SEC. 66.1. HISTORY AND PURPOSE.

(a) The purpose of this Chapter 66 is to authorize and implement a Seismic Safety Retrofit and Affordable Housing Loan Program ("Program" as defined below) for the City and County of San Francisco ("City" as defined below).

(b) On November 3, 1992, the City's voters approved Proposition A, a ballot measure authorizing the issuance of up to $350 million of general obligation bonds to establish a Seismic Safety Loan Program ("SSLP") to provide loans for the seismic strengthening of unreinforced masonry...
buildings ("Proposition A"); as of 2016, less than $100 million of such issuance authority had been utilized. On November 8, 2016, voters approved Proposition C, a ballot measure expanding the permitted uses for which SSLP funds could be loaned ("Proposition C"). Among other changes, Proposition C authorized loans to "finance the costs to acquire, improve, and rehabilitate and to convert at-risk multi-unit residential buildings to permanent affordable housing."

(c) Consequently, the purpose of this Chapter 66 is to authorize and implement the program created by Proposition A, as amended by Proposition C, by describing the conditions under which the City may lend general obligation bond proceeds to building owners to finance the seismic retrofit of unreinforced masonry buildings, or to finance the acquisition, improvement and/or rehabilitation of "at risk" multi-unit residential buildings, subject to the conditions and provisions herein. The City’s Board of Supervisors (the “Board”) intends that the Program be used to protect buildings that are at-risk due to their physical condition and need for seismic and other life safety improvements, or for which there is a risk of loss of affordability or a risk of loss of the opportunity to create permanent housing affordability, due to vacancy decontrol or market speculation. The Board further intends that Program funds, particularly those funds used to make Below Market Rate Loans (as defined below), be prioritized for use in supporting the conversion of residential buildings to permanent rent-restricted affordable housing.

(d) In addition to the requirements of this Chapter 66, the Program shall be subject to all federal, state and local laws applicable to the issuance of bonds related to the Program, the making of loans, specific seismic retrofit standards, fire, health and safety upgrades and any other applicable requirements.

—(1) Deed of Trust. As security for Borrower’s obligations in connection with the Seismic Safety Loan, the Borrower shall execute and deliver a deed of trust and assignment of rents ("Deed of Trust") on the Property in favor of the City. As a condition to the close of the Seismic Safety Loan, the City shall record the Deed of Trust against the Property, subject only to those liens and encumbrances approved in writing by the City.

—(2) Additional Collateral. In the event an Applicant meets the other lending criteria specified in Section 66A.4(2), above, but does not meet the Loan to Value Ratio or Debt Service Coverage Ratio requirements set forth in Section 66A.4(1), above, the Loan Committee may choose to accept any of the following collateral, in addition to the Deed of Trust:

—(a) Personal Guaranty. In cases where (i) the Applicant is an organization exempt from taxation under the Internal Revenue Code of the United States and the Revenue and Taxation Code of the State of California as a bona fide fraternal, charitable, benevolent, religious or other nonprofit organization; and (ii) the Property does not meet the underwriting criteria set forth in Section 66A.4(1), above, then the Loan Committee may choose to accept, in addition to the Deed of Trust, a personal, corporate or other guaranty issued for the benefit of the City from an individual or entity unrelated to the Applicant ("Guaranty") to guaranty the Borrower’s obligations in connection with the Seismic Safety Loan. The Guaranty shall be in form and substance satisfactory to the Loan Committee. The Loan Committee may request any information required to support the creditworthiness of the individual or party proposing to issue the Guaranty.

—(b) Additional Real Property Security. The Loan Committee may accept additional real property security to be subject to a lien of a Deed of Trust. Such real property must be located within the nine-county San Francisco Bay Area. The Loan to Value Ratio of such additional real property shall not exceed 75 percent.

SEC. 66A.7. SUBORDINATION OF LIENS SECURING SEISMIC SAFETY LOANS.
—(1) The City shall negotiate with other existing and proposed lien holders and other holders of obligations secured by the Property in order to gain a superior position for the lien of the Deed of Trust and the Regulatory Agreement, if applicable.

—(2) The City may, in its discretion, agree to subordinate the lien of the Deed of Trust to subsequent lenders providing financing for the rehabilitation of the Property, so long as the Property continues to meet the underwriting criteria set forth in Section 66A.4(1), above.

**SEC. 66A.8. PERMISSIBLE LOAN AMOUNTS.**

—(1) Determination. The City’s Department of Building Inspection and such other City departments as determined by the Program Administrator and the Loan Committee shall work with the Program Administrator to determine permissible cost ranges for seismic rehabilitation activities and, from that information, proposed maximum loan amounts for individual Seismic Safety Loans, based on the type of building and the work necessary to complete the Seismic Strengthening. The Program Administrator shall periodically review and, as necessary, amend these amounts during the Program.

—(2) Retrofit Standards Used to Determine Permissible Amounts.

—(a) Seismic Safety Loans may be used to finance the minimum level of Seismic Strengthening work required by Chapters 14 and 15 of the Building Code, subject to Subsections (b) and (c), below.

—(b) In the event a Property would qualify for Bolts Plus but the Applicant elects to comply with the Special Procedure, the amount of the Seismic Safety Loan shall be calculated based upon the sum necessary to comply with the Special Procedure.

—(c) In the event a Property would qualify for the General Procedure, and the Applicant demonstrates that the cost of complying with Section 104(f) would be less than or equal to the cost of complying with the General Procedure, the amount of the Seismic Safety Loan shall be calculated based upon the sum necessary to comply with Section 104(f).
—(3) Proposed Loans in Excess of Permissible Amounts. The Loan Committee may, in its discretion, approve Seismic Safety Loans in excess of the amounts determined in Section 66A.8(1), above, after receiving special review and approval by the Loan Committee.

SEC. 66A.9. ELIGIBLE USES OF LOAN PROCEEDS.

—(1) Seismic Rehabilitation Costs. The principal amount of any Seismic Safety Loan may be used to pay the following costs, provided such costs are necessary for seismic safety reasons or legally required for completion of Seismic Strengthening or occupancy of a UMB:

—(a) Seismic Strengthening of UMBs;

—(b) Soft costs directly associated with the Seismic Strengthening, including but not limited to architectural fees, engineering fees, development of tenant protection plans, loan packaging fees, permit fees and escrow and closing fees and costs;

—(c) Replacement and/or restoration of finishes disturbed during performance of the Seismic Strengthening to their condition existing as of the date of commencement of the Seismic Strengthening;

—(d) Remediation or reduction of toxic materials disturbed during Seismic Strengthening in accordance with applicable federal, State or local laws; and

—(e) Residential tenant relocation costs, as required by applicable laws.

—(2) Life/Safety Code Compliance and Disability Access. Up to 25 percent of the seismic construction hard costs portion of any Seismic Safety Loan may be used, to the extent legally required for completion of the Seismic Strengthening of or to permit occupancy of a Property, to pay costs of improvements to the Property to protect the life or safety of or to provide legally required disability access for occupants of the Property. In the event the Loan Committee determines that greater than 25 percent of the amount of a Seismic Safety Loan is generally requested to complete the work described in this Section 66A.9(2), the Loan Committee may recommend to the Board of Supervisors that this Section be amended to increase the 25 percent cap.
SEC. 66A.10. BIDDING REQUIREMENTS; MINORITY/WOMEN BUSINESS ENTERPRISES.

—(1) Prior to applying for a Seismic Safety Loan, each Applicant shall obtain a minimum of three qualified bids for performance of the work to be financed by a Seismic Safety Loan. All three bids must be included with an application. At least one of those bids shall be from a contractor and/or engineer, whichever type of professional with whom the Applicant intends to enter into a contract for performance of Seismic Strengthening, which has been certified by the City's Human Rights Commission, pursuant to Administrative Code Section 12D.A.6(B)(1), as an MBE or WBE as defined in Administrative Code Section 12D.A. In cases where a Borrower wishes to enter into a negotiated bid with a contractor, the Borrower must demonstrate to the Program Administrator that a good faith effort was made to notify MBE and WBE contractors of the work to be performed. The Program Administrator shall make available to Applicants a list of certified MBEs and WBEs from which such bids may be solicited. In no event shall the Applicant be required to pay any bid preparation fee to the MBE or WBE.

—(2) It is the goal of the Board of Supervisors that 25 percent of all Seismic Safety Loan proceeds disbursed in the Program be paid by Borrowers to contractors who are MBEs and/or WBEs.

(4) — Duties. The Loan Committee shall perform the following duties:

(a) The Loan Committee shall meet on a monthly basis at times and places specified by the

SEC. 66A.22. ECONOMICALLY DISADVANTAGED HIRE REQUIREMENT.

(1) According to a program to be more fully described in the Program Regulations, in cases where the total principal amount of a Seismic Safety Loan is equal to or greater than $200,000, borrowers shall require that their contractors performing work financed in whole or part by a Seismic Safety Loan hire economically disadvantaged individuals to comprise no less than 25 percent of each contractor's total construction work force, measured in labor hours. For purposes of this Section
66A.22, an "economically disadvantaged individual" means an individual who earns no more than 50 percent of median income for the San Francisco Metropolitan Statistical Area, as determined by the United States Department of Housing and Urban Development from time to time. The Program Administrator will consult with a citywide consortium of tax-exempt nonprofit community-based employment agencies designated in the Program Regulations, to refer and place these economically disadvantaged persons.
