10 significant delays in its timeline for completion; and

11 WHEREAS, Adoption of the Plan Update requires approval of environmental
12 documentation by the Planning Department; and

14 specific collection of proposed projects, and so is expected to qualify for a negative
15 declaration under the California Environmental Quality Act; and

17 projects and so may require further traffic analysis before undergoing environmental
18 analysis, much of which is expected to qualify for negative or mitigated negative
19 declarations; and

21 Planning Department has indicated that, due to conflicting priorities and staff shortages, it
22 will need at least 6 weeks before it can consider whether a negative declaration is

24 WHEREAS, This timeframe would further delay an already delayed and much-
25 needed project; and,

1 WHEREAS, The San Francisco County Transportation Authority has indicated its
2 willingness to assist in expediting the preparation of the environmental analysis, and
3 expediting further traffic analysis on those portions which need it prior to environmental
4 analysis, while emphasizing streamlined environmental review and using best practices
5 to achieve a complete Citywide Bike Network, and procuring consultant contracts if
6 necessary; now, therefore be it

16 1st, 2004 a set of specific criteria and guidelines against which the department will
17 evaluate the sufficiency of the negative declaration developed by the consultant, and be
18 it

20 existing EIR duties of environmental review officer Paul Maltzer under state law.
