ORDER OF THE HEALTH OFFICER No. C19-07FS

ORDER OF THE HEALTH OFFICER
OF THE CITY AND COUNTY OF SAN FRANCISCO
DIRECTING ALL INDIVIDUALS IN THE COUNTY TO CONTINUE
STAYING SAFER AT THEIR PLACES OF RESIDENCE TO THE
EXTENT THEY CAN EXCEPT FOR IDENTIFIED NEEDS AND
ACTIVITIES, AND TO FOLLOW HEALTH RISK REDUCTION
MEASURES OUTSIDE THEIR RESIDENCES; URGING GOVERNMENT
AGENCIES TO PROVIDE SHELTER AND SANITATION FACILITIES
TO INDIVIDUALS EXPERIENCING HOMELESSNESS; REQUIRING
ALL BUSINESSES AND RECREATION FACILITIES THAT ARE
ALLOWED TO OPERATE TO IMPLEMENT HEALTH RISK
REDUCTION MEASURES; AND DIRECTING ALL BUSINESSES,
FACILITY OPERATORS, AND GOVERNMENTAL AGENCIES TO
CONTINUE THE TEMPORARY CLOSURE OF ALL OPERATIONS
THAT ARE NOT YET SAFE ENOUGH TO RESUME

(STAY SAFER AT HOME)
DATE OF ORDER: January 2027, 2021

San Francisco is continuing to experience a significant surge in COVID-19 cases. This Order incorporates suspensions, reductions in capacity limits, and other restrictions contained in the Regional Stay At Home Order issued by the California Department of Public Health on December 3, 2020 (the CDPH Order). Effective December 17, 2020, the Bay Area Region, including San Francisco, is required to comply with the State's December 3, 2020 Regional Stay at Home Order and supplemental orders issued by the State Health Officer (the “Regional Stay at Home Order”).
This Order generally allows re-openings of businesses and activities consistent with the State’s assignment of the County to the purple tier (tier 1) because of widespread transmission of the virus, subject to certain further San Francisco restrictions based on local health conditions.

Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety Code § 120295, et seq.; California Penal Code §§ 69, 148(a)(1); and San Francisco Administrative Code § 7.17(b)).

Summary: On February 25, 2020 the Mayor of the City and County of San Francisco (the “County”) declared a state of emergency to prepare for coronavirus disease 2019 (“COVID-19”). On March 5, 2020 the County recorded its first reported case of COVID-19. On March 16, 2020 the County and five other Bay Area counties and the City of Berkeley, working together, were the first in the State to implement shelter-in-place orders in a collective effort to reduce the impact of the virus that causes COVID-19. Since that time, we have come to learn that the virus can be transmitted in the air through aerosols and that the risk of such airborne transmission is generally higher indoors. Also, while treatments for the disease are improving and vaccines are on the horizon, treatments remain limited and a vaccine will not likely be generally available until mid-2021. The vast majority of the population remains susceptible to infection, and local conditions could rapidly worsen if people fail to safely modify their behavior, including wearing face coverings, adhering to social distancing requirements, and avoiding gatherings.

Initially the shelter-in-place orders generally required individuals to stay in their residences except for essential needs like grocery shopping, working in essential businesses, providing essential government functions, or engaging in essential travel. Over time, and based on health data and a risk analysis, the County allowed the phased resumption of some businesses and activities, consistent with the roadmap that the State has established under its order. Consistent with the State’s April 2020 initial four-stage roadmap for reopening, the County created its own phased reopening plan. The County’s plan provides for the incremental resumption of certain business and other activities to gradually increase the volume of person-to-person contact to help contain the risk of a surge in COVID-19 cases in the County and the region. The County’s plan is available online at https://sf.gov/topics/reopening.

Because of the density of San Francisco and local health conditions, the County has moved more cautiously than the State otherwise allows. Our collective effort had a positive impact on limiting the spread of the virus. Early on the County, along with the other Bay Area jurisdictions, were able to bend the curve and preserve hospital capacity. Still, the severe danger the virus poses to the health and welfare of all continues. We need to be vigilant and there remains a continuing risk a surge will overwhelm the capacity of our hospital system.

Indeed, back in July 2020 the County and the region experienced a second surge in infections and hospitalizations, and took appropriate steps to respond, including pausing the reopening process. Along with all the other counties in the Bay Area, the County was placed on the State monitoring list and temporarily suspended certain additional business activities as required by the State Health Officer. Over the next month, with the
collective efforts of businesses and residents, the County was able again to reduce its virus transmission rate and resume re-opening some businesses and other activities.

On August 28, 2020 the State adopted a new four-tiered, color-coded framework based on the prevalence of virus transmission in each county to guide reopening statewide—the Blueprint for a Safer Economy—and the State has revised that framework since its initial implementation. That framework can be found online at https://covid19.ca.gov/safer-economy. Under the State’s framework, counties can be more restrictive than this State framework allows. The State initially assigned the County to the second most restrictive tier, substantial (red). In September and October, the County advanced from the moderate (orange) tier to the minimal (yellow) tier. As case rates and other indicators have changed, the State has moved counties between tiers, and in November 2020 with case rates increasing most counties have moved to the more restrictive tiers.

Along with most of the rest of the country and State, the County is in the midst of a third surge of the virus. Based on increased case rates, on November 17, 2020, the State reassigned the County backward to the substantial (red) tier and on November 28, 2020, back to the most restrictive (purple) tier. The County’s case rates and hospitalizations have continued to increase and are now higher than they were at the peak of the second (July) surge. Local COVID-19 cases have more than tripled since early November 2020. San Francisco is currently averaging 309 new COVID-19 positive cases per day compared to the 34 per day that it averaged in late October. Moreover, the City currently has approximately 2,150 COVID-19 cases diagnosed per week and hospitalizations have nearly tripled over the last month. As a result, the City’s hospital capacity is under considerable stress. Unlike in previous surges, the rest of the State’s hospital capacity is strained and reaching patient limits and it is unlikely there will be additional hospital capacity in other counties if San Francisco’s is compromised.

On December 3, 2020, the State issued a new Regional Stay at Home Order in an effort to slow the spread of COVID-19 and avoid overwhelming the State’s hospitals. The December 3 order places each of the State’s counties into one of five regions, with San Francisco included in the “Bay Area” region. Under the new order, once a region’s capacity of adult intensive care unit (“ICU”) beds reaches a threshold that is less than 45%, the region is subject to shelter-in-place restrictions similar to those enacted by the State in March 2020 during the first surge though not as restrictive in certain limited respects. The State’s Regional Stay at Home Order remains in effect until the State’s four-week projections of the region’s total available adult ICU bed capacity is greater than or equal to 15%.

Absent additional and immediate intervention to reduce the transmission of COVID-19, the County’s and Bay Area’s COVID-19 cases and hospitalizations will continue to rise and could overwhelm hospital capacity for the region. By continuing to act, and administering COVID-19 vaccines as they become available, the County and the region have the opportunity to bend the curve, avoid overwhelming hospitals, protect health care
workers and first responders. As we have done twice already, the County’s and region’s residents and businesses can yet again bend the curve and save lives.

San Francisco along with the rest of the Bay Area appears to have bent the curve and be on the other side of the surge in cases and hospitalizations that began last Fall, as San Francisco has done twice before. On January 26, 2021 the State removed the Bay Area from the State’s Regional Stay At Home Order, and San Francisco reverted to the purple tier (tier 1, widespread virus transmission) under the California Blueprint for a Safer Economy.

Consistent with the State’s Framework for a Safer Economy, San Francisco is allowing certain businesses and other activities to reopen starting January 28, 2021, with some additional required safety requirements under the amended Stay-Safer-At-Home Order and companion health directives. The decisions to reopen reflected in those documents balance the public health risks of COVID-19 transmission with the public health risks of economic and mental health stress. COVID-19 case rates in San Francisco are about twice as high now as they were the last time businesses and activities were open under the State’s purple tier at the end of November and beginning of December. This high rate means generally that twice as many people who you may come into contact with when you are outside your Residence have COVID-19 than before. Most COVID-19 infections are caused by people who have no symptoms of illness. We also face the added risk of new virus variants and mutations in the community, and it is unclear whether these variants may be more contagious or even more deadly. But the opening of sectors does not necessarily signify that these activities are “safe.” The purpose of the required safety protocols contained in the order and directives is to make these activities and sectors safer for workers and the public. Reopening requires that all individuals and businesses use particular care and do their part to make these activities as safe as possible, including, for example, wearing Face Coverings that cover your mouth and nose especially when talking, avoiding indoor settings to the extent possible, maintaining at least six feet of distance from people who are not in your Household, avoiding get-togethers and gatherings to the extent possible, getting tested and isolating if you are ill, and complying with additional health protocols required for open businesses and other activities.

We are going to have to live with the threat of the virus for months to come. And for us to be able to keep our schools open and continue to reopen those that are not yet providing in-person education, as well as re-open and expand business and other activities and promote the recovery of our economy, we are all going to have to take responsibility to act safely, including wearing face coverings, keeping at least six feet from others who are not in our household, washing our hands frequently, conducting activities outdoors rather than indoors where possible and avoiding gatherings. We are all in this together, and each of us is going to have to make sacrifices for the good of the community as a whole, including for our most vulnerable members.

This Order includes the following requirements, and you should review the Order itself for additional details.
General Requirements. The Order:

- Requires all residents in the County to reduce the risk of COVID-19 transmission by staying in their residences to the extent possible and minimizing trips and activities outside the home;
- Allows people to engage in listed activities, including, for example, working for or going to the businesses listed below and certain governmental and essential infrastructure activities, as well as engaging in essential activities, outdoor activities, certain additional activities, and travel related to those activities;
- Urges older individuals and others who have serious underlying health conditions to remain home other than essential needs;
- Continues to require everyone to wear face coverings while outside their residences, subject to limited exceptions;
- Continues to require everyone to follow social distancing requirements, including staying at least six feet away from members outside of their household, subject to limited exceptions;
- Continues to urge government agencies to provide shelter and sanitation facilities for individuals experiencing homelessness;
- Continues to require everyone to comply with requirements issued by the State and other Health Officer orders and directives; and
- Prohibits gatherings among different households to help reduce the transmission of the virus.

Requirements for All Businesses. The Order:

- Allows only listed businesses to operate onsite, including essential businesses, outdoor businesses, healthcare operations, and certain additional businesses;
- Allows other businesses only to operate Minimum Basic Operations (as defined in the Order) onsite;
- Requires that businesses continue to maximize the number of people who work remotely from home to the extent possible;
- Requires businesses to complete and post a Social Distancing Protocol checklist in the form attached to the Order as Appendix A;
- Requires businesses to direct personnel to stay home when sick and prohibits adverse action against personnel for doing so;
- Requires businesses and governmental entities to report to the San Francisco Department of Public Health when three or more personnel test positive for the virus that causes COVID-19 within a two-week period;
- Requires businesses to post certain signage, including for many indoor businesses signage regarding ventilation systems;
- Urges businesses that operate indoors to implement ventilation guidelines, requires all businesses that operate indoors and are open to members of the public to post a placard about what, if any, ventilation measures they are implementing, and requires at least one ventilation measure for certain of those businesses;
- Allows for customers to use reusable shopping bags at businesses; and
ORDER OF THE HEALTH OFFICER No. C19-07

- Requires all businesses that operate indoors and serve members of the public indoors to implement written procedures to “meter” or track the number of persons entering and exiting the facility to ensure that the maximum capacity for the establishment is not exceeded; and
- Requires businesses to cancel reservations or appointments without a financial penalty when a customer has a COVID-19 related reason.

Mandatory Best Practices Health Officer Directives. The Order requires that businesses and other entities currently permitted to operate review and comply with any applicable Health Officer Directives, and many of them require a Health and Safety Plan be completed and posted. These requirements include measures to help protect health of workers and customers, such as face covering, social distancing and sanitation protocols and, in many instances, capacity limits. All directives are available online at www.sfdph.org/directives.

Term. This Order, and specifically the more restrictive obligations it imposes based on the State’s Regional Stay at Home Order, will remain in effect until the Bay Area Region is no longer subject to that order and the Health Officer has also had an adequate opportunity to evaluate whether reopening is supported by other factors including ICU availability and other hospital capacity in the County and COVID-19 hospitalization and case rates. Given the current state, without a specific expiration date, for so long as the threat of the pandemic continues, or until this Order will likely remain in place after it is revised to begin allowing reopening and the resumption of some activities. The Order may be extended, rescinded, superseded, or amended in writing by the Health Officer depending on local conditions and health indicators and as may otherwise be required by the State. The Health Officer will continue to carefully monitor the evolving situation and will periodically revise this Order to loosen or, if need be, tighten – restrictions as conditions warrant, to help further the safer economic recovery, re-opening of schools and resumption of other activities.

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, THE HEALTH OFFICER OF THE CITY AND COUNTY OF SAN FRANCISCO (“HEALTH OFFICER”) ORDERS:

1. Purpose and Findings.

a. Purpose. As of the effective date and time set forth in Section 13, below, this Order supersedes the December 9, 2020January 20, 2021 Order of the Health Officer, No. C19-07q (updated on December 30, 2020),07r (the “Prior Order”), and all individuals, Businesses (as defined in Section 8.e below), and applicable government agencies in the County are required to follow the provisions of this Order. This Order continues to temporarily prohibit certain Businesses and activities from resuming and limits gatherings with individuals from other Households (as defined in Section 3.b below) until it is safer to do so. But it allows certain other Businesses, activities, travel and governmental functions to occur subject to specified health and safety restrictions, limitations, and conditions to limit the transmission of Novel Coronavirus Disease 2019 (“COVID-19”). COVID-19 continues to pose a severe risk to residents of our County, and significant safety measures are necessary to protect against a surge in COVID-19 cases, serious illnesses and deaths. Accordingly, this Order requires risk reduction measures to be in place across Business sectors and activities that are allowed to occur, ensuring necessary precautions are followed as we adapt the way we live and function in light of the ongoing threat that the virus now poses and is very likely to continue to pose for some time to come. The Health Officer will continue to
monitor data regarding COVID-19 and the evolving scientific understanding of the risks COVID-19 poses and may amend or rescind this Order based on analysis of that data and knowledge.

b. **Intent.** The primary intent of this Order is to ensure that County residents continue to stay safer in their Residences (as defined in Section 3.b, below) to the extent possible and that together as a community our residents, along with visitors and workers in the County, take appropriate risk reduction measures, especially while outside their Residences, to slow the spread of COVID-19 and mitigate its impact on the delivery of critical healthcare services in the County and the region. As further provided in Section 2, below, the Health Officer intends to allow the phased resumption of Businesses and activities to provide for a safer reopening, with specified risk reduction measures, all while the Health Officer continues to assess the transmissibility and clinical severity of COVID-19 in light of the COVID-19 Indicators and risk framework described in Section 2 below.

c. **Interpretation.** All provisions of this Order must be interpreted to effectuate the intent of this Order as described in subsection (b) above. The summary at the beginning of this Order as well as the headings and subheadings of sections contained in this Order are for convenience only and may not be used to interpret this Order; in the event of any inconsistency between the summary, headings or subheadings and the text of this Order below, the text will control. Certain initially capitalized used in this Order have the meanings given them in Section 8 below. The interpretation of this Order in relation to the health orders of the State is described in Section 10 below.

d. **Effect of Failure to Comply.** Failure to comply with any of the provisions of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both, as further provided in Section 12 below.

e. **Continuing Severe Health and Safety Risk Posed by COVID-19.** This Order is issued based on evidence of continued significant community transmission of COVID-19 within the County and throughout the Bay Area; continued uncertainty regarding the degree of undetected asymptomatic transmission; scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically; evidence that the age, condition, and health of a significant portion of the population of the County places it at risk for serious health complications, including death, from COVID-19; and further evidence that others, including younger and otherwise healthy people, are also at risk for serious outcomes including death. Due to the outbreak of COVID-19 in the general public, which remains a pandemic according to the World Health Organization, there is a public health emergency throughout the County, region and State. That immediate threat to public health and safety is also reflected in the continuing declarations of emergency referenced in Section 9.a below. Making the problem worse, some individuals who contract the virus causing the COVID-19
disease have no symptoms or have mild symptoms, which means they may not be aware they carry the virus and are transmitting it to others. Further, evidence shows that the virus can survive for hours to days on surfaces and be indirectly transmitted between individuals and also may be transmitted through airborne micro-droplets. Because even people without symptoms can transmit the infection, and because evidence shows the infection is easily spread, gatherings of people and other direct or indirect interpersonal interactions, particularly those that occur indoors, can result in preventable transmission of the virus.

f. Local Health Conditions Relating to COVID-19. The efforts taken beginning in March 2020 under the prior shelter-in-place orders of the Health Officer, along with those of health officers of five neighboring counties, slowed the virus’s trajectory. While the public health emergency and threat to the County’s population remain severe, the region has significantly increased its capacity to detect cases, contain spread, and treat infected patients through widespread testing; greatly expanded its case investigation and contact tracing program and workforce; and expanded hospital resources and capacity. At the same time, across the region and the rest of the State, there had been a significant reopening of Businesses and activities, accompanied by an increase in cases and hospitalizations, which increases carry risks to County residents and resources. As we continue to evolve our strategies for protecting residents of the County from COVID-19, we must consider both the trajectory of the virus in the County and across the region, and the increased health risks associated with the opening of many Businesses and activities under the Prior Order. To protect the community from COVID-19, we must ensure that when people engage in activities they are doing so as safely as possible.

g. Cases, Hospitalizations and Deaths. As of January 17, 2021, there were 29,180 confirmed cases of COVID-19 in the County (up from 37 on March 16, 2020, the day before the first shelter-in-place order in the County went into effect) as well as at least 266 deaths (up from a single death on March 17, 2020). This information, as well as information regarding hospitalizations and hospital capacity, is regularly updated on the San Francisco Department of Public Health’s website at https://data.sfgov.org/stories/s/fjki-2fab. Local COVID-19 cases have more than tripled since early in November 2020. San Francisco is currently averaging 309 new COVID-19 positive cases per day compared to the 34 per day that it averaged in late October. Moreover, the City currently has approximately 2,150 COVID-19 cases diagnosed per week, and hospitalizations have nearly tripled over the last month. As a result, the City’s hospital capacity is under considerable stress. Unlike in previous surges, in mid-2020, much of the State’s hospital capacity remains strained and reaching patient limits and it is unlikely there will be additional hospital capacity in other counties if San Francisco’s is compromised as well.

a. **Health Gating.** To inform decisions about whether and how to augment, limit, or temporarily prohibit Businesses or activities to slow the spread of COVID-19, the Health Officer will continually review (1) progress on the COVID-19 Indicators; (2) developments in epidemiological and diagnostic methods for tracing, diagnosing, treating, or testing for COVID-19; and (3) scientific understanding of the transmission dynamics and clinical impact of COVID-19.

The COVID-19 Indicators and vaccine coverage will be key drivers in the Health Officer’s gating decisions. In particular, the number of new COVID-19 cases per 100,000 residents, the rate of change in COVID-19 hospitalizations, and the amount of available hospital capacity will help guide decisions. If any indicator or a collection of these and other indicators are orange or red, then the Health Officer will give serious consideration to pausing or even reversing openings if appropriate. Also, the total number of hospitalized COVID-19 patients, and whether this total number is significantly increasing, flat, or decreasing, will play a role in gating decisions. Modeling estimates of peak hospitalizations will also be considered.

Information about San Francisco’s status under the COVID-19 Indicators is available on the City’s website at [https://data.sfgov.org/stories/s/Key-Health-Indicators-on-Containing-COVID-19/epem-wyzb](https://data.sfgov.org/stories/s/Key-Health-Indicators-on-Containing-COVID-19/epem-wyzb).

In addition to evaluating the COVID-19 Indicators in making gating decisions, the Health Officer will also consider the estimate of the effective reproductive number (Re), and whether there is evidence it is increasing, stable, or decreasing. The effective reproductive number (Re) is the average number of secondary cases per infectious case in the setting of public health interventions (e.g., sheltering in place, Face Coverings, physical distancing, etc.). When Re > 1, the epidemic curve increases. When Re < 1, the epidemic curve decreases. When Re ~ 1, the epidemic curve is flat.

b. **Risk Criteria for Additional Businesses and Additional Activities Under Phased Reopening.**

In connection with the health indicators and other public health data discussed above, the Health Officer will consider the risk of transmission involved in Businesses or activities in determining when and how they can safely resume, or if they must remain or be ordered temporarily closed. The following risk criteria will inform this analysis:

1) *Ability to modify behavior to reduce risk*—whether individuals engaged in the Business or other activity can wear Face Coverings at all times, maintain at least six feet of physical distancing at all times, and comply with other Social Distancing Requirements, including hand washing and sanitation;
ORDER OF THE HEALTH OFFICER No. C19-07F

2) *Avoidance of risky activities*—whether the nature of the Business or activity necessarily involves eating or drinking (which requires removing Face Covering); gatherings with other Households (which presents risks as described in subsection d below); or singing, chanting, shouting, or playing wind/brass instruments (which all present significant risk of airborne transmission);

3) *Setting*—Outdoor Businesses and activities are safer than indoor businesses or activities, so outdoors is strongly preferred;

4) *Mixing of Households*—Mixing of people from different Households present higher risk of virus transmission and community spread, and the more different Households that mix, the greater the cumulative risk;

5) *Number, frequency, duration and distance of contacts*—The more people who interact, the higher the risk of virus transmission; and the more people who gather at a site, or the more sites involved in the business, possible interactions increase exponentially (number of contacts). The more often people interact, the higher the risk of virus transmission (frequency of contacts). The longer the duration of contacts, the higher the risk of virus transmission (duration of contacts). The closer the proximity of people, the higher the risk of virus transmission (distance of contacts); and

6) *Modification potential*—the degree to which best practices health protocols can reduce the risk of transmission, where those protocols can be properly implemented.

3. **General Requirements for Individuals.**

   a. *Staying Safer At Home Is The Best Way To Control Risk.* Staying home as much as possible is the best way to prevent the risk of COVID-19 transmission, and therefore minimizing trips and activities outside the home helps reduce risk to individuals and the community. All activities that involve contact with people from different Households increase the risk of transmission of COVID-19. Accordingly, all individuals currently living within the County are for the time being ordered to stay in their place of Residence to the extent possible. They may leave their Residence only to:

   - Work for or access Businesses that are allowed to be open under this Order (Essential Businesses, Outdoor Businesses, and Additional Businesses, as those terms are defined in Sections 8.a, 8.b and 8.c);
   - Work for, volunteer at, or access services at Healthcare Operations, as that term is defined in Section 8.g;
   - Engage in activities that are allowed under this Order (Essential Activities, Outdoor Activities, and Additional Activities, as those terms are defined in Sections 8.h, 8.i and 8.j); and
   - Engage in Essential Travel, as that term is defined in Section 8.k; or
ORDER OF THE HEALTH OFFICER No. C19-07FS

- Provide any services or perform any work necessary to the operation maintenance of Essential Governmental Functions or Essential Infrastructure, as those terms are defined in Sections 8.l and 8.m.

Further, on November 19, 2020, until further order of the Acting California State Public Health Officer issued an order (the “Limited Stay At Home Order”) requiring that “all gatherings with members of other households and all activities conducted outside the residence, lodging, or temporary accommodation must cease between 10:00 p.m. and 5:00 a.m., except for those activities associated with the operation, maintenance, or usage of essential infrastructure or required by law.” The Limited Stay At Home Order is available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/limited-stay-at-home-order.aspx. Essential Businesses or Essential Services, or as required by law.

Beginning at 10:00 p.m. on November 30, 2020, and continuing until the earlier of the expiration of the Limited Stay At Home Order or the State’s reassignment of San Francisco to a tier that is less restrictive than the State Blueprint’s purple tier, and in addition to the requirements of this Order, all covered individuals are required to comply with the limitations on gatherings and the other requirements set forth in the Limited Stay At Home Order, as it may be amended or extended.

b. Residences and Households. For purposes of this Order, “Residences” include hotels, motels, shared rental units, and similar facilities. Residences also include living structures and outdoor spaces associated with those living structures, such as patios, porches, backyards, and front yards that are only accessible to a single family or Household. For purposes of this order “Household” means people living in a single Residence or shared living unit. Households do not refer to individuals who live together in an institutional group living situation such as in a dormitory, fraternity, sorority, monastery, convent, or residential care facility.

c. Individuals Experiencing Homelessness. Individuals experiencing homelessness are exempt from this Section, but are strongly urged to obtain shelter. Government agencies and other entities operating shelters and other facilities that house or provide meals or other necessities of life for individuals experiencing homelessness are strongly urged to, as soon as possible, make such shelter available, and must take appropriate steps to help ensure compliance with Social Distancing Requirements, including adequate provision of hand sanitizer. Also, individuals experiencing homelessness who are unsheltered and living in encampments should, to the maximum extent feasible, abide by 12 foot by 12 foot distancing for the placement of tents, and government agencies should provide restroom and hand washing facilities for individuals in such encampments as set forth in Centers for Disease Control and Prevention Interim Guidance Responding to Coronavirus 2019 (COVID-19) Among People Experiencing Unsheltered Homelessness
d. **Older Adults and Individuals of Any Age with Certain Medical Conditions.** Older adults and individuals with certain medical conditions—including cancer, chronic kidney disease, chronic obstructive pulmonary disease, immunocompromised state from solid organ transplant, obesity, serious heart conditions (such as heart failure, coronary artery disease, or cardiomyopathies), sickle cell disease, smoking, and Type 2 diabetes—are strongly urged to stay in their Residence except to access critical necessities such as food, and to seek or provide medical care or Essential Governmental Functions. Individuals with other medical conditions might be at increased risk for severe illness from COVID-19 and are encouraged to minimize activities and interactions with people outside their Household to the extent practicable, except as necessary to seek or provide medical care or Essential Governmental Functions. The most up-to-date information about who is at increased risk of severe illness and people who need to take extra precautions can be found at [https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-increased-risk.html](https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-increased-risk.html).

e. **Mandatory Risk Reduction Measures For Individuals Outside their Place of Residence.** When people leave their place of Residence, they must (1) strictly comply with the Social Distancing Requirements as defined in Section 8.o, including maintaining at least six feet of social distance from other people not in the same Household, except as expressly provided in this subsection below or elsewhere in this Order, and (2) wear Face Coverings as defined and provided in, and subject to the limited exceptions in, Health Officer Order No. C19-12d issued December 22, 2020 (the “Face Covering Order”), including any future amendments to that order. The requirement to strictly comply with Social Distancing Requirements is subject to a limited exception as necessary to provide care (including childcare, adult or senior care, care to individuals with special needs, and patient care); as necessary to carry out the work of Essential Businesses, Essential Governmental Functions, or provide for Minimum Basic Operations; or as otherwise expressly provided in this Order. For clarity, individuals who do not currently reside in the County must comply with all applicable requirements of this Order when in the County.

   Importantly, while the COVID-19 vaccines have been shown to be highly effective at preventing people from getting sick, we do not yet know if people who have been vaccinated can still get the virus and spread COVID-19 to others. Accordingly, people who have been vaccinated must continue to follow these mandatory risk reduction measures when they leave their place of residence.

f. **Limitations on Gatherings that Involve Mixing of Different Households to Reduce Virus Transmission Risk.** Gatherings of individuals from different Households pose a significant risk of virus transmission to the community. The greater the number of people from different households in a gathering, the greater the risk of the spread of
COVID-19. All public and private gatherings of any number of people occurring outside a single Household are prohibited, except as expressly permitted in this Order including, but not limited to, gatherings allowed as Additional Activities in Appendix C-2. If, despite this prohibition, people find themselves with members of other Households, they are required to follow the health guidelines for safer interactions set forth in the Tip Sheet for Safer Interactions During COVID-19 Pandemic, posted at: www.sfcdcp.org/communicable-disease/diseases-a-z/covid19whatsnew.

g. Quarantine and Isolation Requirements and Recommendations Upon Moving to, Traveling to, or Returning to the County. Everyone is strongly encouraged not to travel, especially for recreational or non-essential purposes, and anyone who travels is strongly encouraged to quarantine on return to or arrival in the County. All individuals are required to comply with any travel-related orders—including any requirements for mandatory quarantine and isolation—that are issued by the State of California or the San Francisco Department of Public Health. Visit www.sfcdcp.org/travel for more information.

4. General Requirements for Businesses and Business Activities.

a. Allowed Businesses. Essential Businesses, Outdoor Businesses, and Additional Businesses, as defined in Sections 8.a, 8.b and 8.c, are allowed to operate in the County under this Order. All other Businesses are temporarily required to cease all activities at facilities located within the County except Minimum Basic Operations, as defined in Section 8.d. Except as otherwise provided in Appendix C-1, Businesses that include allowed operations alongside other operations that are not yet allowed must, to the extent feasible, scale down their operations to the allowed components only.

b. Maximization of Telework. All Businesses must continue to maximize the number of Personnel who work remotely from their place of Residence, subject to the conditions and limitations provided in Appendix C-1.

c. Activities that Can Occur Outdoors. All Businesses are strongly urged to move as many operations as possible outdoors, to the extent permitted by local law and permitting requirements, where there is generally less risk of COVID-19 transmission. Businesses that operate outdoors may, subject to any applicable permit requirements, conduct their operations in a tent, canopy, or other shelter, as long as the shelter complies with: (1) the California Department of Public Health’s November 25, 2020 guidance regarding “Use of Temporary Structures for Outdoor Business Operations” (available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Use-of-Temporary-Structures-for-Outdoor-Business-Operations.aspx); and (2) the San Francisco Department of Public Health’s guidance on “Safer Ways to Use New Outdoor Shared Spaces for Allowed Activities During COVID-19” (available at
d. Social Distancing Protocol. As a condition of operating under this Order, the operators of all Businesses allowed to operate must comply with the requirements of the Social Distancing Protocol attached to this Order as Appendix A and must complete a Social Distancing Protocol checklist for each of their facilities in the County frequented by Personnel or members of the public. The Social Distancing Protocol checklist must be posted at or near each public entrance of each of the Business facilities and must be easily viewable by the public and Personnel. A copy of the Social Distancing Protocol checklist must also be provided in hardcopy or electronic format to each person performing work at the facility. Each Business subject to this paragraph must provide evidence of its implementation of the Social Distancing Protocol requirements to any authority enforcing this Order upon demand. A copy of the Social Distancing Protocol checklist must also be provided by the Business or entity to any member of the public on request.

With the exception of construction activities—which must comply with the Construction Project Safety Protocols set forth in Appendix B—each Business must use the Social Distancing Protocol checklist included in Appendix A or a form that is substantially similar.

e. Industry Specific Requirements. In addition to the Social Distancing Protocol, all Businesses allowed to operate under this Order must follow any industry or activity-specific guidance issued by the Health Officer related to COVID-19 (available online at http://www.sfdph.org/directives) and any conditions on operation specified in this Order, including those specified in Appendix C-1.

f. Businesses Must Allow Personnel to Stay Home When Sick. As outlined in the Social Distancing Protocol, Businesses are required to allow Personnel to stay home if they have symptoms associated with COVID-19 that are new or not explained by another condition (see http://www.sfcdcp.org/covid19symptoms), and Personnel are prohibited from coming to work if they are sick and may only return to work as outlined in the Social Distancing Protocol. Generally speaking, Personnel with any single COVID-19 symptom that is new or not explained by another condition must have a negative COVID-19 test OR stay out of work for at least 10 days since symptoms started in order to return to work. Those who are close contacts of someone with COVID-19 must remain out of work for 10 days since their last close contact. See Personnel Screening Attachment (A-1) of the Social Distancing Protocol for more details (also posted at www.sfcdcp.org/screening-handout). Each Business that is required to comply with the Social Distancing Protocol is prohibited from taking any adverse action against any Personnel for staying home in the circumstances listed in the Social Distancing Protocol.

g. Signage For Indoor Activities. Although this Order allows certain indoor activities to resume, those activities are allowed subject to more stringent safety measures and, as
a general matter, remain inherently riskier than activities that are done outdoors. All businesses that are allowed to be open indoors for the public must conspicuously post signage, including at all primary public entrances, reminding people to adhere to physical distancing, hygiene, and Face Covering requirements and to stay home when they feel ill. They must also post a stand-alone sign bearing the message that: (1) COVID-19 is transmitted through the air, and the risk is generally higher indoors, and (2) seniors and those with health risks should avoid indoor settings with crowds.

The County is making templates for the signage available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19. The templates may be updated from time to time, and businesses are strongly urged to keep informed of those changes and update their signage accordingly.

h. **Signage For Employees To Report Unsafe Conditions Related To COVID-19.** All businesses are required to post signs in employee break rooms or areas informing employees that they can report violations of COVID-19 health orders and directives by calling 311 or visiting www.sf.gov/report-health-order-violation. Signage should also state that the employee’s identity will not be disclosed to the employer. Sample signage is available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19.

i. **Ventilation Requirements.**

   i. All businesses that are allowed to be open indoors must review the San Francisco Department of Public Health’s Guidance on “Ventilation for Non-Healthcare Organizations During the COVID-19 Pandemic,” available online at https://www.sfcdcp.org/COVID-Ventilation (“Ventilation Guidance”). Those businesses must: (1) implement as many improvements in the Ventilation Guidance document as feasible, and (2) keep a hand-annotated copy of the Ventilation Guidance showing which improvements were considered and implemented. Ventilation guidance from recognized authorities such as the CDC, ASHRAE, or the state of California can be used as an alternate to the DPH Ventilation Guidance with an annotated version of the alternate guidance kept on hand.

   ii. **As soon as possible, but no later than December 4, 2020,** all businesses—including essential businesses—that operate indoors and serve members of the public indoors, except hospitals and medical offices that meet Title 24 requirements for ventilation for healthcare facilities, must conspicuously post signage, including at all primary public entrances, indicating which of the following ventilation strategies are used at the facility: All available windows and doors accessible to fresh outdoor air are kept open; Fully Operational HVAC systems; Appropriately sized portable air cleaners in each room; or None of the above.

In addition, as soon as possible, but no later than February 3, 2021, all businesses—including hospitals and medical offices that meet Title 24 requirements—
requirements for ventilation for healthcare facilities—must conspicuously post this same ventilation signage in any and all breakrooms in their facilities.

The County is making templates for the signage available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19. The templates may be updated from time to time, and businesses are strongly urged to keep informed of those changes and update their signage accordingly.

iii. [Temporarily suspended.]

j. Compliance With State Orders. All businesses that are allowed to operate under this Order must operate in compliance with any applicable orders issued by the State that may limit the hours or manner of operation of businesses including, without limitation, the Acting California State Public Health Officer’s November 19, 2020 Limited Stay At Home Order available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/limited-stay-at-home-order.aspx.

For clarity, and without limiting other applicable exemptions, under the Limited Stay At Home Order essential work is permitted to continue between 10:00 p.m. and 5:00 a.m., and, subject to other applicable legal requirements, essential retail establishments may remain open during those hours, and food and beverage establishments may continue to operate for delivery and takeout during those hours.

k. Capacity Limitations. With the exception of standalone grocery stores, all businesses that operate indoors and serve members of the public indoors (including but not limited to essential and non-essential retail stores, and other essential businesses such as banks and businesses providing mailing and shipping services) must limit capacity to the lesser of: (1) \(2025\)% the store’s maximum occupancy or (2) the number of people who can maintain at least six feet of physical distance from each other in the facility at all times.

Standalone grocery stores must limit capacity to the lesser of: (1) \(3550\)% the store’s maximum occupancy or (2) the number of people who can maintain at least six feet of physical distance from each other in the facility at all times.

Unless otherwise provided in an industry specific health officer directive, the capacity limit includes all does not include staff and other personnel of a business.

Businesses are urged to institute special hours for seniors and others with chronic conditions or compromised immune systems.

l. Metering Requirements. All businesses that operate indoors and serve members of the public indoors subject to a capacity limitation must develop and implement written procedures to “meter” or track the number of persons entering and exiting the facility to ensure that the maximum capacity for the establishment is not exceeded.
ORDER OF THE HEALTH OFFICER No. C19-07FS

For example, an employee of the establishment may be posted at each entrance to the facility to perform this function. The establishment must provide a copy of its written “metering” procedures to an enforcement officer upon request and disclose the number of members of the public currently present in the facility.

m. Until further order of the Health Officer, all non-essential businesses must close between 10:00 p.m. and 5:00 a.m. For clarity, and without limiting other applicable exemptions, essential work is permitted to continue between 10:00 p.m. and 5:00 a.m., and, subject to other applicable legal requirements, essential retail establishments may remain open during those hours, and food and beverage establishments may continue to operate for delivery and takeout during those hours. Personnel may also commute to and from work during those hours for a business that is allowed to operate under this Order.

5. Schools, Childcare, Youth Programs, and Higher Education

a. Schools. Transitional kindergarten (TK)-12 schools may operate for in-person instruction subject to the following requirements and conditions.

1) TK-6 Grade.

a) Schools serving grades TK-6 may reopen for indoor in-person instruction if they:

i. obtain advance written approval of the Health Officer, and

ii. complete and post a Covid-19 Safety Plan (CSP)—as described in the California Department of Public Health “Covid-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-21 School Year (available at https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Consolidated_Schools_Guidance.pdf)—to their website homepage and submit the CSP to the San Francisco Department of Public Health and the State Safe Schools for All Team and there are no identified deficiencies.

More information about this process will be available at https://www.sfdph.org/dph/covid-19/schools-education.asp or email the Schools and Childcare Hub at schools-childcaresites@sfdph.org.

Note that only grades TK-6 may reopen for indoor in-person education even if the grade configuration at the school includes additional grades.

b) Schools that have already opened and are providing in-person instruction to students in grades TK-6 may continue to do so if they complete and post a CSP to their website homepage or, in the case of schools that do not maintain websites, in another publicly available manner no later than February 1, 2021.
2) 7-12 Grade.

   a) Schools may **not reopen** for indoor in-person instruction for students in grades 7-12 at this time.

   b) Schools that have **already opened** and are providing in-person instruction to students in grades 7-12 may continue to do so if they complete and post a CSP to their website homepage or, in the case of schools that do not maintain websites, in another publicly available manner no later than February 1, 2021.

   c) Schools that have approved applications to provide indoor in-person instruction for students in grades 7-12, but have not yet reopened may not reopen for indoor instruction at this time.

   d) Middle and high schools interested in operating **outdoor** in-person programs should visit https://www.sfdph.org/dph/covid-19/schools-education.asp or email the Schools and Childcare Hub at schools-childcaresites@sfdph.org for more information.

3) **Specialized Targeted Support Services.** TK-12 schools may operate to provide in-person specialized and targeted support services to vulnerable children and youth. Schools providing specialized targeted support services do not need to obtain a waiver or advance written approval of the Health Officer, but must comply with the Health Officer Directive No. 2020-26b. Additional information about what qualifies as specialized targeted support services and which students may be served in these specialized programs is available at [https://www.sfdph.org/dph/covid-19/schools-education.asp](https://www.sfdph.org/dph/covid-19/schools-education.asp).

4) **Requirements for All TK-12 Schools.** All TK-12 schools must follow any applicable directives issued by the County Health Officer, including Health Officer Directive No. 2020-33b ([www.sfdph.org/directives](https://www.sfdph.org/directives)), as it may be updated in the future, and any applicable “COVID-19 Industry Guidance” issued by the California Department of Public Health, available at [https://covid19.ca.gov/industry-guidance/](https://covid19.ca.gov/industry-guidance/).

   For clarity, this subsection applies to public and private schools operating in San Francisco, including independent, parochial and charter schools.

b. **Home-Based Care for Children.** Home-based care for children is permitted under Section 8.a.xxi, below.

c. **Childcare Programs for Young Children.** Group care facilities for children who are not yet in elementary school—including, for example, licensed childcare centers, daycares, family daycares, and preschools (including cooperative preschools)—may
operate subject to, and to the extent permitted by, the health and safety requirements set forth in Section 3.b.1 of Appendix C-1 and Health Officer Directive No. 2020-14e, as it may be amended in the future.

d. **Out of School Time Programs.** With the exception of schools, which are addressed in subsection (a) above, educational or recreational institutions or programs that provide care or supervision for school-aged children and youth—including for example, learning hubs, other programs that support and supplement distance learning in schools, school-aged childcare programs, youth sports programs, and afterschool programs—may operate subject to, and to the extent permitted by, the health and safety requirements set forth in Section 3.b.3 of Appendix C-1 and Health Officer Directive No. 2020-21e, as it may be amended in the future.

e. **Institutions of Higher Education and Adult Education.** Institutions of higher education (“IHEs”), such as colleges and universities, and other programs offering adult education—including, for example, programs offering job skills training and English as a second language classes to adults—may operate subject to, and to the extent permitted by, the health and safety requirements set forth in Section 14 of Appendix C-1, and any relevant industry-specific Health Officer directives.

f. **Additional Information.** Additional information about the operational requirements and restrictions relating to COVID-19 for schools, childcare, and youth programs is available at https://www.sfdph.org/dph/covid-19/schools-education.asp.

6. **Public Transit.**

a. Transit agencies, people riding or waiting to ride on public transit, and people at or near a public transit stop or station must comply with Social Distancing Requirements, as defined in Section 8.o, except as provided in subsection (b) below. Personnel and passengers must wear Face Coverings as required by the Face Covering Order. Also, people riding or waiting to ride on public transit must follow any applicable directives issued by the County Health Officer (www.sfdph.org/directives) and any applicable “COVID-19 Industry Guidance” issued by the California Department of Public Health, available at https://covid19.ca.gov/industry-guidance/. For clarity, public transit may continue to operate under the State’s Limited Stay At Home Order between 10:00 p.m. and 5:00 a.m.

b. Transit agencies that have submitted an acceptable health and safety plan to the Department of Public Health may relax the six-foot social distancing requirement between riders, provided that they encourage riders from different Households to maintain six feet social distance to the greatest extent feasible, and in no event shall the distance between riders from different Households be less than three feet. Transit agencies that have submitted an acceptable health plan must still ensure that there is at least six-feet social distance between transit operators and members of the public.
ORDER OF THE HEALTH OFFICER No. C19-07FS

The Department of Public Health has posted a template health and safety plan at www.sfdph.org/directives.

7. **Mandatory Reporting by Businesses and Government Entities When Three or More Personnel Contract COVID-19 Within Two Weeks.**

Businesses and governmental entities must require that all Personnel immediately alert the Business or governmental entity if they test positive for COVID-19 and were present in the workplace within the 48 hours before onset of symptoms or, if asymptomatic, within 48 hours of the date on which they were tested. Businesses and governmental entities can learn more about what to do after a positive COVID-19 case among Personnel at www.sfcdcp.org/covid19-positive-workplace. If a Business or governmental entity has three or more Personnel who test positive for COVID-19 within a two-week period, then the Business or governmental entity is required to call the San Francisco Department of Public Health at 628-217-6100 immediately to report the cluster of cases. Businesses and governmental entities must also comply with all case investigation and contact tracing measures by the County, including providing any information requested.

8. **Definitions.**

For purposes of this Order, the following initially capitalized terms have the meanings given below.

**Allowed Businesses and Business Activities.**

a. **Essential Businesses.** “Essential Businesses” means:

i. Healthcare Operations (as defined in subsection g below);

ii. Grocery stores, certified farmers’ markets, farm and produce stands, supermarkets, food banks, convenience stores, and other establishments engaged in the retail sale of unprepared food, canned food, dry goods, non-alcoholic beverages, fresh fruits and vegetables, pet supply, fresh meats, fish, and poultry, as well as hygienic products and household consumer products necessary for personal hygiene or the habitability, sanitation, or operation of Residences. The Businesses included in this subsection include establishments that sell multiple categories of products provided that they sell a significant amount of essential products identified in this subsection, such as liquor stores that also sell a significant amount of food;

iii. Food cultivation, including farming, livestock, and fishing;

iv. Businesses that provide food, shelter, and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals;

v. Construction, but only as permitted under the State Shelter Order and only pursuant to the Construction Safety Protocols listed in Appendix B and incorporated into this Order by this reference. City public works projects shall not be subject to Appendix B, except if other protocols are specified by
the but rather must comply with Health Officer Directive No. 2020-04 (as that directive may be updated or revised) regarding the Construction Safety Protocols for City Public Works Projects;

vi. Newspapers, television, radio, and other media services;

vii. Gas stations and auto-supply, auto-repair (including, but not limited to, for cars, trucks, motorcycles and motorized scooters), and automotive dealerships, but only for the purpose of providing auto-supply and auto-repair services. This subsection (vii) does not restrict the on-line purchase of automobiles if they are delivered to a Residence or Essential Business;

viii. Bicycle repair and supply shops;

ix. Banks and related financial institutions;

x. Service providers that enable real estate transactions (including rentals, leases, and home sales), including, but not limited to, real estate agents, escrow agents, notaries, and title companies, provided that appointments and other residential real estate viewings must only occur virtually or, if a virtual viewing is not feasible, by appointment with no more than two visitors at a time residing within the same Household and one individual showing the unit (except that in person visits are not allowed when the occupant is present in the Residence);

xi. Hardware stores;

xii. Plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the habitability, sanitation, or operation of Residences and Essential Businesses;

xiii. Businesses providing mailing and shipping services, including post office boxes;

xiv. Educational institutions—including public and private K-12 schools, colleges, and universities—for purposes of facilitating distance learning or performing essential functions, or as allowed under subsection (xxvi), provided that social distancing of six feet per person is maintained to the greatest extent possible;

xv. Laundromats, drycleaners, and laundry service providers;

xvi. Restaurants and other facilities that prepare and serve food, but only for delivery or carry out. Schools and other entities that typically provide free food services to students or members of the public may continue to do so under this Order on the condition that the food is provided to students or members of the public on a pick-up and take-away basis only. Schools and other entities that provide food services under this exemption shall not permit the food to be eaten at the site where it is provided, or at any other gathering site;

xvii. Funeral home providers, mortuaries, cemeteries, and crematoriums, to the extent necessary for the transport, preparation, or processing of bodies or remains, and for those same entities, as well as for houses of worship, to hold (a) indoor funerals for no more than 12 individuals (or, if higher, the number of individuals
then allowed to gather for indoor religious services and cultural ceremonies under Section (9)b.3 of Appendix C-2), and (b) outdoor funerals subject to the capacity limits for outdoor religious gatherings under Section (9)b.2 of Appendix C-2, but if the number of people allowed for a funeral indoors is more than 12, then indoor and outdoor funerals cannot be held concurrently for the funeral for the same individual at the same location;

xviii. Businesses that supply other Essential Businesses and Outdoor Businesses with the support or supplies necessary to operate, but only to the extent that they support or supply these Businesses. This exemption shall not be used as a basis for engaging in sales to the general public from retail storefronts;

xix. Businesses that have the primary function of shipping or delivering groceries, food, or other goods directly to Residences or Businesses. This exemption shall not be used to allow for manufacturing or assembly of non-essential products or for other functions besides those necessary to the delivery operation;

xx. Airlines, taxis, rental car companies, rideshare services (including shared bicycles and scooters), and other private transportation providers providing transportation services necessary for Essential Activities and other purposes expressly authorized in this Order;

xxi. Home-based care for seniors, adults, children, and pets;

xxii. Residential facilities and shelters for seniors, adults, and children;

xxiii. Professional services, such as legal, notary, or accounting services, when necessary to assist in compliance with non-elective, legally required activities or in relation to death or incapacity;

xxiv. Services to assist individuals in finding employment with Essential Businesses;

xxv. Moving services that facilitate residential or commercial moves that are allowed under this Order;

xxvi. Childcare establishments and other educational or recreational institutions or programs providing care or supervision for children (with the exception of summer camps, which are addressed separately in Appendix C-1, and schools, which are addressed separately in Section 6.b, above) that enable owners and Personnel of Essential Businesses and providers of Essential Governmental Functions to work as allowed under this Order;

xxvii. Businesses that operate, maintain, or repair Essential Infrastructure.

b. **Outdoor Businesses**. “Outdoor Businesses” means:

i. The following Businesses that normally operated primarily outdoors before March 16, 2020, and where there is the ability to fully maintain social distancing of at least six feet between all persons:
1. Businesses primarily operated outdoors, such as wholesale and retail plant nurseries, agricultural operations, and garden centers; and

2. Service providers that primarily provide outdoor services, such as landscaping and gardening services, and environmental site remediation services.

For clarity, “Outdoor Businesses” do not include outdoor restaurants, cafes, or bars. Except as otherwise provided in Appendix C-1, they also do not include Businesses that promote large, coordinated, and prolonged gatherings, such as outdoor concert venues and amusement parks.

Outdoor Businesses may conduct their operations in a tent, canopy, or other shelter as provided in Section 4.c above.

c. Additional Businesses. “Additional Business” means any Business identified as an Additional Business in Appendix C-1, which will be updated as warranted based on the Health Officer’s ongoing evaluation of the COVID-19 Indicators and other data.

In addition to the other requirements in this Order, operation of those Additional Businesses is subject to any conditions and health and safety requirements set forth in Appendix C-1 and in any industry-specific guidance issued by the Health Officer.

d. Minimum Basic Operations. “Minimum Basic Operations” means the following activities for Businesses, provided that owners, Personnel, and contractors comply with Social Distancing Requirements as defined this Section, to the extent possible, while carrying out such operations:

i. The minimum necessary activities to maintain and protect the value of the Business’s inventory and facilities; ensure security, safety, and sanitation; process payroll and employee benefits; provide for the delivery of existing inventory directly to Residences or Businesses; and related functions. For clarity, this section does not permit Businesses to provide curbside pickup to customers; and

ii. The minimum necessary activities to facilitate owners, Personnel, and contractors of the Business being able to continue to work remotely from their Residences, and to ensure that the Business can deliver its service remotely.

e. Business. A “Business” includes any for-profit, non-profit, or educational entity, whether a corporate entity, organization, partnership or sole proprietorship, and regardless of the nature of the service, the function it performs, or its corporate or entity structure.

f. Personnel. “Personnel” means the following people who provide goods or services associated with the Business in the County: employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the Business); independent contractors; vendors who are permitted to sell
goods onsite; volunteers; and other individuals who regularly provide services onsite at the request of the Business. “Personnel” includes “gig workers” who perform work via the Business’s app or other online interface, if any.

g. **Healthcare Operations.** “Healthcare Operations” includes, without limitation, hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, pharmaceutical and biotechnology companies, other healthcare facilities, healthcare suppliers, home healthcare services providers, mental health providers, or any related and/or ancillary healthcare services. “Healthcare Operations” also includes veterinary care and all healthcare services provided to animals. This exemption for Healthcare Operations must be construed broadly to avoid any interference with the delivery of healthcare, broadly defined. “Healthcare Operations” excludes fitness and exercise gyms and similar facilities.

**Allowed Activities.**

h. **Essential Activities.** “Essential Activities” means to:

i. Engage in activities or perform tasks important to their health and safety, or to the health and safety of their family or Household members (including pets);

ii. Obtain necessary services or supplies for themselves and their family or Household members, or to deliver those services or supplies to others;

iii. Provide necessary care for a family member or pet in another Household who has no other source of care;

iv. Attend a funeral with no more than 12 individuals present (or, if higher, the number of individuals allowed to gather for social gatherings under Appendix C-2); and

v. Move Residences.

i. **Outdoor Activities.** “Outdoor Activities” means:

   i. To engage in outdoor recreation activity, including, by way of example and without limitation, walking, hiking, bicycling, and running, in compliance with Social Distancing Requirements and with the following limitations:

      1. Outdoor recreation activity at parks, beaches, and other open spaces must comply with any restrictions on access and use established by the Health Officer, government, or other entity that manages such area to reduce crowding and risk of transmission of COVID-19;

      2. Except as otherwise provided in Appendix C-2 or as otherwise authorized in writing by the Health Officer, use of outdoor recreational areas and facilities with high-touch equipment or that encourage gathering—including playgrounds, gym equipment, climbing walls, pools, spas, and barbecue areas—is prohibited outside of Residences, and all such areas
must be closed to public access including by signage and, as appropriate, by physical barriers; and

3. Except as otherwise provided in Appendix C-2, sports or activities that include the use of shared equipment or physical contact between participants may only be engaged in by members of the same Household.

Outdoor Activities may be conducted in a tent, canopy, or other shelter, as provided in Section 4.c above.

j. Additional Activities. “Additional Activities” means:
   i. To engage in outdoor recreation activities or other activities set forth in Appendix C-2, subject to any conditions and health and safety requirements set forth there.

Allowed Travel.

k. Essential Travel. “Essential Travel” means travel for any of the following purposes:
   i. Travel related to the provision of or access to Essential Activities, Essential Governmental Functions, Essential Businesses, Minimum Basic Operations, Outdoor Activities, Outdoor Businesses, Additional Activities, and Additional Businesses;
   ii. Travel to care for any elderly, minors, dependents, or persons with disabilities;
   iii. Travel to or from educational institutions for purposes of receiving materials for distance learning, for receiving meals, and any other related services;
   iv. Travel to return to a place of Residence from outside the County;
   v. Travel required by law enforcement or court order;
   vi. Travel required for non-residents to return to their place of Residence outside the County. Individuals are strongly encouraged to verify that their transportation out of the County remains available and functional before commencing such travel;
   vii. Travel to manage after-death arrangements and burial;
   viii. Travel to arrange for shelter or avoid homelessness;
   ix. Travel to avoid domestic violence or child abuse;
   x. Travel for parental custody arrangements; and
   xi. Travel to a place to temporarily reside in a Residence or facility to avoid potentially exposing others to COVID-19, such as a hotel or other facility provided by a governmental authority for such purposes.
Governmental Functions.

1. **Essential Infrastructure.** “Essential Infrastructure,” including airports, utilities (including water, sewer, gas, and electrical), oil refining, roads and highways, public transportation, solid waste facilities (including collection, removal, disposal, recycling, and processing facilities), cemeteries, mortuaries, crematoriums, and telecommunications systems (including the provision of essential global, national, and local infrastructure for internet, computing services, Business infrastructure, communications, and web-based services).

m. **Essential Governmental Functions.** “Essential Governmental Functions” are determined by the governmental entity performing those functions in the County. Each governmental entity shall identify and designate appropriate Personnel, volunteers, or contractors to continue providing and carrying out any Essential Governmental Functions, including the hiring or retention of new personnel or contractors to perform such functions. Each governmental entity and its contractors must employ all necessary emergency protective measures to prevent, mitigate, respond to, and recover from the COVID-19 pandemic, and all Essential Governmental Functions must be performed in compliance with Social Distancing Requirements to the greatest extent feasible. All first responders, emergency management personnel, emergency dispatchers, court personnel, and law enforcement personnel, and others who need to perform essential services are categorically exempt from this Order to the extent they are performing those essential services.

The County may operate facilities as needed to address health emergencies related to weather conditions or acts of nature, such as excessive heat or smoke from wildfires, even if those facilities are not otherwise allowed to open for their intended purposes under this Order, provided that the operation of such facilities must be done in compliance with any COVID-19 related guidance that the Health Officer may issue. Those facilities include, but are not limited to, cooling centers and smoke respite centers, and may be operated directly by the County or by other entities at the direction of or in coordination with the County or as otherwise provided for in such guidance.

Residences and Households.

n. “Residences” and “Households” are defined as set forth in Section 3.b, above.

Social Distancing.

o. **Social Distancing Requirements.** “Social Distancing Requirements” mean:

i. Maintaining at least six-foot social distancing from individuals who are not part of the same Household;
ii. Frequently washing hands with soap and water for at least 20 seconds, or using hand sanitizer that is recognized by the Centers for Disease Control and Prevention as effective in combatting COVID-19;

iii. Covering coughs and sneezes with a tissue or fabric or, if not possible, into the sleeve or elbow (but not into hands);

iv. Wearing a Face Covering when out in public, consistent with the orders or guidance of the Health Officer; and

v. Avoiding all non-essential interaction outside the Household when sick with any COVID-19 symptom listed at [www.sfcdc.org/covid19symptoms](http://www.sfcdc.org/covid19symptoms) that is new or not explained by another condition.

a. State and Local Emergency Proclamations. This Order is issued in accordance with, and incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom, the March 12, 2020 Executive Order (Executive Order N-25-20) issued by Governor Gavin Newsom, the February 25, 2020 Proclamation by the Mayor Declaring the Existence of a Local Emergency issued by Mayor London Breed, as supplemented on March 11, 2020, the March 6, 2020 Declaration of Local Health Emergency Regarding Novel Coronavirus 2019 (COVID-19) issued by the Health Officer, and guidance issued by the California Department of Public Health, as each of them have been and may be supplemented.

b. State Health Orders. This Order is also issued in light of the March 19, 2020 Order of the State Public Health Officer and the “State ShelterBlueprint for a Safer Economy (the “State Order”), which set baseline statewide restrictions on non-residential Business activities, effective until further notice, the Governor’s March 19, 2020 Executive Order N-33-20 directing California residents to follow the State Shelter Order, and the July 13, 2020, August 28, 2020, November 19, 2020, and December 3, 2020 Orders of the State Public Health Officer. The May 4, 2020 Executive Order issued by Governor Newsom and May 7, 2020 Order of the State Public Health Officer permit certain Businesses to reopen if a local health officer believes the conditions in that jurisdictions warrant it, but expressly acknowledge the authority of local health officers to establish and implement public health measures within their respective jurisdictions that are more restrictive than those implemented by the State Public Health Officer. The December 3, 2020 Order of the State Public Health Officer acknowledges the current surge and imposes restrictions on many activities in an effort to help stop that surge, and this Order has been substantially revised in order to comport with that December 3, 2020 order. Also on November 16, 2020 the State Department of Public Health issued updated guidance for the use of Face Coverings, requiring all people in the State to wear Face Coverings when outside the home, subject to limited exceptions.
ORDER OF THE HEALTH OFFICER No. C19-07

10. **Obligation to Follow Stricter Requirements of Orders.**

This Order adopts certain health and safety restrictions that are more stringent than those contained in the State Shelter Order. Without this tailored set of restrictions that further reduces the number of interactions between persons, scientific evidence indicates that the public health crisis in the County will worsen to the point at which it may overtake available health care resources within the County and increase the death rate. Where a conflict exists between this Order and any state public health order related to the COVID-19 pandemic, the most restrictive provision (i.e., the more protective of public health) controls. Consistent with California Health and Safety Code section 131080 and the Health Officer Practice Guide for Communicable Disease Control in California, except where the State Health Officer may issue an order expressly directed at this Order and based on a finding that a provision of this Order constitutes a menace to public health, any more restrictive measures in this Order continue to apply and control in this County. Also, to the extent any federal guidelines allow activities that are not allowed by this Order, this Order controls and those activities are not allowed.

11. **Obligation to Follow Health Officer Directives and Mandatory State Guidance.**

In addition to complying with all provisions of this Order, all individuals and entities, including all Businesses and governmental entities, must also follow any applicable directives issued by the County Health Officer (www.sfdph.org/directives) and any applicable “COVID-19 Industry Guidance” issued by the California Department of Public Health, available at https://covid19.ca.gov/industry-guidance/. To the extent that provisions in the directives of the County Health Officer and the guidance of the State Health Officer conflict, the more restrictive provisions (i.e., the more protective of public health) apply. In the event of a conflict between provisions of any previously-issued Health Officer directive and this Order (including the revised provisions of the Appendixes), this Order controls over the conflicting provisions of the Health Officer directive.

12. **Enforcement.**

Under Government Code sections 26602 and 41601 and Health and Safety Code section 101029, the Health Officer requests that the Sheriff and the Chief of Police in the County ensure compliance with and enforce this Order. The violation of any provision of this Order (including, without limitation, any Health Directives) constitutes an imminent threat and immediate menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both. The San Francisco Department of Public Health is authorized to respond to such public nuisances by issuing Notice(s) of Violation.
and ordering premises vacated and closed until the owner, tenant, or manager submits a written plan to eliminate all violations and the Department of Public Health finds that plan satisfactory. San Francisco Department of Public Health (“SFDPH”) finds that plan satisfactory. If SFDPH finds that a premises, which has been permitted to re-open after being previously ordered to close, is again violating the terms of this Order (including, without limitation, any Health Directives), SFDPH may issue further Notice(s) of Violation and orders to vacate and close directing that the premises remain closed until both of the following conditions are satisfied: (1) the owner, tenant, or manager submits a written plan to eliminate all violations and SFDPH finds that plan satisfactory; and (2) the State reassigns San Francisco to a tier that is less restrictive than the purple tier. Such Notice(s) of Violation and orders to vacate and close may be issued based on a written report made by any City employees writing the report within the scope of their duty. The Department of Public Health SFDPH must give notice of such orders to vacate and close to the Chief of Police or the Chief’s designee to be executed and enforced by officers in the same manner as provided by San Francisco Health Code section 597.

13. Effective Date.

This Order becomes effective immediately upon issuance, and will continue in effect (as it may be updated) until the Health Officer rescinds, supersedes, or amends it in writing. The Health Officer intends to amend this Order to begin resuming the gradual re-opening of businesses and activities in the County, with safety modifications, after the Bay Area Region is no longer subject to the State’s Regional Stay at Home Order, and the Health Officer has had an adequate opportunity to evaluate whether reopening is supported by (a) ICU availability and other hospital capacity in the County and (b) COVID-19 hospitalization and case rates. A revised version of the Order will be issued before or at that time based on then-present conditions.

This Order becomes effective at 8:00 a.m. on January 28, 2021, and will continue, as updated, to be in effect until it is rescinded, superseded, or amended in writing by the Health Officer.

14. Relation to Other Orders of the San Francisco Health Officer.

Effective as of the effective date and time in Section 13 above, this Order revises and replaces Order Number C19-07qr, issued December 4, 2020, and updated December 30, 2020 January 20, 2021. This Order also extends Order Nos. C19-04 (imposing cleaning standards for residential hotels) and C19-11 (placing Laguna Honda Hospital and Rehabilitation Center under protective quarantine) without any further need to amend those orders, with those listed orders otherwise remaining in effect until the specific listed order or this Order is extended, rescinded, superseded, or amended in writing by the Health Officer. This Order does not prohibit amendment of those orders separately. This Order also does not alter the end date of any other Health Officer order or directive having its own end date or which continues indefinitely.
15. **Copies.**

   The County must promptly provide copies of this Order as follows: (1) by posting on the Department of Public Health website ([www.sfdph.org/healthorders](http://www.sfdph.org/healthorders)); (2) by posting at City Hall, located at 1 Dr. Carlton B. Goodlett Pl., San Francisco, CA 94102; and (3) by providing to any member of the public requesting a copy. Also, the owner, manager, or operator of any facility that is likely to be impacted by this Order is strongly encouraged to post a copy of this Order onsite and to provide a copy to any member of the public asking for a copy.

16. **Severability.**

   If any provision of this Order or its application to any person or circumstance is held to be invalid, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

---

**IT IS SO ORDERED:**

Susan Philip, MD, MPH,  
Acting Health Officer of the  
City and County of San Francisco  
Dated: January 2027, 2021

---

**Attachments:**

- Appendix A – Social Distancing Protocol for Businesses (revised January 2027, 2021)
- Appendix B – Construction Project Safety Protocol (revised January 20, 2021)
- Appendix C-1 – Additional Businesses (revised January 2027, 2021)
- Appendix C-2 – Additional Activities (revised January 2027, 2021)
Each business allowed to operate in San Francisco must complete, post onsite, and follow this Social Distancing Protocol checklist. The attached Instructions and Requirements detail what is required and how to complete this checklist.

Check off all items below that apply and list other required information.

Business name: 
Facility Address: 
Contact name: 
Email / telephone: 

(You may contact the person listed above with any questions or comments about this protocol.)

SIGNAGE & EDUCATION

☐ Post signage at each public entrance of the facility requiring of everyone:
  (1) do not enter if experiencing COVID-19 symptoms. List the symptoms in the San Francisco COVID-19 Health Screening Form for non-personnel (Attachment A-2). The list of symptoms can also be found online at www.sfcdcp.org/covid19symptoms.
  (2) maintain a minimum six-foot distance from others in line and in the facility; (3) wear a face covering; and
  (4) for self-brought bags, keep bags in a cart/basket or carry them and self-place items in bags after checkout

☐ Post a copy of this two-page Social Distancing Protocol checklist at each public entrance

☐ Post signage showing maximum number of patrons who can be in line and in the facility

☐☐ Post required signage in all break rooms and similar indoor spaces used by Personnel stating:
  (1) COVID-19 is transmitted through the air, and the risk is generally higher indoors.
  (2) Seniors and those with health risks should avoid indoor settings with crowds.
  (3) Personnel must remain at least six feet away from others outside their Household at all times
  (4) A copy of the “Take a Break Safely” Poster (available online at sf.gov/file/covid-break-room)
  (5) Signage indicating which of the following ventilation strategies are used at the facility: All available windows and doors accessible to fresh outdoor air are kept open; Fully Operational HVAC systems; Appropriately sized portable air cleaners in each room; or None of the above.

☐ Educate Personnel about this Protocol and other COVID-19 related safety requirements

PROTECTIVE MEASURES

☐ Follow Sections 2.1 through 2.4 below, including:

  ☐ Ensure Personnel stay home or leave work if they answer yes to any of the three questions on the Personnel Screening Attachment (Attachment A-1). See www.sfcdcp.org/screen for this form including translations.

  ☐ Provide Personnel a copy of the Personnel Screening Attachment (A-1) to ensure they understand when to stay home and for how long. That form discusses rules for staying out of work due to concerns of COVID-19 exposure. Translated versions of the Personnel Screening Attachment (A-1) are available online at www.sfcdcp.org/screen.

  ☐ Ensure Personnel review health questions on the Personnel Screening Attachment (A-1) before each shift and advise Personnel what to do if they are required to stay home.

☐ Require Personnel and patrons to wear a face covering as required by Health Officer orders

☐ Implement a plan to keep site Personnel safe, including by limiting the number of Personnel and patrons onsite to a number that ensures physical distancing and favoring allowing Personnel to carry out their duties from home when possible

☐ Require that patrons cancel or reschedule appointments or reservations for non-essential services if they have COVID-19 symptoms or exposure, as described in San Francisco COVID-19 Screening Form (Attachment A-2). Ensure that patrons can cancel an appointment or reservation for COVID-19 symptoms or
exposure without financial penalty. You may offer to reschedule for another time if the patron wants to reschedule instead of to cancel.

**MEASURES TO PREVENT UNNECESSARY CONTACT**

☐ Tell Personnel and patrons to maintain physical distancing of at least six feet, except Personnel may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary

☐ Separate all used desks or individual work stations by at least six feet

☐ Place markings in patron line areas to ensure six feet physical distancing (inside and outside)

☐ Provide for contactless payment systems or, if not feasible, disinfect payment systems regularly. The Board of Supervisors has required businesses to accept cash—if cash is used encourage exact change.

☐ Maintain Plexiglas or other barriers between patrons and Personnel at point of payment (if not possible, then ensure at least six feet of distance)

☐ Limit the number of patrons in the business at any one time to: ________________

☐ Separate ordering areas from delivery areas or similarly help distance patrons when possible

☐ Add signage and educate Personnel about safer break room practices, including as required in Section 3.27

☐ Optional—Describe other measures:

**SANITIZING MEASURES**

☐ Regularly disinfect high touch areas, and do so continuously for surfaces patrons touch (countertops, payment systems, pens, and styluses)

☐ Provide disinfecting wipes that are effective against SARS-CoV-2 near shopping carts, shopping baskets, and high-touch surfaces and provide hand sanitizer

☐ Have Personnel disinfect carts and baskets after each use

☐ Provide hand sanitizer, sink with soap and water, and/or disinfecting wipes to patrons and Personnel at or near the entrance of the facility, at checkout counters, and anywhere else where people have direct interactions

☐ Disinfect break rooms, bathrooms, and other common areas frequently, on the following schedule:

  ☐ Break rooms:

  ☐ Bathrooms:

  ☐ Other:

☐ Prevent people from self-serving any items that are food-related:

  ☐ Provide lids and utensils for food items by Personnel, not for patrons to grab

  ☐ Limit access to bulk-item food bins to Personnel—no self-service use

☐ Require patrons and Personnel to follow requirements of Section 3.25 below for self-brought bags, and prohibit patrons from bringing any other reusable items such as coffee mugs.

☐ Prohibit Personnel from using shared food prep equipment for their own use (e.g., microwaves, water coolers), but microwaves may be used if disinfected between each use and hand sanitizer is available nearby and water coolers may be used as outlined in Section 3.14 below.

☐ Optional—Describe other measures (e.g., providing senior-only hours):

**INDUSTRY-SPECIFIC DIRECTIVES**

☐ Ensure that you have read and implemented the attached list of requirements.

☐ In addition to complying with the Social Distancing Protocol, many businesses must comply with additional, industry-specific directives. Go to [www.sfdph.org/directives](http://www.sfdph.org/directives) and check to see if your business is subject to one or more additional directives. For each one, you must review the Health and Safety Plan (HSP) requirements
and post an additional checklist for each one that applies. In the event that any directive changes the requirements of the Social Distancing Protocol, the more specific language of the directive controls, even if it is less restrictive. Check this box after you have checked the list of directives and posted any other required HSP.

* Any additional measures may be listed on separate pages and attached.
[You are not required to post these Instructions and Requirements]

Instructions:

The two-page Social Distancing Protocol checklist above must reflect the business’s completion of each requirement listed below unless an item is not applicable. Use the two-page checklist above to show compliance with these requirements. The business does not need to post these Instructions and Requirements, only the checklist above. The term “Personnel” is defined in Health Officer Order to which this Appendix is attached. The term “patron” includes customers, others seeking services, visitors, and guests.

Requirements:

In addition to the items below, this protocol requires the business to ensure that Personnel who perform work associated with the business are covered by the Social Distancing Protocol checklist and comply with those requirements. Each business is required to take certain steps in the protocol related to its Personnel, including the actions listed in Sections 2.1 through 2.4 below if Personnel are sick. Each business is prohibited from taking any adverse action against any Personnel for staying home in the circumstances listed in Sections 2.1 through 2.4 below. Personnel of each business are prohibited from coming to work if they are sick and must comply with the protocol, including the rules for returning to work listed in Sections 2.1 through 2.4 below.

1. **Signage and Education**

   1.1. [Minor edits to this section 11/3/20] Post signage at each public entrance of the facility or location (if any) to inform all patrons that they must: not wait in line or enter the facility or location if they have a symptom of COVID-19 that is new or not explained by another condition, listing the symptoms from the Screening Form for non-personnel (Attachment A-2) or using the symptom list available online at [www.sfcdcp.org/covid19symptoms](http://www.sfcdcp.org/covid19symptoms); maintain a minimum six-foot distance from others while in line or in the facility or location; wear a face covering or barrier mask (a “Face Covering”) at all times; not shake hands or engage in any unnecessary physical contact; and, if they bring their own reusable bags, leave the bags in a shopping cart/basket or carry them and bag their own items after checkout. Criteria for Face Coverings and the requirements related to their use are set forth in Health Officer Order No. C19-12d, issued on December 22, 2020 (the “Face Covering Order”), including as that order is updated in the future. Sample signs are available online at [https://sf.gov/outreach-toolkit-coronavirus-covid-19](https://sf.gov/outreach-toolkit-coronavirus-covid-19). A list of common symptoms of COVID-19 can be found at [https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html](https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html).

   1.2. Post a copy of the Social Distancing Protocol checklist at each public entrance to the facility or location.

   1.3. Distribute to all Personnel copies of the Social Distancing Protocol checklist in hardcopy or electronic format.

   1.4. Educate all Personnel on the requirements of the Social Distancing Protocol and any other Health Officer directive that applies.
2. Screening Requirements and Related Restrictions

[Entire section revised 9/14/20; minor edits made 11/3/20] Businesses and other entities in the City that are allowed to operate must screen all Personnel each day using the screening process described in Sections 2.1 through 2.4 below. Attached to this Appendix is the Personnel Screening Attachment (Attachment A-1) which provides the three questions that must be used for that purpose. That form may be used, or the business may adapt the questions and the information contained in that form for use through another method such as by phone, text message, email, web interface, or app.

Separately, many businesses and other entities that are allowed to operate are required by separate directives to screen guests, visitors, customers, or others using similar questions. Attached to this Appendix is the San Francisco COVID-19 Health Screening Form for non-personnel (Attachment A-2) that may be used for this purpose. If a directive requires use of the San Francisco COVID-19 Health Screening Form, then that form must be used or the business or entity may adapt the questions and the information contained in that form for use through another method such as by phone, text message, email, web interface, or app.

A copy of the applicable screening form should be provided to anyone on request, although a poster or other large-format version of the form may be used to review the questions with people verbally at entrances. Businesses and organizations can use the guidance available online at https://www.sfcdcp.org/wp-content/uploads/2020/05/COVID19-Screening-Questions-UPDATE-05.26.2020.pdf for determining how best to conduct screening. The City has flyers, posters, fact sheets, and social media graphics available in multiple languages for use by the community. These resources include posters regarding use of Face Coverings and screening. These resources are available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19.

The screening requirements listed in this Appendix are subject to any more specific (or different) requirements that apply under any other Health Officer directive or order.

Personnel Screening and Restrictions:

2.1. [Updated 1/20/21] Instruct all Personnel orally and in writing not to come to work or the facility if they answer yes to any of the three questions on the Personnel Screening Attachment (Attachment A-1). See www.sfcdcp.org/screen for this form including translations.

2.2. Provide a copy of the Personnel Screening Attachment (A-1) to all Personnel who regularly work at the facility or location in hardcopy format or electronically. PDF and translated versions of the Personnel Screening Attachment can be found at www.sfcdcp.org/screen. If the Personnel Screening Attachment is updated, provide an updated copy to all Personnel. Instead of sending out the attachment, Businesses may adopt the questions and information contained on the Personnel Screening Attachment and ask Personnel those questions and deliver the information contained in that form through another format.

2.3. [Updated 1/20/21] Review the three questions on the Personnel Screening Attachment on a daily basis with all Personnel in the City who work at the facility or location before each person enters work spaces or begins a shift. If such a review is not feasible because the business does not directly interact with some Personnel onsite daily, then that business must for those Personnel (1) instruct such Personnel to review the questions before each shift in the City and (2) have such Personnel report to the
business that they are okay to begin the shift such as through an app, website, or phone call.

Instruct any Personnel who answered yes to any of the three questions on the Personnel Screening Attachment to return home or not come to work and follow the directions on the Attachment. Generally speaking, Personnel with any single COVID-19 symptom that is new or not explained by another condition (and who has not already been diagnosed with COVID-19) MUST have a negative COVID-19 test OR stay out of work for at least 10 days since symptoms started in order to return to work. Those who have been diagnosed with COVID-19 or had a test confirming they have the virus cannot return to work until at least 10 days after their symptoms have started; if they never had symptoms but had a positive COVID-19 test they can return 10 days after the date their test was collected. Those who are close contacts of someone with COVID-19 must remain out of work for 10-14 days since their last close contact; the exact duration depends on their occupation (details can be found at [www.sfcdcp.org/quarantineduration](http://www.sfcdcp.org/quarantineduration)).

2.4. Instruct Personnel who stayed home or who went home based on the questions listed on the Personnel Screening Attachment that they must follow the instructions on that form as well as any applicable requirements from the quarantine and isolation directives (available at [www.sfdph.org/healthorders](http://www.sfdph.org/healthorders)) before returning to work. If they are required to self-quarantine or self-isolate, they may only return to work after they have completed self-quarantine or self-isolation. If they test negative for the virus (no virus found), they may only return to work if they meet the criteria explained on the Personnel Screening Attachment: [www.sfcdcp.org/screen](http://www.sfcdcp.org/screen). Personnel are not required to provide a medical clearance letter to return to work as long as they have met the requirements outlined on the Personnel Screening Attachment. Additional information about insolation and quarantine, including translations, is available online at [www.sfcdcp.org/i&q](http://www.sfcdcp.org/i&q).

**Guest, Visitor, Customer, and Other People Screening and Restrictions:**

2.5. Health Officer directives may require screening of guests, visitors, customers, and others using the San Francisco COVID-19 Health Screening Form for non-personnel ([Attachment A-2](#)). In general, anyone who answers “yes” to any screening question on the San Francisco COVID-19 Health Screening Form should not enter the business or facility because they are at risk of having the virus that causes COVID-19. The form lists steps that should be taken by anyone who answers “yes” to a screening question. In some instances, a Health Officer directive will require that anyone who answers “yes” to be prevented from entry. In other situations, the Department of Public Health discourages organizations from denying essential services to those who may answer “yes” to any of the questions and encourages organizations to find alternative means to meet clients’ needs that would not require them to enter the facility.

**3. Other Personnel and Patron Protection and Sanitation Requirements:**

3.1. Businesses must periodically check the following website for any testing requirements for employers and businesses: [www.sfcdcp.org/covid19](http://www.sfcdcp.org/covid19). If requirements are added, ensure that the business and all Personnel comply with testing requirements.

3.2. If an aspect of the business is allowed to operate and is covered by a Health Officer directive, then the business must comply with all applicable directives as well as this Social Distancing Protocol. Copies of other directives are available online at [www.sfdph.org/directives](http://www.sfdph.org/directives). For each directive that applies, review the Health and Safety
Plan (HSP) requirements and post an additional HSP checklist for each one that applies. In the event that any directive changes the requirements of the Social Distancing Protocol, the more specific language of the directive controls, even if it is less restrictive.

3.3. Instruct all Personnel and patrons to maintain at least a six-foot distance from others, including when in line and when shopping or collecting goods on behalf of patrons, except when momentarily necessary to facilitate or accept payment and hand off items or deliver goods. Note that if the business cannot ensure maintenance of a six-foot distance within the location or facility between Personnel or other people onsite, such as by moving work stations or spreading Personnel out, it must reduce the number of Personnel permitted in the location or facility accordingly.

3.4. Provide Face Coverings for all Personnel, with instructions that they must wear Face Coverings at all times when at work, as further set forth in the Face Covering Order. A sample sign is available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19. Allow Personnel to bring their own Face Covering if they bring one that has been cleaned before the shift. In general, people should have multiple Face Coverings (whether reusable or disposable) to ensure they use a clean one each day. The Face Covering Order permits certain exceptions, and the business should be aware of exceptions that allow a person not to wear a Face Covering (for example, children 12 years old or younger or based on a written medical excuse). When Personnel do not wear a Face Covering because of an exception, take steps to otherwise increase safety for all.

3.5. If patrons wait in line outside or inside any facility or location operated by the business, require patrons to wear a Face Covering while waiting in line outside or inside the facility or location. This includes taking steps to notify patrons they will not be served if they are in line without a Face Covering and refusing to serve a patron without a Face Covering, as further provided in the Face Covering Order. The business may provide a clean Face Covering to patrons while in line. For clarity, the transaction or service must be aborted if the patron is not wearing a Face Covering. But the business must permit a patron who is excused by the Face Covering Order from wearing a Face Covering to conduct their transaction or obtain service, including by taking steps that can otherwise increase safety for all.

3.6. Provide a sink with soap, water, and paper towels for handwashing for all Personnel working onsite at the facility or location and for patrons if sinks and restrooms are open to patrons. Require that all Personnel wash hands at least at the start and end of each shift, after sneezing, coughing, eating, drinking, smoking (to the extent smoking is allowed by law and the business), or using the restroom, when changing tasks, and, when possible, frequently during each shift. Personnel who work off-site, such as driving or delivering goods, must be required to use hand sanitizer throughout their shift.

3.7. Provide hand sanitizer effective against SARS-CoV-2, the virus that causes COVID-19, at appropriate locations for patrons and elsewhere at the facility or location for Personnel. Sanitizer must also be provided to Personnel who shop, deliver, or drive for use when they are shopping, delivering, or driving. If sanitizer cannot be obtained, a handwashing station with soap, water, and paper towels will suffice for Personnel who are on-site at the facility or location. But for Personnel who shop, deliver, or drive in relation to their work, the business must provide hand sanitizer effective against SARS-CoV-2 at all times; for any period during which the business does not provide sanitizer to such shopping, delivery, or driving Personnel, the business is not allowed for that
aspect of its service to operate in the City. Information on hand sanitizer, including sanitizer effective against SARS-CoV-2 and how to obtain sanitizer, is available online from the Food and Drug Administration here: https://www.fda.gov/drugs/information-drug-class/qa-consumers-hand-sanitizers-and-covid-19.

3.8. Provide disinfectant and related supplies to Personnel and require Personnel to sanitize all high-touch surfaces under their control, including but not limited to: shopping carts and baskets used by Personnel and patrons; countertops, food/item display cases, refrigerator and freezer case doors, drawers with tools or hardware, and check-out areas; cash registers, payment equipment, and self-check-out kiosks; door handles; tools and equipment used by Personnel during a shift; and any inventory-tracking or delivery-tracking equipment or devices which require handling throughout a work shift. These items should be routinely disinfected during the course of the day, including as required below. A list of products listed by the United States Environmental Protection Agency as meeting criteria for use against SARS-CoV-2 can be found online here: https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2.

3.9. Ensure that all shared devices and equipment are cleaned and/or sanitized by Personnel on frequent schedules, not less than at the beginning and end of each Personnel member’s work shift and during the shift.

3.10. Direct all Personnel to avoid touching unsanitized surfaces that may be frequently touched, such as door handles, tools, or credit cards, unless protective equipment such as gloves (provided by the business) are used and discarded after each use or hand sanitizer is used after each interaction.

3.11. Frequently disinfect any break rooms, bathrooms, and other common areas. Create and use a daily checklist to document each time disinfection of these rooms or areas occurs. Conspicuously post the checklist inside each respective break room, bathroom, or other common area clearly detailing the dates and times the room was last cleaned, disinfected, or restocked.

3.12. For any facility or location that has carts, baskets, or other equipment for use by Personnel, assign Personnel to disinfect carts, baskets, or other equipment after each use and take steps to prevent anyone from grabbing used carts, baskets, or other equipment before disinfection.

3.13. Establish adequate time in the work day to allow for proper cleaning and decontamination throughout the facility or location by Personnel including, but not limited to, before closing for the day and opening in the morning.

3.14. [Revised 8/14/20] Except as listed in this Section 3.14, suspend use of any microwaves, water coolers, drinking fountains, and other similar group equipment for breaks until further notice. Microwaves may be used if disinfected by wiping the interior and exterior with an approved disinfectant after each use. Water coolers may be used if: i) touch surfaces are wiped down with an approved disinfectant after each use; and ii) any person changing a container-type water cooler must wash their hands or use hand sanitizer immediately prior to handling/replacing the water container.

3.15. When possible, provide a barrier between the patron and the cashier such as a plexi-glass temporary barrier. When not possible, create sufficient space to enable the patron to stand more than six feet away from the cashier while items are being scanned/tallied and bagged.
3.16. Provide for contactless payment systems or, if not feasible, sanitize payment systems, including touch screens, payment portals, pens, and styluses, after each patron use. Patrons may pay with cash but to further limit person-to-person contact, Personnel should encourage patrons to use credit, debit, or gift cards for payment.

3.17. For any larger facility or location, appoint a designated sanitation worker at all times to continuously clean and sanitize commonly touched surfaces and meet the environmental cleaning guidelines set by the Center for Disease Control and Prevention.

3.19. Post signs to advise patrons of the maximum line capacity to ensure that the maximum number of patrons in line is not exceeded. Once the maximum number of patrons is reached, patrons should be advised to return later to prevent buildup of congestion in the line.

3.20. Place tape or other markings on the sidewalk or floor at least six feet apart in patron line areas with signs directing patrons to use the markings to maintain distance.

3.21. When stocking shelves, if any, ensure that Personnel wash or sanitize hands before placing items on shelves, making sure to again wash or sanitize hands if they become contaminated by touching face or hair or being exposed to other soiled surfaces.

3.22. Ensure that all Personnel who select items on behalf of patrons wear a Face Covering when selecting, packing, and/or delivering items.

3.23. Require Personnel to wash hands frequently, including:

- When entering any kitchen or food preparation area
- Before starting food preparation or handling
- After touching their face, hair, or other areas of the body
- After using the restroom
- After coughing, sneezing, using a tissue, smoking, eating, or drinking
- Before putting on gloves
- After engaging in other activities that may contaminate the hands

3.24. Assign Personnel to keep soap and paper towels stocked at sinks and handwashing stations at least every hour and to replenish other sanitizing products.

3.25. [Added 7/13/20] If patrons bring their own reusable shopping bags, ensure that such bags, even in contexts other than grocery stores, are handled in a manner consistent with Cal/OSHA requirements available at https://www.dir.ca.gov/dosh/Coronavirus/COVID-19-Infection-Prevention-in-Grocery-Stores.pdf, including all of the following:
• Post signs at all entrances with infection control information to patrons, including requiring patrons to leave their own bags in the shopping cart or basket or carry them and bag their own items after checkout;

• Ensure that Personnel do not touch the bags or place items in them;

• Bags must not be placed on a conveyor belt, checkout area countertop, or other surface where patrons are served;

• Ensure that patrons bag their own items if they bring their own bags;

• Bags may not be loaded on the checkout area surface. Items can be left in a cart/basket and bagged elsewhere by the patron after checkout;

• Ensure that patrons maintain physical distancing while bagging their items; and

• Increase the frequency of disinfection in bagging areas and patron service areas frequented by patrons.

3.26. [Added 7/13/20; updated 11/3/20] If a patron has symptoms of COVID-19 (see Section 1.1 above) or is otherwise unable to participate in an appointment or reservation for a COVID-19 related reason, the business must cancel the appointment or reservation if it is not for essential services (such as food, medicine, shelter, or social services) and allow the patron to cancel without any financial penalty. The business may offer to reschedule the appointment or reservation but cannot require rescheduling instead of allowing the patron to cancel. In the healthcare context, more specific Health Officer directives may allow appointments when a patient or client is ill, and the requirements of the directive must be followed in that situation.

3.27. [Added 1/27/21] As soon as possible, but by no later than February 3, 2021, businesses that make break rooms, cafeterias, or other similar indoor spaces available to Personnel must comply with the following requirements:

3.27.1. The business must notify Personnel that they are advised against eating indoors to the greatest extent possible. Where feasible, businesses should provide an outdoor area where Personnel can eat their meals. If Personnel must eat indoors, the business must encourage Personnel to eat away from others, including at their own desks or workspaces. Businesses must discourage Personnel from congregating in cafeterias, break rooms, or other similar indoor spaces.

3.27.2. Businesses must stagger and schedule breaks for their Personnel and the use of break rooms or other similar indoor spaces to avoid crowding and help limit socializing.

3.27.3. Post the following signage in any break room, cafeteria, or similar indoor space. The County is making available templates for the signage available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19.

3.27.3.1. A sign bearing the message that: (1) COVID-19 is transmitted through the air, and the risk is generally higher indoors, and (2) seniors and those with health risks should avoid indoor settings with crowds.

3.27.3.2. A sign informing Personnel that they must remain at least six feet away from others outside their Household at all times.
3.27.3.3. A copy of the “Take a Break Safely” Poster (available online at sf.gov/file/covid-break-room).

3.27.3.4. Signage indicating which of the following ventilation strategies are used at the facility: All available windows and doors accessible to fresh outdoor air are kept open; Fully Operational HVAC systems; Appropriately sized portable air cleaners in each room; or None of the above.

3.27.4. Limit the number of people in indoor break rooms, cafeterias, or other similar spaces to the lesser of: (a) 25% of the maximum occupancy; or (b) the number of people that can safely maintain at least six feet of distance from each other at all times.

3.27.5. Businesses that provide onsite food serve to Personnel must operate in accordance with Health Officer Directives 2020-05 (Food Preparation for Essential Delivery Businesses) and 2020-16 (Indoor and Outdoor Dining) and any amendments to those directives. Businesses must strongly encourage Personnel to take food items to-go and eat outside or in areas away from other Personnel. Consider limiting offerings to pre-packed and grab-n-go style meals.

3.27.6. Businesses are strongly recommended to take all available steps to protect their Personnel, including using visual cues to promote proper distancing and expanding the number of break spaces to prevent crowding.

Note – Sections 3.14 and 3.26 control over any contrary language in Health Officer Directive Nos. 2020-05, 2020-06, and 2020-07 until each of them is amended or updated.
A. General Requirements

The “Additional Businesses” listed below may begin operating, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate industry-specific guidance by the Health Officer. These businesses were selected based on current health-related information, the risk criteria set forth in Section 3, the State’s December 3, 2020 Stay-At-Home Order, of the Order, and the overall impact that allowing these businesses to resume operation will have on mobility and volume of activity in the County.

To mitigate the risk of transmission to the greatest extent possible, before resuming operations, each Additional Business must:

- Comply with Social Distancing Requirements (Section 8.o of the Order) and prepare, post, implement, and distribute to their Personnel a Social Distancing Protocol checklist as specified in Section 5.d and Appendix A of the Order for each of their facilities in the County where Personnel or members of the public will be onsite;
- Prepare, post, implement, and distribute to their Personnel a written health and safety plan checklist that addresses all applicable best practices set forth in relevant Health Officer directives; and
- Comply with any relevant state guidance and local directives. If a conflict exists between state guidance and local public health directives related to the COVID-19 pandemic, the most restrictive provision shall be followed, as further provided in Section 10 of the Order.

Businesses that operate outdoors may, subject to any applicable permit requirements, conduct their operations in a tent, canopy, or other shelter, as long as the shelter complies with: (1) the California Department of Public Health’s November 25, 2020 guidance regarding “Use of Temporary Structures for Outdoor Business Operations” (available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Use-of-Temporary-Structures-for-Outdoor-Business-Operations.aspx); and (2) SFDPH’s guidance on “Safer Ways to Use New Outdoor Shared Spaces for Allowed Activities During COVID-19” (available at https://www.sfdph.org/dph/files/ig/Guidance-Shared-Outdoor-Spaces.pdf).

Finally, on November 19, 2020, the Acting California State Public Health Officer issued an order (the “Limited Stay At Home Order”) requiring that “all gatherings with members of other households and all activities conducted outside the residence, lodging, or temporary accommodation with members of other households cease between 10:00pm PST and 5:00am PST, except for those activities associated with the operation, maintenance, or usage of critical infrastructure or required by law.” The Limited Stay At Home Order is available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/limited-stay-at-home-order.aspx. Until the Limited Stay Safe at Home Order expires or is no longer applicable to San Francisco, all businesses that are allowed to operate under this Order must operate in compliance with the Limited Stay At Home Order.

Until further order of the Health Officer, all non-essential businesses must close between 10:00 p.m. and 5:00 a.m. For clarity, and without limiting other applicable exemptions, essential work is permitted to continue between 10:00 p.m. and 5:00 a.m., and, subject to other applicable legal requirements, essential retail establishments may remain open during those hours, and food and
beverage establishments may continue to operate for delivery and takeout during those hours. Personnel may also commute to and from work during those hours for a business that is allowed to operate under this Order.

The health-related basis for selection of Additional Businesses and the specific requirements for risk mitigation are summarized below. The bases for the additions were amended on July 13, 2020, to reflect an updated and refined analysis under the risk criteria set forth in Section 3 of the amended Order.

B. List of Additional Businesses

For purposes of the Order, Additional Businesses include the following, subject to the stated limitations and conditions:

(1) Retail Stores for Goods—REDUCED CAPACITY ......................................................... 4
(2) Manufacturing, Warehousing and Logistical Support .................................................. 7
(3) Childcare and Youth Programs for All Children ......................................................... 8
(4) Low Contact Retail Services—REDUCED CAPACITY ............................................ 10
(5) Equipment Rental Businesses—REDUCED CAPACITY .......................................... 11
(6) Professional Sports Teams: Practices, Games, and Tournaments without In-Person Spectators with an Approved Plan ................................................................. 13
(7) Entertainment Venues: Live Streaming or Broadcasting Events without In-Person Audiences with an Approved Plan ................................................................. 13
(8) Dining—SUSPENDED IN PART .............................................................................. 14
(9) Outdoor Fitness Classes—REDUCED CAPACITY ..................................................... 17
(10) Indoor Household Services ....................................................................................... 18
(11) Offices for Non-Essential Businesses—SUSPENDED ............................................ 19
(12) Outdoor Zoos with an Approved Plan ...................................................................... 19
(13) Open Air Boat Operators ......................................................................................... 20
(14) Institutions of Higher Education and Adult Education—SUSPENDED IN PART ...... 22
(15) Personal Service Providers ....................................................................................... 24
(16) Gyms and Fitness Centers—SUSPENDED IN PART .............................................. 26
(17) Indoor Museums, Aquariums, and Zoos—SUSPENDED .......................................... 27
(18) Outdoor Family Entertainment Centers—SUSPENDED IN PART ............................. 27
(19) Open-Air Tour Bus Operators .................................................................................. 31
(20) Lodging Facilities for Tourism ................................................................................. 32
(21) Indoor Movie Theaters—SUSPENDED .................................................................... 34
(22) Film and Media Productions .................................................................................... 34
(23) Real Estate Showings—SUSPENDED ..................................................................... 38
(24) Commercial Parking Garages .................................................................................... 38
(25) Limited One-on-One Personal Training Inside Gyms and Fitness Centers

39
(1) Retail Stores for Goods—REDUCED CAPACITY  

a. Basis for Addition. Personnel and customers can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., while paying for goods). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. While shopping, customers interact only with a small number of individuals from other Households. Although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate physical distancing and adherence with other Social Distancing Requirements (Section 8.o of the Order) and other worker protection measures and decrease the risk of virus transmission. Consistent with Section 5.c of the Order and to the extent possible, retail stores are urged to conduct curbside/outdoor pickup to further decrease the risk.

b. Description and Conditions to Operate.
   
   1. Curbside/Outdoor Pickup: Retail stores may operate for curbside/outside pickup of goods, subject to the following limitations:
      
      i. The store must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements;

      ii. The store must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-10b, as that directive may be amended from time to time, regarding required best practices for retail businesses with curbside pickup—including the requirement to create a Health and Safety Plan;

      iii. If a store chooses to display merchandise for sale on tables or otherwise outside the store, it must comply with the following specific requirements:

         • The store must obtain any necessary permits from the County;

         • Customers must either use hand sanitizer before touching items or ask the vendor to hand items to them;

         • Only the number of customers who can maintain at least six feet of physical distancing may approach the table at a time;

         • Chalk demarcations must be placed on the ground to indicate where shoppers should stand behind others, while waiting to purchase items; and

         • The store must take measures to help ensure against congestion and blocking passage by pedestrians, including people with disabilities.

      Stores may apply for a free temporary permit to use the sidewalk or parking lane for retail operations at [https://sf.gov/use-sidewalk-or-parking-lane-your-business](https://sf.gov/use-sidewalk-or-parking-lane-your-business).

      iv. The store must have direct access to an immediately adjacent sidewalk, street, alley, or parking area for pickup by customers using any mode of travel, without blocking pedestrian access or causing pedestrian or vehicle congestion; and
v. Retail stores that are in an enclosed Indoor Shopping Center (defined as a large building or group of buildings where customer access to stores is possible only through indoor passage ways or indoor common areas, such as Stonestown Galleria, and Westfield San Francisco Centre) and that do not have direct access to adjacent sidewalk, street, parking lot or alley area, may only reopen for curbside/outdoor pickup at this time if the Indoor Shopping Center operator submits to the Health Officer a proposed plan for reopening and that plan is approved as provided below. The proposed plan must include:
   a. the number of stores and businesses that would be resuming operation;
   b. the number of Personnel associated with each store or business;
   c. the number of customers expected daily; and
   d. the specific social distancing and sanitation measures the shopping center would employ to prevent congestion at the doorways and streets, and protect customers and Personnel.

Plans must be submitted to HealthPlan@sfcityatty.org. Subject to the advance written approval of the Health Officer or the Health Officer’s designee, retailers in the Indoor Shopping Center may then operate for curbside pickup consistent with the approved plan.

2. In-Store Retail: Retail stores may operate for indoor shopping, subject to the following limitations and conditions:

   i. The store must reduce maximum occupancy to limit the number of people (including both customers and Personnel) to the lesser of: (1) 2025% the store’s maximum occupancy or (2) the number of people (customers and Personnel) who can maintain at least six feet of physical distance from each other in the store at all times;

   ii. All retail establishments must develop and implement written procedures to “meter” or track the number of persons entering and exiting the facility to ensure that the maximum capacity for the establishment is not exceeded. For example, an employee of the establishment may be posted at each entrance to the facility to perform this function. The establishment must provide a copy of its written “metering” procedures to an enforcement officer upon request and disclose the number of members of the public currently present in the facility.

   iii. Before opening for in-store shopping, the store must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-17, as that directive may be amended from time to time, regarding required best practices for retail businesses offering in-store shopping or services—including the requirement to create a Health and Safety Plan;

   iv. If a store chooses to display merchandise for sale on tables or otherwise outside the store, it must comply with the following specific requirements:
• The store must obtain any necessary permits from the County;

• Customers must either use hand sanitizer before touching items or ask the vendor to handle items to them;

• Only the number of customers who can maintain at least six feet physical distancing may approach the table at a time;

• Chalk demarcations must be placed on the ground to indicate where shoppers should stand behind others, while waiting to purchase items; and

• The store must take measures to help ensure against congestion and blocking passage by pedestrians, including people with disabilities.

Stores may apply for a free temporary permit to use the sidewalk or parking lane for retail operations at https://sf.gov/use-sidewalk-or-parking-lane-your-business.

v. Retail stores that are in an enclosed Indoor Shopping Center (as defined in subsection 1.b.1.v above) and that do not have direct access to adjacent sidewalk, street, parking lot or alley area, may only reopen for in-store retail, subject to the following conditions, if the Indoor Shopping Center has a plan for reopening that is approved by the Health Officer as provided below:

• The Indoor Shopping Center must limit capacity in the facility and in each individual storefront to the lesser of: (1) 25% the maximum occupancy or (2) the number of people who can maintain at least six feet of physical distance from each other at all times.

• Common areas must be closed.

• Food court must be closed for indoor dining. Food may be served for take-out, but seating areas must be closed.

The proposed plan must include:

a. the number of stores and businesses that would be resuming operation;

b. the number of Personnel associated with each store or business;

c. the number of customers expected daily;

d. confirmation that the Indoor Shopping Center will close all food courts for indoor dining and a description of how that closure will be effectuated;

e. how the Indoor Shopping Center will regulate the number of people in the paths of travel of the shopping center and close any common gathering areas;

f. how the Indoor Shopping Center will address HVAC/circulated air, use of elevators, use and cleaning of bathrooms;
g. any special considerations for indoor parking garages and access points;

h. whether the Indoor Shopping Center will permit curbside pickup; and

i. adoption of a Health and Safety Plan addressing the requirements of Appendix A to the Order.

Plans must be submitted to HealthPlan@sfcityatty.org. Subject to the written advance approval of the Health Officer or the Health Officer’s designee, the Indoor Shopping Center may then operate for in-store retail consistent with the approved plan.

For clarity, operation of retail stores under category (1) and (2), above, applies only to the sale of goods and not to the provision of services or the rental of equipment, which are covered separately in Sections (4) and (5), below.

(Added May 17, 2020; Revised June 1, 2020, June 11, 2020, and September 30, 2020; Non-substantive revisions July 13, 2020, October, 20, 2020, and November 3, 2020; Subsection suspended July 20, 2020, with minor update on August 14, 2020; Subsection reinstated with amendments on September 1, 2020; Subsection suspended November 10, 2020; Capacity reduced November 28, 2020, and December 4, 2020; Capacity increased January 27, 2021)

(2) Manufacturing, Warehousing and Logistical Support

a. Basis for Addition. Personnel can wear Face Coverings and maintain at least six feet of physical distance at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Personnel will interact only with a consistent and moderately sized group of people (i.e., the business’s other Personnel) as members of the public do not generally frequent these businesses. Finally, risks of virus transmission associated with this activity can be mitigated through Social Distancing Requirements (Order Section 8.o) and sanitation, and other worker safety protocols.

b. Description and Conditions to Operate.

1. Manufacturing: Manufacturing businesses—including non-essential manufacturing businesses—may operate, subject to the following limitations and conditions:

   i. The business must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements; and

   ii. The business must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-11, as that directive may be amended from time to time, regarding required best practices for manufacturing businesses—including the requirement to create a Health and Safety Plan.
2. Warehousing and Logistical Support: Businesses that provide warehousing and logistical support—including non-essential businesses—may operate, subject to the following limitations and conditions:

   i. The business must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements; and

   ii. The business must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-12, as that directive may be amended from time to time, regarding required best practices for warehouse and logistical support businesses—including the requirement to create a Health and Safety Plan.

(Added May 17, 2020; Revised June 1, 2020, and June 11, 2020; Non-substantive revisions July 13, 2020)

(3) Childcare and Youth Programs for All Children

   a. Basis for Addition. Childcare and educational or recreational programs for youth are critical to early education and developmental equity, family social and economic wellbeing, and economic recovery from the pandemic. More specifically, such programs are an important element for a child’s social and emotional development, as well as for a child’s physical health and wellness. Also, childcare and youth programs are often necessary to allow parents or guardians to work, making the availability of such programs important for individual families as well as the local economy. Although attendance at a childcare or youth program involves a high number of close contacts that may be of lengthy duration, the risks of virus transmission can be reduced by mitigation measures, as generally described below. But children’s inability to consistently follow social distancing and sanitation recommendations means that even with the mitigation measures the risk of transmission is higher than in interactions exclusively among adults. And while based on available evidence, children do not appear to be at higher risk for COVID-19 than adults, medical knowledge about the possible health effects of COVID-19 on children is evolving. Accordingly, the decision about whether to enroll a child in a childcare or youth program is an individualized inquiry that should be made by parents/guardians with an understanding of the risks that such enrollment entails. Parents/guardians may discuss these risks and their concerns with their pediatrician. The Health Officer will continue to monitor the changing situation and may amend this section as necessary to protect the public health.

   b. Description and Conditions to Operate.

      1. Childcare Programs: Group care facilities for very young children who are not yet in elementary school—including, for example, licensed childcare centers, daycares, family daycares, and preschools (including cooperative preschools)—(collectively,
Order No. C19-07FS – Appendix C-1: Additional Businesses Permitted to Operate

[Revised January 2027, 2021]

“Childcare Programs”) may open and operate, subject to the following limitations and conditions:

i. Childcare Programs may not enroll children for fewer than three weeks;

ii. Childcare Programs must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with all of the requirements set forth in Health Officer Directive No. 2020-14c, including any limits on the number of children that can be in a group, and the requirements to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written health and safety plan to mitigate the risk of virus transmission to the greatest extent feasible.

2. Summer Camps: Summer camps and summer learning programs that operate exclusively outside of the academic school year (“Summer Camps”) may operate for all children over the age of six and school-aged children currently in grades transitional kindergarten (TK) and above who are under age six, subject to the following limitations and conditions:

i. Summer Camps must limit group size to 12 children (a “pod”) per room or space;

ii. Summer Camp sessions must last at least three weeks;

iii. Children must remain in the same pod for at least three weeks, and preferably for the entire time throughout the summer.

iv. Summer Camps may not begin to operate until they have created, posted and implemented a Social Distancing Protocol checklist (Appendix A to this Order) and complied with all of the requirements set forth in relevant industry-specific Health Officer directives (see Health Officer Directive No. 2020-13b) including the requirements to complete an online form with general information about the program and required certifications, to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written health and safety plan to mitigate the risk of virus transmission to the greatest extent feasible.

3. Out of School Time Programs: Educational or recreational institutions or programs that provide care or supervision for school-aged children and youth—including for example, learning hubs, other programs that support distance learning, school-aged childcare programs, youth sports programs, and afterschool programs (“Out of School Time Programs” or “OST Programs”) may open for all children, subject to the following limitations and conditions:

i. OST Program sessions must be at least three weeks long, and programs without set sessions may not enroll children for fewer than three weeks;

ii. Any youth sports or exercise taking place as part of an OST or organized and supervised youth sports program must take place outside only;
ii.iii. OST Programs must create, post, and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with all of the requirements set forth in Health Officer Directive No. 2020-21, including any limits on the number of children that can be in a group, and also the requirements to complete an online form with general information about the program and required certifications, to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written Health and Safety Plan to mitigate the risk of virus transmission to the greatest extent feasible.

For clarity, this Section does not apply to schools, which are addressed separately in Section 6.b of the Order; Childcare Programs, which are addressed separately in subsection b.1 of this Appendix above; or Summer Camps, which are addressed separately in subsection b.2 of this Appendix above. OST Programs are intended to supplement, rather than replace, school programming.

(Added May 22, 2020; Revised June 1, 2020, July 13, 2020, and August 14, 2020; Non-substantive revisions June 11, 2020; Non-substantive revision January 27, 2021)

(4) Low Contact Retail Services—CURBSIDE ONLY-REDUCED CAPACITY

a. Basis for Addition. Personnel and customers can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., in some instances where remote payment is not feasible, while paying for services). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Customers interact only with a small number of individuals from other Households, and although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate social distancing and decrease the risk of virus transmission. As modified, the customer The majority of interactions will occur outdoors, which further decreases risk—and consistent with Section 5.c of the Order—, businesses are strongly urged to conduct interactions with customers outdoors—through curbside drop-off and pick-up—to the largest extent possible.

b. Description and Conditions to Operate. Services that do not generally require close customer contact (e.g., dog grooming and shoe or electronics repair) may operate, subject to the following limitations and conditions:

i. All To the extent feasible, all interactions and transactions between Personnel and customers must occur outdoors;

ii. The store must limit capacity to the lesser of: (1) 25% the store’s maximum occupancy (based on customers only) or (2) the number of people (customers and Personnel) who can maintain at least six feet of physical distance from each other in the facility so that Personnel can comply with Social Distancing Requirements (Section 8.o of the Order) at all times;
iii. The businesses must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with Health Officer Directive No. 2020-10b, as that directive may be amended from time to time, regarding required best practices for retail businesses with curbside pickup and drop-off;

iv. The stores must have direct access to an immediately adjacent sidewalk, street, alley, or parking area for pickup by customers using any mode of travel, without blocking pedestrian access or causing pedestrian or vehicle congestion; and

v. Stores in an enclosed indoor shopping center that do not have direct access to adjacent sidewalk, street, parking lot or alley area may not reopen at this time unless they are located in an approved Indoor Shopping Center as described in 1.b above.

For clarity, this provision does not apply to personal service businesses, such as hair salons, barbershops, nail salons, or piercing or tattoo parlors.

As discussed in Section 1.b above regarding retail stores and Indoor Shopping Centers, stores within enclosed shopping centers may operate only upon advance written approval by the Health Officer or the Health Officer’s designee of a plan submitted by the Indoor Shopping Center operator. Plans must be submitted to HealthPlan@sfcityatty.org.

(Added June 1, 2020; Revised June 11, 2020, and July 20, 2020, and January 27, 2021; Non-substantive revisions July 13, 2020; Capacity reduced November 28, 2020, and December 4, 2020)

(5) **Equipment Rental Businesses—REDUCED CAPACITY**

a. **Basis for Addition.** Personnel and customers can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., while paying for services). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Customers interact only with a small number of individuals from other Households, and although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate social distancing and decrease the risk of virus transmission. The majority of interactions can occur outdoors, which further decreases risk—and businesses are strongly urged to conduct interactions outdoors to the largest extent possible. Also, the risk of multiple individuals using shared equipment can be mitigated through sanitation measures. Finally, resumption of these businesses is expected to result in only a small increase in the number of people reentering the workforce and the overall volume of commercial activity.

b. **Description and Conditions to Operate.** Businesses that rent equipment for permissible recreational activities (e.g., bicycles, kayaks, paddleboards, boats, horseback riding, climbing equipment, or fishing equipment) may operate, subject to the following limitations and conditions:
i. To the extent feasible, all interactions and transactions between Personnel and customers should occur outdoors;

ii. The business must limit capacity in the facility to the lesser of: (1) 2025% the facility’s maximum occupancy (based on customers only) or (2) the number of people (customers and Personnel) who can maintain at least six feet of physical distance from each other in the facility at all times;

iii. The business must have created, posted and implemented a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-10b, as that directive may be amended from time to time, regarding required best practices for retail businesses with curbside pickup and drop-off;

iv. All retail establishments—including equipment rental businesses—must develop and implement written procedures to “meter” or track the number of persons entering and exiting the facility to ensure that the maximum capacity for the establishment is not exceeded. For example, an employee of the establishment may be posted at each entrance to the facility to perform this function. The establishment must provide a copy of its written “metering” procedures to an enforcement officer upon request and disclose the number of members of the public currently present in the facility.

v. The business must have direct access to an immediately adjacent sidewalk, street, alley, or parking area for pickup by customers using any mode of travel, without blocking pedestrian access or causing pedestrian or vehicle congestion;

vi. Businesses in an enclosed indoor shopping center that do not have direct access to adjacent sidewalk, street, parking lot or alley area may not reopen at this time unless they are in an approved Shopping Center as described in 1.b above; and

vii. All equipment must be thoroughly cleaned and disinfected between each use with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with CDC guidelines (https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html).

As discussed in Section 1.b above regarding retail stores and Indoor Shopping Centers, stores within Indoor Shopping Centers may operate only upon the advance written approval by the Health Officer or the Health Officer’s designee of a plan submitted by the Indoor Shopping Center operator. Proposed plans must be submitted to HealthPlan@sfcityatty.org.

(Added June 1, 2020; Revised June 11, 2020, and October 27, 2020; Non-substantive revisions July 13, 2020; Suspension note added July 20, 2020 and removed September 1, 2020; Capacity reduced November 28, 2020, and December 4, 2020; Capacity increased January 27, 2021)
(6) Professional Sports Teams: Practices, Games, and Tournaments without In-Person Spectators with an Approved Plan

a. Basis for Addition. Although contact sports may present a significant risk of virus transmission, those risks can be mitigated by stringent social distancing, sanitation, and testing measures. Resuming such events—without a live audience and subject to strict health controls and mitigation measures—represents a first step toward the resumption of professional sports exhibitions that can be broadcast for the entertainment of the public and viewed by the public remotely in a safe manner.

b. Description and Conditions to Operate. Professional sports teams that wish to resume practices, games, or tournaments and broadcasting of those events in San Francisco, without in-person spectators, may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among players, staff, media, broadcast crew, and any others who will be in the facility. The plan must include a proposal for interval testing (without using City resources) of all players and coaching staff who will be present in the facility. Plans must be submitted to HealthPlan@sfcityatty.org. Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the team may then resume activities consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee. Teams, games, exhibitions, and tournaments must also comply with any applicable Health Officer directives to the extent they are consistent with the approved plan; in the event of an inconsistency, the approved plan controls. Finally, crew, athletes, coaching staff and other workers should also abide by protocols agreed to by labor and management, to the extent they are at least as protective of health as the approved plan.

(Added June 1, 2020; Revised June 11, 2020; Non-substantive revisions June 26, 2020; Suspension note added July 20, 2020)

(7) Entertainment Venues: Live Streaming or Broadcasting Events without In-Person Audiences with an Approved Plan

a. Basis for Addition. Although some types of live entertainment and cultural events, such as music, dance and comedy performances, may present a risk of virus transmission, those risks can be mitigated by stringent social distancing, sanitation, and testing measures. Resuming such events—without a live audience and subject to strict health controls and mitigation measures—represents a first step toward the resumption of these entertainment and cultural activities that can be broadcast and watched by the public remotely in a safe manner.

b. Description and Conditions to Operate.

1. Operators of entertainment venues may film, stream, or otherwise broadcast small scale events so long as:
Order No. C19-07FS – Appendix C-1: Additional Businesses Permitted to Operate

[Revised January 2027, 2021]

i. the venue remains closed to the public;
ii. the live stream is limited to the fewest number of Personnel needed (up to a maximum of 12 people in the facility, including, without limitation, media Personnel needed for the broadcast);
iii. doors and windows are left open to the extent possible, or mechanical ventilation systems are run, to increase ventilation;
iv. the venue complies with the Social Distancing Requirements set forth in Section 8.o of this Order; and
v. Because singing and playing wind or brass instruments can transmit particles farther in the air than breathing or speaking quietly, people must be in an isolation booth or in a separate room from others in the facility while singing or playing wind or brass instruments.

To further reduce the risk of transmission, it is strongly recommended that all events allowed under this section be conducted and filmed, streamed, or otherwise broadcast from outdoors. The same outdoors recommendation applies to all other operations that are allowed under the Order to be filmed, live streamed or otherwise broadcast indoors with health restrictions.

2. Operators of entertainment venues that wish to film, stream, or otherwise broadcast events that require more than 12 people to be on site at the facility at any one time may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among participants. If the event involves singing, playing wind or brass instruments, or physical contact, the plan must include a proposal for interval testing (without using City resources) of those individuals. Proposed plans must be submitted to HealthPlan@sfcityatty.org. Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the venue may then begin operating consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee. Cast, crew, and other workers should also abide by protocols agreed to by labor and management, to the extent they are at least as protective of health as the approved plan.

(Added June 11, 2020; Non-substantive revisions June 26, 2020; Revised July 20, 2020)

(8) Dining—SUSPENDED IN PART

Dining Establishments may continue to provide food for delivery and carry out under Section 8.a.xvi of the Order.

(Suspended December 4, 2020)
a. Basis for Addition. Dining presents a higher risk of virus transmission than in other allowable interactions because Face Coverings must be removed to eat and drink. But outdoor interactions carry a significantly lower risk of transmission than most indoor interactions, and mitigation measures in outdoor dining establishments can decrease the transmission risk if they are strictly followed by all customers and Personnel.

b. All Dining – General Conditions to Operate. All restaurants and bars that operate under this Section (8), must comply with all of the following limitations and conditions in relation to all such operations:

i. All patrons must be seated at a table to eat or drink—except briefly, standing or lingering between tables or in other areas of the restaurant’s outdoor or indoor space is not allowed;

ii. Patrons must be seated to be served food or beverages;

iii. Patrons must wear Face Coverings when they are not actively eating or drinking, including but not limited to: while they are waiting to be seated; while reviewing the menu and ordering; while socializing at a table waiting for their food and drinks to be served or after courses or the meal is complete; and any time they leave the table, such as to use a restroom. Customers must also wear Face Coverings any time servers, bussers, or other Personnel approach their table;

iv. Each dining establishment must use signs and verbal directions to notify patrons of the requirements for dining (whether indoor or outdoor), including, but not limited to, the requirements for when to wear a face covering;

v. Dining establishments must limit tables to two Households up to six people total;

vi. No dining establishment is permitted to provide alcoholic beverage service without also providing real meal service in a bona fide manner. Bona fide meals must be prepared and served by the dining establishment or another person or business operating under an agreement with the dining establishment. The service of prepackaged food like sandwiches or salads, or simply heating frozen or prepared meals, is not deemed as compliant with this requirement;

vii. Each patron at a table must order a bona fide meal to receive alcoholic beverage service, and dining establishments must deliver alcoholic beverages to patrons only when they are seated;

viii. No patrons are allowed to eat or drink indoors in the dining establishment [SUSPENDED: except when seated at an indoor table under the indoor dining rules below];

ix. No patrons are allowed to use self-serve items (such as buffets or self-serve continental breakfasts);

x. Areas that may lead to patrons gathering, congregating, or dancing must be closed;

xi. The dining establishment must screen all patrons and other visitors on a daily basis using the standard screening questions attached to the Order as Appendix A
and Attachment A-2 (the “Screening Handout for Non-Personnel’’). Screening must occur before people are seated at the dining establishment to prevent the inadvertent spread of the SARS-CoV-2 virus. A copy of the Screening Handout for Non-Personnel must be provided to anyone on request, although a poster or other large-format version of the Screening Handout for Non-Personnel may be used to review the questions with people verbally. Any person who answers “yes” to any screening question is at risk of having the SARS-CoV-2 virus, must be prohibited from entering or being seated by the establishment, and should be referred for appropriate support as outlined on the Screening Handout for Non-Personnel. The establishment can use the guidance available online at www.sfcdcp.org/screen for determining how best to conduct screening. Patrons who are feeling ill, have exhibited symptoms of COVID-19 within 24 hours of arriving at the establishment, or answer “yes” to any screening question must cancel or reschedule their reservation. In such cases, patrons must not be charged a cancellation fee or other financial penalty; and

xii. Each dining establishment must (1) comply with the sections that follow that are applicable to the type of dining being offered by the establishment regarding outdoor dining, indoor dining, or both, (2) have created, posted, and implemented a Social Distancing Protocol checklist (Appendix A to this Order), and (3) also comply with Health Officer Directive No. 2020-16, as that directive may be amended from time to time, regarding required best practices for outdoor dining or indoor dining, as applicable.

c. Outdoor Dining – Description and Conditions to Operate. Restaurants and bars that serve food may operate for outdoor dining (“outdoor dining establishments”) subject to the following limitations and conditions:

i. The outdoor dining establishment must comply with all General Conditions to Operate listed in Section (8)b above;

ii. Patrons must remain outside the outdoor dining establishment and may enter the establishment only (1) to access a bathroom, (2) to access an outdoor space that is only accessible by traveling through the restaurant, or (3) to order or pickup food at an indoor counter; and

iii. Dining establishments must cease outdoor dining operations from 10:00 p.m. to 5:00 a.m. each day; all outdoor dining patrons must leave dining establishments by 10:00 p.m., and dining establishments must plan accordingly to stop evening food and beverage service and collect payment before 10:00 p.m. Dining establishments may continue to offer delivery and take-out services consistent with Health Officer Directive No. 2020-05, and employees may continue to work and commute to and from the Dining Establishment during these hours.

Outdoor dining establishments may apply for a free temporary permit to use the sidewalk or parking lane for business operations at https://sf.gov/use-sidewalk-or-parking-lane-your-business.

d. Indoor Dining – Description and Conditions to Operate.
Outdoor Fitness Classes—REDUCED CAPACITY

a. Basis for Addition. Outdoor fitness classes involve mixing of Households and a moderate number of contacts. Also, the contacts are often of relatively long duration. Accordingly, and because exercise causes people to more forcefully expel airborne particles, the risk of virus transmission is higher than in other allowable interactions. But participants can—and must—wear Face Coverings and maintain at least six feet of physical distance at all times and not share equipment. Further, outdoor interactions carry a lower risk of transmission than most indoor interactions, and health protocols in outdoor fitness classes can significantly decrease the transmission risk.

b. Description and Conditions to Operate. Outdoor fitness classes (e.g., outdoor boot camp, non-contact dance classes, tai chi, pilates, and yoga classes) may operate subject to the following limitations and conditions:

i. No more than **1225** people, including the instructor(s), may participate in an outdoor fitness class at the same time;

ii. The business/instructor must ask each participant using the standard screening questions attached to the Order as Appendix A and Attachment A-2 (the “Screening Handout for Non-Personnel”). Screening must occur before people are allowed to join the class to prevent the inadvertent spread of the SARS-CoV-2 virus. A copy of the Screening Handout for Non-Personnel must be provided to anyone on request, although a poster or other large-format version of the Screening Handout for Non-Personnel may be used to review the questions with people verbally. Any person who answers “yes” to any screening question is at risk of having the SARS-CoV-2 virus, must not be allowed to participate, and must cancel or reschedule their class. The instructor can use the guidance available online at www.sfcdcp.org/screening for determining how best to conduct screening;

iii. All participants must maintain a physical distance of at least six feet from each other, from the instructor(s), and from members of the public at all times;

iv. The business/instructor must have permission of the property owner to use the space;

v. All participants and instructors must wear a Face Covering at all times, unless they are specifically exempted from the Face Covering requirements in Health
vi. Equipment (e.g., medicine balls, resistance bands, mats, weights, or yoga blocks) may not be shared by members of the class and must be thoroughly cleaned and disinfected between each use with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with CDC guidelines (https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html).

For clarity, this section does not allow contact sports (e.g., football) or fitness classes that involve physical contact (e.g., jiu jitsu or boxing with sparring) to resume. Also, this section does not cover childcare or summer camp programs for children or youth, which are governed by section 3 above and Health Officer Directive Nos. 2020-13b and 2020-14b.

Additional guidance about outdoor fitness classes from the San Francisco Department of Public Health is available at http://www.sfdph.org/directives.

(Added June 11, 2020; Non-substantive revisions July 13, 2020, and August 14, 2020; Revised September 30, 2020, October 20, 2020, November 3, 2020, and December 4, 2020; Capacity increased January 27, 2021)

(10) **Indoor Household Services**

a. **Basis for Addition.** Household service providers and residents can wear Face Coverings and maintain at least six feet of physical distance at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Although indoor household services may involve mixing of Households (if the resident is at home) and occurs indoors, the number of contacts is low. Finally, risks of virus transmission can be mitigated through adherence to other Social Distancing Requirements and to sanitation, and other safety protocols.

b. **Description and Conditions to Operate.** Providers of indoor household services that can be provided while maintaining social distancing (e.g., house cleaners and cooks) may operate, subject to the following limitations and conditions:

   i. Household service providers may not enter a residence to provide services if either the household service provider or anyone in the residence has recent COVID-19 infection, exposure or symptoms, as listed in the standard screening questions attached to the Order as Attachment A-2 (the “Screening Handout for Non-Personnel”). Screening must occur before the household service provider enters the home;

   ii. When feasible, residents should leave the premises when household services providers are in their home—if leaving the premises is not feasible, residents
should try to be in a different room than the household service provider to the greatest extent possible;

iii. When feasible, leave windows and doors open to increase ventilation or run mechanical ventilation systems;

iv. High touch surfaces and any shared implements or tools should be cleaned at the beginning and end of any service visit;

v. Both residents and household service providers must wear a Face Covering at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020.

For clarity, this section does not allow personal service providers, such as hairdressers or personal trainers, to provide in-home services. Also, this section does not apply to in-home childcare, which is independently permissible under Section 8.a.xxi of the Order.

Additional guidance about indoor household services from the San Francisco Department of Public Health is available at http://www.sfdph.org/directives.

(Added June 11, 2020; Non-substantive revisions July 13, 2020, and August 14, 2020; Revised November 3, 2020)

(11) Offices for Non-Essential Businesses—SUSPENDED

(Suspended December 4, 2020)

(12) Outdoor Zoos with an Approved Plan—SUSPENDED

(Suspended December 4, 2020)

a. Basis for Addition. Personnel and visitors can wear Face Coverings and maintain at least six feet of physical distance from people in different Households at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And outdoor businesses are safer than indoor businesses. Finally, the number, frequency and proximity of contacts can be minimized through capacity limitations and the risk of virus transmission can reduced through other health protocols.

b. Description and Conditions to Operate. Zoos that wish to resume operations for visits by the public solely in their outdoor spaces may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among Personnel and visitors.
The plan must be submitted to HealthPlan@sfcityatty.org, and must include detailed descriptions of how the business intends to address the following safety precautions.

- Ensuring that the facility remains below the lesser of: (a) 50% of the maximum capacity (based on patrons only) for the outdoor space that is permitted to open; or (b) the capacity based on the ability of Personnel and patrons to comply with the Social Distancing Requirements;
- Signage regarding Social Distancing Requirements (to include at least six feet of distance, handwashing/sanitizer practices, Face Covering policy);
- Ensuring Personnel and patrons wear Face Coverings at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time;
- Ticketing booths and payment systems;
- Personnel safety precautions;
- Compliance with applicable Health Officer directives (e.g. regarding Food and beverage concessions, and retail gift shops);
- Monitoring and limiting patrons to ensure physical distancing between members of different Households;
- Paths of travel through the establishment and wayfinding signage;
- Sanitation for restrooms;
- Tours and audio self-tour equipment;
- Coat/personal property check services;
- Sanitation for high-touch surfaces and areas; and
- Closing interactive exhibits or modifying those exhibits to prevent common touching.

Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the zoo may resume operating its outdoor spaces for visits by the public according to the terms of the approved plan at the lesser of: (a) 50% of the maximum capacity for the outdoor space that is permitted to open; or (b) the capacity based on the ability of Personnel and patrons to comply with the Social Distancing Requirements, consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee.

(13) *(Added July 13, 2020; Non-substantive revisions August 14, 2020; Open Air Boat Operators—SUSPENDED)*

(Suspended December 4, 2020; Reinstated with non-substantive revisions January 27, 2021)

(13) **Open Air Boat Operators**

a. Basis for Addition. Personnel and passengers can wear Face Coverings and maintain six
feet of physical distance from people in different households at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And open-air boat excursions occur outside, which is safer than indoor interactions, and have additional air-flow from continual movement. Finally, outdoor boating excursions of socially distanced groups involve only a moderate number of contacts, and health mitigation measures in small boating excursions can significantly decrease the transmission risk.

b. Description and Conditions to Operate. Individuals or businesses that offer open-air boat excursions (“Open-Air Boat Operators”) may operate, subject to the following limitations and conditions:

i. If the total number of passengers is greater than 12, then the Open-Air Boat Operator must assign each passenger to a group of no more than 12 people. Multiple groups of 12 may be on an Open-Air Boat simultaneously, subject to the following requirements:
   • Each group of 12 must be kept at least 12 feet apart from each other,
   • The Open-Air Boat Operator must prohibit mingling among passengers in different groups, and
   • Passengers must have a clear path to the restroom and exit without being required to travel through the space occupied by another group.

ii. All passengers must maintain a physical distance of at least six feet from each other, from the captain, and from Personnel, at all times;

iii. Before boarding, passengers must wait on the dock at least six feet apart and must not board the vessel until the captain or crew allow boarding;

iv. For fishing, rod holders must be spaced at least six feet apart from each other;

v. Bathrooms (if any) must be sanitized frequently following EPA guidelines;

vi. Passengers must stay in the open-air portion of the boat except for brief periods, such as to use the bathroom;

vii. Open-Air Boat Operators should ask passengers to voluntarily provide their name and phone number for potential contact tracing purposes—the operator should keep this information on file for at least three weeks;

viii. Open-Air Boat Operators must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order);

ix. Open-Air Boat Operators must ensure daily COVID-19 symptom and exposure screening is completed for all Personnel as required by the Social Distancing Protocol and its Attachment A-1;

x. Open-Air Boat Operators must Screen all customers and other visitors on the day of the boat excursion as outlined by the Social Distancing Protocol and its Attachment A-2. Any person who answers “yes” to a screening question must not
be allowed to board the boat. No cancellation or rescheduling fee may be charged in that situation;

xi. All passengers and Personnel must wear a Face Covering at all times while waiting to board, at all times while on board—except when eating or drinking, and at all times when disembarking from the vessel, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time;

xii. Passengers from different households should not shake hands, share food or drinks, or engage in any unnecessary physical contact—the captain and crew must instruct passengers about these requirements;

xiii. Open-Air Boat Operators must make hand sanitizer available throughout the boat and at each rod station (if any);

xiv. Equipment (e.g., fishing equipment) may not be shared by people outside of a single household, and the boat and all equipment belonging to the Open-Air Boat Operator or otherwise provided by the Open-Air Boat Operator must be thoroughly cleaned and disinfected after each trip with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with CDC guidelines (https://www.cdc.gov/coronavirus/2019-ncov/community/cleaning-disinfecting-decision-tool.html).

For clarity, this section does not cover vessels used exclusively for Essential Travel (such as ferries and water taxis) and such vessels do not need to follow the conditions set forth in this section.

(Added July 13, 2020; Non-substantive revisions August 14, 2020; Revised September 14, 2020, October 20, 2020, and November 3, 2020; Suspended December 4, 2020; Reinstated with non-substantive revisions January 27, 2021)

(14) **Institutions of Higher Education and Adult Education—SUSPENDED IN PART**

a. **Basis for Addition.** Personnel and students can wear Face Coverings and maintain at least six feet of physical distance from people in different households at all times. Restrictions can be placed to ensure that few inherently risky activities (e.g., singing, shouting, etc.) are involved. And to the extent classes occur outdoors with distancing and Face Coverings, these interactions are safer than indoor interactions. If indoor in person instruction is authorized by the Health Officer for adult education programs under the limited conditions set forth below, then health mitigation measures adopted under detailed prevention plan can decrease the transmission risk.

b. **Description and Conditions to Operate.** Institutions of Higher Education (“IHEs”) and other programs offering adult education—including, for example, programs offering job skills training and English as a second language classes (“Adult Education Programs”)
(IHEs and Adult Education Programs are collectively referred to below as “Higher Education Programs”)—may operate, subject to the following limitations and conditions:

i. Higher Education Programs may operate for purposes of facilitating distance learning and themselves performing essential functions, as set forth in Section 8.a.xiv of the Order;

ii. Higher Education Programs may not offer in-person instruction indoors or outdoors unless the specific class:
   (1) cannot be held remotely due to the need for access to specialized equipment or space,
   (2) trains students to provide essential functions or services relating to the protection of public health or safety or Essential Government Functions, and
   (3) is offered in settings with designs that impose substantial physical distancing on participants.
   Classes that are currently being offered in person and do not meet the above criteria must cease unless they can be held remotely.

iii. Higher Education Programs must create and post a Prevention Plan as required by Health Officer Directive 2020-22;

iv. Higher Education Programs must screen all Personnel and students for COVID-19 symptoms and exposure to COVID-19 every day before they enter the campus, whether for indoor or outdoor classes or other purposes. Higher Education Programs must use the standard screening questions attached to the Order as Appendix A and Attachment A-2 (the “Screening Handout for Non-Personnel”). A copy of the Screening Handout for Non-Personnel must be provided to anyone on request, although a poster or other large-format version of the Screening Handout for Non-Personnel may be used to review the questions with people verbally. Any person who answers “yes” to any screening question is at risk of having the SARS-CoV-2 virus, must be prohibited from entering the IHE, and should be referred for appropriate support as outlined on the Screening Handout for Non-Personnel. The Higher Education Program can use the guidance available online at www.sfcdcp.org/screen for determining how best to conduct screening;

v. Face Coverings are required at all times;

vi. No singing, chanting or shouting, or wind instruments are allowed during in-person instruction (indoors and outdoors) at this time;

vii. Class capacity must be limited to ensure physical distancing at all times;

viii. Individual student use of an indoor facility due to the need for access to specialized equipment or space that is not available outside (such as a music practice room or fine arts studio) is allowed subject to safety protocols;
ix. Collegiate athletics teams that wish to resume practices, games, or tournaments in San Francisco, without in-person spectators, may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among players, staff, and any others who will be in the facility. The plan must include a proposal for interval testing (without using City resources) of all players and coaching staff who will be present in the facility. The plan must also include a commitment to comply with local directives governing isolation and quarantine of individuals who are diagnosed with, or have had close contact with a person who is diagnosed with, COVID-19. Plans must be submitted to healthplan@sfcityatty.org. Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the team may then resume activities consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee. But in connection with an approved plan no in-person spectators will be allowed under any circumstances;

x. Subject to applicable land use laws and regulations, housing controlled or operated by Higher Education Programs or restricted for the use of students attending a Higher Education Program is permitted to open and operate for students in compliance with any relevant health and safety requirements contained in any relevant industry-specific Health Officer directives. Except for family housing, students must be housed in single rooms (i.e., without a roommate) unless the student specifically requests to be housed with a roommate; and

xi. All Higher Education Programs must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with relevant health and safety requirements contained in any relevant industry-specific Health Officer directives, including, but not limited to, Health Officer Directive No. 2020-22d.

(Added August 14, 2020; Revised September 1, 2020, September 30, 2020; and November 28, 2020; Non-substantive revisions November 3, 2020; Suspended in part December 4, 2020)

(15) **Personal Service Providers—SUSPENDED**

a. **Basis for Addition.** Although personal services such as hair and nail salons involve moderate to high contact intensity and a moderate number of contacts, the risk of transmission can be significantly lessened by implementing health and safety mitigation measures. Finally, the risk of virus transmission can be reduced through other health and sanitation protocols. Consistent with Section 5.c of the Order and to the extent possible, Personal Service Providers are urged to provide services outdoors to further decrease the risk.

b. **Description and Conditions to Operate.**
1. Outdoors. Personal service providers regulated by Division 3, Chapter 10 of the California Business and Professions Code, Division 104, Part 15, Chapter 7 of the California Health and Safety Code, or San Francisco Health Code Article 29 (collectively, “Personal Service Providers”) that can safely offer services outside, including, for example, hair salons, barber shops, nail salons, massage (in a non-healthcare setting), estheticians, skin care, and cosmetology services (collectively, “Outdoor Personal Services”), may operate outdoors, subject to all of the following limitations and conditions:

i. The following personal services cannot be offered outside because they cannot be done safely in an outdoor setting: electrology, tattooing, piercing, microblading, permanent make-up, and other forms of body art that are invasive and require a controlled hygienic environment. Also, shampooing and chemical hair services are not permitted outside;

ii. Outdoor Personal Service Providers may, subject to any applicable permit requirements, conduct their operations under a tent, canopy, or other sun or weather shelter, tent, canopy, or other shelter, as long as the shelter complies with: (1) the California Department of Public Health’s November 25, 2020 guidance regarding “Use of Temporary Structures for Outdoor Business Operations” (available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Use-of-Temporary-Structures-for-Outdoor-Business-Operations.aspx); and (2) SFDPH’s guidance on “Safer Ways to Use New Outdoor Shared Spaces for Allowed Activities During COVID-19” (available at https://www.sfdph.org/dph/files/ig/Guidance-Shared-Outdoor-Spaces.pdf);

iii. Both Outdoor Personal Service Providers and clients/customers must wear a Face Covering at all times unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time; and

iv. The Outdoor Personal Service Provider must have created, posted and implemented a Social Distancing Protocol and must comply with Health Officer Directive No. 2020-23, as that directive may be amended from time to time, regarding required best practices for outdoor personal services.

2. Indoors. Personal service providers regulated by Division 3, Chapter 10 of the California Business and Professions Code, Division 104, Part 15, Chapter 7 of the California Health and Safety Code, or San Francisco Health Code Article 29 including, for example, hair salons, barber shops, nail salons, massage (in a non-healthcare setting), estheticians, skin care, and cosmetology services, electrology, tattooing, piercing, and microblading, may operate indoors (collectively, “Indoor Personal Services”), subject to all of the following limitations and conditions:

i. Both Indoor Personal Service Providers and clients/customers must wear a Face Covering at all times unless they are specifically exempted from the Face Covering.
Order No. C19-07#S – Appendix C-1: Additional Businesses Permitted to Operate

[Revised January 2027, 2021]

Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020;

ii. The Indoor Personal Service Provider must have created, posted and implemented a Social Distancing Protocol and must comply with Health Officer Directive No. 2020-30, as that directive may be amended from time to time, regarding required best practices for Indoor Personal Services; and

iii. The Indoor Personal Service Provider must limit capacity to the lesser of: (1) 25% of the store’s maximum occupancy (based on patrons) or (2) the number of people (patrons and Personnel) who can maintain at least six feet of physical distance from each other in the facility at all times.

(Added September 1, 2020; Revised September 14, 2020, and October 27, 2020; Non-substantive revision September 30, 2020; Suspended December 4, 2020; Reinstated with revisions January 27, 2021)

(16) Gyms and Fitness Centers—SUSPENDED IN PART

a. Basis for Addition. Although gyms and fitness centers involve moderate contact intensity and a moderate number of contacts, the risk of transmission can be significantly lessened by requiring that everyone wear a Face Covering and maintain at least six feet of physical distance at all times. Also, the risk of virus transmission can be reduced through other health and sanitation protocols. Consistent with Section 5.c of the Order and to the extent possible, gyms and fitness centers are urged to provide services outdoors to further decrease the risk.

b. Description and Conditions to Operate.

1. Outdoors. Gyms and fitness centers offering space or equipment for customer-directed exercise may operate outdoors, subject to all of the following limitations and conditions:

i. Gyms and fitness centers may, subject to any applicable permit requirements, conduct their operations in a tent, canopy, or other shelter, as long as the shelter complies with: (1) the California Department of Public Health’s November 25, 2020 guidance regarding “Use of Temporary Structures for Outdoor Business Operations” (available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Use-of-Temporary-Structures-for-Outdoor-Business-Operations.aspx); and (2) SFDPH’s guidance on “Safer Ways to Use New Outdoor Shared Spaces for Allowed Activities During COVID-19” (available at https://www.sfdph.org/dph/files/ig/Guidance-Shared-Outdoor-Spaces.pdf);

ii. Everyone in the outdoor gym or fitness center facilities must maintain at least six feet of physical distance from people outside of their Household at all times;
iii. Gyms and fitness centers must limit the number of people, including patrons and Personnel, who are present in the space to the lesser of (1) 12 people or (2) the number of people who can maintain at least six feet of physical distance from each other at all times;

iv. Everyone in the outdoor gym or fitness center facilities must wear a Face Covering at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020; and

v. The gym or fitness center must have created, posted and implemented a Social Distancing Protocol and must comply with any and all requirements contained in Health Officer Directive No. 2020-27, regarding outdoor gyms and fitness centers including, without limitation, all enhanced cleaning requirements.

2. Indoors.

[SUSPENDED]

(17) Indoor Museums, Aquariums, and Zoos—SUSPENDED

(Suspended December 4, 2020)

(18) Outdoor Family Entertainment Centers—SUSPENDED IN PART

a. Basis for Addition. Certain outdoor Family Entertainment Centers involve only moderate risk given that they occur outside, they involve moderate contact intensity and a moderate number of contacts, and the risk of transmission can be significantly lessened by requiring that everyone wear a Face Covering and maintain at least six feet of physical distance at all times. The risk of virus transmission can also be reduced through other health and sanitation protocols. And because the State of California has included family entertainment centers on the list of options for all tiers to varying degrees, this Appendix lists those that can be done with appropriate safety protocols. More information about the State of California’s designation can be found online at https://covid19.ca.gov/safer-economy/.

b. Description and Conditions to Operate. Family Entertainment Centers, as defined by this Section, may operate only based on the tier assigned by the State, subject to all of the limitations and conditions listed below. The term “Family Entertainment Centers” generally refers to activities that are designed for amusement or recreation, sometimes with shared equipment, that are not generally competitive sports. Because the term is not defined by the State, the specific activities that are allowed under each tier is governed by a combination of the specific State guidance that applies to each tier and local considerations about what can be done safely.
Consistent with the State’s guidelines, available online at https://files.covid19.ca.gov/pdf/guidance-family-entertainment--en.pdf, and local considerations, only the following Family Entertainment Center activities that are listed as “allowed” may be operated at this time, and any activities listed (in italics) as “prohibited” are prohibited and may not operate in the County. Any activity that is allowed must comply with all restrictions listed in this Section and in the State’s guidelines for Family Entertainment Center activities.

The activities allowed under the current purple tier are as follows:

<table>
<thead>
<tr>
<th>Allowed Family Entertainment Center activities:</th>
<th>Notes/restrictions:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outdoor activities only, including:</td>
<td>See additional requirements listed below regarding any activity that includes shared or rented equipment (for example, laser tag, skating, batting cages, etc.).</td>
</tr>
<tr>
<td>• Outdoor playgrounds;</td>
<td>Outdoor playgrounds must comply with the requirements listed in Section (11) of Appendix C-2 and Health Officer Directive No. 2020-36 (including as that directive is updated in the future), available online at <a href="http://www.sfdph.org/directives">www.sfdph.org/directives</a>.</td>
</tr>
<tr>
<td>• Outdoor skate parks;</td>
<td>Outdoor miniature golf must comply with the relevant requirements listed in Section (2) of Appendix C-2 and Health Officer Directive No. 2020-15 (including as that directive is updated in the future), available online at <a href="http://www.sfdph.org/directives">www.sfdph.org/directives</a>.</td>
</tr>
<tr>
<td>• Outdoor roller and ice skating at the lesser of 25% capacity (patrons only) or 25 patrons skating;</td>
<td></td>
</tr>
<tr>
<td>• Outdoor laser tag;</td>
<td></td>
</tr>
<tr>
<td>• Outdoor paintball;</td>
<td></td>
</tr>
<tr>
<td>• Outdoor batting cages;</td>
<td></td>
</tr>
<tr>
<td>• Outdoor kart racing; and</td>
<td></td>
</tr>
<tr>
<td>• Outdoor miniature golf;</td>
<td></td>
</tr>
</tbody>
</table>

The activities prohibited under the current tier include, without limitation, the following:

<table>
<thead>
<tr>
<th>Prohibited Family Entertainment Center activities:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outdoor activities:</td>
</tr>
<tr>
<td>• <strong>Standalone, outdoor attractions (which are ride attractions, such as a carousel, Ferris wheel, or train ride, that are operated independently of, and are located on distinct and separate grounds from, other amusement attractions)</strong>. (See the note...</td>
</tr>
</tbody>
</table>
Indoor operations, including:

- Indoor bumper cars;
- Indoor batting cages;
- Bowling alleys;
- Escape rooms;
- Kiddie rides;
- Virtual reality;
- Arcade games;
- Trampolines and trampoline gyms;
- Indoor laser tag;
- Indoor roller and ice skating;
- Indoor skate parks; and
- Indoor playgrounds.

Also, the State prohibits in the current tier the operation of fairs, amusement parks, or similar venues offering multiple such attractions as Family Entertainment Centers. Also, Family Entertainment Centers must at this time discontinue demonstrations, such as magic, live animal shows, etc., unless Social Distancing Requirements and sanitation protocols are met.

Any Family Entertainment Center that is allowed to operate under this Section based on the County’s current tier assignment by the State must comply with all of the following requirements:

i. If the activity listed above is listed as an outdoor activity, all related operations must be outdoors. In that situation, operations that cannot be safely performed outdoors are not allowed. If there is a mix of indoor and outdoor activities offered by the Family Entertainment Center, only the activities that are allowed under the current tier assignment may occur and may only occur as outlined in this Section.

ii. Outdoor Family Entertainment Centers may conduct their allowed operations under a tent, canopy, or other sun or weather shelter, as long as the shelter complies with: (1) the California Department of Public Health’s November 25, 2020 guidance regarding “Use of Temporary Structures for Outdoor Business Operations” (available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Use-of-Temporary-Structures-for-Outdoor-Business-Operations.aspx); and (2) SFDPH’s guidance on “Safer Ways to Use New Outdoor Shared Spaces for Allowed

iii. Everyone in a Family Entertainment Center facility must maintain at least six feet of physical distance from people outside of their Household at all times.

iv. Family Entertainment Centers must limit the number of people, including Personnel, who are present in the space to ensure that six feet of physical distance can be maintained at all times and must also comply with any maximum limit listed above on the number of people who may be present (including both patrons and Personnel).

v. Everyone in the Family Entertainment Center facility must wear a Face Covering at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, including as that order is amended.

vi. The Family Entertainment Center must have created, posted, and implemented a Social Distancing Protocol and must comply with any and all requirements contained in relevant Health Officer directives, including, without limitation, all enhanced cleaning requirements.

vii. For any activity with rented or shared equipment (like kart racing, skating, batting cages, bowling alleys, escape rooms, etc.), services must be provided in compliance with the requirements for equipment cleaning and disinfection listed in Section (5)b.vi of this Appendix.

viii. [SUSPENDED (amusement park-type rides are not currently allowed) For outdoor amusement park-type rides, consisting of Ferris wheels, carousels, and miniature train rides, the following additional requirements must be met:

a. Screen all customers and other visitors prior to entry to the ride as outlined by the Social Distancing Protocol and its Attachment A-2. Any person who answers “yes” to a screening question must have the ride cancelled or rescheduled. No cancellation or rescheduling fee may be charged in that situation, and the price of any ticket must be refunded if the ride is not rescheduled;

b. Operators must regulate access by patrons to the equipment to ensure physical distancing;

c. Any enclosed passenger capsule or seating area must include only members of the same Household, and ventilation must be maximized;

d. High touch surfaces and equipment must be sanitized in between uses by different Households; and

e. Hand sanitizer must be placed at the entrances and exits to rides.]

At this time many outdoor family entertainment-type activities are allowed under other sections and directives, including zoos, outdoor swimming pools, outdoor tennis and
Order No. C19-07#s – Appendix C-1: Additional Businesses Permitted to Operate

[Revised January 2027, 2021]

pickleball, outdoor golf, outdoor lawn bowling, outdoor museums, and outdoor fitness centers. Individuals and businesses engaging in those activities must review and follow the requirements in those other sections and directives in relation to those activities.

(Added September 14, 2020; Revised September 30, 2020; Revised and subsection suspended November 28, 2020; Suspended December 4, 2020; Reinstated and revised January 27, 2021)

(19) Open-Air Tour Bus Operators—SUSPENDED

a. (Basis for Addition. Personnel and passengers can wear Face Coverings and maintain six feet of physical distance from people in different Households at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And open-air bus tours occur outside, which is safer than indoor interactions, and have additional air-flow from continual movement. Finally, outdoor tour bus excursions of small, socially distanced groups involve only a moderate number of contacts, and health mitigation measures can significantly decrease the transmission risk.

b. Description and Conditions to Operate. Individuals or businesses that offer open-air bus tours (“Open-Air Tour Bus Operators”) may operate, subject to the following limitations and conditions:

i. If the total number of passengers is greater than 12, the Open-Air Tour Bus Operator must assign each passenger to a group of no more than 12 people. Multiple groups of 12 may be on an Open-Air Tour Bus simultaneously, subject to the following requirements:
   - Each group of 12 must be kept at least 12 feet apart from each other;
   - The Open-Air Tour Bus Operator must prohibit mingling among passengers in different groups, and
   - Passengers must have a clear path to the restroom and exit without being required to travel through the space occupied by another group.

ii. All passengers must maintain a physical distance of at least six feet from each other, from the driver, and from Personnel, at all times;

iii. Before boarding, passengers must wait at least six feet apart and must not board the bus until the driver or other Personnel allow boarding;

iv. Bathrooms (if any) must be sanitized frequently following EPA guidelines;

v. Passengers must stay in the open-air portion of the bus except for brief periods, such as to board, disembark and use the bathroom;

vi. Open-Air Tour Bus Operators should ask passengers to voluntarily provide their name and phone number for potential contact tracing purposes—the operator should keep this information on file for at least three weeks;
vii. Open-Air Tour Bus Operators must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order);

viii. Open-Air Tour Bus Operators must ensure daily COVID-19 symptom and exposure screening is completed for all Personnel as required by the Social Distancing Protocol and its Attachment A-1;

ix. Open-Air Tour Bus Operators must Screen all customers and other visitors on the day of the tour as outlined by the Social Distancing Protocol and its Attachment A-2. Any person who answers “yes” to a screening question must not be allowed to board the bus. No cancellation or rescheduling fee may be charged in that situation;

x. All passengers and Personnel must wear a Face Covering at all times while waiting to board, at all times while on board—except when eating or drinking, and at all times when disembarking from the bus, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time;

xi. Passengers from different households should not shake hands, share food or drinks, or engage in any unnecessary physical contact—Personnel must instruct passengers about these requirements;

xii. Open-Air Tour Bus Operators must make hand sanitizer available;

xiii. The bus and all equipment belonging to the Open-Air Tour Bus Operator or otherwise provided by the Open-Air Tour Bus Operator must be thoroughly cleaned and disinfected after each trip with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with CDC guidelines (https://www.cdc.gov/coronavirus/2019-ncov/community/cleaning-disinfecting-decision-tool.html).

(20) **Lodging Facilities for Tourism**

a. **Basis for Addition.** As long as guests refrain from congregating in common areas, and capacity and other health safety mitigation measures are used, lodging facilities involve low contact intensity and a low number of contacts. Personnel and guests can wear Face Coverings whenever they are in common areas and can maintain at least six feet of physical distance except for brief interactions (e.g., while checking in). In indoor common areas, no inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved.
b. Description and Conditions to Operate. Lodging facilities, including hotels, motels, hostels, bed and breakfasts, inns and short-term rentals, may operate, subject to all of the following limitations and conditions:

i. Lodging facilities may offer lodging for essential functions and travel including COVID-19 mitigation and containment measures, treatment measures, accommodation for Essential Workers, or housing solutions, including measures to protect homeless populations. Sports teams operating under an approved plan and film/media crews allowed to operate under this Order are considered essential workers for purposes of this Section.

ii. Except as provided above or otherwise provided by law, lodging facilities cannot accept or honor in-state reservations for individuals traveling from outside of the Bay Area for non-essential travel.

iii.i. Except as provided above or otherwise provided by law, no hotel or lodging entity may accept or honor out of state reservations for non-essential travel, unless: (1) the reservation is for at least 10 days (the minimum time period required for quarantine), and (2) the persons identified in the reservation will quarantine in the hotel or lodging period until after that time period has expired.

iv. Indoor pools, restaurants and cafes, indoor gyms and fitness centers, ballrooms, conference rooms, business centers, lounge areas, and other indoor gathering places must remain closed (outdoor pools and outdoor fitness centers must be operated in compliance with the relevant requirements of this Order and with Health Officer Directives 2020-24 and 2020-27, respectively).

v. Indoor restaurants and cafes within lodging facilities must temporarily remain closed, but food items may continue to be sold for consumption in individuals’ rooms, offsite, or outdoors in compliance with the relevant requirements of this Order and with Health Officer Directives 2020-05 and 2020-16, and any future amendments to those directives; and

vi. The Lodging Facility must have created, posted and implemented a Social Distancing Protocol and must comply with any and all requirements contained in Health Officer Directive No. 2020-29 regarding best practices for lodging facilities, as well as any other relevant Health Officer Directives, including, for example, Directive Nos. 2020-05 (if food is prepared and sold on-site for take-away) and Directive No. 2020-17 (if there is a gift-shop or other retail on-site).

(Added September 14, 2020; Revised September 30, 2020, October 27, 2020, November 16, 2020, December 4, 2020, and December 9, 2020; and January 27, 2021; Non-substantive revisions October 20, 2020 and November 3, 2020; Revised and subsection suspended November 10, 2020)
(21) **Indoor Movie Theaters—SUSPENDED**

(Suspended December 4, 2020)

(22) **Film and Media Productions**

a. **Basis for Addition.** When capacity is limited and health safety mitigation measures are used, film and media productions involve relatively low contact intensity and number of contacts. Restrictions can be placed to ensure that few inherently risky activities (e.g., singing, shouting, etc.) are involved. And when such activities are involved, additional preventive measures—such as physical distancing, improved ventilation, and surveillance testing—can be used to address the resulting risk. Accordingly, the risk of transmission is relatively low as long as adequate precautions are taken.

b. **Description and Conditions to Operate:**

1. **Film and Media Productions covered by the September 21, 2020 “COVID-19 Return To Work Agreement With DGA, IATSE, SAG-AFTRA and Teamsters/Basic Crafts”** (https://www.sagaftra.org/files/sa_documents/ReturnToWorkAgreement_wAMPTP.pdf) (“Return to Work Agreement”) may operate subject to compliance with all of the terms and conditions set forth in that agreement, except that:

   i. The cast, crew, and other Personnel on location is limited to the fewest number of Personnel needed (up to a maximum of 25 people in one location); and

   ii. if the production is complying with the pre-employment testing requirement by using two rapid tests conducted within 48 hours before the start of employment, as provided in Section 2.a.i.(3) of the Return to Work Agreement, the two samples must be collected at different times: one 24-48 hours before the start of employment and one within 24 hours before the start of employment.

2. **Outdoor Film and Media Productions:** Outdoor film and media production that are not covered by the Return to Work Agreement may operate, subject to the following conditions:

   i. The cast, crew, and other Personnel on location is limited to the fewest number of Personnel needed (up to a maximum of 25 people in one location, subject to clause v below);

   ii. The film or media production must ensure COVID-19 symptom and exposure screening is completed for all cast, crew, and other Personnel on each day of the production as outlined by the Social Distancing Protocol and its Attachment A-2.
Any person who answers “yes” to a screening question must not be permitted to enter the location;

iii. Face Coverings must be worn at all times, except (a) as specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time, or (b) while filming outdoors as long as the person remains at least six feet from other talent, crew, and other Personnel, and the public at all times;

iv. Because singing and playing wind or brass instruments can transmit particles farther in the air than breathing or speaking quietly, singing and playing wind or brass instruments is not allowed outdoors unless (a) the individual is at least 12-feet away from crew, cast, and other Personnel, and public and uses a Face Covering for singing or a mask or other fabric over the wind instrument’s bells or openings where air/sound exit, or (b) the individuals is at least 30 feet from all crew, cast, and other Personnel, and the public; and

v. The production must comply with the Social Distancing Requirements set forth in Section 8.0 of this Order.

3. Indoor Film and Media Productions: Indoor film and media production that are not covered by the Return to Work Agreement may operate, subject to the following conditions:

i. The cast, crew, and other Personnel on location is limited to the fewest number of Personnel needed (up to a maximum of 25 people in one location, subject to clause v below);

ii. The film or media production must ensure COVID-19 symptom and exposure screening is completed for all cast, crew, and other Personnel before they enter the location on each day of the production as outlined by the Social Distancing Protocol and its Attachment A-2. Any person who answers “yes” to a screening question must not be permitted to enter the location;

iii. Except as provided below, Face Coverings must be worn by all cast, crew, and other Personnel at all times:

   a) Individuals who are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time are excused from the Face Covering requirement;

   b) Cast members may remove Face Coverings while personal services (e.g., makeup or hair) are being provided and filming if all of the following conditions are met:

      (1) All other crew and Personnel in the room must wear a non-vented N-95 mask to provide maximum protection;
(2) The production must increase ventilation as much as possible, including by implementing at least one of the following ventilation measures:

- All available windows and doors are kept open (Doors and Windows required to be kept closed for fire/life safety purposes are exempt. Make sure open windows do not create falling hazards especially for children.)
- HVAC systems fully operational
- Appropriately sized Portable Air Cleaners

If due to smoke or other conditions the production cannot implement any of those measures for a period of time, face coverings cannot be removed until ventilation measures can be reinstated; and

(3) The production must adhere to the following testing requirements:

- If the shoot is scheduled to last one or two days, the cast member(s) who will be removing their Face Coverings must receive a negative nucleic acid diagnostic test for COVID-19 within 72 hours before the shoot starts.
- If the shoot is scheduled to last between three and seven days, the cast member(s) who will be removing their Face Coverings must receive a (a) negative nucleic acid diagnostic test for COVID-19 within 72 hours before the shoot starts and (b) a negative nucleic acid diagnostic test or rapid test every other day starting on the third day of the production.
- If the shoot is scheduled to last more than seven days, the Production must submit a plan to the Health Officer for pre-approval, as discussed below.
- All testing must be done using tests that are approved by the United States Food and Drug Administration or by the California Department of Public Health.
- All processing of tests must be conducted by a lab that complies with Health Officer Order No. C19-10 (available online at www.sfdph.org/healthorders), including that the lab must meet the requirements to perform testing classified as high complexity under the Clinical Laboratory Improvement Amendments (“CLIA”) of Section 353 of the Public Health Service Act (including but not limited to having a CLIA waiver to perform such tests). Any lab that processes tests must also
submit all results (not just positive results) via the State of California’s California Reportable Disease Information Exchange (“CalREDIE”) system or any replacement to that system adopted by the State of California.

- The production must maintain a log of testing for all cast members who will be removing their Face Coverings, including name, date tested, type of test, and test result. The log must be retained for 12 months and be made available to SFDPH upon request.

v. The production must comply with the Social Distancing Requirements set forth in Section 8.0 of this Order.

vi. Because singing and playing wind or brass instruments can transmit particles farther in the air than breathing or speaking quietly, filming of cast singing or playing a wind or brass instrument is prohibited unless the individual is in an isolation booth or in a separate room and the camera is operated remotely. Sufficient ventilation of the space being used must occur for at least 15 minutes before other Personnel enter the space.

vii. Productions may not have craft service and catering at indoor locations. Productions may provide cast, crew, and other Personnel may with pre-packaged food, which individuals must eat outdoors at least 6 feet from other people. Craft service and catering is allowed outdoors, subject to the following requirements:

   a) Seating in areas designated for eating must be at least 6 feet apart;
   b) No buffets of self-serve food and beverage stations are allowed—only individually boxed meals and snacks may be offered; and
   c) Productions should consider staggering meals to lessen the number of people eating in the same area.

Companies that wish to proceed with productions that deviate from these conditions may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, ventilation, testing, health screening, and other procedures (for example, creating quarantine bubbles) that will be implemented to minimize the risk of transmission among participants. Plans must be submitted to HealthPlan@sfcityatty.org. Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the production may then proceed consistent with the approved plan.

(Added November 3, 2020; Revised December 4, 2020, December 9, 2020, and January 27, 2021)
(23) **Real Estate Showings—SUSPENDED**

- Real estate agents may continue to offer virtual and limited viewings in compliance with the requirements set forth in Section 8.a.x of the Order.

(Suspended December 4, 2020)

(24) **Commercial Parking Garages**

a. **Basis for Addition.** Personnel and customers can wear Face Coverings at all times and can maintain at least six feet of physical distance except for brief interactions (e.g., while transferring keys). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. This section reflects an existing FAQ—added on June 30, 2020—stating that garages were permitted to be open under specific health and safety conditions.

b. **Description and Conditions to Operate.** Parking garages are permitted to operate for parking under the following conditions:

i. Garages must provide Face Coverings (as provided in Health Order No. C19-12d, issued on December 22, 2020, and any future amendment to that order), hand sanitizer or handwashing stations, or both, and disinfectant and related supplies to all Personnel;

ii. Face coverings must be worn by Personnel and customers at all times, except as specifically exempted from the face covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time;

iii. Garages must comply with the Social Distancing Requirements set forth in Section 15.o of the Stay-Safe-at-Home Order and prepare a Social Distancing Protocol as required in Section 5.d of the Order;

iv. Garages should encourage customers to use touchless payment options. When touchless payment is not used, sanitize any pens, counters, trays, or point of sale systems between each use by a customer. Create sufficient space to enable the customer to stand at least six feet away from the cashier while paying, or provide a physical barrier (e.g., Plexiglas of sufficient height and width to prevent transmission of respiratory droplets) between the customer and the cashier;

v. Vehicle windows must be left open to the greatest extent possible—particularly in the moments before and during a transfer; and

vi. Whenever possible, steering wheels should be wiped down before transferring the vehicle from one person to another.
Limited One-on-One Personal Training Inside Gyms and Fitness Centers—SUSPENDED

- One-on-one personal training is not permitted indoors at this time; however, limited one-on-one personal training may occur outdoors in compliance with the requirements for outdoor fitness classes set forth in Section 9 above.

a. Basis for Addition. Exercising indoors in an enclosed space involves multiple risk factors, including the enclosed nature of the space and the increased respiration involved with exercise. When coupled with strong mitigation measures such as strictly limiting the number of people present in a facility, mandatory use of Face Coverings, maintaining physical distancing, requiring at least one ventilation measure and following other protocols, the risks associated with limited one-on-one personal training are manageable. Consistent with Section 5.c of the Order and to the extent possible, personal trainers are urged to provide one-on-one personal training services outdoors to further decrease the risk.

b. Description and Conditions to Operate. Limited one-on-one personal training is allowed indoors subject to the following conditions:

i. Only one trainer and one client may be in a facility at any time (if the client is a parent or guardian of minor children, the person may bring their children with them but not other adults from the same Household; if the person is an adult who needs assistance, the person may bring a caregiver);

ii. In addition to the trainer and client, one additional individual may be present in the facility to monitor compliance with this Order or manage the facility;

iii. Face Coverings must be worn by Personnel and clients at all times, except as specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12d, issued on December 22, 2020, as that order may be amended from time to time;

iv. All participants must maintain at least six feet from each other at all times and at least twelve feet from each other when engaged in aerobic activity;

v. The facility must add all COVID-19 related signage to the establishment as required by Sections 4.g, 4.h, and 4.i(ii) of the Stay-Safer-At-Home Order (templates for the signage are available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19);

vi. The facility must use at least one of the following ventilation strategies: (1) All available windows and doors accessible to fresh outdoor air are kept open (doors and windows required to be kept closed for fire/life safety purposes are exempt; make sure open windows do not create falling hazards especially for children); (2) Fully operational HVAC systems; or (3) Portable Air Cleaners in each room
that are appropriately sized for the room or area they are deployed in (see SFDPH’s Guidance on “Ventilation for Non-Healthcare Organizations During the COVID-19 Pandemic,” available online at https://www.sfcdcp.org/COVID-Ventilation for more information); and

vii. The facility must have created, posted and implemented a Social Distancing Protocol and must comply with any and all requirements contained in Health Officer Directive No. 2020-31, regarding indoor gyms and fitness centers including, without limitation, all enhanced cleaning requirements.

(Added November 28, 2020; Suspended December 4, 2020; Reinstated with non-substantive revisions January 27, 2021)
Order No. C19-07rs – Appendix C-2: Allowed Additional Activities

[Revised January 2027, 2021]

A. General Requirements

The “Additional Activities” listed below may resume, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate guidance by the Health Officer. These activities were selected based on current health-related information, the risk criteria set forth in Section 3 of the Order, and the overall impact that allowing these activities to resume will have on mobility and volume of activity in the County.

On November 19, 2020, the Acting California State Public Health Officer issued an order (the “Limited Stay At Home Order”) requiring that “all gatherings with members of other households and all activities conducted outside the residence, lodging, or temporary accommodation with members of other households— including the gatherings and activities listed below—must cease between 10:00 p.m. and 5:00 a.m., except for those activities associated with the operation, maintenance, or usage of critical infrastructure or as required by law.” The Limited Stay At Home Order is available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/limited-stay-at-home-order.aspx. Until the Limited Stay Safe at Home Order expires or is no longer applicable to San Francisco, all activities that are allowed to resume under this Order must comply with the Limited Stay At Home Order.

The health-related basis for selection of Additional Activities and the specific requirements for risk mitigation are summarized below. The bases for the additions were amended on July 13, 2020, to reflect an updated and refined analysis under the risk criteria set forth in Section 3 of the amended Order.

Activities that are permitted to operate outdoors may, subject to any applicable permit requirements, conduct their operations under a tent, canopy, or other shelter, as long as the shelter complies with: (1) the California Department of Public Health’s November 25, 2020 guidance regarding “Use of Temporary Structures for Outdoor Business Operations” (available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Use-of-Temporary-Structures-for-Outdoor-Business-Operations.aspx); and (2) SFDPH’s guidance on “Safer Ways to Use New Outdoor Shared Spaces for Allowed Activities During COVID-19” (available at https://www.sfdph.org/dph/files/ig/Guidance-Shared-Outdoor-Spaces.pdf).

B. List of Additional Activities

For purposes of the Order, Additional Activities include the following based on the summarized health risk related rationale:

(1) Outdoor Museums, Outdoor Historical Sites, and Outdoor Public Gardens .................................. 2
(2) Outdoor Recreation: Golf and Tennis .......................................................................................... 3
(3) Outdoor Recreation: Dog Parks ................................................................................................. 4
(1) **Outdoor Museums, Outdoor Historical Sites, and Outdoor Public Gardens—SUSPENDED IN PART**

- This section is temporarily suspended with respect to outdoor museums, which are not permitted to operate at this time.

a. **Basis for Addition.** Personnel and visitors can wear Face Coverings and maintain at least six feet of physical distance from people in different Households at all times. And outdoor activities are safer than indoor activities. Finally, the number, frequency and proximity of contacts can be minimized through capacity limitations and the risk of virus transmission can reduced through other health protocols.

a-b. **Description and Conditions.** Outdoor museums, outdoor historical sites, and outdoor public gardens (for example, the Botanical Gardens and Japanese Tea Garden) may operate open to the public—and individuals may leave their residence and travel to visit these locations—subject to the following conditions:

1. Only outdoor spaces may be open to the public, except for restrooms as provided below.

2. Face Coverings must be worn by all staff and visitors, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children), including as that order is amended in the future;

3. Physical distancing of at least six-feet must be maintained at all times other than between members of the same Household;

4. Other than picnic tables, which may be available for use with signs instructing patrons to clean them before and after use, common high-touch equipment and fixtures must be off-limits, with signage and with physical barriers as appropriate;

5. Public restrooms, if any, must
   a. be routinely disinfected frequently throughout the day,
   b. have open doors to prevent touching of door handles or knobs,
   c. have soap and paper towels, and
d. have signs promoting handwashing;

6. The facility must provide for contactless payment systems or, if not feasible, sanitize any payment systems, including touch screens, payment portals, pens, and styluses, after each customer use. Under San Francisco’s Legal Tender Law, customers must be allowed to pay with cash but to further limit person-to-person contact, Personnel should encourage customers to use credit, debit, or gift cards for payment;

7. Signage must be posted at each public entrance to inform all personnel and customers that they must not enter if they are experiencing COVID-19 symptoms (list the symptoms in the San Francisco COVID-19 Health Screening Form for non-personnel (Attachment A-2), maintain a minimum six-foot distance from one another while in the facility or location, wear a Face Covering at all times, and not shake hands or engage in any unnecessary physical contact (sample signs are available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19);

For clarity, this section does not apply to outdoor zoos, which are covered under Section 12 of Appendix C-1.

(Added May 17, 2020; revised June 1, 2020 and November 3, 2020; Non-substantive revisions on July 13, 2020; Revised and suspended in part on December 4, 2020); Reinstated January 27, 2021)

(2) Outdoor Recreation: Golf and Tennis

a. Basis for Addition. Non-contact outdoor sports like tennis and golf involve a low number of contacts and a high proximity of contact, as long as the groups engaged in play together are small, maintain required physical distance, and do not share equipment among different Households. Also, interactions and activities that occur outdoors carry a lower risk of transmission than most indoor interactions and activities. And the risk of transmission can be further mitigated by sanitation and hygiene practices. Finally, because outdoor recreation is already allowed under the Order, resumption of this activity is expected to result in only a relatively modest increase in mobility and may decrease congestion in other outdoor locations like public parks and beaches.

b. Description and Conditions. Individuals may play tennis and golf outdoors, and outdoor tennis and golf facilities/clubs may open, subject to the following conditions:

1. Face Coverings must be worn by all golf and tennis facility/club Personnel, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children), including as that order is amended in the future;

2. All golf and tennis players must wear a Face Covering while in facility/club parking lots, when entering and exiting facilities/clubs, and while waiting to play—Face Coverings may be removed during play if nobody from a different Household is within 30 feet of the player;
3. For golf, a maximum of two people from the same or different households may share a tee time but members of different households may not share a golf cart or any equipment and must maintain at least six feet of physical distance from each other at all times. Tee times must be scheduled 10 minutes or more apart;

4. No more than two people from the same or different Household may play tennis together at any one time (singles only). Doubles tennis may be played between members of up to three different Households. Tennis players from different households may not share equipment and must maintain at least six feet of physical distance from each other at all times; and

5. In accordance with guidance of the California Department of Public Health, doubles pickleball where any players are from different households is not permitted at this time; and

5.6. Before resuming or continuing operations, each golf or tennis facility/club must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with Health Officer Directive No. 2020-15 as that directive has been amended or updated regarding required best practices for tennis and golf.

(Added June 1, 2020; Non-substantive revisions July 13, 2020; Revised September 1, 2020, December 4, 2020, and December 9, 2020, and January 27, 2021)

(3) Outdoor Recreation: Dog Parks

a. Basis for Addition. Although taking a dog to a dog park may involve mixing of households, individuals can wear Face Coverings at all times and maintain at least six feet of physical distance from members of other households except for short interactions. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Also, outdoor activities carry a lower risk of transmission than indoor interactions and activities, and risk of transmission can be reduced through health protocols.

b. Description and Conditions. Individuals may take their dogs to dog parks (both enclosed and unenclosed), and all dog parks may open, subject to the following conditions:

1. Face Coverings must be worn by all people in the dog park, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children), including as that order is amended in the future;

2. The Centers for Disease Control and Prevention (CDC) has advised that “[u]ntil we learn more about how this virus affects animals,” owners should “treat pets as you would other human family members to protect them from a possible infection.” Specifically, the CDC recommends that pet owners: “Do not let pets interact with people or other animals outside the household,” “Walk dogs on a leash, maintaining at least 6 feet (2 meters) from other people and animals,” and “Avoid dog parks or public places where a large number of people and dogs gather.” Accordingly, pet owners are urged to use on-leash dog parks or keep their dogs on a leash, particularly
if the dog is not under voice control—pet owners who choose to let their dogs be off leash in an off-leash dog park should prevent their dog from interacting with other people or animals to the greatest extent feasible;

3. People in the dog park should maintain at least six feet of physical distance from people or animals other than those in their same Household;

4. People must bring their own water for themselves and their pets, and must not use common touch water facilities in the park;

5. People must use their sleeve or a disposable cloth to touch high-touch surfaces like gates;

6. People should bring their own bags for picking up and disposing of pet waste;

7. Signage must be posted at each dog park to inform people that they must: avoid entering the location if they have a cough or fever, maintain a minimum six-foot distance from one another, wear a Face Covering at all times, and not shake hands or engage in any unnecessary physical contact (sample signs are available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19); and

8. People must follow any other rules and regulations adopted by the operator of the dog park.

(Added June 1, 2020; Non-substantive revisions July 13, 2020)

(4) Small Outdoor Gatherings—RESTRICTED

- Except as expressly Basis for Addition. As provided below or elsewhere in this Section 4.f of the Order, gathering with people from other Households is prohibited at all times. Outdoor gatherings away from home with people from the same Household are limited to 12 people total or 6 people if eating or drinking.

a. Two people from among different Households may meet outdoors as long as they are strongly discouraged to help prevent the spread of COVID-19, and larger gatherings pose higher risks. Although small outdoor gatherings involve mixing of Households, individuals can wear Face Coverings at all times, except when eating and drinking, and maintain at least six feet of physical distance and wear face coverings from others outside their Household at all times except when eating or. Inherently risky activities (e.g., singing, shouting, eating, drinking (subject to the limited exceptions in Health Officer Order No. C19-12d), etc.) can be—and are strongly urged to be—minimized to the greatest extent possible. Also, outdoor activities carry a lower risk of transmission than indoor interactions and activities, and risk of transmission can be reduced through health protocols.

b. (Description and Conditions. As further provided in Section 3.a of the Order, all people are strongly encouraged to continue staying safe at home and minimizing unnecessary
interactions with other Households to the maximum extent possible. But individuals may participate in small outdoor gatherings subject to the following conditions:

1. No more than three different Households up to a maximum of 12 people in total between all Households, may participate in any other outdoor gathering under this section, unless all are members of the same Household.

2. Gatherings that involve eating or drinking must be limited to no more than two different Households up to a maximum of six people in total between all Households;

3. Participants outside of the same Household must remain at least six feet apart from each other. Participants must otherwise follow all Social Distancing Requirements (Section 8.0 of the Order), and wear Face Coverings unless eating, drinking, or exempted from wearing a Face Covering under Health Officer Order No. C19-12d (the Face Covering Order); and

For clarity, this section does not allow contact sports to resume among members of different Households except for the low contact recreation activities allowed in Section 6 below. This section does not apply to outdoor religious or political protest gatherings, which are covered by Sections 9 and 10, below. This section does not apply to limit gatherings that are otherwise allowed under the Order or any Health Officer directive providing industry-specific guidance. Indoor social gatherings among different Households are not allowed at this time.

(Added June 11, 2020; Non-substantive revisions July 13, 2020 and September 14, 2020; Revised October 20, 2020; Suspended December 4, 2020; Revised December 9, 2020; Reinstated and revised January 27, 2021)

(5) Libraries for Curbside Pickup and Return

a. Basis for Addition. Personnel and patrons can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., while picking up items). Patrons interact only with a small number of individuals from other Households, and although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate social distancing and decrease the risk of virus transmission. In addition, interactions can occur outdoors, which further decreases risk.

b. Description and Conditions to Operate. Libraries may open for curbside/outside pickup and drop off of items, and approved by the City Administrator. All Personnel and patrons must comply with Social Distancing Requirements—including the requirement to
maintain at least six feet of physical distance—and wear a Face Covering at all times, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children), as that order may be amended from time to time.

(Added July 20, 2020)

(6) **Outdoor Recreation: Other Outdoor Recreation and Athletic Activities**—

**RESTRICTED**

a. **Basis for Addition.** Non-Low-contact recreational and athletic activities such as pickleball, lawn bowling, bocce ball and frisbee have low-to-moderate levels of transmission risk. Participants can wear Face Coverings and maintain at least six feet of physical distance at all times, and outdoor activities are safer than indoor interactions.

b. **Description and Conditions.** Non-Low-contact recreational and athletic activities with members of other Households may occur, subject to the following conditions:

1. Except as expressly provided elsewhere in this Order, no more than two individuals from different Households may engage in these recreational and athletic activities together at any one time;

2. No equipment (except balls, frisbees, or other similar recreational projectiles) may be shared between Households;

3. All recreational and athletic activities with members of another Household—including youth sports or exercise taking place as part of a OST or organized and supervised youth sports program—must occur entirely outdoors;

4. Members of separate Households cannot have contact with each other and must remain at least six feet apart at all times;

5. Pickleball is allowed under this section, provided but limited to singles only—operators of facilities and players must follow the same guidelines that apply to Tennis Facilities under Health Officer Directive No. 2020-15bd; and

6. Face Coverings must be worn at all times, subject to the limited exceptions in Health Officer Order No. C19-12d, issued on December 22, 2020 (e.g., for young children).

A description and non-exhaustive list of low-contact outdoor sports permitted in purple tier is available in the California Department of Public Health’s (CDPH) December 14, 2020 Guidance on “Outdoor and Indoor Youth and Adult Sports,” available at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/outdoor-indoor-recreational-sports.aspx. Sports that are permitted by CDPH only in less restrictive tiers than purple may not be played at this time.

(Added September 1, 2020; Suspended December 4, 2020; Reinstated and revised December 9, 2020; Revised January 27, 2021)
(7) **Outdoor Recreation: Outdoor Swimming Pools**

a. **Basis for Addition.** Outdoor swimming pools have few high-touch surfaces and do not require shared equipment. Risks associated with outdoor swimming pools can be substantially mitigated with limitations to ensure adequate social distancing and limit intermixing between Households.

b. **Description and Conditions.** Beginning at 9:00 a.m. on September 1, 2020, individuals may use outdoor swimming pools, and outdoor swimming pools may open and operate, subject to the following conditions:

1. Lap swimming must be limited to one swimmer per lane, except that members of the same Household may occupy a single lane;
2. Use of shared swimming areas must be limited to no more than two swimmers from different Households per 300 square feet of shared pool space;
3. Except for members of the same Household, swimmers must remain at least six feet apart at all times;
4. Locker rooms must be closed to the public, except for use as a restroom;
5. All gatherings are prohibited outside the pool, such as on pool decks, except (1) as expressly provided in Section 4, above, or Section 9 of Appendix C-1; and (2) members of a Household may observe a child or other person swimming to ensure safety and supervision; and
6. Before resuming operations, each outdoor swimming pool must create, post and implement a Social Distancing Protocol and comply with the relevant provisions of Health Officer Directive No. 2020-24.

(Added September 1, 2020; Non-substantive revisions December 4, 2020)

(8) **Drive-In Gatherings—SUSPENDED IN PART**

a. **Basis for Addition.** Drive-In Gatherings where all individuals remain in vehicles with members of their Household involve low contact intensity and frequency. Also, outdoor activities carry a lower risk of transmission than indoor interactions and activities, and risk of transmission can be reduced through health protocols.

b. **Description and Conditions.** Drive-in gatherings, where participants stay in their vehicles, are permitted subject to the following conditions:

1. All Drive-In Gatherings must be provided entirely outdoors in an area large enough to accommodate all distancing requirements of Directive 2020-28;
2. Each Drive-In Gathering is limited to a maximum of 100 vehicles;
Order No. C19-07rs – Appendix C-2: Allowed Additional Activities

[Revised January 2027, 2021]

3. Participants must remain within the bounds of the four wheels of their vehicle at all times except to use the restroom or during an emergency;

4. Food and beverage concessions remain suspended and are not permitted during Drive-In Gatherings at this time;

5. Live speakers, performers, or presenters remain suspended and are not permitted during Drive-In Gatherings at this time;

6. Face Coverings must be worn at all times a participant is outside the bounds of their vehicle or inside or sitting on the vehicle unless the participant is inside the vehicle and all windows are closed, in accordance with Health Officer Order C19-12d, issued on December 22, 2020, and as it may be amended (the “Face Covering Order”); and

7. Before hosting a Drive-In Gathering, the Host must create, post and implement a Social Distancing Protocol and comply with the relevant provisions of Health Officer Directive No. 2020-28.

(Added September 14, 2020; Suspended December 4, 2020; Reinstated in part and revised January 20, 2021; Revised January 27, 2021)

(9) Religious Activities

a. Basis for Addition. In an effort to balance core First Amendment interests with public health, the Health Officer is creating special provisions for faith-based services and ceremonies. Even with adherence to physical distancing and face covering requirements, bringing members of different households together to engage in in-person religious gatherings carries a higher risk of widespread transmission of COVID-19. Such gatherings may result in increased rates of infection, hospitalization, and death, especially among more vulnerable populations. Therefore, even though in-person religious gatherings are allowed by this provision, with safety limitations, it is strongly recommended that individuals use alternative means to practice their faith for the time being, such as the many online and broadcasting platforms available in the digital age, in place of in-person gatherings.

b. Description and Conditions to Operate.

1. Individual indoor prayer and counseling in houses of worship: Members of the public may enter a house of worship, subject to the following conditions:

   i. Only one individual member of the public may enter the house of worship at a time. If the person is a parent or guardian of minor children, the person may bring their children with them but not other adults from the same household. If the person is an adult who needs assistance, the person may bring a caregiver.

   ii. The member of the public must maintain at least six feet of physical distance from any Personnel present in the facility;
iii. All individuals in the facility must wear a Face Covering, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children);

iv. Doors and windows must be left open to the extent possible, or mechanical ventilation systems must be run, to increase ventilation;

v. The house of worship must establish protocols for frequent cleaning and disinfection of commonly used surfaces and high traffic areas such as lobbies, hallways, and chapels;

vi. Signage must be posted at each public entrance to inform all individuals that they must: avoid entering the house of worship if they have a cough or fever, maintain a minimum six-foot distance from one another while in the facility or location, wear a Face Covering at all times, and not shake hands or engage in any unnecessary physical contact (sample signs are available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19); and

vii. The house of worship must comply with the Social Distancing Requirements set forth in Section 15.k of this Order—and create, post and implement a Social Distancing Protocol (Appendix A of this Order).

2. Outdoor Religious Gatherings and Funerals: Houses of worship and operators of other facilities or groups may hold outdoor gatherings for the practice of religion, including religious services and funerals, subject to the following conditions:

i. No more than 200 individuals may participate in the gathering (subject to Social Distancing Requirements) and simultaneous gatherings in the same location or vicinity are prohibited;

ii. Participants must maintain at least six feet of distance from members of different households;

iii. All participants must wear a face covering, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children); and

iv. No food or beverages may be served or sold;

v. One individual at a time may sing, chant, or shout, provided: (1) the person singing, chanting, or shouting is at least 12-feet from any other person; and (2) the person singing, chanting, or shouting is wearing a Face Covering at all times;

vi. No sharing or common use of objects or equipment is permitted unless those objects or equipment are sanitized with cleaning products effective against COVID-19 in between uses by members of different households;

vii. The gathering must comply with all of the relevant requirements set forth in Health Officer Directive No. 2020-19c regarding outdoor gatherings; and

viii. All participants must comply with any requirements—including permitting requirements and conditions—imposed by applicable public authorities.
3. Gatherings for Indoor Religious Services and Cultural Ceremonies

[Temporarily Suspended on November 28, 2020]

(Added September 14, 2020; Revised September 30, 2020, and December 4, 2020, and January 27, 2021; Non-substantive revisions October 20, 2020; Revised and subsection suspended November 28, 2020)

(10) **Political Activity**

a. **Basis for Addition.** In an effort to balance core First Amendment interests with public health, the Health Officer is creating special provisions for political activities. Even with adherence to physical distancing and face covering requirements, bringing members of different households together to engage in in-person protests carries a higher risk of widespread transmission of COVID-19. Such gatherings may result in increased rates of infection, hospitalization, and death, especially among more vulnerable populations. In particular, activities like chanting, shouting, singing, and group recitation negate the risk-reduction achieved through six feet of physical distancing and face covering. Therefore, even though in-person political protests are allowed by this provision, with safety limitations, it is strongly recommended that individuals use alternative means of expression for the time being, such as the many online and broadcasting platforms available in the digital age, in place of in-person gatherings.

b. **Description and Conditions to Operate.**

1. **Individual indoor political offices:** A single individual may be inside a campaign office or other political office, subject to the following conditions:
   
i. Only one person may be in the office or facility at a time except as outlined in this section b.1.
   
ii. One other individual at a time may temporarily come into the office or facility, such as for a brief meeting or to pick up or drop off materials.
   
iii. All individuals in the facility must wear a Face Covering as required by Health Officer Order No. C19-12d, subject to the limited exceptions in that order;
   
v. Doors and windows must be left open to the extent possible, or mechanical ventilation systems must be run, to increase ventilation;
   
vi. The facility must establish protocols for frequent cleaning and disinfection of commonly used surfaces and high traffic areas such as lobbies, hallways, and offices;
   
   vii. Signage must be posted at each public entrance to inform all individuals that they must: avoid entering the location if they have a cough or fever, maintain
a minimum six-foot distance from one another while in the facility or location, wear a Face Covering at all times, and not shake hands or engage in any unnecessary physical contact (sample signs are available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19); and

vii. The facility or office must comply with the Social Distancing Requirements set forth in Section 15.k of this Order—and create, post and implement a Social Distancing Protocol (Appendix A of this Order).

2. **Political Protest Gatherings:** Facilities and groups may hold outdoor gatherings for in-person political protests, subject to the following conditions, subject to the following conditions:

   i. No more than 200 individuals may participate in the gathering (subject to Social Distancing Requirements) and simultaneous gatherings in the same location or vicinity are prohibited;

   ii. Participants must maintain at least six feet of distance from members of different households;

   iii. All participants must wear a Face Covering, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children); and

   iv. No food or beverages may be served or sold;

   v. One individual at a time may sing, chant, or shout, provided: (1) the person singing, chanting, or shouting is at least 12-feet from any other person; and (2) the person singing, chanting, or shouting is wearing a Face Covering at all times;

   vi. No sharing or common use of objects or equipment is permitted unless those objects or equipment are sanitized with cleaning products effective against COVID-19 in between uses by members of different households;

   vii. The gathering must comply with all of the relevant requirements set forth in Health Officer Directive No. 2020-19c regarding outdoor gatherings; and

   viii. All participants must comply with any requirements—including permitting requirements and conditions—imposed by applicable public authorities.

(Added September 14, 2020; Revised September 30, 2020, and December 4, 2020, and January 27, 2021; Non-substantive revisions October 20, 2020)

(11) **Outdoor Playgrounds**

   a. **Basis for Addition.** Although taking children to a playground may involve mixing of Households, individuals can wear Face Coverings at all times and maintain at least six
feet of physical distance from members of other Households except for short interactions. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Also, outdoor activities carry a lower risk of transmission than indoor interactions and activities, and risk of transmission can be reduced through health protocols.

b. **Description and Conditions.** Outdoor public playgrounds may open subject to the following conditions:

1. **Face Coverings** must be worn by all people in the playground at all times, subject to the limited exceptions in Health Officer Order No. C19-12d (e.g., for young children), including as that order is amended in the future;
2. All people (including children and adults) in the playground must maintain at least six feet of physical distance from people other than those in their same Household;
3. Outdoor public playground operators and all people (including children and adults) in playgrounds must comply with all of the relevant requirements set forth in Health Officer Directive No. 2020-36 regarding outdoor public playgrounds.

(Added September 30, 2020; Revised November 3, 2020; Suspended December 4, 2020; Reinstated and revised December 9, 2020)
