

Notice of Allowances and Restrictions of Indoor and Outdoor Activity

May 20th, 2021

Even though COVID-19 case rates have come down significantly from their peak in the third surge and more people are vaccinated, there remains a risk that people who you may come into contact with when you are outside your residence may have COVID-19. Most COVID-19 infections are caused by people who have no symptoms of illness. There are people you may come into contact within San Francisco who are not yet fully vaccinated. We have also seen surges in other parts of the country and the world, increasingly impacting younger adults.

The opening or expansion of sectors does not necessarily signify that these activities are “safe.” The purpose of the required safety protocols contained in San Francisco’s Stay-Safer-At-Home Order and companion health directives is to make these activities and sectors safer for workers and the public. But reopening and expansion require that all individuals and businesses use particular care and do their part to make these activities as safe as possible by strictly and consistently wearing face coverings indoors and outdoors in large crowds and following social distancing requirements and all other safety protocols.

Everyone who is eligible, including people at risk for severe illness with COVID-19 – such as unvaccinated older adults and unvaccinated individuals with health risks – and members of their households, are urged to get vaccinated as soon as they can if they have not already done so.

Any prior changes in business capacities and other activities required under the amendments must have been implemented by their respective effective dates, and any new changes will take effect by May 20th, 2021. If cases rise, the Health Officer may further restrict or suspend other activities currently allowed under Health Officer Order C19-07.

Important Notes: The Health Officer ordered suspensions or restrictions on capacity limits of the activities as shown in the table below. Suspended or restricted businesses may still engage in Minimum Basic Operations as defined in Health Officer Order C19-07. These suspensions or restrictions amend any related orders, directives, or guidance. All impacted people and entities are required to adhere to these new limits and must otherwise continue to monitor and comply with all applicable [Health Orders](#) and [Directives](#). The Health Order and Directives take precedence over any discrepancies listed in the table below.

Business Capacities and Activities Table

Activity and Amended Order or Directive	Affected Groups	Indoor or Outdoor	Change as of effective date △ = New Update
Retail Directive 2020-07 Directive 2020-17 Order No. C19-07	Retail Stores, Indoor Shopping Centers, Grocery Stores, Cannabis Lounges, Libraries	Indoor Restricted	Changes as of Thursday, May 20, 2021 1. Capacity limits up to 50% (not including personnel). 2. Self-serve bulk foods, reusable bags and containers allowed with restrictions. 3. Eating or drinking allowed in cafes and restaurants inside retail (see indoor dining). 4. Indoor food courts capacity limits up to 50% (not including personnel). 5. Indoor common areas may open with distancing, and other safety protocols. 6. Cannabis lounges permitted under Health Code Article 8A are allowed as follows: △ a. If serving edibles, must comply with indoor dining rules (see indoor dining). b. Lounges with Type C permits allowed only if they obtain proof of full vaccination from all patrons before entering. 7. Libraries may open with capacity limits up to 50% (not including personnel) consistent with retail distancing, and other safety protocols. 8. On-site pre-entry health screening of patrons is no longer required, except where State guidance requires it (see Section 29 of Order No. C19-07). △ 9. Vaccination and Ventilation signage must be posted in area for personnel.
		Outdoor Allowed	Change as of Sunday, November 29, 2020 1. Outdoor encouraged over indoor.
Office Facilities Directive 2020-18	Nonessential offices	Indoor/Outdoor Restricted	Changes as of Thursday, May 6, 2021 1. Nonessential offices capacity limits up to 50% (excluding fully vaccinated individuals). 2. Indoor conference rooms and meetings capacity limits up to 50% (excluding fully vaccinated individuals). 3.
