

OFFICE OF THE MAYOR
SAN FRANCISCO

WILLIE LEWIS BROWN, JR.

April 5, 2002

Honorable Tom Ammiano, President
Members, San Francisco Board of Supervisors
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, CA 94102

Dear President Ammiano and Members:

I am returning without my signature the Resolution imposing interim zoning controls to prohibit the construction of new live/work developments in San Francisco for a six-month period (File No. 020156).

In the midst of a housing crisis, I do not believe it is wise to stop building housing. I do not believe a housing moratorium, however politically expedient the notion may be, is the answer to our housing crisis.

Over a year ago, I returned the same interim controls without my signature and challenged the Board to forward to me legislation that contains a reasonable, long-term solution to the issue of live/work housing and its place in San Francisco – legislation that includes an inclusionary affordable housing requirement, full fees and a no-conversion clause that's backed up with a strong method of enforcement. I have also urged the Board to look at this type of housing comprehensively, and pursue reasonable zoning policies that will take into account where this type of housing may be appropriate, and where it may not be – rather than simply ban it outright.

As of today – despite good first steps taken by Supervisor Tony Hall, steps that were all but ignored by his colleagues – the only tangible action this Board has taken is to continue to ban this type of housing, and I understand you are currently considering a permanent moratorium. I urge you to reconsider this position, and focus your efforts on maximizing opportunities for new housing in San Francisco. The legislation before me now does not create new housing in San Francisco, nor will it lead to greater affordability in our existing housing stock. It simply prevents new housing from being built. Basic economics dictate that by cutting off the supply of new housing – any kind of housing – we will only drive housing prices up.

Today, I *am signing* into law inclusionary housing legislation that will create more affordable housing units in San Francisco. I agree with this policy, as the Planning Department has applied similar requirements administratively for some time, and I applaud the Board for codifying even stronger requirements into law. In fact, I am directing the San Francisco Redevelopment Commission to consider adopting these requirements as a minimum policy for residential development in redevelopment project areas.

As I continue working with you and members of our community to craft a second affordable housing bond measure for the November ballot, I am again reminded that we as a city *can* proactively work together to increase the production of housing in San Francisco. San Franciscans deserve this kind of cooperation, and I think we will all be better served by policies that aim to expand our housing market rather than contract it.

Sincerely,

A handwritten signature in cursive script, appearing to read "Willie L. Brown, Jr.", written in black ink.

Willie L. Brown, Jr.
Mayor
