Even though COVID-19 case rates have come down significantly from their peak in the third surge and more people are vaccinated, there remains a risk that people who you may come into contact with when you are outside your residence may have COVID-19. Most COVID-19 infections are caused by people who have no symptoms of illness. There are many people you may come into contact with in San Francisco who are not yet fully vaccinated. We have also seen surges in other parts of the country and the world, increasingly impacting younger adults.

The opening or expansion of sectors does not necessarily signify that these activities are “safe.” The purpose of the required safety protocols contained in San Francisco’s Stay-Safer-At-Home Order and companion health directives is to make these activities and sectors safer for workers and the public. But reopening and expansion requires that all individuals and businesses use particular care and do their part to make these activities as safe as possible by strictly and consistently wearing face coverings indoors and outdoors in large crowds and following social distancing requirements and all other safety protocols.

Everyone who is eligible, including people at risk for severe illness with COVID-19 – such as unvaccinated older adults and unvaccinated individuals with health risks – and members of their households are urged to get vaccinated as soon as they can if they have not already done so.
1. The Stay-Safer-at-Home Order allows businesses offering Higher Education Programs to operate generally through remote learning and in some instances outdoor in-person instruction in small groups, and in limited circumstances through in-person instruction indoors, all subject to specified health and safety requirements and restrictions. This Directive applies to all public, private non-profit, private for-profit, research-focused, and special mission IHEs and other Higher Education Programs offering adult education, including universities, colleges, vocational training courses, and career pathway educational programs – including, for example, programs offering job skills training and English as a second language classes. This Directive does not apply to K-12 schools or other educational programs for children.

2. Attached as Exhibit A to this Directive is a list of best practices that apply to Higher Education Programs (the “Best Practices”). Each Higher Education Program must comply with all of the relevant requirements listed in the Best Practices.

3. Each Higher Education Program, before it begins to allow Personnel or students onsite, must create, adopt, and implement a written health and safety plan (a “Health and Safety Plan”). The Health and Safety Plan must be substantially in the form attached to this Directive as Exhibit B.

4. Attached as Exhibit C is guidance from the San Francisco Department of Public Health for Higher Education Programs (“Guidance”). The Guidance is also available at www.sfdph.org/directives. Each Higher Education Program must comply with all of the relevant requirements listed in the Guidance.

5. If an aspect, service, or operation of the Higher Education Program is also covered by another Health Officer directive (all of which are available at www.sfdph.org/directives), then the Higher Education Program must comply with all applicable directives, and it must complete all relevant Health and Safety Plan forms.

Each Higher Education Program must (a) make the Health and Safety Plan available to students or Personnel on request, (b) provide a summary of the Health and Safety Plan to all Personnel working on site or otherwise in the City in relation to its operations, and (c) post the Health and Safety Plan at each entrance to any physical business or campus site within the City. Also, each Higher Education Program must provide a copy of the Health and Safety Plan and evidence of its implementation to any authority enforcing this Directive upon demand.

6. Each Higher Education Program subject to this Directive must provide items such as Face Coverings (as provided in Health Officer Order No. C19-12, and any future amendment to that order), hand sanitizer or handwashing stations, or both, and disinfectant and related supplies to any of that Higher Education Program’s on-site Personnel. If any Higher Education Program is unable to provide these required items to on-site Personnel or otherwise fails to comply with required Guidance, then it must cease operating until it can fully comply and demonstrate its strict compliance. Further, as to any non-compliant operation, any such Higher Education Program is subject to immediate closure and the fines and other legal remedies described below, as a violation of the Stay-Safer-At-Home Order.
7. For purposes of this Directive, “Personnel” includes all of the following people who provide goods or services associated with the Higher Education Program in San Francisco: employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the business); vendors who are permitted to sell goods onsite; volunteers; and other individuals who regularly provide services onsite at the request of the Higher Education Program. “Personnel” includes “gig workers” who perform work via the business’s app or other online interface, if any.

8. This Directive may be revised by the Health Officer, through revision of this Directive or another future directive or order, as conditions relating to COVID-19 require, in the discretion of the Health Officer. All Higher Education Programs must stay updated regarding any changes to the Stay-Safer-At-Home Order and this Directive by checking the Department of Public Health website (www.sfdph.org/healthorders; www.sfdph.org/directives) regularly.

9. Higher Education Programs must prepare, post, and implement a Social Distancing Protocol substantially in the form of Appendix A to the Stay-Safer-At-Home Order, as provided under applicable provisions of the Stay-Safer-At-Home Order. The Higher Education Program must follow those Best Practices and update them as necessary for the duration of this Directive, including, without limitation, as this Directive is amended or extended in writing by the Health Officer and consistent with any extension of the Stay-Safer-At-Home Order, any other order that supersedes that order, and any Health Officer order that references this Directive.

10. Each Higher Education Program must cooperate with the San Francisco Department of Public Health (SFDPH) by working and collaborating with SFDPH, and otherwise following the direction of SFDPH, in relation to the Higher Education Program and the subject matter of this Directive. Such cooperation includes, but is not limited to, all of the following:

   a. Immediately (within one hour of learning of the result) reporting any positive or inconclusive test result received by any student, teacher, or other Personnel to SFDPH Schools and Childcare Hub: call 628-217-7499 or email Cases.Schools@sfdph.org (please put “SECURE” in the subject line);

   b. Submitting a “List of Close Contacts of a Positive Covid-19 Case” (available at http://www.sfdph.org/dph/files/ig/TEMPLATE-School-Contact-Tracing.docx) to the SFDPH Schools and Childcare Hub via email (Cases.Schools@sfdph.org) within 24 hours of learning of a positive COVID-19 case;

   c. Promptly taking and responding to telephone calls, emails, and other inquiries and requests by representatives of SFDPH;

   d. Allowing SFDPH personnel on-site without advance notice;

   e. Responding to all SFDPH requests for information in a timely manner;
f. Communicating with Personnel, and students as directed by SFDPH; and

g. Taking immediate action as required by SFDPH in the event of an outbreak or other time-sensitive situation that poses a risk to the health and safety of youth, Personnel, or the community.

This Directive is issued in furtherance of the purposes of the Stay-Safer-At-Home Order. Where a conflict exists between this Directive and any state, local, or federal public health order related to the COVID-19 pandemic, including, without limitation, the Social Distancing Protocol, the most restrictive provision controls. Failure to carry out this Directive is a violation of the Stay-Safer-At-Home Order, constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is a misdemeanor punishable by fine, imprisonment, or both.

Susan Philip, MD, MPH, Date: May 6, 2021
Health Officer of the
City and County of San Francisco
Exhibit A to Health Officer Directive No. 2020-22j (issued 5/6/2021)

Best Practices for Higher Education Programs

In addition to preparing, posting, and implementing the Social Distancing Protocol required by Section 4.d and Appendix A of Health Officer Order No. C19-07 (the “Stay-Safer-At-Home Order”), each Higher Education Program that operates in the City must comply with each requirement listed below and prepare a Health and Safety Plan substantially in the format of Exhibit B, below.

Requirements:

1. **Section 1 – General Requirements for All Higher Education Programs:**

   [These requirements apply to all Higher Education Programs Offering Indoor or Outdoor Instruction]

   1.1. Higher Education Programs must offer distance learning options to the extent reasonably feasible. They must also continue to maximize the number of Personnel who work remotely from their place of residence.

   1.2. Higher Education Programs must strongly encourage students who are able to complete their coursework remotely from their place of residence. For students who live outside the local geographic area and who can otherwise complete their coursework through remote learning, Higher Education Programs must strongly encourage those students not to travel to the San Francisco Bay Area for the purpose of attending the program.

   1.3. Each Higher Education Program that will operate with Personnel or students on a campus or facility within San Francisco must designate at least one COVID-19 staff liaison to be the point of contact for questions from students, Personnel, and the community about the program’s COVID-19 practices and protocols (the “COVID-19 Liaison”). The COVID-19 Liaison will also be responsible for communicating with and the San Francisco Department of Public Health (“SFDPH”) about outbreaks among students or Personnel.

   1.4. Assemble and implement a written, campus-specific COVID-19 prevention plan (“Prevention Plan”). A copy of the Prevention Plan must be made readily available to students, Personnel, and SFDPH, such as by posting a copy on the website for the Higher Education Program or making a hard copy available upon request. The Prevention Plan must:

      1.4.1. Comply with the state’s COVID-19 prevention requirements contained in its Guidance for Institutions of Higher Education, issued on August 7, 2020, as well as any subsequent amendments to that guidance;

      1.4.2. Include protocols for addressing an outbreak among students or Personnel as required by SFDPH guidelines. For more details, see: [http://www.sfcdcp.org/covid19-positive-workplace](http://www.sfcdcp.org/covid19-positive-workplace); and

      1.4.3. A statement of how the Higher Education Program intends to prevent and address violations of COVID-19 safety protocols, including the terms of this Directive, by students and Personnel;
1.4.4. If the Higher Education Program will be providing housing to students, a statement including (1) the number of students expected to live on campus or in other Higher Education Program-controlled housing; and (2) a statement confirming compliance with the provisions of Section 4 of this Directive concerning Higher Education Program-controlled housing.

1.5. If the Higher Education Program resumes operations with Personnel or students on a campus or facility within San Francisco, the Higher Education Program must give written notice and containing the following language to all Personnel and students that will participate in on-campus programming:

The collective effort and sacrifice of San Francisco residents staying at home limited the spread of COVID-19. But community transmission of COVID-19 within San Francisco continues, including transmission by individuals who are infected and contagious, but have no symptoms. Infected persons are contagious 48 hours before developing symptoms (“pre-symptomatic”), and many are contagious without ever developing symptoms (“asymptomatic”). Pre-symptomatic and asymptomatic people are likely unaware that they have COVID-19.

The decision by the Health Officer to allow institutions of higher education and other adult education programs to resume operations does not mean that participating in or attending classes or other programs in-person is free of risk. Participating in in-person instruction could increase your risk of becoming infected with COVID-19.

Each person must determine for themselves if they are willing to take the risk of participating in in-person programs, including whether they need to take additional precautions to protect their own health or the health of others in their household. You should particularly consider the risks to household members who are adults 50 years or older, or anyone who has an underlying medical condition. If you have an underlying medical condition, you may want to discuss these risks with your health care provider.

1.6. All Higher Education Programs must comply with the ventilation protocols at Section 4.i of the Stay-Safer-At-Home Order. Review SFPD’s guidance for improved ventilation available at: https://www.sfcdcp.org/COVID-ventilation.

1.7. Add all COVID-19 related signage to the campus as required by Sections 4.g and 4.h of the Stay-Safer-At-Home Order. The County is making available templates for the signage available online at https://sf.gov/outreach-toolkit-coronavirus-covid-19.

1.8. Higher Education Programs that resume operations with Personnel working in person (e.g., not remotely), including, but not limited to teachers, staff, paraprofessionals, contracted janitorial staff, security, therapists, aides, essential volunteers, interns, and student teachers (“School-Based Personnel”) are strongly recommended, but are not required, to follow current testing guidelines as set forth in the guidance from the San Francisco Department of Public Health for Higher Education Programs attached hereto as Exhibit C.
1.9. Higher Education Programs may permit individual students to use facilities in control of the Higher Education Program if all of the following requirements are met: (1) the student requires access to the facility due to the need for access to specialized equipment or space that is not available outside (such as a music practice room or fine arts studio); (2) only one person is permitted access to the facility at a time, by appointment; (3) a Face Covering must be worn in the facility at all times unless it must be removed to perform a specific task, such as eating, drinking, or playing a wind instrument; (4) the facility is cleaned between each use; (5) where feasible, the facility is aired out between each use, such as by opening windows or doors; and (6) where feasible, use of the facility should be staggered to permit at least one hour between uses. For clarity, specialized indoor facilities may also be used for indoor classes and programs if the Higher Education Program complies with the requirements contained in Section 2 below.

1.10. Develop a plan and implement daily COVID-19 symptom self-verifications for all Personnel reporting to work as required by the Social Distancing Protocol (contained in Health Officer No. C19-07 and any future amendment to that order) (the “Social Distancing Protocol”).

1.11. Establish a plan and implement a daily screening protocol using the standard screening questions attached to the Order as Appendix A and Attachments A-1 and A-2 (the “Screening Handouts”) for all persons arriving at the facility or campus. The plan must include a protocol for screening students, parents/caregivers, Personnel, contractors, vendors, or other members of the public, for symptoms and exposure to COVID-19. A copy of the Screening Handout should be provided to anyone on request, although a poster or other large-format version of the Screening Handouts may be used to review the questions with people verbally. Any person who answers “yes” to any screening question is at risk of having the SARS-CoV-2 virus, must be prohibited from entering the facility or campus, and should be referred for appropriate support as outlined in the Screening Handouts. Students residing in on-campus housing who answer “yes” to any screening question, but who agree in advance and are able to comply the SFDPH quarantine and self-isolation directives may be permitted on campus for the purpose of complying with those directives. Public safety emergency personnel responding to an emergency are exempt from this rule.

1.12. Require all persons on campus to wear Face Coverings as provided in Health Officer Order No. C19-12, and any future amendment to that order (the “Face Covering Order”). Higher Education Programs are responsible for communicating with Personnel and students about Face Covering requirements and enforcing those requirements on campus. Personnel and students who are subject to an exemption from the Face Covering Order may not participate in indoor in-person instruction at this time. Members of vulnerable populations (including unvaccinated persons over age 60 or with chronic medical conditions) are encouraged to carefully consider the risks before determining whether to participate in in-person instruction.

1.13. Prohibit non-essential visitors from entering the campus or using campus resources. To the extent possible, limit the number of vendors on campus and prohibit them from accessing areas frequented by Personnel or students. Tours and open houses must meet CDPH and SFDPH requirements for gatherings. For more information, see https://sfcdc.org/gatheringtips. Do not hold tours and open houses when students are present. Keep a log of all persons present, in case a person at the tour or open house later tests positive for COVID-19. Virtual tours may continue pursuant to the live streaming requirements in the Stay-Safer-at-Home Order
1.14. Personnel and students are strongly urged to follow San Francisco Health Officer advisories regarding self-quarantine after travel outside of California. Higher Education Programs are strongly encouraged to require unvaccinated students to quarantine for 10 days upon return to San Francisco from non-essential travel outside the State. Higher Education Programs are required to accommodate any unvaccinated students who wants to quarantine upon entry or return to San Francisco from non-essential travel outside the State.

1.15. Develop a plan to promote healthy hygiene practices on campus and communicate the plan to Personnel and students. Post signs in visible locations, such as building entrances, restrooms, dining areas, and class rooms that promote protective measures, such as proper hand washing, physical distancing, and Face Coverings.

1.16. Provide Personnel and Students on campus with adequate supplies to support healthy hygiene, including, as necessary, sanitation stations, soap, hand sanitizer, paper towels, tissues, disinfectant wipes, and non-touch/foot pedal trash cans.

1.17. Develop a plan for routine and safe cleaning of spaces controlled by the Higher Education Program, including:

1.17.1. Clean frequently touched surfaces such as door handles, light switches, sink handles, hand railings, tables, and elevator buttons at least once daily, or more frequently if required by industry standards.

1.17.2. Use cleaning products that are approved for use against the virus that causes COVID-19 from the EPA-approved List “N.”

1.17.3. Ensure proper ventilation during cleaning by, for example, opening windows where possible.

1.17.4. Plan cleaning only when occupants are not present and fully air out the space before people return.

1.18. To the extent feasible, prohibit sharing of objects such as lab equipment, computers, and desks.

1.19. If a facility has been shut down for a prolonged period, take all necessary steps to ensure that water systems are safe to use before permitting Personnel and students to return to the facility.

1.20. If drinking fountains or water filling stations are available, they must be cleaned at least once daily. Post signs at refilling stations that encourage users to wash or sanitize their hands after refilling.

1.21. Libraries may reopen under the rules applicable to indoor retail, see Health Officer Directive 2020-17, which can be found here. Higher Education Programs may also permit students to use libraries for studying provided they wear Face Coverings and are able to maintain at least six feet of physical distance from others at all times.

1.22. Higher Education Programs must take all feasible steps to ensure that Personnel and students comply with all applicable Health Officer orders and directives regarding indoor and outdoor gatherings, including gatherings allowed as Additional Activities in
Appendix C-2 of the Stay-Safer-at-Home Order, and any future amendments to the Stay-Safer-at-Home Order. Higher Education Programs must prohibit impermissible gatherings on campus or other property under the control of the Higher Education Program. Higher Education Programs are strongly encouraged to create a plan for addressing student and Personnel misconduct that violates the terms of this Directive or the Health Officer’s Stay-Safer-At-Home Order.

1.23. Cafeterias and other eating establishments on campus must comply with the Health Officer directives applicable to dining as well as any other industry-specific guidelines.

2. **Section 2 – Requirements for Higher Education Programs Offering Indoor, In-Person Instruction**

   [These are additional requirements that apply to Higher Education Programs that offer indoor classes. Higher Education Programs offering indoor athletics must also comply with the requirements of Section 6 below.]

2.1. Higher Education Programs should continue to offer remote and outdoor classes to the greatest extent feasible.

2.2. The maximum capacity for each class or course held indoors is limited to the lesser of: (1) 50% the facility’s maximum occupancy limit or (2) the number of people who can maintain at least six feet of physical distance from each other in the facility at all times. Classes or courses that train students to provide essential functions or services relating to the protection of public health or safety or Essential Governmental Functions (“Core Essential Classes”) are not subject to the 50% occupancy limit, but must ensure all participants can maintain at least six feet of physical distance from each other at all times.

2.3. Higher Education Programs offering indoor instruction involving singing, chanting, or wind instruments of any kind must also comply with the requirements of Section 3.i of the Stay-Safer-at-Home Order and Exhibit C to this Directive. Due to the inherent risk associated with these activities, they may be subject to a lower capacity limit.

2.4. Prior to offering indoor courses or classes, the Higher Education Program must prepare and post a Prevention Plan as required by Section 1.4 above and containing the following additional information:

   2.4.1. An explanation of how the Higher Education Program will enforce physical distancing on participants of any indoor class or program;

   2.4.2. A description of protocols for airing out and cleaning classroom spaces and equipment;

   2.4.3. A completed Facilities Questionnaire regarding cleaning and ventilation protocols. The Facilities Questionnaire can be found at: [https://www.sfdph.org/dph/COVID-19/Schools-Education.asp](https://www.sfdph.org/dph/COVID-19/Schools-Education.asp)

   2.4.4. A statement explaining how the Higher Education Program will be addressing proper cleaning, social distancing, stable cohorting, Face Coverings, health screening, and any additional procedures that will be implemented to minimize the risk of transmission of COVID-19 in the indoor facilities;
2.4.5. A plan for educating students about COVID-19 risks and mitigation strategies; and

2.4.6. A statement from the operator of the Higher Education Program that recognizes the risk inherent in holding indoor classes and will be responsible for taking all necessary precautions to mitigate the risk of transmission to the greatest extent possible.

2.5. A sample, fillable Prevention Plan for Higher Education Programs offering indoor classes and programs will be available at: https://www.sfdph.org/dph/COVID-19/Schools-Education.asp.

2.6. Higher Education Programs must prohibit students and Personnel from congregating before and after the scheduled classes and programs.

2.7. Higher Education Programs that complete the Prevention Plan and posting requirements contained in this Directive may begin operations without pre-approval by SFDPH. Higher Education Programs offering indoor classes or programs remain subject to periodic audit by SFDPH, including onsite inspection and review of health and safety plans. Higher Education Programs must permit SFDPH inspectors access to their facilities in the event an onsite inspection is requested.

2.8. Higher Education Programs must evaluate their Prevention Plan at least monthly to determine whether any updates are required. The Prevention Plan must be kept up-to-date to reflect any changes.

2.9. Higher Education Programs offering indoor classes or programs must evaluate the facility to determine the number of people (including students and instructors) who may safely fit inside at any time while ensuring proper social distancing and other restrictions as required by this Directive and the Stay-Safer-at-Home Order, including the requirement that all students remain at least six-feet from each other at all times.

2.10. Participants, including students and instructors, may temporarily remove their Face Coverings as necessary for a component of and indoor class or course that requires removal as part of the instruction. Participants must replace their Face Covering as soon as possible. Only one participant at a time may remove their Face Covering except as permitted under Section 3.i of the Stay-Safer-at-Home Order for singing, chanting, or use of wind instruments. Details regarding when Face Coverings may be removed for singing, chanting, or use of wind instruments is located in SFDPH’s Guidance, attached as Exhibit C to this Directive.

2.11. All Higher Education Programs offering indoor classes or courses where participants remove their Face Coverings must conspicuously post signage, including at all primary public entrances, indicating which of the following ventilation systems are used at the facility: all available windows and doors are kept open; HVAC systems fully operational; air purifiers with appropriate filters; or none of the above [explain]. The County is making templates for the signage available online at: https://sf.gov/outreach-toolkit-coronavirus-covid-19. The templates may be updated from time to time, and businesses are strongly urged to keep informed of those changes and update their signage accordingly.

2.12. If the indoor Higher Education Program involves the preparation or consumption of food or drink items, the Higher Education Program must also comply with the additional
requirements of Directive 2020-16 (Indoor Dining) and any future amendments to that directive. To clarify, only one participant at a time may remove their Face Covering and participants must maintain at least six feet of distance from others outside their own Household at all times.

2.13. Indoor Higher Education Programs involving education for Personal Services must also comply with the additional requirements of Health Officer Directive 2020-30 (Indoor Personal Services) and any future amendments to that directive, including those provisions regarding the provision of services to persons who must remove their Face Covering.

2.14. Higher Education Programs involving instruction for healthcare or healing arts providers are governed by Health Officer Directive 2020-20 (Ambulatory Care and Healing Arts) and any future amendments to that directive. Where the terms of this Directive conflict with Directive 2020-20, the terms of that directive apply.

3. **Section 3 – Additional Requirements for Higher Education Programs Offering Outdoor, In-Person Instruction:**

[These additional requirements apply to Higher Education Programs that offer outdoor instruction, even if they do not also offer indoor instruction]

3.1. When distance learning is not feasible, Higher Education Programs may offer in-person instruction, including lectures, outdoors in groups of no more than 75 people participating in the class, excluding instructors or other personnel (“Outdoor Instruction”). Where feasible, Outdoor Instruction should be offered rather than indoor classes.

3.2. Only one Outdoor Instruction may be held by a Higher Education Program at the same time unless the Higher Education Program can ensure groups participating in different Outdoor Instructions will remain separate, such as by placing physical barriers between the groups. If multiple Outdoor Instructions are occurring at the same time in the same geographic area, the Higher Education Program must prohibit mingling among participants from different Outdoor Instructions.

3.3. Personnel and students participating in Outdoor Instruction must follow all Social Distancing Requirements.

3.4. Develop a plan and implement COVID-19 symptom self-verifications for all students who will attend Outdoor Instruction. The plan must require students to conduct a self-verification at home each time they will attend Outdoor Instruction. Students must be informed that they may not attend Outdoor Instruction if they feel ill or are experiencing any symptoms of COVID-19.

3.5. Outdoor Instruction participants must not move among simultaneously occurring Outdoor Instruction programs taking place in the same geographic area.

3.6. Students engaging in Outdoor Instruction may remove their Face Coverings. Students engaged in singing, chanting, use of a wind instrument, or aerobic activity must maintain at least six feet of physical distance from each other at all times. Instructors or other Personnel must wear Face Coverings whenever interacting with the public, including when engaged in Outdoor Instruction, but may temporarily remove their Face Coverings as
necessary for a component of a class or course that requires removal as part of the instruction. Personnel must replace their Face Covering as soon as possible.

3.7. Participants in Outdoor Instruction must not gather or mingle before or after the period of the Outdoor Instruction.

3.8. Consistent with the limitations under the State Health Order, the Stay-Safer-at-Home Order, and guidance from SFDPH, Higher Education Programs may, subject to any applicable permit requirements, conduct their programs under a tent, canopy, or other sun or weather shelter, but only as long as no more than one side is closed, allowing sufficient outdoor air movement. Also, the number and composition of barriers used must allow the free flow of air in the breathing zone.

3.9. Higher Education Programs offering Outdoor Instruction involving singing, chanting, or wind instruments of any kind must also comply with the requirements of Section 3.i of the Stay-Safer-at-Home Order and Exhibit C to this Directive.

4. **Section 4 – Additional Requirements for Housing Under the Control of a Higher Education Program**

4.1. Housing controlled by or used for the benefit of students attending a Higher Education Program must prioritize those students and Personnel with limited housing options, including those with difficulty accessing distance learning. Higher Education Programs must require students who are able to complete their coursework remotely from their place of residence not to travel to the San Francisco Bay Area for the sole purpose of living in housing under the control of the Higher Education Program.

4.2. Reserve a supply of available rooms in cases of quarantine and isolation, and provide a contingency plan, such as additional off-campus housing, or hotel rooms, in the event those rooms are exhausted.

4.3. Except for family housing, unvaccinated students must be housed in single rooms (i.e., without a roommate). Students who are fully vaccinated against the virus that causes COVID-19 may be roomed together.

4.4. Non-essential visitors must be prohibited from accessing student housing.

4.5. Higher Education Programs may only open gyms, pools, and other fitness facilities to the extent permitted by the Stay-Safer-at-Home Order and only if the Higher Education Program can otherwise comply with the applicable directives for gyms and pools.

4.6. Higher Education Programs may reopen other indoor shared spaces, such as lounges, for students to use for studying or other similar activities provided Face Coverings are worn and students are able to maintain at least six-feet of distance from those outside their Household at all times.

4.7. Higher Education Programs may open outdoor and indoor entertainment areas, such as game rooms, provided they comply with Section 18 of Appendix C-1 of the Stay-Safer-At-Home Order.
4.8. If the housing contains a shared cooking or kitchen area, apply the SFDPH guidance for congregate housing settings. Where applicable, follow SFDPH guidance for shared laundry facilities.

4.9. Where students must use communal bathrooms, require students to consistently use the same bathroom and shower facilities. Where feasible, add physical barriers, such as plastic, flexible screens, between bathroom sinks. Where sinks are closer than six feet apart, either disable sinks or block off sinks to create more distance between users.

4.10. Prohibit all indoor gatherings of individuals from different household units and prohibit outdoor gatherings except as otherwise permitted under the Stay-Safer-at-Home Order.

5. **Section 5 – Additional Requirements for Transportation Under the Authority of a Higher Education Program:**

5.1. Higher Education Programs that operate or contract to provide transportation for Personnel or students must comply with all industry-specific guidance, including requiring social distancing between individuals and proper use of face coverings.

5.2. Maximize ventilation within vehicles, such as by opening windows during use.

5.3. Clean vehicles daily. Drivers must be provided with disinfectant wipes and disposable gloves to wipe down frequently touched surfaces. Vehicles must be cleaned after transporting any individual who exhibits symptoms of COVID-19.

6. **Section 6 – Additional Requirements for Collegiate Athletics:**

6.1. Collegiate athletics teams that wish to resume practices, games, or tournaments in San Francisco, with or without in-person spectators, must prepare and submit a health and safety plan to healthplan@sfcityatty.org. Pre-approval of the plan is not required for non-spectator collegiate athletics, practices or tournaments, but plans are subject to audit by the San Francisco Department of Public Health, including onsite inspection and review of health and safety plans. Higher Education Programs must permit SFDPH inspectors access to their facilities in the event an onsite inspection is requested. All plans for collegiate athletics must include at least the following information:

6.1.1. A description of cleaning, social distancing, health screening, and other procedures that will be implemented to minimize the risk of COVID-19 transmission;

6.1.2. A completed Facilities Questionnaire for all indoor spaces in San Francisco in which the athletics team(s) will practice or play games. The Facilities Questionnaire can be found here: [https://www.sfdph.org/dph/alerts/covid-guidance/2020-22-Ventilation-Questionnaire-Higher-Education.pdf](https://www.sfdph.org/dph/alerts/covid-guidance/2020-22-Ventilation-Questionnaire-Higher-Education.pdf);

6.1.3. A statement explaining how each athletic team will be addressing stable cohorting;

6.1.4. A plan for interval COVID-19 testing of athletes and any Personnel who will have regular contact with the athletes (e.g., coaches, training staff, team physicians, etc.). Teams that use PCR testing must conduct regular testing at intervals of no less than three times per week. Teams that will rely on antigen testing must include test daily;
6.1.5. A statement of how the Higher Education Program will address COVID-19 outbreaks, including outbreaks that occur outside of San Francisco while the team is traveling for competition;

6.1.6. A plan for educating student athletes and Personnel about COVID-19 mitigation strategies; and

6.1.7. A statement that the operator of the Higher Education Program will be responsible for taking all necessary precautions to mitigate the risk of transmission to the greatest extent possible.

6.2. Collegiate athletics teams that wish to resume games or tournaments in San Francisco, with in-person spectators must follow the rules applicable to live events with audiences contained in Section 27 of Appendix C-1 of the Stay-Safer-at-Home Order.

6.3. Higher Education Programs must also comply with the State’s September 30, 2020 Specific Interim Guidance for Collegiate Athletics, and any future amendments to that guidance. The State’s guidance can be found here. To the extent this Directive conflicts with the State’s guidance, the more restrictive rule applies.
Each Higher Education Program must complete, post onsite, and follow this Health and Safety Plan.

Check off all items below that apply and list other required information.

Facility Address: Email / telephone:

(You may contact the person listed above with any questions or comments about this plan.)

☐ If the facility or campus has been shut down for a prolonged period, take all necessary steps to ensure that water systems are safe before reopening.

☐ Reviewed and implemented applicable guidance regarding ventilation for all indoor areas used by the Higher Education Program.

☐ Added all required signage to entrances and employee break rooms.

☐ Designated a COVID-19 Liaison as required by the Directive.

☐ Prepared and implemented a campus-specific COVID-19 Prevention Plan.

☐ Posted the Prevention Plan and scheduled monthly evaluations of the Prevention Plan.

☐ Developed a plan and implemented daily COVID-19 symptom verifications for all Personnel and students on campus or engaged in in-person instruction.

☐ Developed and implemented a COVID-19 screening procedure for all persons arriving at the facility or campus.

☐ Developed and implemented a plan to promote healthy hygiene practices on campus.

☐ Developed and implemented a plan for routine, safe cleaning of spaces controlled by the Higher Education Program.

☐ Reviewed and implemented all industry-specific guidance in the Directive and, where applicable, other applicable directives concerning transportation, cafeterias, eating establishments, congregate living, gyms, pools, game rooms, libraries, and shared laundry facilities.

Additional Measures

Explain:
Reopening Institutions of Higher Education and Other Adult Education Programs for In-Person Instruction: Guidance for Academic Year 2020-2021

Updated May 3, 2021

The following guidance was developed by the San Francisco Department of Public Health (SFDPH) for local use, and will be posted at sfcdc.org/CovidSchoolsChildcare.

AUDIENCE: Educators, administrators and support staff of Higher Education Programs as well as students, contractors and other personnel at these programs. For this guidance, the term "Higher Education Programs" includes public, private non-profit, private for-profit, research-focused, and special mission institutions of higher education (IHEs) including universities and colleges, adult education programs such as those offering vocational training courses, career pathway educational programs, job skills training or adult English as a Second Language (ESL) classes.

This guidance does not apply to TK-12 schools or other programs for children.

Summary of Revisions Since the 4/14/2021 Version

- Updated student housing guidance:
  - Fully vaccinated students can room with each other
  - Removed restriction against charging higher fees for single occupancy
  - Removed requirement to house vulnerable and/or high risk individuals in single occupancy
  - Removed guidance on surveillance, asymptomatic COVID-19 screening testing protocols for individuals
  - Studying is allowed in libraries
  - Removed 200 person limit on indoor lectures
  - Raised outdoor in person instruction capacity limit from 50 to 75
  - Students participating in outdoor in-person instruction can remove their face coverings. Instructors engaged in outdoor in-person instruction must wear face coverings except when temporary removal is required by instruction.
  - Singing, chanting, wind instruments, aerobic activities while outdoors requires at least 6 feet distancing if face coverings are not worn
  - The use of shared spaces is now permitted as indoor gatherings guidance allows, including indoor studying

PURPOSE: To provide guidance on health and safety practices needed to safely operate in-person, on-site instruction at Higher Education Programs.

BACKGROUND: COVID-19 in young adults may be undetected if symptoms are absent or mild, so this group can be a significant contributor to community transmission, resulting in spread of infection to older adults and other vulnerable groups. Preventing the spread of COVID-19 at higher education programs and promoting safe personal behaviors by all students and staff on- and off-campus is crucial.

This document promotes best practices to prevent the transmission of COVID-19; it supplements, but does not replace, requirements in any Directives or Health Orders.

COVID-19 Information

Our current understanding is that COVID-19 is mostly spread from person-to-person in the air through virus-containing droplets in the breath of someone with COVID-19. These droplets enter the air when a person breathes. Even more droplets can get in the air when infected people talk, sing, cough, or sneeze. People with COVID-19 may have no symptoms and can still be breathing out virus-containing droplets that can infect others. Transmission can occur through:

- Larger droplets. These larger droplets are sometimes called “ballistic droplets” because they travel in straight lines and are pulled down by gravity. People nearby, usually within 6 feet, are infected when they breathe in these droplets or if the droplets land in their eyes, nose, or mouth.
- Smaller droplets or infectious particles. These can float in the air for a period of time and/or travel beyond 6 feet on indoor air currents, especially in enclosed spaces with poor ventilation. People sharing the same space are infected when they breathe in these smaller droplets and particles or the droplets or particles land on their eyes, nose, or mouth – even if they are further than 6 feet away. These droplets are sometimes referred to as “aerosols” or “bioaerosols”.

COVID-19 can also spread if a person touches their eyes, nose or mouth after touching a contaminated surface (also known as a fomite); however, this is less common.

COVID-19 Prevention

- **Wash your hands often with soap and water.** If soap and water are not available, use a hand sanitizer that contains at least 60% ethanol or 70 % isopropanol.
- **Avoid Close Contact.** To the greatest extent, maintain at least six feet of social distancing between yourself and the people who don’t live in your Household.
- **Wear a Face Covering.** Cover your mouth and nose with a Face Covering in public settings and when around people who don’t live in your Household.
- Routinely **clean and disinfect** frequently touched surfaces, at least once daily.
- **Monitor Your Health Daily.** Be alert of symptoms such as fever, cough, shortness of breath, or other symptoms. If you are experiencing any of these symptoms, stay home.

COVID-19 Vaccines

Covid-19 vaccines are one of the most important ways to end the pandemic. Find out more at [sf.gov/covidvax](http://sf.gov/covidvax). All staff in colleges, universities, junior colleges, community colleges, and other postsecondary education facilities who are at risk of occupational exposure to SARS-CoV-2 through their work in any role are eligible as part of the Education and Childcare Settings prioritization tier. Students employed through their Higher Education Program are considered staff.

Flu vaccines

Flu vaccines are critical in the fight against COVID-19 by (1) keeping workers and communities healthy and (2) reducing strain on our healthcare and testing systems that are responding to COVID-19. Those over the age of 6 months are strongly encouraged to get a flu shot. Find out how to get one at [sfcdp.org/flu](http://sfcdp.org/flu)
Indoor Risk

Scientists agree that the risk of transmitting COVID-19 is generally much greater indoors than outdoors. Consider the increased risk to yourself and your community while planning activities and dining. Any increase in the number of people indoors or the length of time spent indoors increases risk. Small rooms, narrow hallways, small elevators, and weak ventilation all increase indoor risk. Each activity that can be done outdoors, remotely, or by teleconference reduces risk. More detail can be found at sfcdc.org/indoorrisk

Applicability

Higher Education Programs must continue to offer distance learning whenever possible. As a rule of thumb, minimize in-person interactions and continue remote or virtual operations as much as possible.

- Offer distance and outdoor learning options to the extent reasonably feasible.
- Require that students who are able to complete their coursework remotely to do so from their place of residence. For students who live outside the local geographic area and who can otherwise complete their coursework through remote learning, Higher Education Programs must not require those students to travel to the San Francisco Bay Area for the purpose of living in housing under the control of the Higher Education Program.
- Students and staff must be permitted to decline indoor, in-person instruction and should be accommodated with distance learning or other options if feasible.

Private Use of Indoor Facilities

When allowed by the Health Order, Higher Education Programs may permit students to privately use indoor facilities under the control of the Higher Education Program if:

- The student requires access to the facility to access to specialized equipment or space that is not available outside or at their home (such as a music practice room or fine arts studio);
- Only one person (including students, faculty, and other personnel) is permitted access to the facility at a time;
- The facility is cleaned between each use;
- The facility is aired out between each use, such as by opening windows or doors, when feasible;
- Use of the facility must be by appointment;
- Use of the facility should be staggered to permit at least one hour between uses when feasible;
- Face coverings are required at all times except when performing a specific task, such as eating, drinking, singing, or playing a wind instrument. See below for additional requirements for classes involving singing, chanting, or playing wind instruments.
Outdoor In-Person Classes

The Health Order may allow outdoor, in-person instruction involving two or more students, faculty or other personnel (see colored box to the right).

Indoor In-Person Classes

When indoor, in-person instruction involving two or more students, faculty or other personnel are allowed by the Health Order, they must meet the following conditions:

- Completion of the Prevention Plan Checklist
- Post a Prevention Plan that includes a description of how the Higher Education Program intends to prevent and address violations of COVID-19 safety protocols by students and Personnel
- Cooperate with periodic audits by SFDPH, including allowing SFDPH inspectors access to their facilities for inspection and review of health and safety plans.

Indoor in-person classes and courses, INCLUDING lectures, are allowed if they:
1. Require the wearing of face coverings. If required by instruction, then ONE participant at a time may temporarily remove face covering; AND
2. Are held in a setting that is limited to the lesser of either 50% of capacity OR the number of people which allows for at least 6 feet distancing between participants.

Indoor in-person classes and courses which train students in one of the two following “Core Essential” subjects require only 6 feet distancing (NOT subject to 50% capacity limitation):

- protection of public health or safety, including clinical services or laboratory science or
- Essential Governmental Functions, such as police academy or emergency management.

3. Indoor classes involving cooking or eating food should follow any additional indoor dining guidance at www.sfcdcp.org/foodfacilities.

4. Indoor classes involving personal services should also follow Personal Services guidance.

Requirements for all Higher Education Programs

Higher Education Programs must:

- Designate at least one COVID-19 staff liaison as the point of contact for questions or concerns around practices, protocols, or potential exposure. This person will also serve as a liaison to SFDPH.
- Establish health and safety protocols to prevent COVID-19 transmission, as required by any SFDPH Health Order allowing schools to reopen.
  - Train staff and students on health and safety practices. Avoid having in-person staff development, meetings, or team-building during the two weeks before in-person instruction begins.
Create a Health and Safety Plan outlining what the Higher Education Program will do to implement the requirements in this guidance and any relevant Health Officer directives or orders. Share this plan with staff, families, students and other members of the Higher Education Program community.

- Higher Education Programs should consider the role of COVID-19 testing in limiting the transmission of COVID-19. Students and staff who have symptoms, or who are non-vaccinated and have been close contacts, must receive testing as soon as possible.
  - See “Surveillance Testing for Staff” for updated guidance.

- Develop an outbreak management plan or Communicable Disease Management Plan, which includes protocols to notify SFDPH of any confirmed COVID-19 cases among students, faculty or staff and assist SFDPH as needed with contact tracing. Such a plan should include a protocol to isolate or quarantine any ill or exposed persons. The SFDPH Education Hub will provide case consultation and guidance in cases of individuals testing positive for COVID-19.

- Establish procedures to record daily schedules and attendance of all personnel and students who are in-person at your Higher Education Program. Retain these records for three weeks, for contact tracing purposes in the event of an outbreak. If your Higher Education Program does not already collect contact information for students, asking students to voluntarily provide their contact information is recommended. Find out more at https://covid19.ca.gov/contact-tracing

- Establish protocols for staff and students with symptoms of COVID-19 and for communication with staff, students and families after COVID-19 exposure or a confirmed COVID-19 case in the Higher Education Program. For more details, see: http://www.sfcdcp.org/covid19-positive-workplace

- Establish a plan to prevent and address violations of COVID-19 safety protocols, including the terms of the Health Officer’s directive, by students and Personnel.

- If the program will be providing housing to students, maintain records concerning the number of students who are or will be living on campus and demonstrating compliance with Section 4 of the Directive 2020-22

- Flush out the stagnant water from the plumbing lines by running water through fixtures to prevent water-borne infections such as Legionnaires’ disease. See details at sfwater.org/flushingguidance.

- Ensure that any organizations affiliated with the Higher Education Program, such as off-campus clubs, fraternities and sororities, also follow these guidelines. Develop systems to enforce and hold affiliated organizations accountable for adhering to this guidance.

Quarantine residents after moving or travel to prevent COVID-19 transmission

Personnel and students are strongly urged to follow San Francisco Health Officer advisories regarding self-quarantine after travel outside of California. Higher Education Programs are strongly encouraged to require unvaccinated students to quarantine for 10 days upon return to San Francisco from non-essential travel outside the State. IHEs are required to accommodate any unvaccinated students who wants to quarantine upon entry or return to San Francisco from non-essential travel outside the State.

- Review additional guidance on quarantine at https://www.sfcdcp.org/I&Q

- Review additional guidance on travel at www.sfcdcp.org/travel.
• Review special considerations for quarantining students in the section below Housing Under Authority of Higher Education Programs.

Strategies to prevent spread of COVID-19 in Higher Education Programs

Screen everyone entering the campus

• Ask all persons entering indoor or outdoor campus properties about symptoms and exposure to COVID-19, including staff, students, parents/caregivers, contractors, visitors, and government officials. Emergency personnel responding to a 9-1-1 call are exempted.
  
  o For details about screening, please visit Asking COVID-19 Screening Questions at Any Business, Organization or Facility (for adults) and https://www.sfcdcp.org/covidschoolschildcare (for students under 18).
  
  o SFDPH does not recommend measuring temperatures of students and staff of Higher Education Programs. Please visit sfcdcp.org/screen for further guidance regarding measuring temperatures.

• Individuals with symptoms or exposure to COVID-19 should not be allowed on campus. Individuals with symptoms should be sent home. (See page 14: “When a staff member or student has symptoms of COVID-19”).

Surveillance Testing for Staff

Higher Education Programs are strongly recommended, but are not required, to follow current testing requirements as set forth in Health Officer Directive No. 2020-33.

All staff working in-person, which may include, instructors, paraprofessionals, contracted janitorial staff, security, therapists, aides, essential volunteers, interns, and student teachers are strongly recommended to be tested for COVID-19 on an ongoing basis as follows:

• Asymptomatic staff at sites offering in-person instruction should be tested for COVID-19 as follows:

<table>
<thead>
<tr>
<th>Yellow/Orange tier</th>
<th>Red/Purple tier</th>
<th>“Deep Purple” tier (Adjusted Case Rate &gt;14)</th>
</tr>
</thead>
<tbody>
<tr>
<td>No testing of asymptomatic staff</td>
<td>All staff every 2 weeks</td>
<td>All staff weekly PCR or twice weekly antigen testing</td>
</tr>
</tbody>
</table>

• The following applies to surveillance testing for asymptomatic staff:
  
  o Staff who have had COVID-19 in the last 90 days, confirmed by a lab test, are exempt from testing.
  
  o At this time, rapid antigen testing is only recommended for twice-weekly screening testing.
  
  o If a person without symptoms has a positive rapid antigen test, the result should be confirmed with a PCR test. If the PCR is negative, the person is considered NOT to have COVID-19. For details, see cdc.gov/coronavirus/2019-ncov/lab/resources/antigen-tests-guidelines.html

• Cal/OSHA requires that staff be tested weekly during an outbreak. Workers who are exposed on the job must also be offered testing. For more information, see www.dir.ca.gov/dosh/coronavirus/COVID19FAQs.html
Staff Considerations

- Maximize the number of personnel who work remotely from their place of residence.
- Protect staff, especially those at higher risk of severe COVID-19 illness. See sfcdcp.org/vulnerable for a list of groups at higher risk for severe COVID-19.
  - Offer options that limit exposure risk to staff who are in groups at higher risk for severe COVID-19 illness (e.g. telework, reassignment, or modified job duties to minimize direct interaction with students and staff).
  - Prioritize portable plexiglass barriers or other partitions for staff who are in groups at higher risk of severe COVID-19 or who must interact directly with large numbers of people.
  - Consider the use of face shields, to be used with face coverings, for staff whose duties make it difficult to maintain 6 feet of distancing, such as clerical staff.

- Monitor staff absenteeism. Plan for staff absences of 10 days due to COVID-19 infection or exposure in the event that community transmission increases. Be prepared to offer distance learning to students whose instructors must stay home due to COVID-19 infection or exposure.

Restrict non-essential visitors

- Limit, to the greatest extent permitted by law, external community members, especially with individuals who are not from the local geographic area, from entering the site and using campus resources, as the number of additional people on-site and/or intermixing with students, faculty, and staff increases the risk of virus transmission.
- Tours and open houses must meet CDPH and SFDPH requirements for gatherings -- see sfcdcp.org/gatheringtips. Do not hold tours and open houses when students are nearby. Keep a log of all persons present, in case a person at the tour or open house later tests positive for COVID-19. Staff should document all visitors to in-person classes who are not regular participants. Such records will assist with contact tracing if there is a positive COVID-19 case.

Keep instructors and students in small, stable cohorts

A cohort is a stable group that has the same people each day, stays together for classes, and avoids mixing with students or staff outside the group. Keeping instructors and students in the same group lowers their exposure risk by decreasing the number of people they come into contact with each day. Smaller class sizes further reduce risk of exposures. In-person instruction should:

- Limit cross-over of students and instructors to the extent possible.
- Prevent groups participating in instruction from interacting with each other, including before and after the session.
  - Groups participating in different instructions must be separated by physical distance and/or physical barriers between groups.
  - Stagger class schedules for arrival/dismissal to prevent mixing of cohorts.
  - Designate specific routes for entry and exit to the campus for each cohort, using as many entrances/exits as feasible.
- Minimize movement of students through indoor hallways.
  - Stagger class change times to minimize the number of students in hallways.
- Consider creating one-way hallways to minimize congestion.
- Place physical guides, such as tape, on floors and sidewalks to mark one-way routes.

**Limit class duration**

- Limit instruction to as short a duration as possible to minimize risks of person-to-person transmission. Limit mixing of cohorts, including their assigned staff.
- Higher Education Programs must prohibit students and Personnel from congregating before and after the scheduled classes and programs.

**Indoor classes and programs are no longer limited in duration and may exceed two hours. Classes should still be kept as short a duration as possible to minimize risk of person-to-person transmission.**

**Require face coverings**

Follow all requirements of the [Face Coverings Order](#), as may be amended.

Students engaging in Outdoor Instruction may remove their Face Coverings. Instructors or other Personnel must wear Face Coverings whenever interacting with the public, including when engaged in Outdoor Instruction, but may temporarily remove their Face Coverings as necessary for a component of a class or course that requires removal as part of the instruction; if this is done, they must replace their Face Covering as soon as possible.

**Physical Spaces**

**Mandatory Signage Requirements**

- Add all COVID-19 related signage as required by Sections 4.g and 4.h of the [Stay-Safer-At-Home Order](#). The Outreach Toolkit for COVID-19 includes required signage about proper hygiene, social distancing, Face Coverings, health screening, the risks of indoor transmission, testing and getting vaccinated for the flu.
- At places where students congregate or wait in line, mark spots on the floor or the walls 6 feet apart to indicate where to stand.
- Occupancy limit signage should be posted outside of any shared indoor spaces, including bathrooms.

**Ventilation**

Good ventilation controls droplets and infectious particles to prevent COVID-19 transmission by:

- Removing air containing droplets and particles from the room,
- Diluting the concentration of droplets and particles by adding fresh, uncontaminated air, and
- Filtering room air, removing droplets and particles from the air.
Ensure that rooms or spaces that are shared with people from different households have good ventilation and that doors and windows are open, if possible.

<table>
<thead>
<tr>
<th>Make Necessary Ventilation Improvements, If Feasible, Including</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ HVAC systems (if one is present)</td>
</tr>
<tr>
<td>□ Ensure HVAC systems are serviced and functioning properly.</td>
</tr>
<tr>
<td>□ Evaluate possibilities for upgrading air filters to the highest efficiency possible.</td>
</tr>
<tr>
<td>□ Increase the percentage of outdoor air through the HVAC system, readjusting or overriding recirculation (“economizer”) dampers.</td>
</tr>
<tr>
<td>□ Disable “demand controls” on ventilation systems so that fans operate continuously, independently of heating or cooling needs.</td>
</tr>
<tr>
<td>□ Evaluate running the building ventilation system even when the building is unoccupied to maximize ventilation. At the minimum, reset timer-operated ventilation systems so that they start operating 1-2 hours before the building opens and 2-3 hours after the building is closed.</td>
</tr>
<tr>
<td>□ Increase natural ventilation by opening windows and doors when environmental conditions and building requirements allow.</td>
</tr>
<tr>
<td>□ Consider installing portable air cleaners (“HEPA filters”).</td>
</tr>
<tr>
<td>□ If the establishment uses pedestal fans or hard mounted fans, adjust the direction of fans to minimize air blowing from one individual’s space to another’s space.</td>
</tr>
</tbody>
</table>

**Instruction Spaces**

**Outdoor instruction is generally safer** than indoor instruction due to increased air flow, increased opportunities for social distancing, and increased dispersal of infectious virus. The following applies to both indoor and outdoor instructional spaces.

- Hold smaller classes in larger spaces.

- Outdoor spaces may be covered with a tent, canopy, or other shelter, as long as the shelter complies with: (1) CDPH’s November 25, 2020 guidance regarding [Use of Temporary Structures for Outdoor Business Operations](#); and (2) SFDPH’s guidance on [Safer Ways to Use New Outdoor Shared Spaces for Allowed Activities During COVID-19](#). Have students sit in the same seats each day if feasible. This will help make contact tracing easier if someone tests positive for COVID-19.

- Consider rearranging indoor furniture, setting partitions between desks, and marking classroom floors, to maintain separation indoors.

- When students must sit less than 6 feet apart, consider use of partitions.

- Snacks/meals should not occur during instruction as they require removal of face coverings. If participants must remove their face covering to taste food or a beverage, as might be required during a culinary class, the removal of face coverings should be as brief as possible, and only by one person at a time.

**Housing under authority of a Higher Education Program**

SFDPH has issued [guidance for congregate housing settings](#) where individuals have their own rooms or living quarters but share bathrooms or cooking areas with others who are not in their household. Student housing,
such as dormitories, is a type of congregate housing. SFDPH has also issued ventilation guidance that should be reviewed by Personnel implementing the campus housing program.

- Campus housing should prioritize those with limited housing options, including those with difficulty accessing virtual learning.
- Except for family housing, unvaccinated students must be housed in single rooms (i.e., without a roommate). Students who are fully vaccinated against the virus that causes COVID-19 may be roomed together.
- Moving and services for moving are considered essential activities and are permitted with usual social distancing, face covering, and hygiene precautions. Stagger move-in times to help decrease crowding during move-ins.
- Review guidance on social gatherings at www.sfcdcp.org/safersocial. Create a plan for preventing and addressing misconduct that violates any of the Health Officer’s COVID-19 Orders or Directives.

Bathrooms

- Minimize the number of residents per bathroom. When shared bathrooms are used, limit occupancy to maintain distancing.

Quarantine or Isolation in Campus Housing

- Higher Education Programs should reserve a supply of available rooms to accommodate any needs for quarantine and isolation. A contingency plan, such as additional off-campus housing, or hotel rooms, should be established in the event those rooms are exhausted.
- Students who are quarantining or isolating should stay in their residence except to seek medical care. They should use a separate bathroom and not go into any public areas, take public transportation or rideshares. The Higher Education Program should plan to have food delivered to these students.

Other shared spaces

- Higher Education Programs may open outdoor and indoor entertainment areas, such as game rooms, provided they comply with Section 18 of Appendix C-1 of the Stay-Safer-At-Home Order.
- Higher Education Programs may reopen other shared spaces, such as lounges, for students to use for studying or other similar activities provided everyone complies with requirements in the Face Coverings Order and students are able to maintain appropriate social distance.
- Use of indoor group study spaces with people from outside one’s household is considered an indoor gathering and must adhere to guidance at www.sfcdcp.org/safersocial.
- Limit occupancy of essential shared spaces, such as bathrooms, elevators, locker rooms, staff rooms and similar shared spaces to allow 6 feet of distancing. Adjacent bathroom stalls may be used. Post signs with occupancy limits.
Hygiene and Cleaning

**Handwashing**

*Frequent handwashing and hand sanitizer use removes COVID-19 germs from people’s hands before they can infect themselves by touching their eyes, nose or mouth.*

- Develop routines and schedules for all staff and students to wash or sanitize their hands at staggered intervals, especially before and after eating, upon entering/re-entering a classroom, and before and after touching shared equipment such as computer keyboards.
- Every classroom/instructional space and common area (staff work rooms, eating areas) should have hand sanitizer or a place to wash hands upon entering.
- Establish procedures to ensure that sinks and handwashing stations do not run out of soap or paper towels, and that hand sanitizer does not run out.
- Post signs encouraging hand hygiene. A hand hygiene sign in multiple languages is available for download at [https://eziz.org/assets/docs/IMM-825.pdf](https://eziz.org/assets/docs/IMM-825.pdf).

**Cleaning**

*Follow CDC guidelines on cleaning facilities.* High-touch surfaces should be cleaned in accordance with industry standards and the Social Distancing Protocol following [EPA guidance on disinfectants approved for use on SARS-CoV-2 (COVID-19) virus.](https://www.epa.gov/coronavirus/disinfectants-approved-use-sars-cov-2-covid-19-virus)

**Specific situations**

**Off-campus in-person activities**

Students at vocational schools, including students training in the counseling and the healing arts, are permitted to provide in-person essential services, such as direct patient care. For example, a nursing student may provide direct patient care in-person at a hospital under appropriate supervision.

**Transportation**

Since vehicles are small, enclosed spaces that do not allow social distancing, they can be settings with higher risk of COVID-19 transmission. Biking and walking are lower risk than shared vehicles.

- If transport vehicles (e.g., buses) are used by the Higher Education Program, drivers should practice all safety actions and protocols such as hand hygiene and face coverings and social distancing.
- Drivers and passengers should wear face coverings in accordance with the Face Covering Order.
- Maximize space between passengers.
- Keep vehicle windows open when weather and safety permit.
- Buses, vans or other vehicles used by the Higher Education Program should be cleaned following the [guidance for transport vehicles.](https://www.epa.gov/coronavirus/disinfectants-approved-use-sars-cov-2-covid-19-virus) Buses should be disinfected after transporting any individual who tests positive for COVID-19.
Libraries

Libraries may reopen if they follow SFDPH guidance for indoor retail posted at sfcdcp.org/businesses. Studying is permitted in libraries if participants wear face coverings and maintain at least six feet physical distancing at all times.

Group Singing/Chorus, Musical Instruments (including woodwind and/or brass)

The following table summarizes health and safety requirements for singing, chanting, shouting, cheering, and performing with wind (woodwind and/or brass) instruments. These requirements apply to band, orchestra, chamber music, theater, drama, chorus, choir, a cappella, and other similar activities.

Table: Health & Safety Guidance for Wind Instruments, Singing, and Related Activities

<table>
<thead>
<tr>
<th>Characteristic</th>
<th>Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Outdoors</td>
</tr>
<tr>
<td>Risk Profile</td>
<td>Lower Risk</td>
</tr>
<tr>
<td>Minimum required physical distancing from other performers</td>
<td>At least 6 feet</td>
</tr>
<tr>
<td>Face coverings and covers for wind instruments*</td>
<td>Required if less than 6 feet apart</td>
</tr>
<tr>
<td>Maximum group size</td>
<td>25 participants</td>
</tr>
<tr>
<td>Audience</td>
<td>Allowed; must use face coverings; stay 12 feet from performers; stay 6 feet apart from other non-household audience members</td>
</tr>
<tr>
<td>Ventilation</td>
<td>Not applicable</td>
</tr>
</tbody>
</table>

*Instrument covers should be made of materials similar to those required for face coverings. Review the Face Coverings Order at sfph.org/healthorders. To cover their nose, individuals performing with wind instruments may wear a face covering with a mouth-slit in addition to, but not in place of, an instrument cover.

Food Service and Dining Halls

Eating together is especially high risk for COVID-19 transmission because people must remove their masks to eat and drink. People often touch their mouths with their hands when eating. In addition, meals are usually considered time for talking together, which further increases risk, especially if people must speak loudly to be heard.
• Review and comply with SFDPH guidance for food facilities, outdoor dining and food delivery.

Collegiate Athletics and Fitness Activities

Exercising is an area of higher risk for transmission due to the potential for close contact and increased breathing. Review and comply with SFDPH guidance and directives for fitness, sports and gatherings.

Collegiate athletics teams that wish to resume practices, games, or tournaments in San Francisco, must prepare and submit a health and safety plan to healthplan@sfcityatty.org. Pre-approval of the plan is not required for collegiate athletics, practices or tournaments, but plans are subject to audit by the San Francisco Department of Public Health, including onsite inspection and review of health and safety plans.

Spectators are allowed at collegiate athletic events. IHEs must follow guidance for indoor/outdoor live event in Section 27 of Appendix C-1 of Health Order C19-07, as may be amended.

Higher Education Programs must permit SFDPH inspectors access to their facilities in the event an onsite inspection is requested. Review and follow Health Officer Directive No. 2020-22.

Student Health Facilities

Providers of ambulatory care services, including counseling and other healing arts should carefully review and follow Health Officer Directive 2020-20 (Ambulatory Care, Counseling, and Healing Arts), to determine how your profession is affected, and what are the required best practices for providing care in-person. Guidance written for the healthcare provider audience is available.

Staff Offices/Break Rooms

Staff often do not view themselves and colleagues as sources of infection, and may forget to take precautions with co-workers, especially during social interactions such as breaks or lunch time, in the copy room, when checking mailboxes, etc. Staff should follow all relevant requirements of the Office Directive.

When a staff member or student has symptoms of COVID-19

• Identify isolation rooms for individuals with symptoms of COVID-19, and refer to the Higher Education Program’s procedures for handling ill persons with symptoms of possible COVID-19.

• Staff who become ill while at a Higher Education Program must notify their supervisor and leave work as soon as feasible. Staff should be encouraged to get tested as soon as possible.

• Students with symptoms must be sent home and encouraged to get tested as soon as possible.

When a staff member or student tests positive for COVID-19

Contact the SFDPH Schools and Childcare Hub as soon as possible.
Call (628) 217-7499 or email Cases.Schools@sfdph.org

• SFDPH will provide consultation and guidance to help Higher Education Programs take initial steps to identify individuals who had close contact with the person with COVID-19. Exposed individuals should be notified, know how to get tested, and understand when they can return to the Higher Education Program, usually 10 days after the exposure.
• Notify all staff, families, and students that an individual in the Higher Education Program has had confirmed COVID-19. Do not disclose the identity of the person, as required by the Americans with Disabilities Act, and the Family Education Rights and Privacy Act.

• SFDPH will help the Higher Education Program determine if the classroom, cohort, or institution needs to be closed. Higher Education Programs with smaller and more contained cohorts are less likely to require institution-wide closure. If there are several cases in multiple cohorts or if a significant portion of students and staff are affected, then institution-wide closure may be required.

• Review the SFDPH guidance document What to do if Someone at the Workplace Has COVID-19.

• Review the SFDPH guidance documents “Isolation and Quarantine Guidance: Guidelines for Home Isolation and Quarantine” and “San Francisco Public Health Emergency Isolation & Quarantine Directives Frequently Asked Questions for the Public” at sfcdc.org/I&Q

• Students and staff cannot return to Higher Education Program until they met the criteria depending on their age group:
  o Students 18 and over: Interim Guidance: Ending Isolation or Returning to Work for Those Who Have Confirmed or Suspected COVID-19.
  o Students under 18: “COVID-19 Health Checks at Programs for Children and Youth”
