## MEMORANDUM

---

**DATE:** March 1, 2021

**TO:** Office of the Chief Medical Examiner and Sheriff's Department

**FROM:** Supervisor Ahsha Safai

**CC:** Board of Supervisors

**SUBJECT:** Possible Correlation Between Incarceration and 2020 Drug Overdose Victims

---

At the end of 2020, San Francisco recorded 699 Drug Overdose deaths. Nearly 70 percent of the death were caused by the drug, Fentanyl.

In light of this data, my office is officially requesting further data to be gathered on 699 Drug Overdose deaths of 2020. My Office is requesting that the Office of the Medical Examiner work with the Sheriff's Department to provide the following cross data analysis into the names of 699 deceased community members with the Sheriff's booking records for 2019 and 2020. If any individual is found in the Sheriff's booking records, please provide us with the following addition data:

- identify the crime category, they were charged with during the time of booking.
- Create a chart of the 5 top booking categories
- Divide their alleged crime in the terms of: Violent Offenses or Non-violent Offense
- Analysis the time span for which they were booked to the time of their death and if they had multiple booking from 2019 to 2020. (Example Victim 1 was booked to county jail on December 31, 2019. Victim OD on February 14, 2020, Victim 1 died two months after being release from county jail.)
- Analysis the race of victims, age, and zip code of residence
- If known, identify if the person was on parole, probation, or pre-trial.

Supervisor Safai is requesting this analysis by Friday, March 26, 2021. If this timeline is not feasible please email [lauren.l.chung@sfgov.org](mailto:lauren.l.chung@sfgov.org).

Sincerely,

A handwritten signature in black ink, appearing to read 'Ahsha Safai', written in a cursive style.

## CATHERINE STEFANI

March 2, 2021

Dear Mr. Mauroff,

On February 25, 2021, you appeared before the Public Safety and Neighborhood Services Committee to testify about the services your organization, the San Francisco Pretrial Diversion Project, provides to your clients, individuals who have been arrested for a crime and are awaiting trial out of custody.

During your testimony, you stated that the quarterly safety ratings for clients in your program was routinely over 92 percent. That means that, each quarter, fewer than 8 percent of your clients commit a felony or misdemeanor.

I do not have confidence in the method of calculating safety ratings exclusively by quarter, because it presents the possibility that your program's lifetime safety ratings are vastly different.

Further, it appears that the method you use to calculate your safety rating defies the national standards recommended by both the National Adult Protective Services Association and the National Institute of Corrections, which instead recommend the use of lifetime safety ratings.

Last week's hearing was the second time I've asked about your method of tracking safety ratings and your program's outcomes. In May of 2020, when your contract was up for renewal, I asked many of the same questions, and then, as now, I received the same evasive answers. As a result, I voted against extending the City's contract with your program.

I submit this letter of inquiry to ask you, again: What are the lifetime safety and appearance ratings for individuals in your program, calculated according to the National Institute of Corrections guidelines? And for what reason has your organization chosen not to report safety and appearance ratings according to those national guidelines?

Because your organization has been operating in San Francisco for more than four decades, I am confident that this information will be readily available.

Sincerely,

A handwritten signature in blue ink, appearing to read "Catherine Stefani".
