Be it ordained by the People of the City and County of San Francisco:

Section 1. The Police Code is hereby amended by adding Article 55, consisting of Sections 5500-5506, to read as follows:

ARTICLE 55: ACCEPTANCE OF CASH BY BRICK-AND-MORTAR BUSINESSES

SEC. 5500. TITLE.

This Article 55 shall be known and may be cited as the “Legal Rights for Legal Tender Ordinance.”

SEC. 5501. FINDINGS AND PURPOSE.

(a) San Francisco strives to be a welcoming, inclusive place for all City residents. Consistent with this ethos of inclusivity, the City strives to empower all of its residents to participate in San
Francisco’s economic life. A key aspect of participation in economic life in the City, as anywhere, is the ability as a consumer to purchase goods and services.

(b) For many City residents (for example, those who are denied access to credit, or who are unable to obtain bank accounts), the ability to engage in consumer transactions depends on the ability to pay for goods and many services in cash. This is especially true of the very poor.

(c) Millions of Americans do not hold bank accounts, or otherwise fall outside the non-cash financial system. Some stand apart by choice, because they are concerned about privacy and do not want their every financial transaction recorded by banks and credit card companies; physical cash remains the most accessible anonymous medium of exchange in this country. Others may not be well situated to participate in the formal banking system, or may be excluded from that system against their will. In short, denying the ability to use cash as a payment method means excluding too many people.

(d) According to the Federal Deposit Insurance Corporation (FDIC), in 2017, 17% of all African-American households and 14% of all Latino households in the U.S. had no bank account. These numbers may be much higher in San Francisco, where, according to a 2005 study commissioned by the City, as many as 50% of African-American and Latino households were estimated to be unbanked. In this reality, not accepting cash payment is tantamount to systematically excluding segments of the population that are largely low-income people of color. Cashless business models may also have significant detrimental impacts on young people who do not meet age requirements for credit cards, for the elderly (many of whom have not transitioned to credit and digital payment modes at the same rate as younger generations), and for other vulnerable groups (such as homeless and immigrant populations).

(e) The City must remain vigilant in ensuring its economy is inclusionary and accessible to everyone. The purpose of this Article 55 is to ensure that all City residents—including those who lack
access to other forms of payment—are able to participate in the City’s economic life by paying cash for goods and many services.

SEC. 5502. DEFINITIONS.

For purposes of this Article 55, the following definitions apply:

"Brick-and-Mortar Business" means any place of business operating at a fixed, permanent physical premises. Brick-and-Mortar Business does not include any business not operating at a physical premises in San Francisco (one example being a business operating in the City exclusively via the Internet without any physical premises in the City), or any business operating from a vehicle or other mobile space (one example being a food truck), or any business operating from a temporary physical premises (one example being a pop-up).

"Cash" means United States currency, in the form of both paper Federal Reserve Notes and metal coins. Cash does not include currency issued under the authority of any country other than the United States; any paper instrument other than a Federal Reserve Note (including, but not limited to, any check, bond, or promissory note); or any metal coin (including, but not limited to, any gold or silver coin) that is not legal tender in the United States.

"Professional Services" means services that require extended analysis, the exercise of discretion and independent judgment in their performance, and/or the application of an advanced, specialized type of knowledge, expertise, or training customarily acquired either by a prolonged course of study or equivalent experience in the field. Examples of Professional Services include, but are not limited to, services provided by accountants; architects; attorneys; engineers; financial advisers; insurance agents; interior designers; management and other consultants; and software developers.

Notwithstanding the previous sentence, Professional Services does not include services provided by licensed medical and allied health care professionals, such as, but not limited to, doctors, dentists, and...
nurses. But licensure by the State or City does not in itself mean that an individual provides Professional Services; for example, a cosmetologist is not considered to provide Professional Services as defined. Trade or craft work, such as, but not limited to, shoe repair, tailoring of clothes, and dry cleaning, are not considered Professional Services for purposes of this Article 55.

"San Francisco County Sealer" or "Sealer" means the position identified in Administrative Code § 2A.221 as the County Agricultural Commissioner-Sealer of Weights and Measures, and includes the Sealer’s employees as assigned or other designees of the Sealer.
