group Storm Water monitoring program was created as a result; and

WHEREAS, Many Port tenants were disinclined to participate in the Group Storm Water monitoring program and tenants that were subleasing from the main tenant neither had any interest, obligation or incentives to participate, thus resulting higher levels of non-compliance; and

WHEREAS, Since the Port of San Francisco is the landowner, the Port itself is the ultimately responsible of all storm water management of all Port properties; and

WHEREAS, In a correspondence dated October 3, 2000, the Port indicated to RWQCB that outreach efforts were underway to educate Port tenants regarding compliance with storm water permit requirements; and

WHEREAS, The Port further indicated that the Group Storm Water Monitoring Program would be revised and a list of fish processing business that are required to monitor storm water would be compiled; and

WHEREAS, The Port also further indicated that beginning November 2000, the Port would complete a comprehensive survey of all Port tenants to determine compliance with storm water requirements; and

WHEREAS, California Water Code Section 13267 stipulates that failure to respond to a formal request for technical reports will result in $1000 fine per day to the City and County of San Francisco; and

WHEREAS, A formal request for technical reports by the California RWQCB was submitted to the Port of San Francisco on October 25, 2000; therefore, be it
RESOLVED, That the Board of Supervisors of the City and County of San Francisco hereby urges the San Francisco Public Utilities Commission to formally convene hearings to consider alternative development proposals for the 242 acres of land located on a portion of Parcel 65 in Sunol, Alameda County Lands; and be it

FURTHER RESOLVED, That the Board of Supervisors urges the Port of San Francisco to formally submit by November 15, 2000 the following four tasks:

1) Submit a report that is acceptable to the Executive Officer of the California Regional Water Quality Control Board describing proposed actions to be undertaken to identify any illicit discharges from fish handling/processing operations at the Port including measures to control and eliminate any future non-storm water discharges in which the some discussion should devoted to, but not limited to, inspection schedules, containment and/or storm water management measures, Best Management Practices available to fish handlersprocessors and how such measures and practices will be implemented.

2) Provide a plan acceptable to the Executive Officer for completing a comprehensive survey of all facility types and operations subject to storm water discharge regulations within its jurisdiction which shall include the following but not limited to:
   a) A complete list of all tenants by type of operation and their location, with appropriate maps or facility plans
   b) A list of those tenants currently participating in the Group Storm Water Monitoring Program
   c) A description of the components of the Group Storm Water Monitoring Program
   d) A list of facilities/operations which are connected to the combined sewer system and where those connections are located
e) A description of options, including implementability and cost-effectiveness, for
long-term management measures of storm water and non-storm water
discharges

f) The timeline in which the comprehensive survey will be completed

3) Provide a monthly status report beginning December 30, 2000 on the
comprehensive survey of facilities subject to storm water discharge, as described in
Task 2

4) By July 31, 2001, submit a final report acceptable to the Executive Officer of the
comprehensive survey and recommended storm water management measures as
described in Task 2

and be it

FURTHER RESOLVED, The Board of Supervisors urge the Port of San
Francisco to also forward copies of all reports submitted to the California Regional
Water Quality Control Board to the Board of Supervisors; and be it

FURTHER RESOLVED, The Board of Supervisors requests the Clerk of the
Board forward copies of this resolution to California State Senator Jackie Speier and
John Burton as well California Assembly Representatives, Kevin Shelley and Carole
Migden.

SUPERVISOR AMMIANO
Resolution urging the Port of San Francisco to submit, by November 15, 2000, a preliminary report to the Executive Officer of the California Regional Water Quality Control Board (RWQCB) regarding storm water management measures for fish handling and processing operations on Port property and further urging the Port to submit, by July 31, 2000, a final comprehensive survey and proposed storm water management measures.

November 6, 2000  Board of Supervisors — ADOPTED
Absent: 2 - Yaki, Yee
I hereby certify that the foregoing Resolution was ADOPTED on November 6, 2000 by the Board of Supervisors of the City and County of San Francisco.

Gloria L. Young
Clerk of the Board

Date Approved

Mayor Willie L. Brown Jr.

I hereby certify that the foregoing resolution, not being signed by the Mayor within the time limit as set forth in Section 3.103 of the Charter, became effective without his approval in accordance with the provision of said Section 3.103 of the Charter.

Clerk of the Board
