EXECUTIVE SUMMARY

Legislative Objectives

- The proposed resolution would fix prevailing wage rates for employees of businesses having City contracts that (1) perform public works and improvement projects, (2) perform janitorial or window cleaning services, (3) work in public off-street parking lots, garages, or storage facilities for vehicles on property owned or leased by the City, (4) engage in theatrical or technical services related to the presentation of shows on property owned or leased by the City, (5) haul solid waste, (6) perform moving services at facilities owned or leased by the City, and (7) perform exhibit, display or trade show work at special events in the City, (8) work in broadcast services on City property, (9) drive, load, or unload commercial vehicles on City property in connection with shows or special events, (10) perform security guard services, and (11) perform motor bus services.

Key Points

- The proposed resolution would establish the following changes to prevailing wage rates: (1) construction employees would receive wage rates that vary by classification, from no increase to an increase of $4.49 per hour; (2) janitorial employees would receive a wage rate increase depending on classification ranging from $0.32 to $0.50 per hour, and window cleaners would receive a wage rate increase of $0.65 per hour; (3) garage and parking lot employees would receive no wage rate increase; (4) theatrical employees would receive a wage rate increase depending on classification from $1.16 to $2.29 per hour; (5) solid waste haulers would receive a wage rate increase depending on classification ranging from $1.27 to $1.59 per hour; (6) employees performing moving services would receive a wage rate increase depending on classification from $0.75 to $0.76 per hour; (7) employees performing trade show work would receive a wage rate increase depending on classification ranging from $1.10 to $1.21 per hour; (8) broadcast employees would receive a wage rate increase depending on classification from $0.51 to $2.62 per hour, (9) loaders and unloaders would receive a wage rate increase of $1.00 per hour, (10) security guards would receive a wage rate increase of $0.50 per hour, and (11) motor bus drivers would receive no wage rate increase.

Fiscal Impact

- Potential increased costs to the City depend on future City contractor bids and the extent to which City contractors increase the bids submitted to the City to pay for the costs of the increased prevailing wages rates.

Recommendation

- Approval of the proposed resolution is a policy decision for the Board of Supervisors.
MANDATE STATEMENT

Charter Section A7.204 requires contractors that have public works or construction contracts with the City to pay employees the highest general prevailing rate of wages for similar work in private employment. The Charter allows the Board of Supervisors to exempt payment of the prevailing wage for wages paid under public works or construction contracts between the City and non-profit organizations that provide workforce development services.

Administrative Code Sections 6.22(E)(3) and 21C.7(c)(1) require the Board of Supervisors to annually set prevailing wage rates for employees of businesses having City contracts. Table 1 below identifies the (a) specific Administrative Code Sections, (b) the dates each Administrative Code Section was last amended by the Board of Supervisors, and (c) the types of City contracts, leases, and/or operating agreements in which the businesses are required to pay prevailing wages.

BACKGROUND

Businesses that have contracts with the City, lease City property, or have permits for or other access to temporary use of City property must pay prevailing wage rates to employees. “Prevailing wages” are usually based on rates specified in collective bargaining agreements for comparable classifications in the geographic area. Businesses having contracts, leases, or permits with the City must pay the prevailing wage rate, even if the employees of the specific business are not covered by a collective bargaining agreement.
Each year, the Board of Supervisors is required to establish the prevailing wage rates for workers engaged in construction, janitorial, parking, theatrical, motor bus, solid waste hauling, moving, trade show, security guard, broadcast services, and loading unloading and driving commercial vehicles on City property.

To assist the Board of Supervisors in determining the prevailing wage rates, the Civil Service Commission is required to furnish the Board of Supervisors, on or before the first Monday of November of each year, relevant prevailing wage rate data. The Civil Service Commission submitted the report to the Board of Supervisors on November 4, 2019.

Administrative Code Section 6.22(E) states that the Board of Supervisors is not limited to the data submitted by the Civil Service Commission to determine the prevailing wage rates for public works construction, but may consider other information on the subject as the Board of Supervisors deems appropriate. If the Board of Supervisors does not adopt the prevailing wage rates, the wage rates established by the California Department of Industrial Relations for the year will be adopted.

The Civil Service Commission’s relevant prevailing wage rate data provided to the Board of Supervisors is based on a survey by the City’s Office of Labor Standards Enforcement and includes collective bargaining agreements that have recently been negotiated.

**DETAILS OF PROPOSED LEGISLATION**

The proposed resolution would fix prevailing wage rates for employees of private businesses having the following contracts, leases, or operating agreements with the City or perform services on City property:

- Public works and improvement project contracts,
- Janitorial services contracts,
- Public off-street parking lots, garages, or storage facilities for vehicles on property owned or leased by the City,
- Theatrical or technical services related for shows on property owned or leased by the City,
- Hauling of solid waste generated by the City in the course of City operations,
- Moving services under City contracts at facilities owned or leased by the City,
- Exhibit, display or trade work show services at a special event on City-owned property,
- Broadcast services on City property,
- Loading, unloading, and driving of commercial vehicles on City property in connection with shows or special events,
- Security guard services, and
- Motor bus services.

The Administrative Code requires that the Civil Service Commission provide prevailing wage data to the Board of Supervisors that includes both the basic hourly wage rate and the hourly rate of each fringe benefit, including medical and retirement benefits.
• Prevailing wage rates for various crafts and labor classifications under public works projects are established by the California Department of Industrial Relations, usually based on collective bargaining agreements that cover the employees performing the relevant craft or type of work in San Francisco.

• Prevailing wage rates for contracts for other services and classifications covered by the Administrative Code, as recommended by the Civil Service Commission, are based on the collective bargaining agreements that cover work performed in San Francisco between employers and the respective labor unions.

Attachment I to this report provides an alphabetical list of all crafts covered by the City’s prevailing wage rate requirements.

FISCAL IMPACT

Attachment II to this report, prepared by the Budget and Legislative Analyst, summarizes (a) the types of contracts, leases, or operating agreements required to pay prevailing wages, (b) the respective collective bargaining agreements and labor unions, (c) the amount of the hourly wage rate increases in 2020 as compared to 2019, (d) the amount of the hourly fringe benefit rate increases in 2020 as compared to 2019, and (e) the proposed prevailing hourly wage rates.¹

Potential impact on the costs of future contractor bids

Under the proposed resolution, private businesses that have contracts with the City, and perform public works construction, janitorial services, parking, theatrical, moving, solid waste hauling services, trade show work, broadcasting services, loading and unloading, security guard services, and motor bus services in San Francisco, would be required to pay their employees at least the prevailing wage rates as shown in Attachment II of the report. Increases in the prevailing wage rates could result in increased costs of future City contracts. However, any increased contract costs to the City as a result of the proposed prevailing wage rates are dependent on future City contractors’ bids, and the extent to which such higher wage rates result in higher bids submitted by City contractors. Therefore, such potential increased costs to the City cannot be estimated at this time.

RECOMMENDATION

Approval of the proposed resolution is a policy decision for the Board of Supervisors.

¹ The 2019 prevailing wage rates for janitorial services, window cleaning, parking attendants, solid waste hauling, security guard services, and motorbus services included holiday pay as a fringe benefit in the chart. According to Mr. Benjamin Weber, Office of Labor Standards Enforcement, holiday pay has been removed from the 2020 prevailing wage charts because they are difficult to accurately represent as an annualized hourly rate. Holiday pay is still required. As workers may begin or cease employment at different times of the year, they may not be entitled to holiday pay for holidays that landed outside of their period of employment. Workers typically receive regular pay if they do not work on a paid holiday and overtime or double-time pay if they do work on a paid holiday. For consistency purposes, holiday pay has been removed from the 2019 wage rate totals shown in Attachment II.
List of the Crafts Covered by Prevailing Wage Requirements

Asbestos Removal Worker (Laborer)
Asbestos Worker, Heat and Frost Insulator
Boilermaker-Blacksmith
Broadcast Services Workers
Brick Tender
Bricklayer, Blocklayer
Building/Construction Inspector
Carpenter and Related Trades
Carpet, Linoleum
Cement Mason
Dredger (Operating Engineer)

EXECUTIVE SUMMARY

**Legislative Objectives**
- The proposed ordinance amends the Administrative Code to establish Mental Health SF, designed to increase access to mental health and substance use disorder treatment, including psychiatric medications.

**Key Points**
- Mental Health SF would increase access to mental health and substance use disorder services for San Francisco residents 18 years or older who have a diagnosed mental illness or substance use disorder, and are homeless, uninsured, enrolled in Medi-Cal, or released from jail and waiting for enrollment in Med-Cal.
- The proposed ordinance requires new services, including (1) a 24-hour Mental Health Services Center to assess incoming patients’ care needs and provide urgent mental health care; (2) Office of Coordinated Care to maintain an inventory of mental health programs funded by the City and provide case management to individuals accessing services; (3) Crisis Response Street Team to engage persons on the street who are experiencing a mental health or substance use related crisis and connecting them with services; (4) expanding current mental health and substance use disorder service levels offered by the Department of Public Health, including residential treatment centers, secure inpatient hospitalization, and transitional residential treatment beds; and (5) Office of Private Health Insurance Accountability to assist residents in obtaining mental health care through their private insurance policies.
- The proposed ordinance would require an annual Implementation Plan be approved by the Board of Supervisors each year, and establish an Implementation Working Group to develop recommendations on implementation of proposed new and expanded services.

**Fiscal Impact**
- The Department of Public Health’s preliminary estimated costs for Mental Health SF implementation are $8.8 million in one-time costs and from $102 million to $178 million in ongoing costs. Actual costs will depend on program design, service levels, and funding, all of which would be subject to approval by the Board of Supervisors.
- Under the proposed ordinance, the new services would not be required until (1) the City’s total budget has increased by 13 percent from the prior fiscal year; (2) voters approved a new or modified tax sufficient to cover the new service requirements; or (3) the Board of Supervisors appropriates General Fund monies to fund the new service requirements. **The new service requirements would expire on September 1, 2026.**
- The cost of providing the proposed new services would be partially offset through fees and insurance reimbursements. In addition, File 19-0695, currently pending before the Board of Supervisors, would increase the City’s gross receipts tax for to pay for the new service requirements in this proposed ordinance. The new tax would require voter approval.

**Recommendation**
- Approval of the proposed ordinance is a policy matter for the Board of Supervisors.
MANDATE STATEMENT

City Charter Section 2.105 states that all legislative acts shall be by ordinance, approved by a majority of the members of the Board of Supervisors.

BACKGROUND

The 2019 San Francisco Community Health Assessment found that nearly one-quarter of San Francisco’s adult residents reported the need for mental health or substance use services, and 7 percent reported serious psychological distress.1 The Community Health Assessment identifies communities most at risk for mental health or substance use disorders, and the type of mental health or substance use disorders that are most prevalent, but does not estimate the number of San Francisco residents needing mental health or substance use services.

According to the Budget and Legislative Analyst’s 2018 Performance Audit of the San Francisco Department of Public Health Behavioral Health Services, the Department provides mental health and substance use disorder services to more than 30,000 unique San Francisco residents each year at an annual budgeted cost of approximately $370 million. The Department of Public Health’s budgets for FY 2018-19 and FY 2019-20 added funding for additional behavioral health beds and services.

Major findings in the Budget and Legislative Analyst’s 2018 Performance Audit included:

- The need for Intensive Case Management exceeds the available Intensive Case Management Services by 2:1.
- Clients do not consistently access behavioral health services on discharge from psychiatric emergency services.
- Because the Department of Public Health does not consistently track waitlists for behavioral health services, there is limited information on the Department’s capacity across its mental health and substance use services.
- The Department of Public Health has the opportunity to increase the number of substance use treatment clients under the Drug Medi-Cal Organized Delivery System pilot program, which began in July 2017.

The 2018 Performance Audit recommended (1) improvements in transitioning clients from intensive case management to less intensive services; (2) increasing intensive case management staffing; (3) improving procedures to ensure that individuals discharged from psychiatric emergency services receive timely referrals, and that outpatient providers are notified prior to discharge; (4) improving waitlist information collection and reporting, including setting up a centralized waitlist database; and (5) reporting on Medi-Cal eligible clients access to substance use treatment.

---

1 San Francisco Community Health Needs Assessment 2019, prepared by the San Francisco Health Improvement Partnership, which includes representatives from non-profit hospitals and other San Francisco providers. The information reported above is from approximately 2011 through 2016.
The proposed ordinance amends the Administrative Code to establish Mental Health SF, designed to increase access to mental health and substance use disorder treatment, including psychiatric medications.

**New Service Requirements for Vulnerable Populations**

The proposed ordinance would codify requirements to provide access to mental health services for San Francisco residents who are at least 18 years old, have a diagnosed mental illness and/or substance use disorder, and who are experiencing homelessness, are uninsured, enrolled in Medi-Cal or Healthy San Francisco, or are awaiting enrollment in Medi-Cal after being released from jail.

According to the Department of Public Health, the target population of the proposed ordinance is approximately 4,000 people. This initial estimate of 4,000 individuals was identified as current high users of psychiatric emergency services, persons with multiple involuntary holds under Section 5150 of the State’s Welfare and Institutions Code, and persons existing jail who would benefit from accessing mental health and substance use treatment services but are not routinely doing so.

The new service requirements are summarized below.

**Mental Health Services Center**

The proposed ordinance would require the creation a Mental Health Services Center in a building owned or leased by the City and staffed by employees of the Department of Public Health. The Mental Health Services Center would require 24/7 staffing levels sufficient to “minimize” wait times, be able to assess incoming patients’ care needs, prescribe and fill medication, provide urgent mental health care for patients at or near psychiatric crisis, and provide transportation for patients from the General Hospital Psychiatric Emergency Services or and the County jails to the Mental Health Service Center.

**Office of Coordinated Care**

The proposed ordinance would establish the Office of Coordinated Care staffed by City employees. The responsibilities would include: keeping an active inventory of the capacity of all mental health programs operated or funded by the City; providing case management to individuals accessing services, including ongoing assistance with compliance with treatment plans; coordinating with Psychiatric Emergency Services and Jail Health Services; and overseeing data collection and reporting.

**Crisis Response Street Team**

The proposed ordinance would establish a Crisis Outreach Team under the supervision of the Department of Public Health. The Crisis Response Street Team would be responsible for

---

2 Residency is defined in Administrative Code Section 95.2, which states persons who have lived in the City for at least fifteen days and can demonstrate proof of residency via documentation described in Administrative Code Section 95.2(c)(1)(B).
engaging persons on the street who are experiencing a mental health or substance use related crisis and connecting them with services. According to the Department of Public Health, the Crisis Response Street Team would complement the existing Homeless Outreach Team by engaging persons on the street experiencing crisis regardless of whether they are housed and would be available at all times.

**Increasing Capacity for Mental Health and Substance Use Services**

The intent of the proposed ordinance is to ensure accessible, affordable and coordinated treatment to populations described above. To achieve this, the proposed ordinance would require expanding current service levels offered by the Department of Public Health, including: residential treatment centers, secure inpatient hospitalization, transitional and residential treatment beds. Actual service expansions will be based on recommendations from the Implementation Working Group, discussed below.

**Office of Private Health Insurance Accountability**

Under the proposed ordinance, the City would establish the Office of Private Health Insurance Accountability within the Department of Public Health to assist San Francisco residents in obtaining mental health care through their private insurance policies, collect and analyze data on patients’ ability to do so, and advise potential patients regarding existing services provided by the City.

**Implementation Plan**

The proposed ordinance would require the Department of Public Health to develop an annual Implementation Plan beginning on February 1, 2021 detailing the proposed new mental health and substance use services and related housing needs, costs of the proposed new services, methods of funding the proposed new services, and prioritization of the proposed new services to the extent the programs are constrained by available funding. The Implementation Plan would have to be approved by the Board of Supervisors each year.

In addition, the Department of Public Health would submit a report to the Board of Supervisors every six months regarding the operations, program outcomes, spending, and revenues of the proposed Mental Health SF services.

**Implementation Working Group**

The proposed ordinance would also establish an Implementation Working Group to develop recommendations on the implementation of Mental Health SF, including service levels for case management and program expansion, and ongoing effectiveness of the new services described above. The Implementation Working Group will also evaluate staffing levels of City funded mental health and substance use treatment programs and make recommendations on how to achieve appropriate staffing in programs with persistent vacancies as well as increasing permanent supportive housing for patients who are stabilized. Under the proposed ordinance, the Implementation Working Group would provide an annual progress report beginning no later than October 1, 2020 to the Board of Supervisors, Mayor, and Director of Health and make recommendations on the implementation of the proposed new services to those policy makers.
no later than June 1, 2021. Membership of the Implementation Working Group is detailed in Attachment 1. The Implementation Working Group would dissolve on September 1, 2026.

Term of New Service Requirements

Under the proposed ordinance, the new services would not be required until one of the following conditions is met:

1. The City’s total budget has increased by 13 percent from the prior fiscal year, as certified by the Controller
2. Voters approved a new or modified tax sufficient to cover the new service requirements, as certified by the Controller
3. The Board of Supervisors approves an appropriation ordinance with sufficient General Fund monies to fund the new service requirements.

The new service requirements would expire and be deleted from the Administrative Code on September 1, 2026.

FISCAL IMPACT

Potential Program Costs

Table 1 below summarizes the Department of Public Health’s estimated range of potential costs for providing the proposed new services described above; the actual costs will vary greatly depending on program models, service levels and funding. According to Ms. Jenny Louie, Budget Director for the Department of Public Health cost estimates assume a phased in approach for supporting the target population and that individuals will ultimately transition to less intensive services over time.

Source: Department of Public Health

Notes: Administrative Costs refers to estimated costs related to executive staff, rent, facilities, human resources, finance and billing, security, compliance, materials, and program management and supervision. Estimated one-time costs for the Mental Health Services Center are based on preliminary estimates of expanding the existing Behavioral Health Access Center at 1380 Howard Street. Estimated one-time costs for the Crisis Response Street Team are based on estimated new vehicle purchases and information technology purchases to enhance patient
access. Ongoing costs for programs vary primarily based on preliminary estimates for required new staff. Costs in Table 1 do not include permanent supportive housing.

As shown above, the Department of Public Health’s preliminary costs for the proposed new services are approximately $8.8 million in one-time costs and range from $102 million to $178 million in ongoing costs. One-time costs for the Office of Coordinated Care, expanding existing treatment services, and administration of the Mental Health SF program are unknown at this time, as are costs related to the Office of Private Health Insurance Accountability.

Under the proposed ordinance, the actual new services to be offered by Mental Health SF would be subject to annual approval by the Board of Supervisors (see Implementation Plan above). Appropriations to fund the new services are also subject to approval by the Board of Supervisors.

**Cost Cap**

If the annual cost of the required new services in the proposed ordinance exceed $150 million in any given year, the Implementation Working Group would be required to develop recommendations on how to reduce the scope of the required new services so that the annual cost is below this threshold, which would adjusted by the consumer price index annually.

**Revenue Offsets**

The cost of providing the proposed new services would be partially offset through fees and insurance reimbursements. In addition, File 19-0695, currently pending before the Board of Supervisors, would increase the City’s gross receipts tax for to pay for the new service requirements in this proposed ordinance. The new tax would require voter approval.

**Fees**

The proposed ordinance would allow the Director of Health to set a fee schedule for patients to pay for Mental Health SF services. Fees for households without private insurance and with income less than 500 percent the Federal Poverty Level would be based on ability to pay.

**Insurance Reimbursements**

A portion of costs the proposed new services are reimbursable by Medi-Cal and private insurance.

---

3 The 2019 Federal Poverty Level for a family of four is $25,750; 500% of that number is $128,750.
