Hearing of persons interested in or objecting to the certification of a Final Environmental Impact Report for the proposed SFO Recommended Airport Development Plan (RADP), identified in Planning Case No. 2017-007468ENV, issued by the Planning Commission through Motion No. 21870, dated November 20, 2025; the proposed project would implement the RADP, which involves a long-range plan to guide the San Francisco International Airport's (SFO) development; the San Francisco Airport Commission operates and manages the airport as a department of the City and County of San Francisco; the RADP serves as a framework for future development at SFO and identifies various projects, including the improvement and development of terminal facilities, modification of certain non-movement areas of the airfield, and improvements to landside facilities to accommodate long-term aircraft operations and passenger activity levels at the airport; the RADP provides for long-range development to accommodate activity levels forecast to reach approximately 506,000 annual aircraft operations, which is the estimated annual practical capacity of the existing runways regardless of whether the RADP is implemented; passenger aircraft operations represent the largest portion of the 506,000 annual aircraft operations, which are forecast to accommodate approximately 71,100,000 annual passengers considering the forecast passenger aircraft fleet mix; implementation of the RADP would not induce passenger demand, nor would the RADP increase the capacity of the airfield, change the configuration of the existing runways, change the number of aircraft operations or aircraft types operating at the airport (including cargo, private jets, and helicopters), or change the volume of annual passengers that choose to fly into and out of SFO.
