We provide job training and skills building, peer counseling, social support, and a meeting space for 12-step and other recovery programs. All of these services are crucial to ensure the LGBT community secures equality for all its members, many of whom face life-threatening issues related to addiction and alcoholism.	rict.
												Funding from the mayors budget will continue support for the CCC's Jobs Training and Skills Building Program, which has provided LGBTQ people who are newly recovering from alcoholis and/or addiction with an opportunity to learn and/or improve critical professional and interpersonal skills.	
												This program was first funded in 2017 and has graduated 180 people since the inception. Developing or reestablishing fundamental employment skills is a valuable component to a person's long-term success in overcoming addiction and alcoholism. Through this program, th CCC supplements existing volunteer cafe training activities with a full-fledged barista training and certification program.	
												One of the biggest challenges for people in early sobriety is simply learning how to live, work and socialize without drugs or alcohol. By providing a safe, supportive, stigma-free environment the CCC offers a unique venue for job skills development for those early in recovery from alcoholism and addiction. Because cafe staff and other volunteers have also been through the early stages of recovery, the people who participate in the training program receive unstructure peer, social support and fellowship.	ent, e

Cobb became the first African American to serve as a principal in the San Francisco Unified School District when he arrived at what was then known as "Emerson School." For 16 years he led this great and inspirational school until he went on to another barrier-breaking position as the first African American Assistant Superintendent in our district. In 1979, in honor of his commitment to this community and the children of San Francisco, the Emerson School was renamed, "Dr. William L. Cobb Elementary School".  In his work here and as Assistant Superintendent, Dr. Cobb worked tirelessly to fight against racial discrimination, segregation and toward the full integration of San Francisco schools. It is in his shadow that we at Cobb work to further his vision of a school and district that provides all students the support and opportunities necessary to learn, grow and thrive in our world and the world to come.  Since 1908 Emerson, then Cobb has served the Western Addition community and beyond. Our current location is nearing its 100th year.  We have been here through a wide range of injustices and challenges, including sanctioned discrimination, removal and internment of the Japanese community during WWII, redlining, redevelopment and a range of school choice initiatives.  Through it all we have been an integral part of the neighborhood and a multi-generational community. Many of our students are the children or grandchildren of former students. 												The FRC Alliance is a network of 40+ family support organizations, including 26 neighborhood and population-based Family Resource Centers. FRC organizations are key to San Francisco's recovery as they provide culturally and linguistically responsive, trauma-informed services for approximately 40,000 parents/caregivers and their children and effectively help families navigate our City's systems and resources. FRCs were on the frontlines of supporting children and families during the pandemic and continue to always have an open door.	
												Many families served by the FRC Alliance face challenges such as systemic racism, poverty, income inequality, immigration, mental health issues, and intergenerational trauma. FRCs also support populations that need specialized services, including families experiencing homelessness, LGBTQ families, families with children with disabilities, young parents, and families with children exposed to violence. \$ 5/18/2023 10:02:44 o	ammie.rayner⊛communityf		Sammie Rayner	sammie.rayner@com	2068493113	S. Mo		San Francisco's only drop-in center open to cis and trans women and gender nonconforming individuals 24/T is in danger of closing due to its inadequate budget that currently only funds one staff member on many shifts. With 2,700 women experiencing homelessness on any given night and over 2,000 visiting the drop-in each year, it is imperative that we not only fill the gap in their budget but further expand this service to meet the unique safety needs of women.	\$2,560,845	An expansion of an existing program or \$2,740,104 initiative	A Woman's Place has been in existence since 1998.	Department of Public	women experience severe physical and sexual abuse at some point in their lives. Women are 106 times more likely to experience sexual assault in coed shelters than in housing, though they do also experience sexual assault in thousing. They are the majority and disproportionately people of color. The average age of death for chronically homeless women is 48 years old compared to 83 years old for housed women.  Despite these heartbreaking statistics, only 10% of women experiencing homelessness in San Francisco can access women-only transitional and permanent housing options, with only one 24/7 drop-in center focused on women. Right now, that drop-in center, A Woman's Place operated by Community Forward SF, is in danger of closing.  Thanks to support from the Board of Supervisors last year. Community Forward SF (CFSF) was able to reopen the women's drop-in center in its old building after being closed through the pandemic. The funding has already impacted over 1,000 women since reopening in November 2022, with new and improved recliner chairs providing a safe space to rest for 32 women every night.  Sadly the building currently housing A Woman's Place (AWP) drop-in has been sold and the lease expires at the end of December. In order to be competitive in the current market and address a major historic budget shortfall, CFSF is in need of additional funding.  Drop-in centers are a critical "front door" to engaging in services. Most clients at AWP drop-in are homeless, suffer from mental illness, and are often victims of violence. AWP provides a safe, trauma-informed and harm-reduction based space to enable clients to participate in programming that supports personal recovery. AWP's programs provide care to single women without children and are open to is and transgender women with special needs due to mental disabilities, sexual or domestic violence, drug and alcohol abuse, and HIV+AIDS-related site women. This budget request is aimed at securing funds, in addition to current funding from CalOES, for an expanded capacity and community reach of the 247 human trafficking hotline, currently in operation as a city-wide service that confidentially and safely connects survivors of human trafficking and their support networks with resources and protections and enables citizens to help by reporting suspected trafficking activities. The additional capacity is needed to support the skilled survivor advocate specialists' service of the hotline's night shift and resource database management. Additional funds are requested to be utilized in a critical marketing campaign reaching out to survivors, at-risk populations (immigrants, foster care children, transitional and homeless youth, middle and hight school students, low income and underserved communities, affected/concerned citizens), service providers and the entire San Francisco community.  Multi-year General Operating grant for programs supporting the majority monolingual, low income, immigrant, TransLatina community in SF through direct services and linkage including: leadership development, workforce training, HIV testing, HIV & PREP education, health education, support groups, cultural gatherings, violence prevention and holistic case management linkage to immigration services, healthcare, gender affirming care, mental health services and housing resources.	\$50,000.0 \$5,999,99 \$78,49	\$0 if funding is initiative not received in FY 23/24 budget Continuing support for a program that \$50,000.00 has expiring funding support a program that has expiring funding An expansion of an existing program or initiative and previously funded by \$78,496 he City. The hotline has established its capacity to serve these populations as a confidential and survivor informed resource, utilizing the compassionate advocacy of highly skilled staff of certified human trafficking case workers, interpretation services in over 240 languages, and referral ability supported by the coordinated efforts of the multi-agency membership of the San Francisco Collaborative Against Human Trafficking. Coupled with this broad network of resources, the requested funding will support the hotline's reach of full capacity to serve those in urgent need for services and protections while also enhancing the city's critical efforts to fight human trafficking and make our community safer. The program will serve San Franciscans who are unstably housed and struggling with addiction. The hotline provides critical services to vulnerable populations at risk of violence and human trafficking such as immigrants, foster care, transitional and homeless youth, middle and high school students, low income and underserved communities, while also availing venues to the entire San Francisco community to support the anti-rafficking efforts by confidentially reporting suspected crime and helping to identify and rescue individuals trapped in slavery. The hotline has established its capacity to serve these populations as a confidential and survivor informed resource, utilizing the compassionate advocacy of highly skilled staff of certified human trafficking case workers, interpretation services in over 240 languages, and referral ability supported by the coordinated efforts of the multi-agency membership of the San Francisco Collaborative Against Human Trafficking. Coupled with this broad network of resources, the requested funding will support the hotline's reach of full capacity to serve those in urgent need for services and protections while also enhancing the city's critical efforts to fight human trafficking and make our community safer.  Our original contract with the HRC was a 4 year general operating grant ending in FY 21.22. Our previous grant manager at HRC left his position in 2021 and has not been replaced. This project which started in 2016 as a partnership with SFDPW and Caltrans was stuck in bureaucratic red tape until 2022 which depleted project funds. Now with all permitting approved, we are in need of funding to complete this project which will construct a vital linkage to the San Bruno Ave business district. Providing access to greenspace for residents, merchants, customers and workers by 2024. Our needs include the completion of accessible DG paving, landscape materials, welcome gates and a highly visible public art piece to draw attention to the mostly hidden entrance.

										International LGBTQ+ Film Festival which will be presented in 2024 and 2025 in San Francisco, including in Districts 1, 2, 8, and 9. Frameline's 47-year history has been committed to serving the broad diversity of the greater LGBTQ+ communities that are often under- or misrepresented in mainstream film. With Frameline's Festival programming, we provide a safer space for our communities to gather, view more accurate reflections of our stories onscreen, and consider issues relevant to our own personal experiences, followed by meaningful discussions with the filmmakers, community leaders, and activists. We also see Frameline programs addressing livability and how American communities are strengthened through their interaction with the arts. These films help counter discrimination and prejudice by also educating heterosexual and cisgendered people, creating new allies, fostering empathy, and expanding the cultural competency of those in queer communities about the complexity of issues faced by LGBTQ+ youth, elders, people of color, transgender and gender nonconforming people. ADDITIONAL BACKGROUND: For nearly 50 years, Frameline has remained the global leader of arts programming in film targeted specifically toward the LGBTQ+ communities. Frameline has maintained this demonstrated history by presenting the world's first, largest, and longest-running international LGBTQ+ film festival. Frameline is proud to have been homegrown right here in San Francisco in 1977, and we are proud that our vibrant history continues to inform our provision of LGBTQ+ film art programming, especially in District 8. For decades, Frameline's arts programming has countered discrimination and prejuctice by educating heterosexual and cisgender people, creating new allies, fostering empathy, and expanding cultural competency about the complexity of issues faced by LGBTQ+ youth, elders, BIPCQ. transgender, and gender nonconforming people. Our programs bring empathy, and expanding cultural competency about the complexity of issues faced by LGBT

Unless it does so, we cannot continue taking the first critical actions required by the Climate Action Plan the City so hopefully introduced in December 2021.  New staff for SFE must be maintained, enabling SFE to identify and access additional funding from state and federal grants, especially to serve communities most affected by and least able to cope with the devastating health and economic effects of climate change. Recent grants to Bayview Hunters Point Community Advocates (for community education around building decarb), and PODER and Emerald Cities (for building decarb pilot projects) are examples of projects that must continue to be enabled. Much more education, from trusted advocates, is necessary around how shifting to clean electric and more efficient systems instead of fossil fuels enhances health and reduces air pollution for everyone. In particular we need to continue to recruit and educate more of those in low-income housing who may be able to participate in pilot electrification projects, making them partners in the work to be done on their homes.  SFE, charged with coordinating the Climate Action Plan, must have sufficient funding for that role if we are to achieve the Climate Action Plan's enhancement of racial and social equity and a just transition: reducing carbon emissions while reducing the generational equity disaster of climate change.

High-Impact Tutoring Initiative to Address COVID Unfinished Learning: In response to the devastating impact of the pandemic on student learning, SF Ed Fund launched a high-impact tutoring initiative in 2021, in collaboration with SFUSD and DCYF. High-impact tutoring is a high dosage tutoring approach, delivered by professional tutors, that is research-backed with curriculum to accelerate learning gains in student literacy and math. To date, we have served over 6000 students, and assessments show that students receiving tutoring are making academic gains of at least 2x the rate of other students, with some sub-groups gaining at almos 3x the rate.  The majority of the initial funding for this initiative was supported by SFUSD through ESSER funding (federal COVID relief funding provided to schools). However, as we face the terminatior of this funding source and SFUSD continues to face a severe budget shortfall, the SF Ed Fund has launched Accelerate Learning SF, a SSM campaign to fund learning acceleration/high-impact tutoring for an additional 5000 students starting in the '23-'24 school year, with a focus on the most under-resourced students in San Francisco. 	HIV/AIDS Providers Network	Lance Toma	lance@sfcommunityh ealth.org	415-577-9779	Budget Justice Coalition	There is significant need for expanded funding for enhanced mental health services to benefit long term survivors (LTS) of HIV especially as 73% of individuals living with HIV are aged 50 years and over. This demographic experiences accelerated aging due to the ravages of HIV on the immune system. Co-morbidities can appear in LTS some tweelve years earlier and at three times the rate seen in their negative counterparts. Their health concerns are exacerbated by the intersectional problems of poverty, depression, the costs of and access to healthcare, and unstable housing. One of the greatest unmet needs for LTS identified in The San Francisco Principles 2020 is mental health care concerns, including but not limited to substance use, complex PTSD, racism, sexism, ageism, homophobia and transphobia. Excelsior Worksl Capacity Building Workforce Development in I	for 11	noelle.horario@excels (530) 933-5324 iorworks.org	Budget Justice Coalition	Request for \$75k in additional funding for the 2023/24 FY that would support capacity building to support our organization through transitions post COVID community response along with a recent leadership change. COVID response funding was much needed but also disruptive to CBOs given the one-time nature of the funding. We were required to scale up quickly and we continue to meet growing needs, but the abrupt cuts in funding this year require us to now focus on capacity and long-term stability to sustain our organization's role in the community to continue providing workforce development services. With our current contract through MOHCD, we are able to surpass our program deliverables to serve over 200 residents in District 11 per year. However, our staff's monthly capacity for intake of about 30 new clients plus followup from previous months is strained regularly with a monthly waitlist of over 30 more clients waiting for services. The recovery after the pandemic is a significant factor for residents seeking to achieve economic security and our center also continues to receive an influx of clients who are new arrivals from Central and South America in need of resource connections. This funding would allow us to expand on the work we are already conducting successfully in the community by allowing us to focus on organizational development to stabilize post-covid response programs, build sustainable fundraising infrastructure, and tend to staff weliness needs.	\$405,000	\$405,000 Expansion		Workforce Development	and their families
